

BOARD OF REGENTS

Of the West Virginia University in Session.

BUSINESS BEFORE THE BOARD.

A Farm Purchased for the Use of the Agricultural Experiment Department. Regent Charles Burdett Hart Addresses the Students Upon the Relations of the Board and University—Petition from the Students Asking for the Abolishment of Compulsory Attendance at Chapel.

Special Dispatch to the Intelligencer. MORGANTOWN, W. Va., April 10.—The board of regents of the West Virginia University met in called session here to-day with seven members present, Regents Stewart and Brown were absent.

Three meetings of the board within a year is an unusual thing, but since the number of regents was reduced from thirteen to nine, the expense is considerably lessened and it is the policy of the present board to keep in closer touch with the university than has been the custom of former boards. The session was a busy one, but the bulk of the business only came up to-day and is left in an unfinished state.

President Goodnight submitted a full report of the work of the institution for the year and Dr. John A. Myers reported upon the purchase of a farm to be utilized by the experimental station and agricultural department. This farm cost \$3,960, a little less than the cost of the buildings on it, and will be of inestimable advantage in assisting the experimental station in the good work it is doing. The station has, ever since its existence, been retarded in its work by lack of grounds to work practical experiments on. The legislature refused time and again to appropriate money for this purpose, and this farm was bought from savings out of the annual appropriations and the revenues from the sale of vegetables, etc.

The president and secretary of the board were authorized to enter into a bond with the United States government for two modern rifle cannon, which will be sent, immediately after the bond has been received, from Washington. The enforcement of an order making compulsory the attendance upon chapel has caused much dissatisfaction among the students. This morning Regent Charles Burdett Hart spoke at the chapel exercises, dealing generally with the governing of the university and the relations of the board, faculty and students. He did not mention chapel exercises, but his remarks were understood to have reference to this matter.

He said in substance that the regents have no other desire than to contribute to the highest good of the university and feel a deep personal interest in the students. Whatever the regents have done or left undone has been, in their judgment, for the best welfare of the institution. If any of the students, having a thoughtful regard for the welfare of the university, feel that the regents have omitted to do anything to advance its interests, or have passed any order which, in their judgment should be amended, or abolished, any petition with regard to the same will be received and duly considered. Meanwhile we wish to say kindly and firmly, and with as much kindness as firmness, that the order of the board of regents is the law; it must be obeyed, and it will be enforced.

The student body was not long in taking advantage of the promise that petitions from them would be considered. By evening a petition with 225 signatures to it was secured and will be presented to the board in the morning, asking that compulsory attendance upon chapel exercises be abolished.

LARGENT-HAMILTON.

A Pretty Wedding in Grafton's Prominent Social Circles. Special Dispatch to the Intelligencer. GRAFTON, W. Va., April 10.—One of the most fashionable and prominent of social events took place here last night in the marriage of Miss Mary, daughter of Captain J. N. Hamilton, to Mr. Ben O. Largent, the popular newdealer of this city.

The ceremony was performed at the elegant home of Captain Hamilton in West Grafton, by Rev. Simmons, of the Baptist church, in the presence of a large concourse of friends. Many guests were present from Pittsburgh, Wheeling, Morgantown and other points.

A CATTLE TRADE

Between Friends and Neighbors May Result in Murder. Special Dispatch to the Intelligencer. HUNTINGTON, W. Va., April 10.—On Guyan river yesterday evening a difficulty arose between Abraham Forshee and M. T. Tudor, farmers, who have been life long friends. After coming to blows, Tudor seized a pitchfork and sprang violently toward Forshee, two prongs of the weapon penetrating the abdomen. Forshee fell to the ground, after which he was struck in the face with the weapon, causing the loss of one eye. Tudor is under arrest, awaiting the extent of his neighbor's injuries. The men quarreled over a cattle trade.

Two Killed on Pan-Handle.

