

## THE OFFICIAL COUNT

Of the Votes Cast in Ohio County on last Tuesday

WILL BE BEGUN THIS FORENOON.

But when it will end is a Conundrum. The Re-count of the Vote on the Legislative Ticket will be Demanded by Mr. O'Kane, and Much Interest is Felt in the Doubtful Outcome.

At 10 o'clock this morning the board of county commissioners will meet to make the official canvass of the votes cast in Ohio county at the election last Tuesday. The proceedings, unless a re-count is demanded, is to simply take the certificates returned by the officers of election at each precinct, estimate the totals and reseat the ballots as the law requires. Even this formality would occupy much time, necessarily, as there are fifty-four precincts to be examined for each of the candidates on the national, congressional, state, senatorial, county and district tickets.

To recount all the ballots is an undertaking from which the board might well shrink. It requires the separate examination of each ticket, and they will average nearly 250 in the fifty-four precincts, or aggregate about 12,000. This has to be done, however, as Mr. O'Kane, the one Democratic candidate for the house of delegates who was defeated has declared his intention to ask a re-count of the votes for the legislature.

The outcome of the recount will be watched with great interest. It is not known what construction the judges put on the law in counting, and there are rumors that some illegal ballots will be found. The chances for Republican gains are decidedly more promising than for Democratic advantage, because the Democrats had 104 to 58, and the advantage of the count may therefore be presumed to rest with them now. With a fair recount the Republicans certainly have little to fear. Such a thing is possible as counting out the second lowest Democratic candidate.

If any reason to hope for a change of the result for County Commissioner in Liberty district is found in the recount of the three precincts of that district, the Democracy will doubtless try to count Mr. Maxwell out and Mr. Alexander in.

## A PERMANENT CLUB

Talked of by the Young Republicans on a Good Plan.

It is proposed by members of the Young Men's Republican Escort Club and Tariff Champions to form a permanent Republican club, secure good quarters, and take in enough additional members to make the club the largest political organization in the county. Already the members have canvassed among those eligible to membership with encouraging results, and suitable rooms are in view. It is likely that a meeting will be held this week to effect a temporary organization, at which committees will be appointed to push the work.

It is desired to start off with three hundred members at least. The Champions and Escort club are the strongest organizations the party ever had in Ohio county, and under their enthusiastic management the scheme should go through to success without doubt or delay.

## NUMEROUS CASUALTIES

Of a Minor Character in and About the City Saturday.

An unprecedented number of accidents occurred Saturday, though none were fatal.

At Holliday's planing mill on the South Side, Frank Klinker was unfortunate enough to catch his left hand in a buzz saw, taking off three fingers.

William Hayes, a LaBelle puddler, was painfully injured by a heavy iron pulley falling on him.

Joe Beiswinger, a South Side butcher, was cut on the nose by a knife thrown at him.

Anthony Henry, a Fourth ward school boy, fell against the end of a water pipe, knocking him senseless.

At the Warwick pottery George Wilson fell onto a piece of crockery and received a number of ugly gashes on his right arm.

Walter Kuntz, a South Wetzel street youth, while walking on sitz fell and broke his right arm.

James Fulton, employed in the Benwood plate mills, was cut on the right knee by a piece of plate iron.

George Beisnauer, a Fulton butcher, was another victim in this train of accidents. With a cleaver he cut a finger off his right hand and gashed the back of the hand.

The Season Opened.

Last evening the Opera House orchestra gave at Arion hall its first public rehearsal for this season, and as heretofore these events will be repeated at fortnightly intervals through the winter. The opening last night was brilliant, the full orchestra, under the direction of Prof. E. W. Spiel, rendering in a most artistic manner the following attractive programme:

PART I.  
March—"Turner" from Der Goldfische. F. Roth.  
Overture—"Stradella" F. Flotow  
Waltz—"Accelerations" J. Strauss

PART II.  
Fantasia from "Martha" F. Flotow  
Tomb Raider—"The Blue Bell of Scotland" G. Langley  
Descriptive Piece—"The Tally Ho" (Illustrating the advance and passing of the Tally Ho) Charles Lorenberg

PART III.  
Metley—"The Last of the Hognans" M. Kohlmann  
Echoes from the Ballroom (for string instruments) A. Skellie  
Gala—"Hunting" A. Skellie

The attendance of active and honorary members and their families was large, and the audience enthusiastically welcomed the reopening of these popular musical gatherings.

