Secretary Will C. Handlan, jr., of the South Side Bowling League, has compiled the official averages of the work of players who participated in more than ten games, and as Monday night's games concluded the season in the over-the-creek organization, the figures are complete for the entire season of fourteen weeks. The leaders in the individual race are Wright and Speidel, of the South Side team; Rumbach, of the Buckeyes, and Knoke, of the Knocks team. Wright leads Speidel slightly, but did not participate in so many games. The averages follow:

In the last month of the season the interest in the fight for first place was small, as the South Side team, the old Wheeling league champions, were sure to take the rag. The fight for second place, however, was very exciting. The Knocks team held the position almost throughout the season, and it was only in the closing two weeks that Kempke's Hustlers succeeded in ousting Knoke's men from the position, and by defeating South Side one game secured the coveted position. The clubs finished in the following order:

Table with 4 columns: Club, Wch., L., Per cent. South Side 21 4 83.7, Hustlers 19 9 67.8, Knocks 18 10 64.2, Buckeyes 14 14 50.0, Excelsior 12 15 44.4, Harvest 11 17 39.2, Phoenix 9 19 31.7, Mozart 8 21 27.6

Colombia and LaBelle. Last evening out on the Seibert alleys the Columbia and LaBelle teams, of the Wheeling Bowling League, parted even. The Brownies by winning two games from the Bowlers can now take third place in the race. The score:

Table with 2 columns: Club, Score. Columbia-Seibert 130, Bowling 155, Amick 174, J. Weisgerber 131, Bishop 123, Blind 159, total 872. LaBelle-Stevenson 141, Wells 167, W. B. Day 143, Rhoads 142, J. Day 103, Blind 157, total 855.

These players will constitute the South Side club in their games against Wheeling Bowling League champions: Wright 150.7, Speidel 150.2, Rumbach 149.9, Knoke 143.9, Handlan 140.1, Marschner 133. The South Side averages are fairly good considering the handicap compelling the players to touch the ball in front of the line.

They Got the Supper. During the progress of the series of the South Side Bowling League Mr. Henry Schmulbach promised the Hustler team if they beat the South Side team one game during the season he would set up the oyster supper. Well, the Hustlers accomplished that difficult feat, and last evening Mr. Schmulbach kept his promise and entertained the team at supper at Fette's. After the supper the remainder of the evening was devoted to bowling.

To-night at Fette's alleys the Bow Hustlers of Schmulbach's brewery will engage in a bowling contest.

THE NEW BOWLING LEAGUE. Many Clubs are Organizing to Enter the Museum Organization.

The interest in the new bowling league, the Museo, is on the increase and it is nearly certain that it will be a twelve club organization. The prizes are valuable and the best bowling talent of the city will be gathered in this league. The South Side and Hustler teams of the South Side league will enter and the rivalry between the up-town and down-town clubs will be intense.

Mr. Stadler, of the Museo, announces that no players who are connected with the Museo alleys will be eligible to contest for the individual prizes offered. George Horvy, probably the best roller in the city, will not be on the Brownies team. In order to make the teams of more equal strength he will roll with one of the supposed weaker teams.

Clubs wishing to enter this league should send in their blanks to the secretary as soon as possible.

THE NATIONAL LEAGUE.

The Base Ball Magnates in Session at New York—The New Rules.

New York, Feb. 27.—The annual meeting of the various base ball clubs making up the National League went into session at the Fifth Avenue hotel to-day. There were present Messrs. Boden and Conant, of Boston; Chris Von Der Aho, of St. Louis; Dr. Stucky, of Louisville; John T. Brush, of Cincinnati; Andrew Freshman, of New York; Charles Byrne, of Brooklyn; James A. Hart, of Chicago; W. A. Korr, of Pittsburgh; B. A. Von Der Horst, of Baltimore; John I. Rogers, of Philadelphia, and the Wagners, of Washington.

The schedule question will be a big bone of contention, as each of the twelve clubs will make a hot fight for the "plum." The rules committee suggestion about gloves does not find favor with the men who are interested, and it is anticipated that the report will be killed at the meeting. Another subject which was much talked of was Fred Pfeifer's reinstatement. The majority of the experts think that the magnates will act favorably on his application.

"Buck" Ewing, of Cincinnati, is very anxious to swap Pitcher Chamberlain for almost anything, and no reasonable offer will be refused. The national board, composed of Messrs. Byrne, Boden and Young, met and transacted all their business, but what they did was not divulged by any of the trio, as their work was executive.

President Freshman, of New York, is representing the Cleveland club at the meeting in place of Frank Dell. Robinson, who is absent on account of his father's death.

At 6:30 this evening, after the delegates had been in session over six hours, a second adjournment was taken and Secretary Nick Young met the reporters and gave out the following account of the meeting:

At a meeting of the national board, composed of Messrs. Young, Solen and Byrne, held this morning, the treasurer's report was read and adopted and N. E. Young was re-elected secretary and treasurer.

The appeal of John T. Brush, of Cincinnati, in reference to Pitcher Gumbert, for whom he had made a deal with Connie Mack for an exchange, was heard. After hearing the evidence, the board disallowed the claim on the grounds that Mr. Mack had not the authority to make the exchange.

The meeting of the league was called to order at 11:20 a. m. and President A. H. Solen, of Boston, presided. The changes suggested by the rules committee were first taken up.

Rule 5 has been changed so that the pitcher's plate will be 24 by 6 inches instead of 12 by 4 inches.

Rule 14, section 4, has been changed, as suggested by the rules committee, allowing the pitcher to discolor the ball.

