Bellaire Democrats Place in Nomination a Full City and Township Ticket—There Were No Contests.

Yesterday afternoon the Bellaire Democrats held their city and township primaries and placed a full ticket in the field. There was little interest taken, on account of the fact that with one or two exceptions there were no contests. Between 500 and 600 votes were polled. At the Republican primaries last Saturday the vote was between 800 and 1,000. This shows just about how much of a "show" the Democrats have of winning in the approaching city election in Bellaire. The ticket put up yesterday is as follows:

Mayor—Frank Williams.
Marshal—Robert Larke.
City Solicitor—George Arnold.
City Treasurer—Albert J. Rietz.
Street Commissioner—Charles Satter.
Water Works Trustee—George S. Jennings.
City School Board—James T. Kelly, Marion Hoffman.
Council—First ward, Ed Allen; Second ward, Abe Stahl; Third ward, George Heli; Fourth ward, Isalah Dean; Fifth ward, Peter Benline.
Assessors—First ward, Israel Day; Second ward, John Nolan; Third ward, Frederick Hecker; Fourth ward, William L. Armstrong; Fifth ward, Peter Keyes.
Township Trustee—James A. Alexander.
Township Clerk—James Malone.

MARSHALL COUNTY TEACHERS.

They Held a Very Instructive and Enjoyable Meeting at Cameron.

The Marshall county teacher's association met at Cameron on Saturday, when the following subjects were discussed:

First topic: "Some practical points in geography." Second: "Current history." Third: "To what extent is a teacher responsible for the character of the pupils under his control?" Fourth: "In examining written work, what should be considered?" Fifth: "We only hear what we know." Sixth: "What care should be exercised in the preparation of original work for pupils?" Seventh: "State the two most important objects in view in teaching arithmetic." Eighth: "What qualifications are required in a teacher that he may properly conduct a recitation?" Ninth: "The development of West Virginia." Tenth: "Public schools and the library." There were present from twenty-five to forty teachers, and these subjects were thoroughly discussed. A number of interesting and instructive papers were read. Among those present were Prof. Deahl and Gwin, of West Liberty state normal school. One of the most enjoyable features of the meeting was the presentation of a paper by Miss Annie Pelley, of Benwood, acted as secretary.

W. W. WHITMYER.

One of the Most Popular Former Wheeling Newspaper Men, Dying.

A special telegram was received by the Intelligencer last night from Huntington, saying that intelligence had been received there that W. W. Whitmyer was dying at El Paso, Texas, and was not expected to live until this morning. There are few former Wheeling men whose death would be more generally or more sincerely regretted here. Everybody who knew "Whitmyer" was his friend, and his warm friend, too. Bright, genial, accommodating, warm hearted and always cheerful under the most adverse circumstances, he drew close to him a host of devoted friends. He was first connected with the Journal here, was afterwards on the Register, was engaged in newspaper work at Piedmont and Clarksburg, and was last city editor of the News. He went from here to Huntington, where he was editor of the Herald. He long suffered from bronchitis, and went west in the hope of benefiting his health. He was temporarily helped by the change, but realized all the time that his days were numbered. He was single, and his mother lives at Huntington.

ARRIVALS AT THE "PEN."

The Population is Now Larger than Ever Before in Its History.

The following new arrivals registered yesterday at Mr. Van Pelt's hostelry, in Mountville, better known as "The West Virginia Penitentiary."

Scott Smith, Marion county, four years, criminal assault.
Joseph C. Tichnell alias Harry McNeill, Marion county, one year and six months, bigamy.

Harry Smith, Green county, two years, stealing Baltimore & Ohio passenger train.

The present population at the "pen" totals up 512. This is larger than ever before in the history of the institution. The number of arrivals since the "pen" started has almost reached the 3,000 mark. It is now 2,972.

A CANYAN among the druggists of this place reveals the fact that Chamberlain's are the most popular proprietary medicines sold. Chamberlain's Cough Remedy, especially, is recorded as in the lead of all throat remedies, and as such, is freely recommended by physicians. As a cough remedy, it is also unexcelled, and most families with young children keep a bottle always handy for instant use. The editor of the Graphic has repeatedly known Chamberlain's Cough Remedy to do the work after all other medicines had failed. The Kimball, S. D. Graphic. For sale at 25 and 50 cents per bottle.

