

INTERESTING RELICS

Found in the Mound now Being Demolished at Martin's Ferry.

THEY WERE GIANTS IN THOSE DAYS

If one May Judge from the Skulls that were Taken out of the Tumulus—A Slow Job, but the Tedious Work Well Rewarded by the Discoveries Made as it Progresses.

The work of removing the mound in Walnut Grove, at Martin's Ferry, goes on slowly, owing to the care exercised that none of the interesting relics to be found in it may be lost.

Probably the most interesting article taken from the mound is a huge skull, which would seem to indicate that in

the days of the mound builders there were giants abroad. This skull is at least twice as large as the normal average of this day. It is on exhibition in the window at the postoffice news stand.

In the collection of relics exhibited in the same place are two cup-like stones, which have been supposed to be cups made by the ancient inhabitants.

These and other relics are shown in the picture herewith given. Whether these were made by man or are stones in the process of formation, the outer shell only having become petrified, it would take an expert to decide.

Some of the spear heads and hatchets found at Martin's Ferry are as perfect as any ever found anywhere. Bones are found in every part of the mound, bearing out the theory that such

mounds were simply cemeteries, instead of the graves and monuments at once of great chiefs. Several corpses have certainly been buried in this mound.

The finding of curious precious stones is worthy of special remark. What seem to be opals, emeralds and crystals nearly like diamonds have been taken from the mound. Learned savants have held that no proof is complete, from the articles found at Moundsville, that mound builders were Croaticans or Phoenicians, or both.

BY A WHEELING FIRM.

The Novel Idea Adopted by House & Hermann at Cleveland.

Previous announcements having been made of the spring opening last night at House & Hermann's, 175 Ontario street, a large concourse of people gathered to inspect the enormous stock of furniture, carpets, oil cloths, stoves, queensware, etc.

A condition upon which Mr. W. A. Bestor and Miss Blanche Wilkes were to be married in the firm's window was that everything with which to furnish a house were to be presented to them by House & Hermann, and in this case it means a valuable present, inasmuch as the house to be furnished was good sized.

Aside from the fact that Mr. McArdle, the manager, had arranged to work in a little merriment with the opening programme, he distributed handsome souvenirs to all, as well as a ticket which entitled the holder to a chance towards securing a new \$15 sewing machine.

The famous Great Western band was stationed at an appropriate point and rendered music such as only they can do. Thousands were pleased at the entertainment and many were the expressions of praise at the hand-

some display of all kinds of furniture, carpets, shades, curtains, oil cloths, chinaware, stoves, lamps, rugs, etc., for which this house is headquarters.

JOHN RICHARDSON, secretary of the Elks, yesterday received a very high compliment from the Grand Lodge of that order, in the form of a beautiful set of resolutions printed on satin, for his promptness in forwarding his lodge's list of members for the Elks' annual. There were only ten copies given out in the country, John standing sixth on the list. The souvenir is a work of art, and was designed by Col. J. F. Rake, of Reading, Pa., in a big competition by the leading artists of the country. The trophy will be handsomely framed and hung in the lodge rooms.

The Largest Photograph Yet.

Friday night, in Pittsburgh, Dana, the famous New York photographer, will make the largest photograph ever attempted, as a prize picture for exhibition at the Columbian Exposition. His model will be Miss Madge Wagner, a ballerina in Charles H. Yale's romantic spectacle, "The Devil's Auction," which plays an engagement of one evening at the Wheeling Opera House Monday night. Miss Wagner in the play first appears in the dance of the pierrots and pierrettes, dressed in male costume of white satin and wearing a clown's peaked hat. She will be photographed in this costume. It is Mr. Dana's intention to make the largest head plate ever made. Several sittings may be required.

The Frohman company which appeared here last night in "Gloriana," goes almost directly to Chicago, where an entirely new play will be put on at the Haymarket.

THE CITY HALL PARK.

A Meeting of the County and City Committees last Night.

THE ARRANGEMENT OF THE SQUARE

The North and South Ends will be Uniform in Design—Plenty of Trees, Shrubbery and Grass will be Planted in Place of the Blank Flagstone Pavement which now Covers the Plaza.

A meeting of the City Council committee on real estate, in conjunction with the County Commissioners' committee on court house and jail, was called for last night, but a quorum was not obtained. The business on hands was the plan for planting trees about the Public Building, and otherwise beautifying the square.

Though nothing could be done, owing to the lack of a quorum, the members who were present had a long and interesting conversation on the subject, and Mr. A. T. Hupp, of the Council committee, presented a plan for the uniform ornamentation of the square.

Owing to the presence of the Elm Grove railroad track south of the City Hall, the plan has to be somewhat varied from that adopted by the county for the north end, but this will not materially interfere with the harmony of the whole. It will not be possible to put a row of trees close to the curb line on the Sixteenth street side, nor can a strip of grass be placed next the street, owing to the running of trains there. For this reason the pavement next the street will be allowed to remain, and the trees will be planted inside of this.

Broad walks of stone will lead from both corners of Sixteenth street to the steps at the south end of City Hall, and between will be two triangles of grass, with shrubbery and trees. It is desired to get the trees planted before the season is too far advanced.

It was finally decided to secure the services of somebody who is an expert in such matters to draw up a formal plan of the arrangement of the square.

SUCCESSFUL REVOLUTION.

The Insurrectionists of Honduras Enter Tegucigalpa—Bonilla Declared Provisional President.

