Outline of the Base Ball Situation Here in Wheeling.

SUNDAY MORNING OUTBREAK

On the Part of the Wheeling Papers—How the Intelligence Comes in for Liberal Doses of Their Spleen—It's the "Red Rag" Act Over Again—The Truth About the Home Movement, which Some People Are Pleas'd to Term "the Intelligence Scheme."

The amount of free advertising the Intelligence has received from the Register and News in the past four or five days is something big. Just it remained for Sunday to roll around before these journals exploded their pyrotechnic masterpieces.

The two Sunday papers resemble in many respects that noble but unreasonable animal—the bull. An example: The Intelligence supports a movement that is deserving of support. The two papers mentioned immediately take the other side. Of course, the other side of the question is hardly tenable and they who occupy it get mixed in their dates, but that doesn't matter so long as the Intelligence is on the other side of the fence.

The Register thinks the "Intelligence movement" is a myth, or that if it is a myth it is an attempted throw-down of Mr. Buckenberger. That paper cannot see, too, why there should be secrecy in the local movement. As to the "throw-down" that is all both; until the league awards the franchise, the field is open to any who desire to secure the franchise.

Except in the minds of the two Sunday papers, there is no "Intelligence movement." There is no "Intelligence office" as has been stated repeatedly in both papers. The movement for a locally managed club is not yet a failure.

On account of the outbreaks of the two papers mentioned, it is proper that the base ball public be informed of the situation. To begin with, a conference of gentlemen interested in base ball was held in the office of a well known business man on the evening of Sunday before last.

The amount of the outbreaks of the two papers mentioned, it is proper that the base ball public be informed of the situation. To begin with, a conference of gentlemen interested in base ball was held in the office of a well known business man on the evening of Sunday before last.

The prospects are that the two Sunday sheets will shortly play star engagements at a feast, the menu of which will contain but one word—"crow."

Turkey's Constitution. CONSTANTINOPLE, Jan. 25.—In response to the representations made by James A. W. Terrell, United States minister, the Porte consents to permit any whom Mr. Terrell recommends to settle in Anatolia, without distinction of race or religion, the full rights of citizenship in America, but do not intend to allow the Red Cross Society any similar society to make the distribution. The Porte has appointed a commission to study the question of reform in Macedonia.

TROUBLE IN NICARAGUA.

Vote on the Dictatorship of President Zelaya—Change in Organic Law. MANAGUA, Nicaragua, Jan. 26.—During the past few days considerable political excitement and uneasiness has developed in Nicaragua because several citizens have proclaimed that in their opinion, President Zelaya should declare himself dictator and eventually call a convention of the people to correct some embarrassing and conflicting clauses in the national constitution of 1855.

This national constitution provides that a constitutional convention shall not be called until 1905. This opinion was gradually gaining adherents among the persons of intelligence and wealth in Nicaragua, and the difficulties would probably have been settled quietly by respectable and responsible persons, but Jose D. Gamez, who was recently removed from several positions of honor and trust by the members of the party in power, attempted to make a noisy demonstration in favor of the dictatorship.

B'NAL BRITH CONVENTION

The Ninth Annual Session of the Order. Election of Officers. NEW YORK, Jan. 26.—The ninth annual convention of the Order B'NAL B'Brith opened at Webster's hall to-day with over a hundred delegates present from large cities in the east. The Supreme President Julius P. Wyman, of Baltimore, presided. A greater portion of the day was taken up in seating delegates and the filing of resolutions for the advancement of the order.

STEAMER GOES ASHORE

With Spanish Troops on Board—Insurgents Killed in Skirmishes. HAVANA, Jan. 26.—The coastwise steamer Julia from Santiago de Cuba, which had on board the battalion of Simancas, commanded by General Canella, went ashore near Batabano and was so far injured as to be made useless. These Spanish troops are being sent into Havana province to reinforce those operating there against Gomez and other rebel leaders.

UNSATISFACTORY VERDICT

In a Shooting Case—Prisoner Recommended to Mercy of Court. Special Dispatch to the Intelligence. PARKERSBURG, W. Va., Jan. 26.—The sensational trial of Sport Kimes, for shooting with intent to kill Ben F. Hall, came to an end last night in the criminal court, by the jury finding Kimes guilty on the second count, that of unlawful shooting and recommending him to the mercy of the court. The verdict causes general dissatisfaction, and disapproval of it is heard on every hand.

