

WOMAN'S WORLD.

Matters of Interest to the Intelligent's Feminine Friends.

FASHIONS, FADS AND FANCIES.

Things that Will Interest Old and Young, the Society Belle and the Housewife—Recipes for Seasonable Dishes—Hints of Fashions and Novelties.

Nothing so stimulates to better work like appreciation, says the Philadelphia Times. People may feel just as much, but if they do not express it once in a while the hearts around them grow weary waiting for the mood of praise that is their due...

Many a naturally generous nature has become calloused and hardened by never being met by any demonstration that would show that well meant acts and words had found a goal where they were gladly received.

We are all full of travelers on the journey of life. It is a hard journey at the best, and why should we try to repress our feelings and keep back words of appreciation when we know how much good they would do to those who are serving for us?

Remember, there comes a time when it does no good to murmur kindly encouragement. The heart that would once respond with pleased eagerness to the note of love will lie cold and motionless beneath the frame that broke down trying to bear life's burdens all alone.

Furniture Etiquette.

Among the Germans of the more comfortable class, who live from generation to generation in the same house, every piece of furniture has its own history and makes its own associations.

The Girl Bachelor.

The term "girl bachelor" is a new coinage seemingly destined to take the place of the worn-out "old maid," which has long since lost its sting, if indeed it ever had any.

Black Evening Gown.

A black evening gown is indispensable to a well regulated wardrobe. This gown can be made of tulle silk or crepe, and with the coarse Brussels net is most effective.

Banana Blanc Meringue.

Into a quart of boiling milk stir four tablespoonfuls of corn starch wet with a little milk, and a quarter of a cupful of sugar.

A Novel Birthday Reminder.

Speaking of girls reminds me of a very pretty novelty in birthday presents which has come into vogue quite recently. In the case that came under my notice a young man, engaged to be married, visited the residence of his fiancée the night before her birthday and left with one of her servants a large pasteboard box, together with minute instructions as to its disposal.

When the young miss entered her bath a few minutes later for her morning plunge, she found the tub wreathed at the top with American Beauty roses, every vestige of thorns having been removed from the stems by the same

faithful hands which decorated her couch while she dreamed of the happy days to come.

Roasted Cheese.

Grate three ounces of rich cheese, mix with the yolks of two eggs, four ounces of grated bread, three ounces of butter; beat all together well in a mortar, with a dash of mustard, and add a little pepper and salt.

About Sleeping.

Sunlight is good for everything but feathers. The best number of persons to each bed is one.

Always with heavy hangings, either above or below the bed. Beware of a dusty, musty carpet, better sweetness and a bare floor.

Do not fail to provide some means of ventilation during the night. Keep the head cool while sleeping, but not by a draught of cold air falling upon it.

If a folding bed must be used contrive some way to keep it aired and wholesome. Let the pillow be high enough to bring the head in a natural position—no more nor less.

Thoroughly air the sleeping room every day; air the beds and bedding as often as possible.

A dark, out-of-the-way, unwholesome corner is no more fitted for a sleeping room than for a parlor.

A feather bed which has done service for a generation or two is hardly a desirable thing upon which to sleep.

Scalloped Potatoes.

Butter the bottom and sides of a dish. Put a layer of cold boiled potatoes, sliced, season with pepper, salt and small pieces of butter and dust with flour. Put in another layer of potatoes in the same way, and when the dish is filled cover the top with a layer of cracker crumbs half an inch thick.

Pour a cup of cream over the whole and bake in a moderate oven for half an hour. This may be varied by the use of a seasoning of finely chopped celery or parsley.

Some Points About Lace.

All real lace is hand made lace, and is easily detected from the machine-woven imitation, because the meshes in the genuine are apt to be irregular, while the other is uniform in weave.

The net of the lace is called by lacemakers the reason; the pattern is the fleur; and it is in the shape of these meshes that lace distinctions appear. The square or diamond shaped mesh is used in Valenciennes, the six-sided mesh in point d'Alecon, and Chantilly and point de Paris laces have an odd mesh of four-sided big holes, with triangular holes between.

Now the chief difference between the yellow and needle laces—for real laces are made in but two ways, one with the pins and bobbins, the other with the needle—is in the way the fleur or pattern is worked on the net. Needle lace has a distinctiveness of outline in the fleur, because the pattern is outlined by running a thread in and out of the meshes of the reason. If the outline is to be very much in relief, as in point d'Alecon, the most beautiful of all needle laces, the outline is corded in with horsehair, and then the pattern made by filling in the outlines with a rich and heavy effect like embroidery.