Rule 15 has been amended by substituting the word "entirely" for "wholly" and the diameter of the ball is increased from 2 1/2 inches to 2 3/4 inches.

The much talked of glove or mitt question was settled as follows: The catcher and first baseman are permitted to wear a glove or mitt of any size, shape or weight. All other players are restricted to the use of a glove or mitt weighing not more than ten ounces and measuring in circumference around the palm not over fourteen inches.

Rule 20—The last six words have been stricken out and replaced by the following: "While not engaged in active play."

Rule 25, section 6, has been made to read "one" minute, instead of "five."

Rule 34—Add at end "And the umpire shall have called play."

Rule 35, section 1—The word "toucher" replaces the word "stopper."

Rule 39—The words "directly to the ground" are stricken out in the fifth and sixth lines.

Rule 40 is entirely stricken out and the following adopted: "A bunt hit is a deliberate attempt on the part of a batsman to hit a ball slowly within the infield so that it cannot be fielded by any fielder in time to retire the batsman."

Rule 43. Add new section 6: "The umpire will call a strike on all foul tips caught by the catcher within the ten foot line."

Secretary Young was then asked if the Pfeifer case was mentioned at the session to-day, and said that it had not been. He acknowledged, however, having received a petition, bearing thousands of signatures, asking for Pfeifer's reinstatement.

Tonight's session of the National League was adjourned about midnight. The most important business at this session was the consideration of Pfeifer's application for reinstatement. The whole matter was formally referred to a committee of three, consisting of J. T. Brush, of Cincinnati; J. A. Hart, of Chicago, and Andrew Freshman, of New York, to be reported upon at the session to-morrow morning.

SUNDAY CLOSING QUESTION.

"Workingman" Takes a Stand Against the W. C. T. U. Movement—His Reasons Stated.

To the Editor of the Intelligence. Sir:—I noticed in your Monday morning edition that the churches have circulated a petition requesting the chief of police to close all saloons, butcher shops and grocery stores on Sunday. They may as well include the street cars, rolling mills, restaurants, hotels, milk-men and hired help if there is any reform intended by the movement.

The church people are in the minority, as there is only one-third of the people who are church members, and I can safely say 30 per cent of them are hypocrites or members who do not live in the straight line of a Christian. This is like using liniment for a disease that needs internal cure. The movement goes beyond the sanguine expectation of Dr. Parkhurst, of New York. Any one who is acquainted with the mode of the poor living in a city knows that it is necessary to keep open the butcher shops Sunday morning to give them obtainable meat, from the fact that they have no cool place to keep the meat from Saturday until Sunday. In the grocery and bread line things are often forgotten as the pay is brought home late, the mothers busy with work and children, and, as a rule, the men pocket a few cents on a Saturday evening and look up their friends, or go to the business part of the city with their wives to make purchases of some importance. It is a condition brought on by circumstances and no one man can reform the city.

I am sympathetic with any movement that looks to reform the tendency to immorality we are inclining to, but when you discommode the majority then your efforts will prove fruitless. You must first get the cause of the effect. I

would suggest that if the church members and ministers are sincere and desire to lift the masses to a higher standard of morality let them unite with the labor organizations, for they are all laboring for the common good and a day of rest, that they may enjoy to hear the word of God as Christ preached from the mount.

If the church would elect able teachers and sincere delegates to the Ohio Valley Trades and Labor Assembly they would find a new field for missionary work. It takes time in all movements of reform to bring the people to a common understanding, and if the Trades and Labor Assembly is not broad enough, reorganize on a broader basis, for we must all see to where we are drifting with crime on the increase in our midst. WORKINGMAN.

Gas Out of Garbage.

To the Editor of the Intelligence: Sir:—According to the latest reports, our city fathers are looking up locations on which to erect two new garbage furnaces, something we will not deny, is badly needed, but why not get some benefit out of the enormous amount of accumulation. Garbage has been used and is used to-day in gas making, and produces a very rich quality, and from the fact that our gas works is centrally located and may of access, the process of gas making from garbage might be adopted by the city with a saving of thousands of dollars annually both in the hauling and the benefits derived from the sale of gas, to say nothing of the saving in the cost of material used. If such a plan is feasible, why should not the taxpayers of Wheeling have the benefit of it? A CITIZEN. Wheeling, February 27.

"Power of the Press."

To the Editor of the Intelligence. Sir:—I wish to convey to you my thanks and the thanks of the council of the English Lutheran church for your most excellent notices of "The Story of the Reformation." You have treated us most handsomely in our effort to render in Wheeling that excellent historical entertainment. We realized that much of the grand success was due to the press. You have our thanks and good will. Respectfully, SAMUEL SCHWAB, Pastor of the English Lutheran church. Wheeling, Feb. 27.

Children Cry for Pitcher's Castoria.

Two ways of washing. One is the same way your grandmother washed—but there wasn't anything better, in her day. You rub soap into the clothes—then you rub them up and down on a washboard till you get the dirt worn off. This is hard work—and while you're wearing off the dirt, you're wearing out your clothes, too. The other way is Pearlina's. You put the clothes into Pearlina and water—then you wait. Pearlina gets the dirt all out. A little rinsing makes them perfectly clean. Pearlina does the work. There can't be anything so easy, so economical, or that keeps your clothes so absolutely safe from harm and wear.

Beware. Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearlina." IT'S FALSE—Pearlina is never peddled, if your grocer sends you an imitation, be honest—send it back. JAMES WYLLIE, New York.
