WHEELING, JUNE 3, 1895.

Senator Carter and his Party-Nine.

Senator Carter, of Montana, is out for Senator Cameron, of Pennsylvania, for the Republican nomination for President.

It is the proud boast of Senator Carter that he and his friends can command in the next Republican national convention 49 delegates to whom it up for the free and unlimited coinage of silver.

The campaign of education goes on, to the strengthening of the cause of an honest dollar.

Woman for Sobriety.

The prevalence of drunkenness in Danbury, Connecticut, has induced a number of unmarried women to band together, pledging themselves not to marry men who indulge in alcoholic stimulants.

It would be very easy to look on the funny side of this total abstinence organization.

The fact is that if the unmarried women of Danbury mean what they say and will stick to it, they have organized a movement which the young men of their community will take seriously.

The history of such a movement for a period of ten years, even in a place no larger than Danbury, would be of great value to sociology.

Localizing Telephone Interests.

Chicago advises tell of the organization of manufacturers of telephone apparatus representing \$30,000,000 to protect their mutual interests and to wage war on the Bell company.

Speaking of glorious June weather, we are right in the midst of it, young as the month is.

Localizing Telephone Interests.

The recent double lynching at Danville, Ill., was participated in by a man from Montana, who claims to have taken part in fifty-four lynchings.

Six young women of a private school at Wallingford, Conn., have just finished a week's tramp through Middlesex and New Haven counties.

Minnesota has a variety of wolves which so closely resemble the Siberian wolf that many people believe they came from that country.

PERSONAL POINTS.

Prof. Crouch, of "Kathleen Mavourneen" fame, remembers Queen Victoria as a girl of seven or eight years.

Next sale will be held Wednesday, June 5, and Thursday, June 6, and one night by electric light, corner Thirty-first and Liberty avenues.

keeping at home the profits which heretofore have gone outside. The whole thing is rational, logical and good business.

Mormonism's Cloven Foot. The INTELLIGENCER never placed any faith in the declaration of the Mormon leaders that they and their followers were done with polygamy and were resolved to acquiesce in the law of the United States against the practice of that tenet of their so-called religious faith.

The development in Utah justifies this view. Under cover of abandoning polygamy the practice has been continued, to what extent can only be conjectured. The worst phase of the case is that Utah is about to come into the sisterhood of states.

With the Mormons dominant Utah never should be admitted to the union, for Mormonism is rebellion against the government and the laws of the United States. It is an alien power that has grown up among us and intends to keep itself alien.

SILVER is quoted at 67 1/2 cents an ounce in New York. If it were quoted at \$1.20 our standard silver dollar would contain a dollar's worth of silver.

The Treasury for 1895.

It is now admitted that the treasury deficiency for the current fiscal year, which ends with this month, will be at least \$50,000,000. This will be \$30,000,000 more than the deficiency estimated by Secretary Carlisle, and it will not tell the whole story.

Another entertaining feature of the case is that this administration has added \$100,000,000 to the national debt in order to save the treasury from bankruptcy.

It is the opinion of Senator Carter, of Montana, that the United States "alone can determine its own financial policy." So it can, but it cannot compel any other country to fall in with its ideas.

SENATOR HILL wants his free silver at a ratio of 15 to 1. With persons who are looking for this kind of thing this should be more catchy than 16 to 1.

Our boys have been playing ball, and they come home with the balance of games largely on the right side.

The Venetians of the twelfth century tried to keep their women at home by inventing a species of wooden clog that raised the sole about four inches from the ground, and was difficult to use in walking.

The marriage of Mrs. Maggie A. Birkett Travis, of Elm Grove, W. Va., and Mrs. Henry M. Morrison, of Indianapolis, Ind., was solemnized on Sunday in that city at 12 o'clock, at the residence of Rev. Mr. Knox.

The bride was becomingly attired in a gown of changeable green silk and lace, and carried bride's roses. She is the eldest daughter of the late Robert Birkett, of Elm Grove, and is a charmingly accomplished lady.

The groom is a prominent architect of Indianapolis and a man of many sterling qualities. The best wishes of a host of friends go with them to their new home.

SHOES-ALEXANDER.

THE WEATHER MAN

Played us a shabby trick. Just as we began to sail into our stock of up-to-date SUMMER SHOES he makes it necessary for people to get out their winter cork-soles. He has promised us, however, that from now on we shall have no cause to complain of the cold, as he means to even up by piling it on EXTRA HOT. Go ahead, say we. We are prepared to take care of our people. We have 3,000 pairs Hot Weather Shoes, 62 styles. NEVER SO NICE, NEVER SO CHEAP, and the probabilities are they never will be again.