Special Dispatch to the Intelligencer. STEUBENVILLE, April 10.—John McHugh, a horse dealer, of Bowers-town, O., met with his death last night at the Pan Handle bridge over Connot creek, at Bowers-town. He was attempting to get on a freight caboose at the edge of the bridge and made a misstep and fell over the bridge into the creek and was drowned. No. 7 Pan Handle passenger struck and killed an unknown tramp at Hanlon's station this morning.

Received Serious Injury.

Special Dispatch to the Intelligencer. CHARLESTON, W. Va., April 10.—Two men were caught in the shafting at the Boy furniture factory this evening and probably fatally injured. Every stitch of his clothing except one boot, was torn off.

Didn't Know it was Loaded.

Special Dispatch to the Intelligencer. HUNTINGTON, W. Va., April 10.—A young son of Lorenzo Bove was accidentally shot this evening by carelessly handling a revolver. His injuries are thought to be fatal.

Postal Contract Let.

Special Dispatch to the Intelligencer. WASHINGTON, D. C., April 10.—The contract for carrying the United States mail from Beham, Pa., to Honey's Point, W. Va., has been awarded to R. J. Toland, of Beham.

Fortifications Bill Reported.

WASHINGTON, April 10.—The house committee on appropriations to-day reported the bill for fortifications and other works of defense, for their armament and for heavy ordnance for trial and service for the fiscal year which begins next July. The bill recommends specific appropriations amounting to \$5,842,000, and in addition authority is given to the secretary of war to make contracts for the further expenditures of \$5,842,000 by the engineer and ordnance departments, making a total authorized expenditure of \$11,384,000.

TREND OF TRADE.

Business is at a Practical Stand-Still Since April 1.

LOWEST RANGE EVER KNOWN

General the Commercial Situation, and Heavy Decline in Breadstuffs and Provisions are Reported—Iron Combinations Have Raised Prices of Materials, but Products are Unchanged—Wool Goes Down the Line with Small Sales.

NEW YORK, April 10.—R. G. Dun & Co.'s weekly review of trade, which issues to-morrow, will say:

The volume of business has not on the whole increased nor have prices appreciably advanced since April 1, when the range for all commodities was the lowest ever known in this country. Breadstuffs and iron products have risen slightly, but some other articles have declined, and the root of the matter is that demand for consumption is still below expectations.

The injury done to winter wheat by storms and frosts at the west would appear from reports of state officers to have been considerable. Remarkably low estimates of conditions are published by some state authorities, and while this may be the customary exaggeration, there has evidently been much actual loss, which tends at present to lessen purchases of farmers and of dealers in farming districts. These conditions tend to check the advance, which reached three cents, but was followed by a reaction of one cent. Corn rose 2 1/2c with wheat and on account of small stocks.

The billet pool and other combinations have raised prices of pig iron and steel, but as yet finished products have gained scarcely anything, nor has demand for them increased. The output of April was 190,281 tons weekly, against 189,553 tons in March. It was reported that the output of pig iron in March, or 13,123 tons weekly, and there is besides the unknown accumulation of the great steel concerns. Prices for lake ore are announced, as expected, 1 1/2c higher than last year, and the coke combination makes no reduction, but gradually lessens output. While prices of pig iron to anticipate future wants have been heavy, actual consumption is but moderate. Minor metals are dull, but lead weaker at 3 1/2c on forced sales.

Wool is weaker, with sales for the week only 2,332,000 pounds at the three chief markets, the smallest for many years. Prices tend lower, except for fine washed fleeces, and manufacturers are rapidly reducing production. Further reduction in shirting prints to the lowest point ever touched failed to increase the demand materially. Failures for the past week have been 209 in the United States against 27 last year, and 33 in Canada against 27 last year.

DELEGATES UNINSTRUCTED.