All pain banished by Dr. Miles' Pain Pills.

WAVERLY FIELD.

Complete and Comprehensive Review of Work in that Field.

FIFTEEN HUNDRED BARRELS

Is the Daily Output of this Newly Developed District—Operations are Live in all Directions—The Ogden Well is Producing About One Hundred Barrels a Day—Barnsdall Gets to the Sand in the Same Territory—Other Wells Drilling.

Oil developments in and about Waverly are very brisk, and oil men are arriving there daily. In the Waverly field proper the daily production can be placed at 1,500 barrels of the best quality of oil, and with every indication of steady, permanent production. The Florence Oil Company is probably the most extensive leaser in the field. On its lease on the Smith and Cooper farm are twenty-nine producing wells, the largest of these wells yielding a daily product of 100 barrels. In one case, the Berea grit, which is the deepest sand, is being drilled for, and at this time they have reached a depth of 1,500 feet with the best indications. Ray & Company's lease adjoins Florence territory. Six producers, with average yield of twenty barrels per day, is the result of their drilling. Another well is to be put down on this lease.

Fulton & Company occupy a strip adjoining the Voigt farm. Production here comes from four wells, one of which is producing now 100 barrels. A fifth well is now under construction. On the Voigt farm the Houston Oil Company holds forth. Two producing wells is the result of the drilling. The third well is now down 100 feet. Seventy-five barrels would cover the daily production here.

Berea sand has been reached by one well only, and that one on the Ogden farm. This well makes a showing of 90 to 100 barrels, with every indication of permanent flow. Baer & Alford are the owners.

There are two good producers on the Cross lease in Cow run sand. Work has commenced on the third well. Persistent drilling on the Dyke are looking out for the Berea, which they expect to reach next week. Owners have the utmost confidence in good results at this well, which has been drilling since August.

On Bull creek, Kennedy & Lawrence are looking for the precious with two wells. Work has commenced on the third.

The Benson Athey well on Big run is a surprise to its owners. The oil is of very fine quality, and actual gauge shows it will go from 120 to 125 barrels. There is not enough gas to flow it. A rig is going up on Mrs. Drake's farm, one-quarter mile west. She gets 100 barrels and 2000 barrels if the well is not down in thirty days. This is by another company.

Yates & Company, who drilled on the Athey, will drill one-half mile south, on Widow Kennedy's farm, besides their additional drilling on Athey. Tankage at present is inadequate, and a pipe line will have to be brought in about two miles before the Athey well can be pumped right along.

A well being drilled on the farm at Vancluse owned by Judge J. M. Jackson and Mr. Stone showed up yesterday for a fifty-barrel producer from Berea with two bits in oil rock; well was drilled by Emery. It is a fine well and a very important strike.

The well on Middle island owned by Williamson, Jones & Fisher, of Parkersburg, got a ten-barrel showing in

Cow run sand yesterday. That sand was cased off and the well is being put down deeper.

Sikrvin & Stout have a lease on the lower part of the same island and will begin drilling a well there next week.

Waverly was visited by a furious storm several nights ago, which blew down four derricks and did considerable damage.

There are several wells drilling back of St. Marys which will be in this week. They are on the John Colmar, Schauwecker and Colard farms.

Monroe Cross has leased his farm of 200 acres, near Stewart's station, to the Harveys, of Chicago, receiving a bonus of \$100 and rental of \$20 per month. Developments at Valley Mills, end of the Waverly field, are steadily progressing. Rigs are up for three of four new wells.

The Ogden well is making 90 barrels, and at T. N. Barnsdall's well, in the vicinity of the Ogden well, the drill has been stopped on top of the sand until Capt. Barnsdall is heard from.

WHY throw away your money for every new cough syrup, when you can buy that standard remedy, Dr. Bull's Cough Syrup.

ALL last winter Mr. George A. Mills, of Lebanon, Conn., was badly afflicted with rheumatism. At times it was so severe that he could not stand up straight, but was drawn over on one side. "I tried different remedies without receiving relief," he says "until about six months ago I bought a bottle of Chamberlain's Pain Balm. After using it for three days my rheumatism was gone and has not returned since."

