THE ICE MOVES OUT.

The First Break-up Occurred Yesterday Afternoon.

A GORGE WAS FORMED BELOW TOWN

But the General Break-up is Expected at Any Time—The Ice Still Holds at the Steel Bridge, But Will Probably Go Out To-day—The Ice Still Holds at Bellaire—The River Now Clear from Point Pleasant to Cincinnati.

As had been expected, the recent "sultry" weather has had a very pronounced effect on the frozen river. The news was received here yesterday that the river was open and the ice passing down stream from Point Pleasant, at the mouth of the Great Kanawha, to Cincinnati and that there were breaks in places above Point Pleasant. The most interesting occurrence, however, was here at Wheeling.

There was a slight rise in the river yesterday morning and this caused the immense field of ice in front of the city to crack and break in a number of places, but none of it moved during the morning. However, the clearing of the channel from the foot of the island down to Bellaire left an open space, and it was given out by well-informed river men that the ice in front of the city would be sure to pass away during the day. The break occurred at 2 o'clock in the afternoon, when the ice that had extended from the mouth of the creek up to the stern of the wharfbreak gave way and floated down stream, leaving an open space several hundred feet in length and the width of the river. The ice did not go far, however, goring a short distance below the creek and creating another rise in the river of about a foot. The ice from the lower end of the wharfbreak to the steel bridge was held back only by the bridge pier, having been cut along the city side bank and it was expected that it would pass out in a few hours. A large crowd was attracted to the river front by the report that the ice was passing out. The ice opposite the wharfbreak had not passed down midnight.

The break-up along the entire upper river is now expected at any time, but on account of the recent very warm weather the river people are confident that it will be attended by comparatively little damage to floating property. In the afternoon a report was received from Bellaire to the effect that the ice was passing there, but this was unfounded, and a message from Bellaire received last evening stated that the river was still closed. The several boats harbored there are in excellent shape, the ice having been cut from about them, and, as they are harbored below the Baltimore & Ohio bridge piers, it is not thought that there will be any damage there.

THE MARKS ABOVE.
Warren—River four-tenths of a foot and stationary. Weather clear and cold.
Oil City—River 1 foot 6 inches and stationary. Weather cloudy and mild.
Morgantown—River closed. Weather clear and cooler.
Greensboro—River 7 feet 6 inches and stationary. Weather clear and pleasant.

IT VER AT CINCINNATI.
CINCINNATI, O., Feb. 26.—The river flows on uninterrupted, full of heavy ice, and is now reported free from gorges from Wheeling to Louisville. Rivermen are confident that a steamer can start to Louisville to-morrow, and perhaps one may try to go up stream.

THE BICYCLE SEASON.

Johnson's Sons' Opening Takes Place Saturday—Race at New Orleans—Other News of Sport.
The annual bicycle opening of George W. Johnson's Sons, of Main street, will take place next Saturday. This firm last season went into the cycle trade extensively, and with the Triangle wheel as their leader, did an immense business. This season they handle the Triangle, Tribune and Queen City lines, and in their cycle sales room on the fourth floor are to be found twenty styles of wheels, ranging from a 10-pound racer to a 30-pound roadster. This line they will handle at retail in Wheeling and in addition will control as jobbers West Virginia, western Pennsylvania and eastern Ohio.

"Would not Draw Ten Cents."
BALTIMORE, Feb. 26.—The fight between Jake Kilrain and Peter Maher March 15, at Boston, is off. Kilrain will meet Steve O'Donnell, Champion Corbett's sparring partner, instead. This morning Kilrain received a telegram from the secretary of the Suffolk club: "Had you just as soon meet Steve O'Donnell? Maher would not draw ten cents on account of his recent match with Jim Hall." Kilrain at once answered: "Yes."
Charlie Gehring and Stanton Abbott meet again in this city March 11.