Banana Shortcake.

Cream one-half cup butter, one cup of sugar, stir in one beaten egg, half a cup of milk, two cups of flour and two teaspoonfuls of baking powder. Bake in round or oblong tin. Over one cake spread a pint of whipped cream. Sweeten to taste, into which has been stirred one large banana sliced thin. Lay the other over it and serve very hot.

Mermaid of Orkney.

News has reached Kirkwall, says the Scotsman, that the mermaid has again made her appearance at Doerness, Orkney. The creature has arrived at the same place now many years in succession, where it remains all summer, disappearing in the winter, and returning again in fine weather. Last year a large sum of money was offered for its capture, and sportsmen tried to kill it. As it struck out to sea immediately it was fired at, and was never seen again till now, it was thought it had been wounded or killed. Naturalists who have got a full description of the "mermaid" think it is an ocean seal, but the people of Doerness, who have watched it closely for years, say it has few if any of the seal's habits, and maintain it swims like a human being. At the present time it may be observed daily, being very partial to bright sunshine, but it rarely appears on dull days.

Rhubarb Fudding.

Skin the stalks and cut in slices about half an inch long. Butter a pudding dish and lay in it enough slices of bread and butter to cover the bottom. Put in a layer of cut rhubarb. Sprinkle thickly with sugar. Alternate layers of bread and rhubarb until the dish is full. Cover and steam for half an hour. Remove the cover and put in the oven until brown. Serve with hot sauce.

Flowers and Vases.

The decorative properties of a handsome vase are by no means to be despised. But all flowers do not show to advantage in vases. Others almost require them. Take roses. You cannot find a vase too gorgeous or too fine for them. They can be put even in the ponderous jars that stand shoulder high on the floor.

But if you have only a few roses it is well to discriminate. You often have a dozen or so, and you are in the habit of putting them all together in the prettiest vase. But does not the doing this often almost cause you pain?

One rose is so sadly crushed by the operation. Another has its prettiest side turned away. A third has to part with some of its leaves, maybe. And to-morrow all will wilt together. It is a disappointing pity.

But try this way. Take the very best rose in the lot and put it in a vase by itself. If you have not one, narrow-necked rose vase get one when you can. A dollar will buy two small Japanese ones of that kind. A rose is far too fine to hide its beauty and fragrance under a bushel of others.

Very long-stemmed "Jack" roses and American Beauties may be bunched. Their stems are long enough to allow each rose to rear its head proudly aloft to be admired by itself. Round cut-glass rose jars come in for holding a bunch of roses. They can be bought for from thirty-five cents for the small, common glass ones to as many dollars for the big ones in cut glass.

Children Cry for Pitcher's Castoria.

SUPPRESSING THE TRUTH.

Italian Government and Papers Suppressing the Fact of the Existence of Cholera.

LONDON, July 26.—With reference to the report of the presence of cholera in Naples and the statement of the Associated Press that nothing had been ascertained upon inquiry to justify it in asserting that Cholera was present in that city, the London agent of the Associated Press has received a letter from his representative in Rome saying that he telegraphed to London Saturday last the fact that the officials in Naples had reported four cases of the disease as having occurred there during the early part of last week. This telegram never was delivered and there is no doubt that it was suppressed. The letter adds that neither the Naples or Rome newspapers make mention of cholera anywhere in Italy, though the Associated Press advices show that it does prevail at Alexandria and other places in Piedmont. It further says that choleric disorders prevail at Cuneo, capital of the province by that name, as usual. Pilgrimages have been prohibited and cordons of troops have been established to enforce the prohibition.

Cholera in Senegambia.

PARIS, July 26.—A dispatch has been received here stating that cholera has broken out in St. Louis, Senegal, capital of the French possessions in Senegambia. The deaths have already reached an average of fifty daily. A genuine panic prevails among the inhabitants. The disease is spreading among the European residents, three of whom are numbered among those who have died.

NOT ALLOWED TO LAND.

Seven Chinamen Who Must Prove That They Are Entitled to Entry.