But Reed was the Choice of the Chairman. The Rhode Island Platform. PROVIDENCE, R. I., April 10.—The Republican state convention was held here to-day for the election of delegates-at-large to the national convention at St. Louis. Adin B. Capron, of Smithfield, who presided, said among other things, in assuming the chair:

"We want gold; we want sound money and protection and we want to nominate a man for President who will be an exponent of these principles, and there is no man whom I can more heartily name than New England's greatest statesman, Thomas Brackett Reed."

Two Assignments.

PHILADELPHIA, Pa., April 10.—Hall & Garrison, manufacturers of picture frames and mouldings, made an assignment to-day. The liabilities are estimated at \$250,000; assets supposed to be as much. Cause: Stringency in the money market and inability to make collections.

NEW YORK.—Charles M. Warner, of Syracuse, was to-day appointed receiver for James Wallace & Sons, brewers, of this city. Assets \$500,000; liabilities, exclusive of real estate and mortgages, \$120,000.

The Salvationists.

NEW YORK, April 10.—Commander Ballington Booth, of the Volunteers, reached his headquarters in the Bible house from Chicago this afternoon. Commander and Mrs. Booth-Tucker, of the Salvation army, left this city to-day for Chicago. They are expected back in New York about the middle of May. After returning here from Chicago, Commander Booth-Tucker will go about districts of New York and vicinity and see for himself how the work is progressing there.

BRIEF TELEGRAMS.

The true amount of the gold reserve is \$127,634,434. The Democratic state convention of Ohio will meet June 23 and 24, at Columbus.

The Oregon state convention yesterday instructed delegates to the St. Louis convention for McKinley. The Brooks Iron Company's mill factory, at Birdsboro, Pa., will resume Monday, after twelve weeks idleness.

Because of the breaking of their engagement, George Troutman, aged 22, shot and killed his sweetheart, Blanche Simpson, aged 19, at St. Louis, Mo. R. P. Hitt was renominated for Congress by the Republicans of the Ninth district of Illinois yesterday. Delegates to the national convention were instructed for McKinley.

Mayor Wurster, of Brooklyn, has returned the Greater New York bill to the legislature with his disapproval. A majority of the legislature may pass the bill over the mayor's veto.

After being out eight minutes the jury, in New York, in the case against the Cubans charged with being concerned in the Bermuda filibustering expedition, returned a verdict of "not guilty."

Bishop Stephen Vincent Ryan, of the Catholic diocese of Buffalo, N. Y., died at 6:10 a. m. yesterday. He was born January 1, 1825, ordained a priest in 1849 and consecrated bishop of Buffalo in 1888.

The senate committee on territories yesterday reported favorably on the bill for a congressional delegate from Alaska; adversely upon the granting of an electric road franchise through Yellowstone park.

COURT VON KOTZE SEEDS

Shoots His Antagonist in a Dual-He Practiced for the Event. (Copyright, 1896, by the Associated Press.)

BERLIN, April 10.—There was a sensation in court and military circles here this morning when it was announced that another duel growing out of the great court anonymous letter scandals had taken place in the woods near Potsdam and Baron Von Schrader, the master of the ceremonies of the Prussian court, had been shot and seriously wounded by Count Von Kotze. The latter was formerly court chamberlain and was tried and acquitted on the charge of being the author of the anonymous communications alluded to. Count Von Kotze and Baron Von Schrader fought with pistols and the latter was severely wounded in the abdomen. He was taken to a hospital, where his wounds were pronounced to be of a most serious nature. His relatives were telegraphed for and promptly gathered at his bedside.

This is the third duel of the series of about a dozen for which challenges were sent out last April by Count Von Kotze and he has repeated to-day his announcement of his determination to keep on fighting his enemies, one by one, until he has settled accounts with all on his list. Those who know Count Von Kotze feel confident that he will keep his word.