The Doctors Are Gullible.  
Grave mistakes are made by physicians in treating heart disease. The rate of sudden deaths is daily increasing. Hundreds become victims of the ignorance of physicians in the treatment of this disease. One in four persons has a diseased heart. Shortness of breath, palpitation and fluttering, irregular pulse, choking sensation, asthmatic breathing, pain or tenderness in side, shoulder or arm, weak or hungry spells, are symptoms of heart disease. Dr. Miles' New Heart Cure is the only reliable remedy. Thousands testify to its wonderful cures. Books free. Sold by Logan Drug Co.

## THE WEEK OF PRAYER

For Young Men Inaugurated at the Y. M. C. A. Yesterday.

## MANY CHURCHES HAVE SERVICES

In Recognition of this Annual Institution—The Programme for the Week an Attractive One—Rev. Mr. Zimmerman Talks twice on Sunday. Rev. Dr. Riker's Views of Dancing.

Rev. A. H. Zimmerman, the evangelist who did such good work for the Young Men's Christian Association during the week of prayer a year ago, again opened up the services of the annual week of prayer for young men at the Y. M. C. A. yesterday afternoon, to a large gathering of young men. In the morning a consecration meeting was held. In the afternoon he spoke of personal purity, and dwelt on the various vices of young men, selecting his text from Galatians 7, 6:

"With good will doing service, as to the Lord and not to men."

He spoke of the numerous evils that are stalking about in the world, assailing young men, debauching communities and causing pangs of suffering in after life. Man can only be regenerated by righteousness, for over and above what you sow, so shall you reap. He illustrated his sermon with stories of young men whose lives had been destroyed by the sowing of flesh and not of the spirit, and he advised all to hold fast to the good through the spirit.

Mr. Zimmerman is a very earnest and powerful exhorter, commanding the closest attention throughout his discourse. Several young men signified their intention to give themselves up to Christ.

Last night he again addressed the young men in a special sermon at the First Presbyterian church, a large congregation being present.

Meetings will be held every afternoon and evening this week at the Y. M. C. A. hall. Bible reading will be given at 3:30 p. m. each day, to which ladies as well as men are invited. In the evening at 7:45 o'clock evangelistic services will be held for young men, except on Wednesday evening, when the services will be at 8:45.

Mr. Zimmerman will be present at all the meetings, and the public is invited to attend. On next Sunday morning he will preach at the Fourth Street M. E. church, and in the afternoon at the Y. M. C. A. hall, on "Darkest manhood, and the way out."

At the close of the special services of this week of prayer, a grand rally will be held of all the members on Tuesday, November 22, in the interest of the building improvement. State Secretary J. C. Sims and Rev. Mr. Zimmerman will both be present to assist in the exercises.

The vacancy caused by the resignation of Prof. H. S. Wingert, the physical director, who left to accept a similar position at the West Philadelphia branch association, has been filled by Mr. George H. Marshall, one of the active members, who will assume charge of all the classes of the gymnasium as arranged for the winter course.

Two teams of the members of the association have arranged to have a foot ball contest on the morning of Thanksgiving day at the Bridge company's park, on the Island. Practice games are played every Saturday afternoon at that place.

On Thanksgiving evening a reception will be held at the hall, to which all young men are invited. Interesting exercises and refreshments will be the features of the affair.

In the churches yesterday and last night the services were very generally arranged with a special bearing on the opening of the Week of Prayer, and all denominations will also unite next Sunday in the closing exercises.

