The Treatment of Four American Workmen By Foreigners

IN CONNELLSVILLE COKE REGION

Causes Indignation and a Revulsion of Public Feeling—The Men Brutally Treated Before the Deputies Could Rescue Them—Evidence Against the Mob—An Effort to Arrest the Members.

UNIONTOWNS, PA., June 11.—The four American workmen who were taken prisoners by a mob of foreigners at New Haven on Saturday were overtaken at Fairchance and rescued at noon to-day by the deputies. The deputies met with no opposition, owing to their number, the men giving the workmen up for fear of resistance. They were brought here this afternoon and returned to their houses at Leobersing No. 2. When found they were still bearing the placards and were chalk-marked from head to foot. Just what tortures they were subjected to after the battle yesterday and last night is not yet known here, but they were worn and haggard looking when rescued. They were taken away from Leobersing yesterday while the trouble was in progress, and marched to Cool Spring, where they were turned over to the strikers from the Stewart coke works and there kept and paraded until the leaders learned that the officers had located them. Then they were taken to the southern end and handed over from one crowd to another until landed in the strikers' camp at Kyla. The deputies got onto their whereabouts by a little extra parading, and, having search warrants, went to rescue the imprisoned workmen.

The kidnapping is denounced on all sides, even by the friends of the strikers, as the most atrocious and fiendish act in the history of the movement and the fact the prisoners were Americans is turning public sentiment more strongly against the perpetrators.

The deputies are now collecting all the evidence available in the case, and many arrests will be made as soon as they can be identified. It is estimated that not less than 500 strikers handled the workmen from the time they were captured at New Haven until they were rescued to-day. The workmen will be able to identify their captors and will not fear to appear against them. The southern end of the country was the scene of much depredation last night. A delegation of strikers visited the banks on George's creek, where part of the coal shipped over the new State Line road is being mined, and burned up and broke the tools and wheelbarrows into kindling wood. Not being satisfied with this, they tore out the support at the entrance to the banks and caved in about twenty feet of the entrance to the banks. A jury has been empaneled by Coroner Patton to hold an inquest over the body of John Mokaif, the Slav killed in yesterday's battle, and a searching investigation will be made. Of those injured Hesperscheck and Cornak will die. The others were not seriously hurt.

A USELESS CONFERENCE

At Altoona—William D. Kelly Steps up the Staircase.

PHILADELPHIA, June 11.—William D. Kelly, one of the committee of bituminous coal operators who went to Altoona on Saturday to attend the conference with the miners, has returned to his home in this city.

"I have had an experience of twenty-four years in coal mining," said Mr. Kelly, "and this strike is the most senseless I ever knew. Our own miners in the Clearfield district have made no demand of us whatever, and we do not know why they refuse to work unless, through sympathy with the miners in other sections, they want to stop all coal production. Our miners belong to no labor organization.

"The operators believe they see signs of weakness among the strikers. They are unable to stop production in West Virginia and Maryland, and this fact operates very seriously against them. As our own miners, if they will not work we shall surely get those who will. The Berwind White company is rushing new men to their mines by the car load and fast getting into condition to operate all their mines.

"I think that the miners are deceived as to the conference. While the operators were willing to meet delegates representing employees, although chosen by the labor organizations they required that the employees should be bound by the action of their representatives. We had assurances that such would be the case, but we think this assurance was withheld from the miners by the labor leaders. About the first thing we learned on reaching Altoona was that before action taken by the men could be binding it would have to be approved by National President McBride. If the employees could not act for themselves we determined that a conference was useless and so none was held, although several operators had informal talks with the workmen.

The Berwind White Co. alone has 4,800 men idle in the Clearfield and Jefferson regions.

Bridges Blown Up.

BIRMINGHAM, ALA., June 11.—The big iron bridge of the Kansas City, Memphis & Birmingham road at Carbon Hill was blown up with dynamite to-day. All these acts are charged to strikers, whose purpose it is to prevent the transportation of coal.

PECULIAR RESULTS

Of Educating Indians in the East Alleged by Mr. Smith.

WASHINGTON, D. C., June 11.—Delegate Mark Smith, of Arizona, will make an effort to have the appropriation for the Carlisle Indian school struck from the Indian bill. Mr. Smith says the education of Indians at Carlisle, Hampton and other eastern places has done more harm than good. His observation in the western country has shown him that the women graduates of these schools consider themselves superior to their Indian associates, and turn their attention to miners and dissolute white men of the Indian country, to the destruction of the morals and decency of the Indian girls. The male graduates are also said to have their vicious traits sharpened so that they are a more dangerous class than their unlettered brothers. Mr. Smith's criticisms are confined to the eastern schools, where the pupils are removed from their families and friends.