NEW YORK, July 26.—Seven Chinamen reached here on the steamship Seneca from Havana yesterday, and Deputy Collector John H. Gunner went down to the steamer to investigate the case. He made a careful examination of their passports and certificates and decided to allow them to land. Just as they were about to do so, J. Thomas Schiari presented himself and refused to allow them to land on the grounds that the interpreter, Lee Foy, was engaged in smuggling Chinese into this port, and he not being under oath, his services were useless; that there was no proof that the Chinamen, who said that they were students, told the truth; that the men should be required to give bond that they were entitled to land; that their passports were irregular, and that in general the proper proceedings had been omitted. The Chinamen are still on the vessel, pending the settlement of the case.

GREAT DESTRUCTION

Of Life and Property by a Powder Explosion in China.

SAN FRANCISCO, July 26.—Advice from Hong Kong give details of a terrific powder explosion at the government powder magazine at Canton, June 24, which killed many, injured over three hundred people and wrecked four hundred houses in Sam Uni district in which the magazine stands. Every village in the neighborhood was completely wrecked, and in a village on the opposite side of the stream which divided it from the factory several hundred houses were shattered. The total number of houses destroyed is approximated at 400, and although no idea has been formed of the loss of life it must be considerable.

England Not So Hopeful.

OTTAWA, Ont., July 26.—The latest advices received here from Sir John Thompson brings the information that the British are not so hopeful of winning the Bering case as they were a short time ago. It is also thought here that the attitude of the British government in connection with the Bismarck difficulties may tend to injure their case before the arbitration board.

Hoke Smith's War on the Pensioners.

WASHINGTON, D. C., July 26.—The total number of pensioners under the act of June 27, 1890, who have been notified since the incoming of the present administration that the payment of their pensions have been suspended is approximately 5,250. If the same ratio is maintained throughout the entire list about 75,000 will have been suspended.

Headache and Dyspepsia.

William E. Rockwell, No. 612 West Fifty-seventh street, New York, says: "I have been a martyr to bilious headache and dyspepsia. Any indigestion, flat, overfatigue or cold, brings on a fit of indigestion, followed by a headache lasting two or three days at a time. I think I must have tried over twenty different remedies, which were recommended as certain cures by loving friends, but it was no use. At last I thought I would take a simple course of purgation with BRANDRETT'S PILLS. For the first week I took two pills every night, then one pill for thirty nights; in that time I gained three pounds in weight, and never have had an ache or a pain since."

Disease in one part of the body will eventually fill the whole body with disease. Every year or two some part of the system grows weak and begins to decay. Such part should be removed at once, and new matter be allowed to take its place. There's no need of cutting it out with a surgeon's scalpel. Purge away the old, diseased and worn-out parts with BRANDRETT'S PILLS.

Ohio River Railroad Sunday Excursions.

Sunday excursion tickets now on sale to Woodland, Franklin, New Martinsville, Slaterville and Long Reach.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. Its success is almost wonderful, as your druggist will tell you. Otto's Cure is now sold in every town and village on this continent. Samples free. Large bottles 50c.

QUIET AT INDIANAPOLIS.

Sensible Course of Depositors Prevents Further Financial Trouble.

INDIANAPOLIS, IND., July 26.—There were no disturbing scenes at any of the Indianapolis banks to-day and business wore its usual aspect. The determination expressed yesterday by the business community to proceed calmly is evidently in permanent force. There was nothing unusual in demeanor of the people about the banks and other business centers. The expression most frequently heard was that Indianapolis had no cause for alarm. The banks have been hoarding gold for six months and all conservative citizens are operating with them to preserve a normal state in the financial situation. Bank Examiner Young arrived in the city to-day. He went to the Indianapolis National Bank and took possession, in accordance with the instructions from Washington.

John W. Ray, of the Bank of Commerce, says that bank will make no assignment, but that on contrary it will resume business.

It is believed that this bank has made substantial arrangements for aid.

TO SHIP THEM EAST.

Destitute Colorado Workmen to be Sent East at Public Expense.

DENVER, COLO., July 26.—The committee which was appointed last night at the meeting of the officials from the state, county, city and various charity organizations, to devise means for taking care of unemployed in this city, met in executive session last night.

Although the proceedings were secret, it is said on good authority that the idea which was abandoned Monday night of sending the destitute to their friends in the east, was last night revived and decided upon as the best course. It is understood that a \$5 rate has been made over all the railroads from here to Chicago or intermediate points, and the unemployed will be transported as far as possible. In the meantime they will be cared for by the different charity organizations.

LOUISVILLE BANKS.

No Uneasiness—The Feeling of Confidence Restored.

