### THE TUNNEL PROJECT.

A Meeting of the Projectors was Held Last Evening

#### AND A COMMITTEE APPOINTED

To Confer With the Engineer in Charge, Mr. Gilmore Brown—A General Sentiment Said to Be in Favor of the Tunnel Scheme—A Large Number of Men Would be Employed—The Survey is Being Pushed Forward.

As published in the INTELLIGENCER yesterday morning, the tunnel project has become revived, and the present movement possesses some of the elements of success. About fifty business men of the city have signed a paper guaranteeing the expenses of a survey of the hill for a tunnel, two locations being considered, Tenth street and Ninth street. Last evening a number of gentlemen representing the signors to the guarantee paper, held a meeting at the rooms of the city relief committee, and a sub-committee to consult with the managing engineer, Mr. Gilmore Brown, regarding the work which is now being pushed rapidly forward, was appointed. Here the project will rest until the preliminary surveys are completed, when drawings and estimates will be prepared, and the probable cost of the proposed improvement will be known.

The gentlemen who were present at the meeting last evening declared that there is a general and growing sentiment in favor of the tunnel project, for two reasons; it will furnish three hundred idle men with employment for five months, the time which it is estimated the work will be in progress, and entrance to the city from the district over the hill will be easier and more convenient. It is proposed that work shall be prosecuted on both sides of the hill and that six shifts of fifty men will be employed. The sentiment seems to be in favor of the Tenth street site if the amount of excavation there is not a great deal more than at Ninth street. It is thought that the length of the tunnel in any event will not be much over 1,000 feet. Engineer Brown will resume his survey this afternoon at 1 o'clock after a short stop to work up his notes.

#### THE BELMONT MILL.

The Nail Mill Goes on This Morning—Blast Furnace to go on Soon.

The scene about the Belmont mill on the South Side is once more beginning to be one of activity and industry. Seventy-five or a hundred heaters and welders are now at work and this morning the nail factory with over one hundred hands will begin operations once more. One more heating furnace will go on next Monday, and it is expected the blast furnace will go on in a few days, though the exact time has not yet been determined upon.

The starting of these works comes at an opportune time indeed, as the old workmen who were employed at these works have not had steady employment for several months.

#### At the Gaylord Coal Works.

The miners at the Gaylord coal works, up the river, were paid in full yesterday, and two months' rent was kept out of the wages of some of the miners. The mines are idle and there is no immediate prospect of resumption. These miners have been getting 70 cents per ton, the state price, and the management wants them to go to work at 50 cents. The manager says he can run the mines steadily and sell all the coal if he can have it mined at 50 cents, this price to be paid until the convention agrees upon a price for the year. One of the miners yesterday told an INTELLIGENCER reporter that they would not go to work at 60 cents or even at 60 cents unless the miners of the state agree on a uniform rate of something like this. The works employ forty-five men.

#### Terra-Cotta Stockholders.

Yesterday afternoon the annual meeting of the stockholders of the Brooke Terra-Cotta Company took place in the rooms of the chamber of commerce. The stock of the company was well represented at the meeting and the following board of directors was chosen: Prof. J. M. Birch, C. W. Franzheim, Morgan Ott, F. M. Strong and James Paul. The board will meet and elect officers. The manager of the concern whose plant is located at Lazareville, in Brooke county, Mr. T. W. Carmichael was present and presented for the inspection of the stockholders some beautiful samples of new designs of ornamental building brick.

#### Industrial Notes.

The Riverside galvanizing department will resume this morning after a long stop.

The factory at the West Virginia Glass Works at Martin's Ferry will be off until Monday.

Four puddling furnaces went on at the LaBelle mill on the South Side yesterday morning.

The adjustment of the insurance on the burned Whitaker iron mill did not make any progress yesterday. The adjusters are all here, and Mr. Whitaker is home, but the meeting set for yesterday was postponed until to-day.

At the Ethna-Standard mills only the breakdown and eight-inch mills were on yesterday morning. In the afternoon two puddling furnaces and two scrap furnaces resumed. The muck rolls have been replaced by cold rolls.

American Plays in Demand. American dramatists and American dramas were never in such great demand as now. The wonderful success of such plays as "Shenandoah," "Alabama," "The Girl I Left Behind Me" and Bronson Howard's latest work, "Aristocracy," which is to be presented at the Opera House next Monday night, has proven conclusively that America has all the material necessary for dramas of intense human interest. The filthy and frothy play of the French and lurid English penny-dreadful melodrama has almost been driven from the field. "Aristocracy" will be warmly welcomed by fashionable audiences.

#### THE OFFICERS ELECTED

By the Ohio County Republican Club last Evening.

Last night the annual meeting of the Ohio County Republican club was held in its hall in the I. O. O. F. building, President Hall in the chair. The pending business was the election of officers for the ensuing year. Mr. J. K. Hall was nominated and re-elected president by acclamation, but having already held the office two terms he positively declined to accept. Mr. Joseph C. Brady was then unanimously elected president. The other officers chosen were as follows:

Vice presidents, first, Thomas Davison; second, A. C. Richards; third, A. S. Bell; secretary, A. C. Davis; corresponding secretary, Charles Brilles; treasurer, Charles L. Ebeling.

One executive committeeman was chosen from each district in the county, as follows: Washington, William Muegge; Madison, W. M. Baird; Clay, W. H. Hornish; Centre, William D. Robertson; Union, Raymond Bamer; Webster, Bentley Jones; Ritchie, Godfrey Schul; Triadelphia, George Wise; Liberty, A. S. Bell; Richland, Alex. McCollach.

Charles Oliver was chosen trustee for five years.

The executive committee is called to meet at the club room Friday evening at 7:30 o'clock sharp, just before the weekly session of the mock legislature opens. This session of the legislature, by the way, promises to be the most interesting and profitable of all. The repeal of the ten per cent tax on state banks will be the fruitful topic for discussion.

The verdict of the people is that Dr. Bull's Cough Syrup is the best remedy for coughs, colds, sore throat, asthma, etc.

#### Special Sale of Fine China.

Commencing Thursday morning I. G. Dillon & Co. will close out their stock of fine Haviland China to prepare for placing their fall import orders. This is the annual sale which has been so attractive at this firm's establishment in the past. All the pieces to be offered are new and desirable, and they will be sold at reductions of from 25 to 50 per cent. This is a rare opportunity to secure fine china at the usual price of much inferior ware.

#### It's a Bird.

That's what one of the "Gallery Gods" said after an evening of intense happiness while leaving the theatre where he had just seen "The Flying Vulture."

It fills the bill—a dose of Dr. Pierce's Pleasant Pellets. Sick or Bilious Headaches, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels are promptly relieved and permanently cured. But not in the way the huge, old-fashioned pill tries to do it. These little Pellets have better methods. They cleanse and regulate the whole system naturally. In other words, they do it thoroughly, but mildly and gently. There's no irritation to the system, diet or occupation. They're the smallest in size, but the most effective in result—purely vegetable, perfectly harmless. Only one little sugar-coated Pellet for a laxative—three for a cathartic. They're the cheapest pills you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get. This is true only of Dr. Pierce's standard medicines.