Count Von Kotze yesterday practiced for several hours with a pistol on the estate of his brother-in-law, Count Von Treskow, at Friedrichsfelds, and finally succeeded in hitting a target the size and shape of the outline of a man at every shot. He left Friedrichsfelds last night, saying: "Now I have got him." Baron Von Schrader's wound was operated upon during the day and the physicians in attendance came to the conclusion that there is no chance of his recovery.

Emperor William has been notified of the duel in a special dispatch. It is believed that Von Kotze will not be arrested until His Majesty has been heard from.

INSURGENTS ACTIVE.

They Destroy a Plantation and Take Part in Two Engagements.

HAVANA, April 10.—The insurgent leader Jesus Herreras with a banding of 200 took by surprise a lighter carrying provisions on the river Tanamo and escorted by a corporal and eight soldiers. The corporal and three privates were wounded; the rest were taken prisoners. The insurgents had one killed and several wounded. They burned such grocer stores as they were not able to carry away with them. A woman and the captain of the lighter were also wounded.

The insurgents have burned the splendid houses and machinery at the Central plantation of San Antonio, owned by the Marquessa Davaos. The loss will be \$500,000.

General Oliver, near Camajuani, province of Santa Clara, has had a severe engagement with 600 insurgents under Jose Gonzales, the colored leader, and others resulting in the defeat of the insurgents with a loss of thirty killed and many wounded. The troops lost fifteen killed and had twenty-six wounded.

BETTER FEELING PREVAILS

In Madrid in Regard to the Action of Congress—President Cleveland's Action.

NEW YORK, April 10.—A special to the World from Madrid, Spain, says: A better feeling prevails, especially among the journalists and the politicians, because the sympathy for Spain displayed by the press of Europe, especially that of France. Besides, special telegrams from the Spanish legation in Washington assure this government that President Cleveland will take no notice of the Cuban resolutions adopted by Congress, and will not move at all in the matter until the war in Cuba takes some decisive turn.

The improved feeling and the guarded tone of the Spanish press materially aid the authorities in checking anti-American demonstrations, which now are promoted exclusively by Republicans.

The government is planning for the defense of the coast in the event of war.

Argentine Sympathy.

NEW YORK, April 10.—A special to the Herald from Buenos Ayres says: The press generally comments upon the action of the United States Congress in relation to the belligerency of the Cuban revolutionists. The Tribuna and the Nacion favor recognition and express hopes that President Cleveland will approve the resolutions. The Prensa stands in the attitude of supporting Spain. The general sentiment in Argentina is one of sympathy with the revolutionists.

A Russian View.

ST. PETERSBURG, April 10.—The official Journal of St. Petersburg, in the course of a strong article on Spain's determined efforts to suppress the insurrection in Cuba, says the insurrection is merely organized belligerency, hence the insurgents have no right to be considered belligerents.

The Pietzel Helms.

PHILADELPHIA, Pa., April 10.—All the gruesome relics that figured in the trial of H. H. Holmes for the murder of Benjamin F. Pietzel, will be shipped to Mrs. Pietzel, at Galva, Ill., as soon as the law has finally disposed of the murderer. Mrs. Pietzel inquires if she cannot obtain all or part of the money taken from her by Holmes. This is interesting in view of the statement that Holmes has received a large sum for his alleged confession. She also inquires if steps cannot be taken to compel lawyer Jephthah L. Howe, of St. Louis, to return the \$2,500 she alleges he obtained from her. Her counsel is now considering what steps to take in these matters.

Murderers Sentenced.

BUFFALO, April 10.—Sentence was passed to-day upon the men convicted of the murder of Captain Phillips, the canal boat man, and his son at Tonawanda last fall. Captain George Hyde was sentenced to Auburn prison for life, Captain Graves, who pleaded guilty to manslaughter in the first degree was given sixteen years at hard labor. Irving Collins and John Quick were condemned to the state prison for life. Walker, Dixon and Tanner were sentenced to six months in the Erie penitentiary for rioting and Riley to four months in the same institution for the same offense. Lester, who pleaded guilty to taking part in an unlawful assembly was fined \$100, and Goddard was fined \$500. Wheeler was freed.

