CHICAGO'S DANGER in Case of War with Great Britain-Her

end of the city, two local boxers, George Pines, a hotel waiter, and Ed. Lucas, of North Wheeling, boxed in the presence of a large crowd of lovers of the manily art. Pines was overmatched in point of weight, but was far more scientific than his heavier opponent. He landed frequently in the first, second and third rounds, but in the fourth he was badly winded and quit. In the second round he had his man nearly out. Round 1. Opened up with a lively interchange of hard blows at close quarters, both trying to force the contest to an early finish. Pines did most of the rushing and landed a number of stiff punches on Lucas's head and neck. Round 2. Pines again resorted to rushing factics, landing a number of topper cuts and driving Lucas to the ropes. Pines saved himself by ducking and clinches. Both men were grogy and winded from rushes.

Round 2. Both men sparred cautiously for openings, Pines again trying to force the contest with short blows, but lacked strength. Lucas returned with several good upper cuts and Pines gave in the contest before the round was half over. New, although the Intelligencer has to ounce that General Manager Wright of the street railway company, did not close a deal for the Irwin park yesterday, the cranks must not jump to the
unwarranted conclusion that they are
deemed to the depths of misery they experienced last week when the future of
base ball here was so uncertain. On
the centrary, there is nothing to cause
the "fans" any alarm. On account of
the circumstances detailed in yesterday's intelligencer, there is some delay
in closing the deal for the Irwin
grounds, but they are as good as leased
right now. The lease is sure to be executed within a day or two. For many
years these grounds have not paid the
owners a cent, and the trustees are glad
to lease to the ball club. close a deal for the Irwin park yester-

After last night's council meeting there was a meeting of several members who are ardent "inas." Everybody was congratulating himself on the fact that the prospect was bright for the base bail club. It was stated that there would be no difficulty in securing the usused alley and additional ground necessary to make the park comfortably large. It was also said that there would be little trouble in having council authorise the board of public works to build a new sewer that will drain the Irwin grounds. It may be necessary to do a little filling at the eastern end of the park where the grand stand will probably be erested. If it is erected there it will cut off much of the view of the little who will take the trouble to climb to it are not the persons who would in any event walk up and lay down their quarters, so the club loses nothing practically. After last night's council meeting

The outlook for the entire league seems to be all that could be desired. Intelligencer dispatches from officials of the Washington and New Castle clubs are printed elsewhere. Youngstown is known to be in good shape, too, but a telegram to the Intelligencer stated that the manager was out of town yesterday.

In the Musee Bowling League tour-ament last night's games were be-seen Nameless and Press Club. Nametween Nameless and Press Club. Nameless won three games and is now tied with Datsies for second place in the race for the championship. This team, which started out with a big lead over all the other teams, and later fell so emaringly, now appears to be in its old time form that carried it to the championship in '95. But the Brownies mave a lend that will be hard to overtome. Score of last night's games:

#### P. T. BARNUM'S WIDOW

Discovers that the Greek Nobleman She Married was Not as Rich as He Said He Was-A Separation Likely. BRIDGEPORT, Conn., March 10.—

Mrs. Nancy Barnum Callias, widow of P. T. Barnum, and now the wife of De-metrious Callias Bey, the Greek noble-

metrious Callias Bey, the Greek mone-man, is coming back to America, to live, and in all probability will make this city her home in the future. Since the news of her return became known it has been asserted by many of her friends that she is disappointed in her marriage to the Greek, but this is denied by Benjamin Fish, of this city, a cousin of Mrs. Callias.

There is one thing certain, however.

denied by Benjamin Fish, of this city, a cousin of Mrs, Callias.

There is one thing certain, however, and that is that the amount of wealth Callias possesses is not as great as was represented at the time of the marriage.

The wedding of Mrs. Barnum to the Greek nobleman took place in the Greek knurch at No. 340 West Fity-third street, New York, August 8, 1895. Only a few of the intimate friends of Mrs. Barnum knew of it until the ceremony had been performed. It was a great surprise that she had selected a foreigner as a husband. When it was said that he had several millions of dollars that explained it.

After the ceremony Callias and his wife sailed for Paris, and since that time have traveled in Europe. When they arrived at the Greek's estates on the Island of Melita, where it was said he possessed great olive plantations, Mrs. Callias was surprised and disappointed to learn the true value of her husband's possessions.

Then the bey endeavoed to get her to

cannot to invest any part of her money abroad and decided to return to America.

