WHEELING, MAY 6, 1893.

It is a Go.

When everybody is agreed there is no trouble to succeed. This is the present condition of Wheeling's Columbian Fourth of July.

It would be strange if it were otherwise. It is the right thing at the right time. Fourth of July comes every year, but this is the year of the Columbian demonstration and the two will fit together gloriously.

The start can be made through the chamber of commerce better than in any other way. That body will invite all other bodies to take hold, the work will be undertaken, systematized, and the end will crown it grandly.

The Case of Carlyle Harris. Carlyle Harris will be put to death according to the forms of law. Beyond question he had a fair trial.

Harris cannot complain that any unfair advantage has been taken of him. His guilt was established to the satisfaction of a jury. The supreme court saw no error in his trial.

Notwithstanding all this Harris may be innocent; in which case it is a poor satisfaction to him to know that he goes to his death in strict conformity with law.

Woman at the Fair. First the rain, the deluge of woman's tears in Jackson Park. All because the president of the "lady managers" threatened to resign because she had been accused of monopolizing the noble company of the duchess of Veragua.

The real cause, as intimated by Mrs. Potter Palmer, lies back of the Veragua visit. The social status of the "lady managers" is not of equal level, and this made heart-burnings, jealousies and resentments.

It is a wonder that there has not been more of an outbreak than this and sooner. For months there has been a smoldering fire in the women's board. Possibly the tears have put it out.

Not a Square Deal. It is the deliberately expressed opinion of the Pittsburgh Dispatch that "when a man is lynched for alleged horse stealing by Kentuckians, one can hardly believe that it is really four hundred years since civilization and Christianity dawned upon this hemisphere."

Meeting of the Chamber of Commerce. The chamber of commerce will meet at 8 o'clock this afternoon to consider what may be done to induce the Baltimore & Ohio to the schedule about to go into effect, and which hits Wheeling the wrong way going and coming.

and Wheeling has seen something of the chamber's power for good when it gets started.

"More'n They Kin Chaw." Already we hear prophecies of a general smash-up among men who have paid staggering prices for the privilege of catering to the wants of visitors at the World's Fair.

The crowds will be there, but they are not crowding yet. Most of the people prefer to see the completed fair, although there is now more to be seen than could be seen intelligently in a year.

More than this, many of the visitors are taking their lunches to the fair, and the food purveyors look on in despair.

People don't have to have roast beef for lunch, and if they want pie it doesn't bother them much to carry a sufficient supply with them.

To Develop West Virginia. The Baltimore & Ohio has issued through its land and immigration bureau some reading matter in which West Virginians are interested.

An illustrated pamphlet in German tells of the inducements to settlers and capitalists in West Virginia, Virginia and Maryland.

The Baltimore & Ohio in these days is alive to the development of West Virginia. The publications may be had by addressing M. V. Richards, land and immigration agent, Baltimore & Ohio, Baltimore.

"ON WHEELS OF FIRE" will be the INTELLIGENCER's next serial. It will be about as long as "The White Gipsy," which has proved so interesting and which ends to-day.

PRESIDENT QUARRELS, upon up the chamber of commerce batteries and let the Columbian Fourth of July far begin to fly. We are all in for a big time.

WHEELING must get her eagle out for the Fourth of July. Being out that noble bird will want to soar and scream.

PERSONAL POINTS. Dr. William Henry Howell, of Harvard university, who has been a professor in the University of Michigan, has been called to Johns Hopkins university, his alma mater, as professor of biology to succeed Dr. H. Nowell Marten, who recently resigned.

Dr. Oliver Wendell Holmes was the guest of the English club of Harvard Annex at Fay house a few days ago. About 200 guests were present. The poet made some characteristically witty remarks, and afterward read his poem, "Dorothy Q."

John Oliver Hobbes, who has lately jumped into a literary reputation in London, is to her friends Mrs. Craigie, a young woman who began her professional career three or four years ago as an art critic.

Mrs. P. T. Barnum, widow of the famous showman, is at Hot Springs, N. C. Last spring she was removed from her home in an ambulance and placed in a special car. Her health has greatly improved.

In the present publication of the Imperial Geographical Society of Russia, says the New York Tribune, is the surprising announcement that the Chewas—a race of 7,000 people—in the department of Trout, government of Tiflis, know nothing of the use of money as a medium of exchange. SPRING.

When all the rain has fell, When winter's went away, When buds begin to swell, And spring has come to stay.

We'll hum along quite well, When all the rain has fell, When all the rain has fell, When all the rain has fell.

When all the rain has fell, And those cold winds has gone, And folks has come to sell, And flowers grows on the lawn, I tell you we'll get up and yell, When all the rain has fell.

Greatly surprised. My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort, gave Chamberlain's Pain Balm a trial.

THE WORLD'S FAIR.

Germany came to the fore most creditably in the inaugural exercises of the World's Fair. Her imperial commissioner and the members of his staff did honor to the event by appearing in their full uniforms; and the equally creditable fact was noticeable that the German exhibit in machinery hall was far in advance of that of other nations in the matter of preparation for the opening day.

The World has all along contended for Sunday opening, not alone as a matter of justice to the hundreds of thousands who can only, or at least most conveniently, visit the grounds on Sunday, but as a means of promoting morality and good order on that day.

The Chicago fair needs an average of 200,000 paid admissions a day to meet the expectations of the hotel and boardinghouse keepers and provide the fair with sufficient revenue.

About \$50,000 of the World's Fair money has been invested in a statue of Columbus, which has been erected on the lake front.

The exhibition at the World's Fair by the Pennsylvania company of a modern Pullman train, day coach, track-inspection car and Baldwin locomotive in connection with the famous John Bull train will give the "oldest inhabitant" an idea of the progressive times in which he has been living.