LOUISVILLE, Ky., July 26.—All of the banks opened promptly at 9 o'clock this morning and proceeded with their business as if nothing had happened to disturb the financial affairs of the community. Except for the crowds there was no indication that business was not as serene and quiet as it ever was. At the start every depositor who wanted his money got it without a word and while there were a number of them who drew out their balances there was not what might be called a run. Depositors did not stand in line waiting their turns at the paying teller's window, but those of them who drew out their cash did it quietly and in much the same manner as they would at any other time. Those who had smaller amounts than their credits seemed most anxious to get their money and none of the large depositors seemed worried in the least by the presence of the crowds.

Milwaukee Flurry at an End.

MILWAUKEE, Wis., July 26.—The bank panic in this city is over. To-day there is not the slightest tendency toward a run on any of the local banks. The crowds that have surrounded the various banking institutions from morning to night the past week have dispersed and business at the paying teller's window has resumed its normal condition. The men in charge of the affairs of the several failed banks are engaged in preparing statements, but none will be completed for several days.

Land Agency Falls.

DALLAS, TEXAS, July 26.—The land loan and collecting agency of Murphy and Bolans has made a general assignment. E. S. Loughborough was named as the assignee. The cause given is the stringency in the money market and failure of the banks and eastern correspondents to carry their paper. No schedule of assets or liabilities been filed, but as firm did an enormous business the chances that liabilities will reach \$500,000 and assets fully that sum.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

WORLD'S COLUMBIAN EXPOSITION.

Excursion to Chicago via Ohio River Railroad.

On and after this date, until October 31, the Ohio River railroad will sell tickets to Chicago and return, on account of the World's Columbian Exposition, at greatly reduced rates. Tickets will be good for continuous passage in either direction with final limit for return passage November 5, 1893. For rates of fare, time of train and other information, inquire of ticket agents, Ohio River railroad, or write W. J. Robinson, general passenger agent, Parkersburg, W. Va.

It Should Be in Every House.

J. B. Wilson, 371 Clay St., Sharpsburg, Pa., says he will not be without Dr. King's New Discovery for Consumption, Coughs and Colds, that it cured his wife who was threatened with Pneumonia after an attack of "La Grippe," when various other remedies and several physicians had done her no good. Robert Barber, of Cooksport, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for Lung Trouble. Nothing like it. Try it. Free trial bottles at Logan Drug Co's Drug Store. Large bottles, 50c. and \$1.

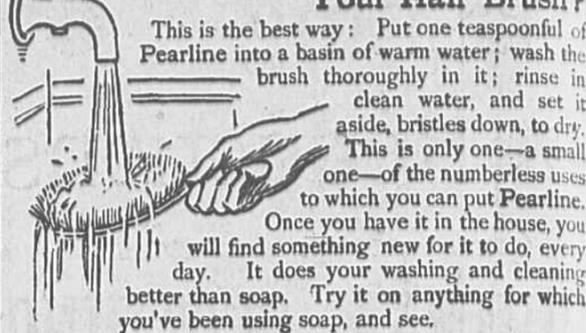

YOUNG MOTHERS

We offer you a remedy which if used as directed, insures safety to life of both mother and child.

"MOTHERS FRIEND"

Robe confinement of its PAIN, HORROR and RISK, as many testify. "My wife used only two bottles of Mothers Friend, she was cured and quickly relieved. It is now doing splendidly." J. S. Morrow, Harlow, N. C. Sent by express, charges prepaid, on receipt of price, \$1.50 per bottle. Sold by all druggists. Book To Mothers mailed free. BRADFORD REGULATOR Co., Atlanta, Ga.

Do You Ever Wash Your Hair Brush?

This is the best way: Put one teaspoonful of Pearlina into a basin of warm water; wash the brush thoroughly in it; rinse in clean water, and set it aside, bristles down, to dry. This is only one—a small one—of the numberless uses to which you can put Pearlina. Once you have it in the house, you will find something new for it to do, every day. It does your washing and cleaning better than soap. Try it on anything for which you've been using soap, and see.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearlina." IT'S FALSE—Pearlina is never peddled, if your grocer sends you an imitation, be honest—send it back. JAMES PVLE, New York.

CASTORIA

for Infants and Children.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARONSON, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it needs no recommendation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTIN, D. D., New York City. Late Pastor Bloomingdale Reformed Church.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results." EDWIN F. PARDEE, M. D., "The Winthrop," 121st Street and 7th Ave., New York City.

THE CASTORIA COMPANY, 27 MURRAY STREET, NEW YORK.