In letters to Mrs. William Perry and Mrs. Jerome Orcutt, of this city, Mrs. Callins speaks of her early return to America, but does not infer that the bey will accompany her.

At the death of the veteran showman he left his widow \$100,000, Marina, the beautiful home in this city, and an annuity of \$40,000 a year.

The marriage contract with Callias was of such a nature that he could not obtain any part of her fortune. Marina has been in the market for some time, but has been withdrawn.

Benjamin Fish, Mrs. Callias's coustn. says: "It is true Callias is not as rich as he said he was. But as for a separation. I do not believe the story. It is not likely that he is going to lose what he has. I expect that they will be back this spring, and it is probable they will live in New York."

#### JAMESON ON TRIAL.

A Crowd of British "Jingoes" in Attendunce-Hearing Postponed. LONDON, March 10.-There was

large and pronouncedly jingo crowd in large and pronouncedly lingo crown in and about the Bow street police court to-day. The occasion for this "turning out of patriots" was the formal arraignment of Dr. Leander S. Jameson and others, charged with violating the foreign enlistment act, passed in 1870 "to regulate the conduct of her majesty's subjects during the existence of hostilities between foreign states with which her majesty is at peace."

Sir John Bridge, the chief magistrate, presided. Sir Hitchard Webster, opened for the crown. He dwelt in forcible language upon the gravity of the charge against the prisoners.

When counsel sat down there was a murmuring, quickly suppressed, of surprise among the friends of the raiders. Evidently they had realized the gravity of their situation. There was no startling developments during the examination of the witnesses. After the formal evidence had been submitted the examination was adjourned for a week. and about the Bow street police court

There will be two separate conventions. fenseless their city would remain if the \$2,500,000—the part of the big appropriation for coast defenses intended for lake fortification—should, as a matter of economy, be cut out of the bill now before Congress.

Lieut. Thompson made public, for the first time, in a paper read in the New England Congregational church, just just what it is that the ordnance corps, acting with the other departments, hopes to accomplish in the way of making seaports impregnable to attack when the appropriation of nearly \$109,000,000, reported favorably in committee, should become available. Touching on the question of lake defense, the officer said:

"There seems to be a prevailing impression that in case war broke out between America and Great Britain, all the United States would have to do to keep English vessels out of the great lakes would be to throw troops over the border to destroy the Welland canal. Declarations of war do not come like thunderboits from clear skies. As soon as it was known frouble was brewing the Welland canal would be fortified. Canadian troops would man the works and Great Britain would have her gunboats on the spot.

"That nation has 100 men-of-war."

#### Raines Excise Bill Passer

NEW YORK, March 10.-The Raine bill passed the legislature to-day. According to Senator Raines, the effects of cording to Senator Raines, the effects of the bill will be to prevent corruption in excise boards, to stamp out low gin shops, and to greatfy reduce Sunday selling and other violations of law by saloon keepers. Although he expects the number of drinking places to be re-duced from 25 to 40 per cent, he holds that the increased license fee will pre-vent loss of revenue.

why is it that one man is old and decreptid at 45, and another hale and hearty at 80? The accident of birth has something to do with it. Some men are born stronger than others, but frequently the strong man becomes weak and the weak main stops inmediately and looks it up. If he finds a little looseness or a little crack, it is remedied immediately. If it isn't, there will come a break presently — a break that will wreck the engine. Likely as not, this same man will totally ignore the call for help from some one of his own organs. He will let the trouble grow and grow until it lays him out in bed. If he keeps on working with a damaged body, he will soon wear it out. The strain on his nerves will tell on his constitution. He will not be hearty when he is old. The chances are he never will be old at all. Dr. Pierce's Golden Medical Discovery restores health. It is not only a cure for disease, it is a preventive. Whenever a man feels that he is not quite as well as he ought to be, whenever he is listiess, without energy and without vitality, whenever he finds that he is losing weight and that his ordinary work gives him undue fatigue, he needs the "Golden Medical Discovery." No matter how his trouble shows itself, this wonderful remedy will cure him. We say it is wonderful because of its wonderful results, and not because there is anything supernatural about it—not because it does anything that is unexpected, or anything which its discoverer did not mean it to do. That it cures many different so-called diseases is the most natural thing in the world when you understand that nearly all diseases spring from the same thing—bad digestion and consequent impure blood. The "Discovery" makes the appetite good, the digestion atrong, assimilation casy, and the blood can withstand its action.