PANAMA, COLOMBIA, April 5.—News of the signal defeat of the government near Tegucigalpa, Honduras, was received in this city last night by mail.

This report was confirmed in advices brought later by the officers of the steamer Barracouta, who added the information that the revolutionists had finally triumphed and that Bonilla had been proclaimed provisional president of the republic. This news reached here from Managua, Nicaragua, which is a hot bed of sympathizers of the revolutionists and it is therefore given with all due reserve.

Gen. Torroncia Sirria led the advance upon the government position commanded by General Vasquez. The revolutionary troops broke through the government lines in the centre, cutting the defending army into forces, and they were completely routed and fled in all directions. The revolutionary loss was great. Bonilla's victorious soldiers slaughtered the fugitives without mercy.

It is said that many of the government soldiers who escaped from the vengeance of Bonilla's victorious troops went through the Los Angeles valley, where they committed many atrocities. Houses were pillaged, men robbed and women assaulted. Many of the crimes reported to have been committed are almost too revolting to be believed.

After the great victory over Gen. Vasquez, Bonilla marched at the head of his victorious army into Tegucigalpa. He accepted the office of provisional president and at once took charge of the government.

Huntington Notes.

Special Dispatch to the Intelligencer. HUNTINGTON, W. VA., April 5.—This morning David Roberts, a well known young man about town, fell on the street while talking to a number of friends and expired in a few minutes. An investigation by physicians showed that death was due to apoplexy. Roberts was thirty-two years of age.

This evening Monroe Tinsley, a young man, had just stepped out of a saloon when he suddenly fell to the pavement in a fit, and for a time his life was despaired of.

A TERRIBLE TRAGEDY.

Sensational Double Murder Growing Out of a Case of Betrayal—A Forced Marriage With a Dramatic Sequel.

LOUISVILLE, Ky., April 5.—A special from Morganfield, Ky., says: There was a highly sensational affair in this county last night and this morning. Miss Abbie Oliver, of Sturgis, Union county, the beautiful young daughter of Mr. and Mrs. Taylor, was ruined about eight months ago. Henry Delaney, a young drug clerk of Sturgis, was charged with causing her downfall. He denied it, and both parties sought legal advice, but no proceedings were had in court.

Last night about 9 o'clock the mother of the girl entered Delaney's place of business in Sturgis and at the point of her pistol forced him to accompany her to a carriage outside in which her husband and daughter were seated. The four drove to Morganfield, a distance of fifteen miles, and at 3 o'clock a license was secured and the couple married. The party started home, but when at Teerhill about three miles from Morganfield, four armed men on horseback surrounded the carriage and began shooting. After the first shot Delaney jumped out of the vehicle and ran to the attacking party who were supposed to be his friends and the firing continued.

Miss Oliver was shot through the head and her father in the face and right arm. Mrs. Oliver alone escaped without a wound. She ran at full speed for a mile down the road and turned in at a farm house. The attacking party followed, shooting at every opportunity. The girl, who would have given birth to a child soon, was fatally wounded, and died at 5 o'clock this morning. Mr. Oliver is fatally wounded. Mrs. Oliver recognized the party and warrants for four prominent young men are being issued. The families are of high standing and sympathy is with the Oliveres. Mobbing is feared.

CARTER HARRISON'S ELECTION.

He Promises to Disappoint His Opponents. The City Council Republican.

CHICAGO, April 5.—To-day's returns from the city election were all laurel leaves for Carter Harrison. The figures, which are now practically complete, do not give the slightest ray of hope to the opponents. Beyond all doubt he is chosen World's Fair mayor of Chicago, and it only remains to be seen whether the city as alleged will become a seven-times-heated-hell during the great exposition. Mr. Harrison intimates very plainly that it won't. He says that he will falsify the predictions of his enemies, adding:

"I will show them that in my administration of civic affairs I can be guided by the best interests of the public and that other considerations will have no influence with me. My first and best efforts will be for the general good of the city."

The latest compilation of Harrison's plurality over Allerton, the citizens' and Republican candidate is 18,471. It is not likely that this result will be materially altered. Harrison led his ticket, but the other leading Democratic candidates are all elected by substantial majorities. The new city council is Republican, and this is pointed to as indicating that the "working" Republicans were lukewarm in the fight for Allerton. The suburbs of Rogers Park and West Ridge voted to merge themselves into the robust and radiant whole of Chicago.

REPUBLICAN VICTORIES

Once More in Kansas—The Women Largely in Favor of the Party.

TOPEKA, Kas., April 4.—The result of the municipal elections in Kansas yesterday shows that universal suffrage has received a great impetus. The women polled a large vote. But whether the result yesterday will lead to the adoption of the constitutional amendment extending equal suffrage to all elective offices in the state at the next election is a problem as yet unsolved. Though it was the avowed intention of the women to not favor any one political candidate, their only apparent desire being to cast as many votes as possible, the returns from a majority of the cities of the state show that they cast more votes for the Republican candidates than for those of the other party. This may cause both Democrats and Populists to antagonize the movement.

The election indicates very little, so far as the standing of the various political parties are concerned, for the Populists have never polled a large vote in the cities. Returns from 41 cities in the state show that the Republicans won in 35, the Populists in 4, the Temperance in 4, and the straightout Democrats were victorious only at Salina.

National Forces Routed.

VALPARAISO, April 5.—A correspondent in Artigas telegraphs that the revolutionists under Gen. Tavaraz fought and routed the national forces sent from Rio to aid the Castillista troops. In the battle it is estimated 600 on both sides were killed.
