

INJUNCTIONS GRANTED

Against the sale of the Little Kanawha Lumber Company's Property—A Move in the Interests of Creditors. Special Dispatch to the Intelligence. PARKERSBURG, W. VA., July 24.—The receivers of the Little Kanawha Lumber Company, through their attorneys, Yanwinkle and Ambler, obtained in the United States circuit court injunctions against the selling of the property of the Little Kanawha Lumber Company in eighty-eight suits, brought in Wyoming, Logan and other counties. The injunctions are to prevent the sale of any property, and it directs the receivers to take charge of the property, and further directs that the injunctions shall stand until the court, by its receivers, can settle in due course the claims against the company, but saving the right of claims. The object of this is to prevent sacrifices of logs and merchandise belonging to the company by numerous creditors jumping on and selling the property here and there, and so that this matter can be disposed of to the best advantage of all. The move is in the interest of all the creditors, and to prevent the selling of the property away from the market at a sacrifice and in small lots. Capt. Mehan left today armed with eighty-eight injunctions to serve on the creditors included in the above order. Judge Jackson made this important order Saturday. It is said the affairs of the company are being straightened up and that the company will come out all right.

WANTS HIS SHARE.

The Brother of the Duke of Veragua Asks to be Considered. MADRID, July 24.—The representative in this city of the Associated Press to-day had an interview with the Marquis De Barbotos, brother of the duke of Veragua, in regard to the proposition that has been made in the United States to collect a fund for the benefit of the duke, who had lost much, if not all his fortune, in bad business investments and through going security for friends. The marquis, while expressing himself in favor of the proposal to raise a fund, said he regretted that the subscription was intended only for the benefit of the duke. The marquis declared that he, equally with his brother, was a descendant of Columbus. He had spent a large sum of money during his recent visit in company with his brother to the United States, and as a matter of fact he was poorer than the duke of Veragua, who is the head of the family. The marquis thought he should be considered in the matter, and said that he intended to write to friends in the United States, telling them all the facts. He expressed the hope that the organizers of the fund would see to it that he was given a third or a quarter of whatever sum might be collected.
