A marriage license was issued to Jacob Kwonicki, a native of Poland, aged 24, and Mihalina Domulewic, a native of Poland, aged 17, both now of this city.

Scarcity of Water.
Work was stopped on the Clark oil well at Colerain on Saturday night, owing to the scarcity of water. Work is also about to stop on the Lupton well for the same reason. This well was expected in ten days ago. They have been pumping water two and a half miles from near the Lloyd well.

Nobody is soliciting.
Mr. R. M. Gilleland and others interested in the proposed wagon bridge over the river from Benwood to Bellairs say that no committee has been soliciting subscriptions to the capital stock. The report that solicitors were out seemed to come very straight, but the gentlemen in the company ought to know.

A Little Rain at Last.
Yesterday afternoon a few light showers fell, and about 6 p. m. a heavy one came down. The steep streets were quickly flooded, but the rain did not last long enough to do a great deal of good. If it was general, however, it will be much appreciated in the country. About three weeks of gentle rain would not be too much.

Crossed Wires Caused It.
Last night about 9:30 o'clock the fire department was called to a blaze in the rear of the St. Charles hotel, corner of Water and Fourteenth streets. Two electric light wires became crossed and were fast starting a dangerous blaze when the hotel people discovered the fire. An alarm was rung in, but the wires were cut and the blaze extinguished with almost no loss. One of the electric light circuits was thrown off for the night on account of the cut wires.

Warder McGraw.
Cards are out for the marriage of Miss Philomena McGraw, of Grafton, to Dr. Abraham Smith Warder, of the same place, on Wednesday evening, November 6, at the residence of the bride's mother. Miss McGraw is a graduate of Mount Ochanal, and has many friends in this city. She is very popular in society circles, and is a very charming young lady. Dr. Warder is a prominent and successful physician, and is also well known in Wheeling. The bride is a sister of Hon. John T. McGraw.

Eloquent and Brilliant Lecture.
Dr. James Hedley will open the Young Men's Christian Association course this evening with his lecture on "What is a Man Worth?" The course is a good one, and it will have a splendid opening. The Nashville, Tenn., American comments on Dr. Hedley as follows: "The lecture was a brilliant effort, both as a literary production and the exponent of a pleasing school of oratory. The thought was original and so striking as to hold his hearers in wrapt pleasure throughout the lecture."

Mr. Wiley Tuckan Home.
Hon. William A. Ohley, ex-secretary of state, who has been in the North Wheeling Hospital for the past three weeks, undergoing treatment for burns received in the railroad disaster at Tunnelton, September 23, was taken to his home in Fairmont yesterday. He was accompanied by his sister, Miss Alice, who has been by his side throughout. Mr. Ohley's wounds have almost entirely healed as a result of the careful nursing he has received and excellent medical treatment. He is still a little weak, but will be able to attend to business in a few days.

Two Sad Deaths Announced.
Mrs. Rich Wilkie, wife of the ex-politician, died early Saturday morning at the North Wheeling hospital, in her thirty-ninth year. An operation for cancer was performed on her a few days before, and she never rallied, she was a lady of many womanly virtues, and the blow to her husband and one small son is particularly severe. They have the tenderest sympathy of all who know them. The funeral will be from St. Alphonsus church at 9 a. m. to-day. The many friends of Mr. and Mrs. W. F. Weir will be sincerely pained to read in another column of this morning's paper the announcement of the death of their infant daughter.

MUCH EXAGGERATED

Reports of the Smallpox Situation Sent Broadcast.

M'MECHAN PEOPLE ARE AROUSED

And a Committee Sends a Communication to the Wheeling Press and Health Officer—The Exact Situation has been Correctly Stated by the Intelligencer Night Along—Not a New Case Since Wednesday and Several Patients Convalescent.

There have been some of the wildest reports circulated in the past week in reference to the smallpox in Wheeling that have yet gotten out. The most unreasonable stories are told and believed outside of the city, and are sent broadcast all over the country. A press dispatch received in the regular United Press news report by a paper in Bangor, Me., was sent by the telegraph editor to a Wheeling friend. It reports twenty-four new cases as appearing here on a day when there were not nearly twenty-four cases in all in the community. A similar telegram was sent on the same day to the Cleveland Press, and a Wheeling man wrote a protest against so false a publication and received the somewhat surprising explanation that the story was sent by the paper's Belaire correspondent. It seems incredible that anybody would use such a matter as the existence of a few smallpox cases for a local or personal business advantage to another town, but there have been many signs that this thing has been systematically and persistently done in this vicinity.

Saturday the following communication was received by Health Officer Jepson and the daily papers of Wheeling: M'MECHAN, W. Va., Oct. 25, 1895.

To the Editor of the Intelligencer.
SIR:—At the instance of over 250 citizens we your humble committee are instructed to communicate with you and ask that the truth, the whole truth and nothing but the truth, concerning the smallpox be published and to notify you that if it is not done the state board of health will be convened for an investigation of the matter, and other means be found to promulgate the truth, and protect the health of the surrounding community.

Respectfully submitted,
J. T. KING, principal of school,
JOHN N. ROBERT, mayor,
J. O. RHODES,
H. S. HART,
JAMES A. ROBERTS, committee.

So far as the INTELLIGENCER is concerned there has been no occasion given for the M'Mechen people to get excited. This paper has printed "the truth, the whole truth and nothing but the truth," so far as it could be ascertained, ever since the smallpox appeared. Dr. Jepson's official statements, since he became health officer, and Dr. Walden's before, have been printed when there was any development to make them of interest or importance to the public. The trouble has been that people like those of M'Mechen have accepted exaggerated and sensational rumors against the frank and complete statements given by the papers.

Yesterday Dr. Jepson reported ten cases in the city and four in the smallpox hospital. One patient at the hospital is ready to be discharged. Two in the city are also well, but there is another case in the same house, and they will therefore be kept in quarantine for some time yet. All the cases are doing well. The ten cases in the city are in only seven different houses, and all are in the South Side wards, all but one in the Sixth and Eighth. There is no more danger of a spread of the disease than if there were but one case, as all are under good control, rigidly quarantined and closely guarded.

Not a single new case has developed since last Wednesday. The outlook is favorable for the stamping out of the disease. There may be additional cases, and probably will be, but the situation is not alarming, and if the liars, both the designing and thoughtless, could be quieted little would be heard of the disease.

A KICKERS' MEETING.

Yesterday afternoon a very ill advised meeting of Eighth ward citizens was held at Handian's hall to take action in regard to the smallpox situation. Charles Morningstar presided and Tom Wollington was secretary. Dr. McCoy and others made speeches, the doctor dwelling mostly on the advantages of vaccination. A committee of five was appointed to draw up resolutions, and after being out a short time made a report, the main feature of which was a demand for the placing of two guards on duty at each house where the disease existed. This was adopted. Prominent citizens of the Eighth ward who did not attend the meeting deprecated the idea of holding one. They said that while in some cases no guards at all were necessary, as the people in the houses cooperated intelligently and willingly with the authorities, there were others where eight men could not keep the members of the household within reasonable bounds, unless they were armed with stout clubs and with authority to use them.

Baltimore & Ohio Excursion to Atlanta.
In addition to the season and the twenty day excursion tickets to Atlanta, the Baltimore & Ohio Railroad Company will sell ten day excursion tickets October 29, November 5, 15 and 25, December 5 and 16, at \$18.40. For further information apply to the Baltimore & Ohio agents.