Disseas Canadian Cattle.

LIVERPOOL, April 10.—It is stated that glanders are rife in the quarantine for imported horses and it is reported that out of 100 Canadian horses in one depot forty are suffering from the glanders.

Paid the Penalty.

NEW ORLEANS, April 10.—Arthur Schneider, a German, about twenty years of age, was hanged in the Parish prison to-day. The drop fell at 12:55. Schneider was in love with a girl employed in the same restaurant. She rejected him and he started for the west, but returned, purchased two pistols, stole into the place and murdered Her-

man Schroeder, his hated rival, and almost killed the girl. He played insane, but was declared responsible by a commission of inquiry. He blamed Deputy Sheriff Jerry Duggan for the failure to cheat justice and killed him in the prison with a knife which he managed to secure.

ANOTHER COMPLICATION.

The Alleged "Confession" of the Lamborn Children Denied in Toto—Still in Jail.

LEAVENWORTH, Kas., April 10.—A fresh sensation in the murder case of the wealthy farmer, J. T. Lamborn, has developed. Annie and Charles Lamborn have made sworn statements to their attorneys denying the alleged confessions, in which the children made to their father and in which Thomas Davenport, the girl's sweetheart, was charged with committing the crime.

It was alleged by Charles Schaffer, a Kansas City detective, that he had received a detailed confession from the two children of the murdered man. This document, he refused to make public. All three had planned the crime, it is alleged, and for executing it, Davenport was to marry the girl and come in on a division of the old man's property valued at \$50,000. Now the children declare that their signatures to the "confession" were forced from them and deny in toto any connection with the crime, or knowledge of its perpetrators. There is a heavy reward for the conviction of those concerned in the murder, and a plot to wrongfully convict the Lamborn children Annie Lamborn, who made the most damaging "confession" of the two, is described as a well-influenced girl capable of being easily misled. Both the Lamborn children and Davenport are still in jail.

FEAR OF POVERTY

The Incentive to One of the Bloodiest Crimes in the History of the Northwest.

MUSKOGON, Mich., April 10.—Word was received here from Pentwater, of a bold attempt last night by some unknown man on the life of William B. O. Sands, president of the Sands & Maxwell Lumber Company.

Suspicion pointed to S. B. Minchall, a local insurance agent and attorney, as the perpetrator of the deed, and it was decided to place him under arrest. Officers found his residence locked, and a horrible shriek was heard from the floor of the sitting room with a bullet hole in her temple. Near her was the dead body of her daughter Ruby, about sixteen years of age. In a corner of the same room lay Minchall with an empty revolver clutched in his hand. He was dead. In an adjoining bedroom were found the bodies of George, aged four, and his infant brother. They were in bed together and evidently death had come upon them while they slept.

From a letter written by the murderer, found on his premises to-day, it appears that he contemplated killing his family two months ago. Fear of poverty is the excuse offered.

THE ENGLISH ADVANCE

Upon Dongola May be Temporarily Abandoned—Probably the Suakin Route will be Taken.

NEW YORK, April 10.—A special to the World from Cairo, Egypt, says: From indications here, it is thought that the plan of pushing the Anglo-Egyptian army to Dongola has been suddenly abandoned. The purchase of camels and horses has been stopped. Cromer and Sir Herbert Kitchener have had a great deal of telegraphic correspondence during the last thirty-six hours.

It has been found, it is thought, that the force up the Nile is too weak to cope with the hordes of Dervishes now in the field and ranging to the Kalfas flag, between Akasheh and Dongola. It is not probable now that any attempt will be made to advance beyond the former point at present. It is believed too, that it is the intention of the British to move strongly to the Suakin route when the time for active hostilities arrive.

