West Virginia Coal and the Railroads. The transportation of coal is a very large part of the tonnage of the railroads in West Virginia.

Foreign coal comes in to take the place of West Virginia coal an immense business will be cut off and the railroad companies will be forced to govern themselves accordingly.

It is entertaining to hear of our Canadian friends discussing the Wilson bill as though it were a measure framed in their interest; and perhaps they are right so far as lumber, coal and certain farm products are concerned.

Canada is for the Wilson bill, especially free lumber, and threatens reprisals if it is not retained in that measure. It is time for the true American patriot to be abroad in the land.

It was a green Christmas, but if you took good care of yourself you need not fear that you are soon to be called to help the peopling of the church yard.

It was a veritable "green Christmas," but let all indulge in the hope that the "fat graveyard" may prove a mere superstition of ages long past.

Out of Season. Mountain Echo (Rep.) The Tyler Democrat has a three column article in its last issue with about half a column of displayed head, protesting against putting petroleum on the free list. It calls upon everybody in that region to join in the protest against it.

An Aged Chestnut. Huntington Herald (Rep.) If Democratic editors didn't possess an unusual amount of gall they would surely be somewhat backward about coming forward with their talk about hard times. NOT A SURPRISE. The Receivership of the Santa Fe Road and What Led to It. Topeka, Kan., Dec. 25.—Treasurer Edward Wilder, who has held his position practically from the Santa Fe road, in speaking to an Associated Press reporter to-day of the receivership, said:

"The receivership was not a surprise to me at the last moment, because the death of George C. Magoun, although not necessarily embarrassing, afforded a pretext for the bears, who have been persistently hammering our securities, to work on the fears and imaginations of the smaller speculators, and this fact broke the price of our securities still further. Naturally such action had an effect upon the efforts of President Reinhart in providing for the interest on the floating debt due January 1, and there was no time for any new arrangement to be consummated. While it is sometimes considered unfortunate for a road to go into the hands of a receiver, it is not infrequent, and in this case it was a very wise move, because it will enable the management to handle the property and financial burden without the natural embarrassments that tend a period of general depression, shrinkage of values and dullness in business."

"The earnings of the Santa Fe system have been very satisfactory and under ordinary circumstances the floating debt could have been cared for without any trouble or even inconvenience, but every one knows what difficulty there has been during the last summer and fall in raising money on any collateral or security."

"The receivership in this case does not seem to me to indicate anything but a reasonable period of protection until the improved conditions, which we all believe can be counted upon during the coming year, shall permit a return of the company's affairs to be managed by officers elected by the stockholders."

"We certainly need to feel no uneasiness, except that the bondholders will have to wait a little while for their interest, but I do not believe that it will be unreasonably delayed, because our securities are ample if the condition of the business and of the financial world was normal."

Canada for Free Lumber. WASHINGTON, D. C., Dec. 25.—Information received here indicates that the Canadian government is taking no chances and is at work to secure the retention of lumber on the free list in the Wilson bill. The opposition of certain interests to placing lumber on the free list has aroused the Canadian government, and Mr. Courtney, the deputy minister of finance, has been sent here to look after the Dominion's interest. The argument that is being used to overcome the opposition to free lumber is that in case this provision is eliminated from the Wilson bill an export duty will be levied by the Canadian government on logs and lumber.

Ask Your Friends. Who have taken Hood's Sarsaparilla what they think of it, and the replies will be positive in its favor. Supply what Hood's Sarsaparilla does, that tells the story of its merit. One has been cured of indigestion or dyspepsia, another finds its indispensable for sick headache or biliousness, while others report remarkable cures of scrofula, catarrh, rheumatism, salt rheum, etc.

Hood's PILLS are purely vegetable. 4 Cures very cheap at Julius Jacob's.

IT IS SURELY COMING

The Question is: "Are You Prepared?" If Not Some Very Valuable Advice is Volunteered.

An epidemic of the grip is certain to be general throughout America in a very short time. Already many cases have been observed by physicians in New York City, as well as in other cities of the land. Dr. Cyrus Edson, of the New York Board of Health, says that the disease will manifest its presence generally in the very near future and that it is already here more than is generally realized. He said:

"I think we will have a grip epidemic soon and there are indications that it will be a long siege. While I do not want to create a scare I would warn people to beware of it and to use all the precautions possible. Experience has shown that carelessness in habits and irregular hours render the system too weak to stand so violent a disease. Grip finds easy victims in old people and in debilitated persons."

There is but one thing for any man, woman or child to do when the slightest symptoms of grip appears and that is to secure at once, if at once, a cure. Grip finds easy victims in old people and in debilitated persons. This alone counteracts the coming of grip, kill the microbes of the disease and restore you to health. While there are many so-called stimulants, there is but one which is pure, scientific and recommended by physicians universally. This is Duffy's Pure Malt Whiskey. Do not be deceived by any "drugs" or "tonics" who may try to induce you to take something else. Remember that the reason usually is that he can make more money on cheaper and inferior articles.

PERMANENT APPROPRIATIONS. A Bill to be Introduced to do Away With Them. WASHINGTON, D. C., Dec. 25.—A subject which will receive some consideration at the hands of the committee on appropriations of the house at this session of congress is embodied in the bill introduced by Representative Sayers, its chairman, entitled a bill "To repeal certain laws relating to permanent and indefinite appropriations."

Bills having this object in view have appeared perennially during the past ten years, but for various reasons they have failed of enactment. The object of repealing these permanent appropriations and having congress pass upon the matters covered by them each year, is that it will be conducive of more thorough and careful examination of the appropriation than is obtainable under the present system by which accounts are audited and passed upon by the accounting officers, and where no opportunity is left for scrutiny by congressional committees.

At the same time objection is made against the changes proposed by the bill because of the injustice that would result to claimants entitled to the amounts paid them under the present system without recourse to specific congressional legislation. The bill now before the committee excludes from its provisions various laws therein specified, including the sinking fund and others, the appropriations under which amount to many millions of dollars, roughly estimated at about one-third of the total annual permanent appropriations.

THE PUBLIC PRINTER. A Successor to Palmer May be Appointed Soon—The Rush After the Place. WASHINGTON, D. C., Dec. 25.—There is good reason to believe the appointment of the successor of Public Printer Palmer, so long delayed, will be made in the course of the next ten days. Mayor-elect Hopkins, of Chicago, is here in behalf of Mr. McAbee, the Chicago candidate for the place, and William Hyde, formerly post owner of the St. Louis Republic, who was postmaster of the Mound City during the first administration of Mr. Cleveland, and likewise a candidate for the public printership, is also in the city. There are a dozen other candidates for this position, which is exceedingly desirable and eagerly sought after on account of the enormous patronage connected with it, amounting to over 3,000 places outside of the pale of the civil service law. Among them are ex-Public Printer Benedict, of New York, John Cox, of Baltimore, and Victor Baughman, of Frederick, Md.
