Moreland Has His Wheeling Ball Team About Completed.

THE TEXAS PUGILISTIC COLONY

Being Drawn in the Cordeon of Mexican and American Law—Probability of the Fight Being Palled Off—Last Night's Bowling Games—Other News in Sports' Domain.

Mr. George L. Moreland, who will probably figure as team manager for the Wheeling base ball club the coming season, was in the city yesterday, in conference with General Manager Wright of the street railway company, and with others interested in base ball.

Mr. Moreland thinks the prospect for a good league with eight clubs is first class. He shares the belief of many others that it is really necessary to secure two other towns in the event that Akron and Dayton flicker.

Of course the Wheelings will not carry seven pitchers as shown in the list. However, all of the seven will be tried out and three or four will be retained.

Ed. Behan, one of the fielders, played in Dallas, Texas league, last year. He led the outfielders of his club and batted hard throughout the season.

The team is to report here on April 6 and the first game will be with Toronto on Monday, the 13th.

THE LINES TIGHTENING

Around the Pugilistic Colony Down on the Rio Grande—How Mexico Will Anticipate Matters—Governor Culbertson on the Scene.

WASHINGTON, Feb. 10.—Senator Romero, the Mexican minister here says the Maher-Fitzsimmons prize fight will not take place in Mexico, and significance is lent to this declaration by the fact that the minister was in consultation with Secretary Olney this morning before making the statement.

The grand American handicap, the big event of the year in trap shooting circles, takes place in New York next month, and it is probable that Wheeling will have an entry in the person of Jack Wright, one of the best of many fine Wheeling shots.

The Wheeling Gun Club is to be reorganized this spring, and tournaments will be held.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before paper efforts—gentle efforts—pleasant efforts—lightly directed. There is comfort in the knowledge that no many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes.

It is in the enjoyment of good health, and the system is regular, that laxatives or other remedies are not needed.

Cross the river and stop the fight as he would have ample authority to do under the law.

Not in New Mexico.

WASHINGTON, Feb. 10.—If an attempt is now made by the promoters of the Fitzsimmons-Maher prize fight to "pull it off" in New Mexico the government will prevent it at all hazards.

Ryan, the first-baseman, is a Cincinnati boy who was with the Evansville last season, Stennel, of the Pirates, knows Ryan and highly recommends him to Wheeling.

Second base will be held down by O'Connell or Al. Wagner. In the event that Wagner goes to Toronto with Buckenberger, O'Connell will be with Wheeling.

The team is to report here on April 6 and the first game will be with Toronto on Monday, the 13th.

CUBAN SITUATION

Explained by an American Surgeon Who Has Been with the Army.

SOUTH BEND, Ind., Feb. 10.—Dr. L. A. Hines, for a short time surgeon in the Cuban army, has just returned home and gives an insight into the real condition of affairs.

He joined Maceo's army early in January and was captured while in charge of the field hospital in San Felipe. He says the only way the insurgents can hope to win is by prolonging the struggle until Spain becomes exhausted and sells the island or gives it away.

The prevailing notion that the Cuban armies are full of Americans, he says, is a mistake. Dr. Hines did not see or hear of another American while he was with the insurgents, as the climate is such that no American could campaign with the insurgents and live.

The Spanish hospital at Havana now has nearly 100 yellow fever victims and the season is only begun. None ever get well. Shortly after a victim gets it, he begins to curl up like a withered leaf and as soon as his head and feet touch he dies. The negro leader, Maceo, is described as a man of wonderful will power and his army is composed of negroes who idolize him.