A special from Rome says: The defeat of the Itallians at Teuruf, the real extent of which still remains concealed, seems likely to be the preface to the taking of Kassala. This place has been vigorously attacked.

The Fanfulla advocates the abandonment of Africa, anticipating a serious disaster. The Cape asserts that the virus has cut off the legs of a thousand of its prisoners.

THE MATABELE WAR.

Several Engagements Reported—King Lobengula Supposed to be Alive.

CAPE TOWN, April 10.—Official details of the operations against the Matabeles by Hon. Maurice Gifford, brother of Lord Gifford, of the Chartered South Africa Company, whose arm has been amputated at the shoulder as the result of wounds, shows that during four days he and his forces had five separate engagements with the enemy and they inflicted great damage upon the natives.

King Lobengula, who was the leader of the last outbreak of the Matabeles and has long been supposed to be dead, is lately reported to be still alive and ready to take the field again at the head of the natives. Various rumors have reached the different points in Africa from time to time for many months that Lobengula was still alive and had been living with some little known tribe north of the Zambesi and about the head waters of that river.

THE NICARAGUAN REVOLUTION

Doing Little Damage—Fighting Now a Part of the Programme.

(Copyright, 1896, by the Associated Press.) CORINTO, Nicaragua, April 9, via Galveston, Texas, April 10.—For several hours on April 6 and 7, the insurgent troops under the command of General Boca, president of the revolutionary government of Honduras, at Chinandega. The bombardment, however, did not dislodge the soldiers which were sent by Honduras to the assistance of the government of President Zelaya. At El Viejo an insurgent force from Leon is flanking Nagarote and threatening to attack Managua, the capital of Nicaragua. The government troops have been twice engaged with this force of Leonists, a few men having been killed on both sides; but President Zelaya's force was not strong enough to drive out the enemy and it returned to Managua unsuccessful.

MANITOBA QUESTION.

The Parochial School will be the Issue to a Finish.

MINNEAPOLIS, Minn., April 10.—The Tribune's Winnipeg, Man., special says: Winnipeg is to have a battle royal and the parochial school question is to be the issue. At the close of parliament at Ottawa, the Conservative party of Winnipeg will be invited by the Conservatives here to stand for Winnipeg at the forthcoming general elections. If he accepts the Liberals will invite their leader, Hon. Wilfred Laurier, to oppose him and here, at the birthplace of the troublesome school question, the battle between the two parties will be fought. If it occurs it will be the most exciting political battle in Canada's history.

IN OIL'S DOMAIN.

Operations Getting Lively Down in the Tyler Field.

OUT IN THE INTERIOR DISTRICT

A Number of Good Wells Are Being Brought in—The Excitement in Marshall County Over the Rogerson Well Continues Unabated—Fifteen Wells in the Immediate Vicinity of the Rogerson Are to be Put Down—Other Oil News.

Special Dispatch to the Intelligencer. SISTERSVILLE, W. Va., April 10.—Although the South Penn Oil Company's well on the Henderson farm, out in the Indian Creek territory was expected to reach the pay last night or this morning, nothing could be learned at a late hour this evening that would indicate that there was any new development of importance at the well. It is thought they have not yet reached the pay.

Guffy & Company's No. 4 Pitts, which reached the sand yesterday and was said to be making in the neighborhood of forty barrels an hour, has fallen off considerably and is now reported to be making only twenty-five barrels an hour.

Out in the vicinity of Bettman & Watson's recent strike on the Shingleton farm, near Hebron, there is some new work starting and the firm mentioned are the principal movers. Their No. 1, on the Shingleton farm is making in the neighborhood of 100 barrels a day. The Carter Oil Company has a rig on the Joseph Thibault farm, out on Middle Island and will start to spudding the early part of next week.

At the present time there is little or no work going on out in the Middle Island territory, but the indications are that there will be quite a let down the coming season. The bad condition of the roads at present is holding back quite a lot of work that would be started at once otherwise.