Champion "Jim" Talks.
WILKESBARRE, Pa., Feb. 26.—Champion Jim Corbett, in an interview today, said his manager, William A. Brady, was talking too much. "I see," he continued, "that he allows I can down Fitzsimmons in three rounds. Now, to be candid, I don't believe I can do that. I may defeat him in twenty rounds or less, but I don't want to be quoted as saying I can knock him out in three rounds. Fitzsimmons has not put up his third deposit of \$2,500. Brady says it makes no difference. I say it does. I want Fitzsimmons to put up every dollar he agreed to."

A Beautiful Waer.
The Lyndhurst was the wheel of wheels last year, and the 1895 patterns show that it will be at the top again this

year. The Wheeling agents, The K. Hoge Company, have received samples, which are much admired in their Market street windows.

PENSION RULINGS

By Assistant Secretary Reynolds Overruling the Commissioner.
WASHINGTON, D. C., Feb. 26.—Several decisions on pension questions have been promulgated by Assistant Secretary of the Interior Reynolds. In the case of the dependent mother of Abraham Woods, of the Twenty-second New Jersey volunteers, who died in the service, the department holds that where the father and the mother of the soldier are without property and the father is unable to support the family, the mother is dependent within the meaning of the law. Her claim was rejected by the commissioner of pensions and his action is overruled. The assistant secretary also holds that a muster-in is not essential to the pensionable status of a soldier who has been regularly, according to military law, enlisted in the military service of the government. The ruling reverses the action of the pension bureau.

Selling Lots of Seed.

The demand for seeds is now beginning to be quite brisk, and the prices this spring for timothy and clover are lower than for several years. This is caused, says a local seed man, by reason of the decreased exportations of American timothy and clover seed. Formerly Germany bought almost her entire supply from America, but since the best sugar schedule till she turns the cold shoulder on America and gets seeds elsewhere.

BELLAIRE.

All Sorts of Local News and Gossip from the Glass City.

Hon. Lorenzo Danford is now in Washington City, and will remain there for several days renewing old acquaintances and forming new ones. Senator Sherman and Capt. Danford have always been greatly attached by ties of friendship as well as political affiliations, and he will probably counsel with the ablest Roman of all the senators in the present emergency.

The suit brought by the city against the Baltimore & Ohio Railroad Company to recover certain assessments for street paving came up for hearing on motion and demurrer to the petition filed by City Solicitor Armstrong made by the railroad company, but the court overruled the motion and sustained the petition and gave the company thirty days to file their answer.

More interest is being manifested here over the selection of members for the city board of education than was ever known before. There are two members to select this spring and they will be chosen by popular vote. The Republican primaries will be held on Saturday, March 9, from 3 to 7 o'clock.

A DES MOINES woman who has been troubled with frequent colds, concluded to try an old remedy in a new way, and accordingly took a tablespoonful (four times the usual dose) of Chamberlain's Cough Remedy just before going to bed. The next morning she found that her cold had almost entirely disappeared. During the day she took a few doses of the remedy (one teaspoonful at a time) and at night again took a tablespoonful before going to bed, and on the following morning awoke free from all symptoms of the cold. Since then she has, on several occasions, used this remedy in like manner, with the same good results, and is much obliged over her discovery of so quick a way of curing a cold. For sale by Chas. R. Two ways of washing.

One is the same way your grandmother washed—but there wasn't anything better, in her day. You rub soap into the clothes—then you rub them up and down on a washboard till you get the dirt worn off. This is hard work—and while you're wearing off the dirt, you're wearing out your clothes, too. The other way is Pearlina's. You put the clothes into Pearlina and water—then you wait. Pearlina gets the dirt all out. A little rinsing makes them perfectly clean. Pearlina does the work. There can't be anything so easy, so economical, or that keeps your clothes so absolutely safe from harm and wear and tear.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearlina." IT'S FALSE—Pearlina is never peddled, if your grocer sends you an imitation, be honest—send it back. JAMES PYLE, New York.