PARKERSBURG SENSATION

Many Gambling Houses Raided—Prominent Citizens Caught. PARKERSBURG, W. Va., Jan. 26.—City Detective Mehen raided a number of gambling houses in this city last night, causing the greatest excitement among the sporting fraternity. The largest resort raided was one operated by Charles Johnson and John McNeerney. At this place gambling paraphernalia valued at \$200 was seized by Mehen. There were fifty people in this place, some of them being prominent citizens and recognized church members. The Elks hall was also raided, and the members of that order here intend making it hot for the officer.

Fell From His Engine

Piedmont, W. Va., Jan. 26.—John Anderson, Blackstone, of Piedmont, a Baltimore & Ohio engineer, fell from a locomotive on Saturday.

Lord Leighton Monied

LONDON, Jan. 26.—Lord Leighton, the lamented president of the Royal Academy, whose death occurred yesterday, lies in the centre of his study, which is full of his pictures and sculptures, among the former being six unfinished pictures, which were intended for the Academy, arranged in a semi-circle at the head of the coffin.

There is comfort in the knowledge that so many forms of ailment are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and in everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the only remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore most important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists. If in the enjoyment of good health, and the system is regular, then laxative or other remedies are not needed. It is needed only when you are afflicted with any actual disease, one which is commended to the most skillful physicians, but if in need of a laxative then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.'

GILLIAM'S SUCCESSORS.

Work of the Cartoonist to be Carried on by His Assistants. CANAJOHARIE, N. Y., Jan. 26.—A conference between W. J. Arkell and the leading artists of Judge Gilliam, the famous cartoonist, was held last night, and plans for the future conduct of the weekly arranged. Mr. Arkell when seen to-night, said: "You may say that the policy of Gilliam in connection with Judge will be followed as closely as possible, and the artists of his own selection will carry on his work. His cartoon assistants, who have been scattered, will be brought to the home office. It might be interesting to know that Gilliam received a salary of \$50,000 per year and a percentage of the profits from the paper. I have decided to divide this equally among the staff artists who have been on the paper ten years."

RELLAIRE

All Sorts of Local News and Gossip from the Glass City. Some of the newspapers in this congressional district have begun to talk about the delegates to the national Republican convention, and Harrison county is urging its claims with much force. Carroll and Monroe counties both have delegates to the last national convention, and as Belmont has the congressman it is altogether probable that Jefferson and Harrison counties will represent the district in that convention, with alternates from Carroll and Monroe counties. But no matter what counties they come from, they will be loyal Ohio Republicans and for America's leading champion for President Senator Charles M. Hogg and Dr. S. B. McGovern, of Cadiz, both want to go, and one of them will probably be determined upon.

Locked Out Garment Workers.

NEW YORK, Jan. 26.—A mass meeting of the locked-out garment workers was held to-day in Wabasha hall, at which encouraging reports were read from the garment workers in Baltimore, Chicago and Philadelphia. Meyer Shoenfeld, who was the principal speaker, advised the tailors to hold firm and that victory would rest upon their banners in a few days. The manufacturers are displeased with the action of the contractors in continuing the strife between themselves and tailors, and threaten to withdraw their patronage unless a settlement is speedily effected.

Umbria Delayed.

LIVERPOOL, Jan. 26.—The Cunard line steamer Umbria, which sailed from here yesterday, was detained in the Mersey for twelve hours. Haps and Mishaps in the Thriving City Across the River. Yesterday morning before commencing his sermon, Rev. S. J. Bogle said the church would submit without a murmur to the wishes of the gentlemen in whose hands much responsibility is placed and he has every confidence in their judgement. During his sermon he referred to the Armenian question. He said the Lord rules, the Lord is more powerful than the devil and while the devil may triumph for a time the Lord will win and in the end the slaughter of Christian martyrs will cause a widespread awakening of Christianity in all certain parts of the world.

A jury in the mayor's court was occupied from early morning until 11 o'clock Saturday night hearing evidence and argument in the case of "Mede" Hastings against Caroline Lipperman and Constable Fred Hesel about a check which the Hastings made in their construction of the statutes in such matters, as the intention is to tax everything of value, and if the law now does not cover leases of value it will before the legislature adjourns.

The total bonded indebtedness of this county is \$306,000, with the \$15,000 due this year provided for. Larger amounts fall due each year hereafter; but this does not present a startling situation for a county like Belmont. If the expenditure are kept within bounds that much debt can easily be handled.

The farmers' institute at St. Clairsville this week will attract a large attendance. They always do. But the fewest number of the most successful farmers are ever heard at these institutes. However, they are pleasant and entertaining, and sometimes amusing to the practical farmers.