The Victor Oil Company is drilling at about 200 feet in its No. 1, on the J. G. Smith farm, near Hebron, and should get the sand the early part of next week. This well is located a short distance from Shingleton. The Kanawha Oil Company's No. 1, on the Williamson farm, out on Middle Island creek, which was drilled in about a year ago and said to be a dry hole, is reported to be making about twenty-five barrels a day, by operators who have looked at it. In the consensus of opinion among oil men generally that the Williamson well would be a good producer. When this well was drilled in it will be remembered that it was made a mystery for a while and later it was given out that it was dry. The latter story never was believed and from present indications it looks very much as though the well would yet be all right.

The Mountain State Gas Company will have its well on the Mason farm, out near Middlebourne, on top of the sand not later than Sunday and it will probably be drilled in about Monday.

The price of Lima and Indiana oil went down two cents to-day. Pennsylvania and other oils did not change. The Victor Oil Company and Bettman & Watson have very near all of the territory surrounding the latter's well on the Shingleton farm at Hebron, and it has been given out that they will only develop the territory as their wells drill over there now and there will be no more started until those drilling have been completed.

The Union Oil Company's well, on the McElroy farm, out near Middlebourne, is expected to reach the sand not later than Sunday or Monday.

The Victor Oil Company has the rig up and the machinery on the ground to start No. 1, on the Andrew Givens farm, near Hebron, and will commence spudding as soon as the well can be rigged up.

THE ROGERSON WELL

Has Been Pumping Over Two Weeks at the Rate of Over 100 Barrels.

Now that the Rogerson well has been pumping nearly two weeks and putting out oil at the rate of over 100 barrels per day, much attention is given to this field. Every train brings scouts, capitalists and others anxious to get a chance in the new field, says the Moundsville Herald. The Rogerson well continues to keep up above the 100 barrel mark and seems to improve rather than diminish. The produce of the well has been sold by hundreds of the operators of the country have scouts here. It is settled that a splendid pool of oil has been struck and many wells will be started within the next month. Several locations have already been made and work will be prosecuted with all possible speed. Should other produce be brought in there is a big boom ahead for Moundsville and Marshall county and the people will reap a golden harvest.

The Colerain Oil Notes.

The Edgar Berry well is due to to-day. The Flower Garden well will be shot on Monday. The Newland well is expected in about Monday. A serious cave in occurred at the Walker well at 1,100 feet. Yesterday a slight accident occurred to the drill at the Parker well.

IT WAS PHILIP HYDINGER.

The Man Run Over by the Cars at Pittsburgh a Wheeling Man.

Yesterday afternoon the remains of Philip Hydinger were brought to Wheeling from Pittsburgh, and received by his brother, John Hydinger, of the North End. It was not until yesterday that it became known that the Wheeling man who was killed near Carnegie on Wednesday was Philip Hydinger. As soon as this became known his relatives here had the remains brought to Wheeling, where the funeral will take place. Hydinger was an ironworker by trade, and was en route to Pittsburgh hunting work when he was killed.

Against the Sultan.

PARIS, April 10.—The Matin referring to the proposal of the sultan to expel all the Catholic and Protestant missionaries from Asia Minor, says that the Turkish government has decided Europe as to the causes and extent of "End an era of calls upon Europe to 'End an era of misery and prevent the recurrence of savagery.'"

Weather Forecast for To-day.

For Western Pennsylvania and Ohio, generally cloudy and probably locally rainy to southerly winds, increasing in force. For West Virginia, fair in the morning; showers in evening or night; warmer, southerly winds.

Local Temperature.

The temperature yesterday as observed by C. Schenck, druggist, corner Fourteenth and Market streets, was as follows:

5 a. m. .... 62.3 p. m. .... 58  
8 a. m. .... 64.0 p. m. .... 58  
12 a. m. .... 61.0 p. m. .... 58

Weather—Fair.
