## LIVES WERE LOST.

The Fire at the Hotel Delaven in Albany

## WAS WORSE THAN FIRST REPORTED.

Eight Servants are Missing and Sunposed to be Buried in the Rooms. The Horrible Story Told by the Chef. Perishing Persons Whom He Could

ALBANY, N. Y., Doc. 31 .- Four ragged walls and a mass of smouldering ruins mark the site of the Delavan house today. Two hundred and fifty of its guests, thankful that they escaped, though only with the clothes on their backs, are quartered at the other hotels. The list of casualties is as follows:

Dead-Mrs. H. S. Fookes, formerly of Dayton, Ohio.

Injured-Henry F. Fookes, Rochester, injured internally and face and hands burned; will recover.

Mrs. Benjamin F. Heilman, Brooklyn, face cut and internally injured; will recover. Benjamin F. Heilman, Brooklyn,

ankle injured. Edward Walsh, face badly burned.

Edward Murphy, bad burns.
E. A. Manchester, Auburn, hands arms badly burned.

E. W. Arnold, Rochester, bruised by jump from window.

D. P. Brockway, New York, right arm badly cut and both arms burned.

James Hennessey, fireman of steamer No. 4, struck on the head by a brick one of the walls fell about mid-

The police are unable to account for rich poince are unable to account for eight persons, two maids and six guests, who were in the Delavan hotel before the fire. They say that while it is pos-sible that these persons may now be in some hotel, it is quite probable that their bodies are hidden in the ruins.

That a number of corpses lie beneath the ruins seems most probable. Chef Querena Tomagni, who was on the top floor when the cry of fire was given, tells a horrible tale of what he

given, tells a horrible tale of what he saw.

"I was in my room," he says, "when someone yelled "fire." The hall was filled with stifling smoke and the end which led to the staircase was blocked with a mass of flames. I turned to run the other way. On the floor of the corridor lay three human beings. Whether they were men or women I could not say. They were shricking for help.

"I could not stop to save them. The flames were leaping along the corridor and I was losing my senses from the

and I was losing my senses from the fearful smoke that rendered life in the place almost impossible. I passed over the spot where the unfortunates lay. They grabbed my legs. It was by main force that I pulled myself away and managed to gain a window and lower myself five stories by means of a rope. I do not know what became of the unfortunate beings who lay in that corridor.

I do not think they ever escaped."

INNOCENT MEN IN PRISON.

They Have Served Three Years, and Nov It is Believed They Were Not Guilty.

PITTSBURGH, Dec. 31 .- By the confes sion of the real murderer it is likely that Andrew Toth, George Rusnak and Michael Sabol, who are now serving life sentences in Riverside penitentiary for the murder of Michael Quinn, will be released. On New Year's day, 1891, the Carnegie Steel Company had trouble with its laborers at the Edgar Thomson steel works at Braddock. About 700 Slavs and Hungarians were employed at the works, among them the three now in prison. On the night of December 31 a crowd of the strikers descended upon the works, but were driven back. The following noon the mob attacked the works again, and quite a battle ensued. Michael Quinni au engineer, was struck upon the head and fatally in-jured. The next day a large number of arrests were made, among them being Tath. Parents and Sabel. These Rusnak and Sabol. They were tried and convicted of Quinn's murder, and sentenced to be hanged, but later their sentences were commuted to life

imprisonment. A short time ago two Hungarians quarreled near Scranton and each had the other arrested. One of them sent for the police officials and told them that the other prisoner was a murderer, that the other prisoner was a murderer, having killed a man in a riot at Braddock on New Year's day, 1891. The police investigated and became convinced that the story was true. Attorney Blakely, who has charge of the case for the convicted men, will leave for Scranton to-day or to-merrow to complete the evidence that he will lay before the pardon board. before the pardon board.

COLD IN FLORIDA.

The Orange Crop Practically Ruined Coldest Weather Ever Kno

JACKSONVILLE, FLA., Dec. 31.—The mercury went down to 14 above zero at the signal station in the city just before sunrise this morning, the record being one degree colder than the temperature during the great freeze of 1886 and the during the great freeze of 1886 and the lowest since 1835. The thermometer at the station is 100 feet above the ground, and the surface readings about town average from one to three degrees lower. Reports from Titusville, Tampa, Ocala, Gainesville, Palatka and Sanford indicate that the mercury dropped to about 18 above zero in those localities. 18 above zero in those localities.

The orange and vegetable crops are practically ruined. The best estimate place the number of oranges at present on the trees at fully 2,600,000 boxes and the officials of the Florida fruit exchange in this city think fully two million boxes have been frozen either wholly or

boxes have been the partially, If this estimate is correct the remaining six hundred thousand boxes will be followed thousand boxes will be followed the prices.

A BUSY YEAR

Expected by the Manufacturers in the Pittsburgh District.

PITTSBURGH, Dec. 31 .- A review of the industrial situation shows an encouraging outlook in this section for the coming year. There is a heavy increase in the number of iron, steel and tin mills in operation. Where one year ago less than one-half the window glass factories were running, three-fourths are in operation now. With flint glass factories this is also true. The hopeful feature

of the situation is the steady increase in the demand for manufactured products. With the exception of their Beaver Falls nail mill, all the Carnegie mills Falls nail mill, all the Carnegie mills are now running in full or double turn. The big window glass factories at Jeannette and New Kensington are in full operation day and night. A revival of railroad and railroad equipment building is looked for the first of the year. In the Connellsville region 14,337 coke ovens are in operation and the prospect is hopeful. Manufacturers are all hopeful of a busy year.
