A MEETING of the Council committee on scales has been called for this evening.

This is Wheeling day at the State Fair and business will be very generally suspended after noon.

FOURTEENTH street from Main to Water was dug up yesterday for the underground telephone wires.

A few more decorations were put out about town yesterday, but they are not as general as they should be yet.

THERE was a complete whitewash in the police court yesterday morning, which indicates pretty good order about town for fair week.

WILLIAM SCOTT was locked up yesterday on a charge of disorderly conduct, by Officer Watson. He was raising a row in a Water street saloon.

THE ditch for the new thirty-inch water main to the reservoir has been finished on Seventh street as far as Market.

IT is officially announced that the puddling department of the LaBelle mill will resume work Monday. This will give employment to a large number of men.

LAST night the hotels were packed full of people, mainly West Virginians, who came to take in the State Fair. A list of the people registered at the different houses would somewhat resemble a state directory.

A SUGGESTION has been made that a kindergarten school would pay on the Island. Now that Wheeling is to have one finely equipped school of this kind, it is probable that, if the first succeeds, a second one on the Garden Spot would prove very popular.

THE MURDERED OFFICER.

His Funeral Yesterday Largely Attended.
Relief of His Family.

The very large number of people who attended the funeral of Officer George Murphy at Martin's Ferry yesterday, showed the high respect in which he was held by his fellow-citizens. The business houses all over town and the public schools were closed by request of the city council and the proclamation of Mayor Keller. The services were conducted by Rev. A. W. Butts assisted by a chorus of singers, after which the remains were laid to rest in the River-view cemetery. The police of Bellaire, Bridgeport and Barnesville attended almost to a man, and the Wheeling police were represented by Lieut. George Gaus. The murdered officer's late fellow members of the Martin's Ferry force were the pall bearers.

There was a meeting of citizens last evening at the Martin's Ferry city hall to devise measures to start a fund for the relief of Officer Murphy's family. Theo. Keller was appointed chairman, and he appointed a committee of four citizens out of each ward to take a subscription list around and make a thorough canvass of the entire city. The family was left in pretty bad circumstances, and it is hoped that this movement will result in a substantial fund.

A Big Ale Banquet.

Yesterday the Smith Brewing Company gave a novel banquet at the brewery on Market street. The guests were about 150 in number, and were mainly workmen in the South Side potteries, the LaBelle mill and Hobbs glass works. A fine bill of fare, with abundance of the company's cream and stock ale, was discussed, and there were several complimentary speeches by the guests and a genial response by President Lally, of the company. Altogether it was an enjoyable affair as one could wish to see.

Drinking Water.

A glance through the lens of a good microscope at the settlements in the bottom of the water pail would make many a good housekeeper shudder with horror. The innocent little wrigglers she might find there would be transformed into dragons, from which, if they were as large to the naked eye as they seem through the lens, she would flee with quaking terror, and she would shrink from giving her child water to drink (or it would seem, looking through the lens, to eat) with masses of vegetable organisms in it. Water that is boiled is freed from living germs. A good filter will remove them. Distilling rids the water of them. In all cases of bowel trouble it is impossible to be too careful of the purity of the water given the patient to drink. It is safer to cool it by putting it in a sealed bottle in contact with the ice, than to put ice in it, as ice itself is often a source of danger from the germs existing in it. There are no better filters made than ours. We sell them at \$3 each.

Ready, BOYS, Ready!

Again the Junior Army of the Republic is ready for school. Young America is rampant with enthusiasm, generated by a ten week's holiday, expects a New Suit or a New Hat. The boy's eyes will stick out as large as saucers when they see the great high piles of goodies we've got for their comfort and covering. It's looks that captures the boys,

QUALITY

that wins the parents. We're solid on both sides. Boys are not the least bit particular. You must have Solid Worth in school clothes or they'll soon come to grief. We've Brought them down to the same old prices, that's how we progress. It's the quality that gets ahead; the cost stands still. If you don't know just what you want, there is everything here that's worth having. Let the stock talk to you. If seeing is believing, **Seeing Will be Buying** in this case.