## DR. RIKER ON DANCING.

The Second Discourse, in his Series on Worldly Amusements.

Rev. Dr. A. B. Riker, of the Fourth street M. E. church, last night delivered the second of his series of discourses on popular amusements, which he began the preceding Sunday evening, taking as his subject this time, "Dancing." A very large congregation heard Dr. Riker attentively throughout, and he evidently impressed his views on numbers of his hearers. On the two following Sunday evenings of November he will discourse on "Card Playing" November 20, and "The Theatre," November 27.

Dr. Riker made a most eloquent and very strong protest against dancing as an institution, which he says has no good results, and as an institution is rotten to the core, whose influence has dragged untold numbers to shame and degradation.

Numbers who indulge in this amusement, sometimes say their conscience does not trouble them about it. This is a misleading position. Conscience is not the deciding power that should govern your actions. If the dance as an institution is degrading and of no good influence, you should forsake it even though it should not harm you. Its appearance of innocence and harmlessness should be a warning of the claws that lie under those velvety paws.

He quoted from the positions of nearly all the Christian churches, showing that the dance as an institution is regarded as dangerous and evil. The dance is not acquired by hard study of the mind, but is the education of the feet, and its votary must of necessity be physically well built. It is not a thing to be proud of in itself, but its enjoyment comes from another cause. The dance originated among savages and pagans, and among them is a part of their religious observances. Among those peoples the opposite sexes do not dance together. Among civilized peoples, how is it? Those of the same sex never dance together. Here lies the great evil of dancing. It excites great physical intimacy among young men and young women, which should only exist between those whom wedlock has united. If man danced with man, and woman with woman, all objection to it would be gone. The intimacy of the dance endangers the purity of the dance, and that is the sole reason of the church's antagonism to it.

When we look at some of the statistics showing what fearful things this "amusement" has done, we are amazed. Three-fourths of the abandoned women of New York were followers of the dance. Criminal history is full of such statements. In the face of this we should never dance nor allow our daughters to dance.

The statement that the dance is an amusement is itself grotesque. In amusements there is laughter. In the dance there is none. There is no fun about it. On the contrary, it is hard work, and it is only the sensual attraction that draws its victims.

## THE RAINMAKERS

Arrive in Texas—Great Expectations from the Rosellite Power.

SAN ANTONIO, TEX., Nov. 12.—The government rainmakers under the leadership of General R. T. Dyrenforth, Professor John T. Ellis and Dr. C. A. Roselle, special agents of the agricultural department, will begin a series of experiments here next week. The steamer having on board forty tons of explosives to be used in the work arrived at Galveston from New York today, and will be immediately transported to this city. General Dyrenforth and a large corps of expert assistants arrived by the same steamer and will reach here to-morrow.

John W. Dickson, a prominent capitalist of Chicago, and John H. King, of Washington, D. C., arrived here to-day. They are both extensively interested in lands in South Dakota and Kansas and contributed \$10,000 to be expended here in the proposed experiments. They state that the Government appropriation of \$5,000 will also be used and an exhaustive test of the artificial rain production thoroughly made.

Among the equipments that will be utilized are several hundred balloons, mortars and various other implements for explosives. The Rosellite powder will be used, and it is said that it will give much better results than that used in the experiments a year ago. In addition to the corps from the agricultural department, a detachment of army officers and soldiers from Fort Sam Houston, in this city, will be detailed to assist in conducting the experiments.

## Financially Embarrassed.

A large manufacturer, whose affairs were very much embarrassed, and who was overworked and broken down with nervous exhaustion, went to a celebrated specialist. He was told that the only thing needed was to be relieved of care and worry, and have a change of thought. This doctor was more considerate of his patient's health than of his financial circumstances. He ought to have advised him to use Dr. Miles' Restorative Nervine, the best remedy for nervous prostration, sleeplessness, dizziness, headache, ill effects of spirits, tobacco, coffee, opium, etc. Thousands testify to cures.
