

THE "PATRIOTIC DAY"

Celebrations in the City Schools Yesterday a Success.

VERY APPROPRIATE EXERCISES

In all the rooms—The Attendance of Old Soldiers very slight and that of Parents and Others a Disappointment—The Children Take a Pledge of Allegiance—Some Special Features.

Yesterday was "patriotic day" in the public schools. This is an innovation, the idea being adopted at the request of the G. A. R. posts, which were represented by the following committee: For the First ward school, William Gilbreath and Alex Definbaugh; Second ward and Third ward, Caleb Sylvie and C. T. Reed; Fourth ward, R. Robertson and J. Q. Blowers; Sixth ward, R. F. McKinley; Fifth ward, J. G. McFadden and Capt. W. H. Travis; Seventh ward, R. S. Taylor; Eighth ward, Prof. F. H. Crago and William Gephardt.

It might have been supposed that after the schools entered into the plan with enthusiasm the G. A. R. and other veterans would have shown their interest by accepting the invitation to be present, but probably less than a dozen attended the exercises, all told.

The programme in the Eighth ward had several especially interesting features. All the exercises in the afternoon were of a patriotic nature. The flag drill was made prominent in all the rooms, and the children thoroughly enjoyed it. The drill as given by this school is as follows: A pupil is stationed on the platform with a flag in his hand. At a signal the pupils all rise and repeat in concert: "We give our hands (pointing to flag) our hearts, (placing hands on forehead) our hearts, (placing hand on heart) to our country. One country, one language, one flag." (again pointing to flag.)

The exercises in all were much alike, consisting of recitations and essays on subjects fitting to the day and the singing of patriotic airs, flag drills, etc.

In all the schools the children took the following pledge: "I promise allegiance to the flag and the republic it represents, one nation, forever indivisible, the land of liberty and justice for all."

organization left nothing to be desired. The orchestra's numbers were rendered with a precision and smoothness that would indicate that all had habitually played together for a long time, whereas in fact they had but one rehearsal. The composition for stringed instruments only was beautifully performed.

WHO IS ETHEL CLARK?

Wood and Won by a Prominent New Yorker, an Octogenarian, who Met her in Wheeling—She Gets a Nice Present.

The following special telegram to the INTELLIGENCER will be read with interest by Wheeling people, and especially by any who happen to know the bride, if any such there be. No such name is in the directory and diligent inquiry has failed to produce any clue to Miss Clark:

Special Dispatch to the Intelligencer.

ROCHESTER, N. Y., May 21.—Nowly-elected Mayor Cutler, of Niagara Falls, performed his first marriage ceremony yesterday afternoon, when he united Lavi Paddock, aged eighty-four years, a retired merchant of Clyde, N. Y., and Miss Ethel L. Clark, aged twenty-eight, of Wheeling, W. Va. Mr. Paddock arrived on the midnight train, and Miss Clark on an early train yesterday morning.

The hotel where the two stopped is close to the city building, and as early as 6 o'clock yesterday morning the old gentleman was at the police station inquiring for the mayor's office. He told a police officer what he wanted, and the blue coat went to find the mayor to tie the knot.

Shortly after 3 o'clock everything had been arranged and they presented themselves at the mayor's office, and the mayor, with the assistance of a judge and a policeman as best man, tied the knot.

Mr. Paddock has been president of the village of Clyde and magistrate for a number of years. He also is a cousin of the late ex-Governor Fenton. He has been a widower for a number of years and thought he should never marry again, but he met Miss Clark some time ago at Wheeling, and thought life would be miserable without her. He has one daughter about the age of his wife.

The old man gave the mayor one dollar for his services and Mr. Cutler turned the money over to the hospital fund. Mr. Paddock, it is stated, gave his bride a handsome gift of property and money.

A Remarkable Cure of Rheumatism.

From the Boston, Connecticut, Review.

David Lewis, who has been afflicted all winter by rheumatism, is out again and all due to one of the medicines advertised in our columns. After trying everything possible, he used Chamberlain's Pain Balm, which has relieved him of all pain, from which he was a constant sufferer, and promises to make him fit for duty soon. We know David has been a great sufferer and are glad to see him around again.

W. G. Skinner is one of the best known men in Wakefield, Mass. He is a war veteran and everybody's friend. He says: "I had rheumatism and was in poor health a long time. Indications pointed towards the accumulation of impurities in the blood and germs of disease. I was constipated and had no appetite. I evidently needed a good blood purifier and decided to take Hood's Sarsaparilla. It made a change all through my system, gave me an appetite and worked effectively on my blood. I am now perfectly well, my blood has been put in good order, thanks to Hood's." W. G. SKINNER.

Hood's Sarsaparilla is the Only True Blood Purifier. Prominently in the Public Eye Today. Hood's Pills, easy to buy, easy to take, easy to effect. 25 cents.

A PICTURE OF HEALTH TO-DAY.

Mrs. Moore Was Sinking—Paine's Celery Compound Made Her Well.

The people have given their verdict! Every state, county and most humble village has had a voice in it.

There is a consensus of testimony from all America to the fact that Paine's celery compound is making sick, tired-out, nervous men and women well and strong again.

There have been published by thousands in every state in the country, this spring, testimonials from people in every station of life in those states telling of the many, many cases where this greatest of all remedies has made people well.

The INTELLIGENCER has published the unsolicited testimony of well-known and highly esteemed people in Wheeling who have found health and strength in the remedy that was first prescribed by Prof. Edward Phelps, M. D., LL. D., of Dartmouth college.

Men and women of national reputation have written thankful letters on the same subject, which have been published the world over, and have called forth unasked for responsive letters from equally prominent men and women in other lands.

Below is a letter that commends itself in this spring month of May to every woman in Wheeling. It was voluntarily written to Wells, Richardson & Co. by a lady whose portrait, given above, is assurance of her high character and honest disposition. She is Mrs. Robert M. Moore, of Laporte, Ind., and she writes: "Please accept my heartfelt thanks for the great good Paine's celery compound has done for me. I do think that there cannot be too much said in its favor. I was completely run down a year ago, and had the advice and attendance of two of the best physicians in the town, who pronounced my sickness nervous prostration. I was treated by one for two weeks, and then went to another and at first he seemed to help me, but after a while instead of getting better I went from ill to worse.

"At the earnest solicitation of two of my children and a dear friend, who was very much interested in my case, I commenced to take Paine's celery compound and took seven bottles, and am thankful to say that I am a well woman to-day. Considering the low state of health in which I was, my cure has been pronounced wonderful. You can use this communication if you see fit."

For recovery from the effects of too constant indoor work, worry, over-exertion of body or mind, and for the general depressed state of health that is so apt to result from a sedentary life of hard work and routine, Paine's celery compound is the one strictly accurate relief. It refreshes and restores the worn-out tissues, disposes the body to take on new flesh, and rapidly clears the system of the used-up elements that clog its healthy working.

Drugging indoor workers who seldom get a long breath of fresh air—and there are many such, both men and women—recover vigor of the nerves and vital organs through the use of Paine's celery compound.