YESTERDAY'S DEPARTURES.

Pittsburgh—H. K. BEDFORD, 3 a. m. Parkersburg, LIBERTY, 11 a. m. Matamoras—LEXINGTON, 11 a. m. Clarington—JEWEL, 3:30 p. m.

BOATS LEAVING TO-DAY.

Charleston—RUTH, 6 a. m. Cincinnati—HUDSON, 8 a. m. New York—BEN HUR, 8 a. m. Newport—EVANSVILLE, 11 a. m. Clarington—JEWEL, 3:30 p. m. Pittsburgh—LORENA, midnight.

BOATS LEAVING TO-MORROW.

Pittsburgh—H. K. BEDFORD, 3 a. m. Parkersburg, LIBERTY, 11 a. m. Matamoras—LEXINGTON, 11 a. m. Clarington—JEWEL, 3:30 p. m.

Along the Landing.

The Ruth will be here early this morning for Charleston and Kanawha river points.

The marks at 6 p. m. showed 10 feet full and rising slowly. Weather, cloudy and warm.

The Ben Hur is scheduled to pass up from Parkersburg for Pittsburgh this morning at 5 o'clock.

The Evansville got up steam last evening and dropped down to the public landing below the wharfboat.

The Little Jewel brought up a nice trip from Clarington, and had fair offerings aboard when she departed.

The Evansville is to-day's local packet for lower points. It is her first trip in the Wheeling and Newport trade. She will back out at 11 a. m.

The opposition boats, Liberty and Lexington, got away for Parkersburg and Matamoras, respectively, yesterday morning, both with good trips.

The high-headed Hudson, Captain Bob Agnew on the roof, will be this morning's Cincinnati packet. She has engagements for lots of freight in the Wheeling district.

The following are the principal officers of the Evansville: Captain, William Goodwin; pilot, S. W. Litten; engineer, James Davis; mate, Jacob Litman; clerk, L. S. Hansumaker; steward, James Williamson.

Every now and again we hear about fast runs made by towboats. A number of years ago the Tom Dodsworth made the round trip to Cincinnati in four days, twenty-one hours and fifteen minutes, towing down loaded coal barges, and brought back one empty barge and a flat. This was done without making any special effort for a fast run.—Pittsburgh Commercial Gazette.

The H. K. Bedford leaves this morning at 8 o'clock on her last trip in the Wheeling and Pittsburgh trade, which she has occupied for a number of years. On Friday, of this week, she will leave Pittsburgh on her initial trip in the Pittsburgh and Kanawha river trade, going through to Charleston or possibly to Cannelton near the head of lock and dam navigation on the Kanawha. She will pass Wheeling, going down, on Saturday morning at 6 o'clock. Coming up from below she will pass Wheeling on Thursday at 6 a. m. She and the Ruth will conflict not at all. It is thought very probable that a steamboat will be placed in the Bedford's old trade between Wheeling and Pittsburgh.

Ohio River Bridges.

The Intelligencer has received requests for information regarding the bridges that span the Ohio river. For their information, the following table, compiled from the figures of the United States river commission, is printed:

Location.	Length.	With Approaches.	Low Water.
Pittsburgh—			
Point Connecting	1,090	1,090	250
Beaver	1,346	1,346	240
Steuersville	1,895.4	1,895.4	303
Wheeling—			
Union	1,923.3	2,069	160
Newport No. 2	1,122	2,240.5	500
Reel	997	1,815	505
Bellaire	1,435.5	4,091.5	322
Parkersburg	1,540	4,200	285.5
Point Pleasant	1,729	4,229	600
Kenova	1,731	2,795	500
Cincinnati—			
Newport No. 1	1,545	4,203	400
Newport No. 2	1,122	2,240.5	500
Covington	1,619	1,619	1,061
Chester & Ohio	1,520	4,812	524.5
Cin. Southern	1,469	3,422	500
Louisville—			
Jeffersonville	2,545	5,525	535.4
Ohio Falls	5,220	5,220	280
