NEIGHBORS DISAGREE

And Air Their Troubles in a Justice's Court—The Details. Squire Thompson tried a case yesterday afternoon that furnished considerable amusement to the friends of the contestants, and the latter suffered some harmless "chaffing" thereby.

Mr. Baer and Mr. Martin Thornton, next door neighbors on Chapline street, had a slight dispute over some vines that grew on the porch dividing their homes.

In the heat of debate, Mr. Thornton claims Mr. Baer threatened him with injury, but this charge did not come up for hearing yesterday. Mr. Thornton also charged Mr. Baer with trespass on personal property. The prosecution retained M. F. Dryden, and Mr. Baer's interests were looked after by S. G. Smith.

Justice Thompson held Mr. Baer for the grand jury in the sum of \$500 bond, but the defendant refused to give bond, and when the squire offered to put him under his own recognizance the defendant also refused.

There was nothing left for Squire Thompson to do but to commit Mr. Baer to the county jail, from which he was released immediately by Mr. Morris Hochheimer, who gave his recognizance. The case will come before the grand jury.

SENSATIONAL INDICTMENT

Of Congressman Stevens in the Minnesota Bank Matter. ST. PAUL, Minn., May 24.—The grand jury this afternoon returned another sensational indictment, Congressman C. F. Stevens being named and charged with an overdraft of \$2,200 in his account with the Minnesota Savings Bank, at the time when he was a trustee and acting president of the bank.

According to the receivers of the bank, the books show that Mr. Stevens, at the time of the overdraft, was a creditor of the bank for \$2,350 attorney fees and there are also two cash credits of \$1,000 each for 1892 and 1893. The receivers also explain that the technical overdraft was repaid within one month of the time when called to Mr. Stevens' attention.

Mr. Stevens, through his attorneys, will demand an immediate trial.

Hankers Arrested.

HUTCHINSON, Kas., May 24.—The announcement of the consolidation in Kansas City of the Metropolitan National Bank and the National Bank of Commerce, was followed here this afternoon by the arrest of Samuel F. Hutchinison, president of the Bank of Hutchinison, which failed recently, charged with receiving money when the bank was insolvent. Book-keeper Metz was also arrested. The Metropolitan was a large stockholder and principal unsecured creditor of the bank of Hutchinison. President Canterbury came here a year ago with backing from the Metropolitan and attributes the failure of his bank to the withholding of promised support by the Metropolitan.

Two Men Killed.

CHATTANOOGA, Tenn., May 24.—Southern railway train No. 12, en route from Chattanooga to Knoxville, ran over and horribly mutilated the bodies of two men near Mouse Creek, Tenn., this morning. Judging from all appearances it is believed that the men were murdered and their bodies placed on the track to ward off suspicion from the murderers. One of the men was Henry Preston, a resident of Athens, Tenn., the other an unknown negro.

No Truth in It.

NEW YORK, May 24.—Chauncey M. Depew was not at his office to-day, but his secretary, Mr. Duval, said that the story of the Vanderbilts' intention to establish oil works in Russia was unfounded.

In a Receiver's Hands.

OPENED ITS QUARTERS.

The Germania Association is Now "At Home" in the Egerter Building.

The Germania Association opened its new quarters in Egerter hall last night, with an enjoyable concert and ball. The upper floors of the building are leased by the association, and they were handsomely decorated with the national colors, and banners of the three societies, Beethoven Singing Society, Krieger Verein and Bavarian Society.

The red, white and black of Der Vaterland, were tastefully blended with the Bavarian blue and white, and red, white and blue. These colors were lavishly displayed in festoons from the ceilings, and in graceful drapery about the walls. The scene was an inspiration to the many gathered there, and the auspicious opening promises many enjoyable evenings for the members of the Germania Association, and their wives and friends.

President Jacob Kellackey read an appropriate address, and the Opera House orchestra interspersed the programme of song, with many of its choicest numbers, also furnishing the music for the ball, which terminated an enjoyable affair.

JUST AT THIS SEASON.

Spring the Most Dangerous of the Year.

This is the most dangerous season of the year. It may be pleasant, may often seem attractive, but back of all the pleasant atmosphere there is danger! This danger comes in some form of sickness.

Almost any sickness starts with a cold, or a chill caused by the sluggish action of the system. That is why so many people just now complain of tired feelings, pains in the muscles and bones, loss of appetite, spring fever and similar troubles.

The following is good advice from a prominent medical journal: "Pneumonia and other dangerous complaints, which result from a neglected cold, can always be avoided if a timely remedy is taken. When chilly sensations are felt they should be stopped immediately or serious consequences will follow. There is only one way known to the world of avoiding a cold or chill, and that is the use of a good, pure, strong stimulant. Nothing ordinary will do. It must be something sure in its action and scientifically prepared. For this reason nothing has ever equaled Duffy's Pure Malt Whiskey, which is acknowledged to-day by physicians and scientific men to be the only pure medicinal whiskey on the market."

Duffy's Pure Malt is always reliable and effective. People should not, however, permit any dealer to substitute something which is claimed to be "just as good" or "about the same thing."

BELLAIRE

All Sorts of Local News and Gospel From the Glass City.

The steel works is to put in gas again and the mill coal mine will be closed at least for this summer. This seems to have been definitely decided upon and it will throw out of employment at the mines and the mill over a hundred men. Gas was tried in the plant some years ago and while the supply was good the service was all right, but in a plant like that the uncertainties at that time of the supply made it very expensive and its use was abandoned. The experiment is to be tried again in the belief that the supply is more reliable and if this proves to be a fact the service will be cheaper than coal for the mill company, but it will be little short of a calamity to the miners and those dependent upon them. Time alone will solve the problem, but the outlook for the summer is not encouraging for the miners.

Frank B. Archer, who has been in the interior of the state looking after a paving contract at Athens, is now at his home here and will look after his candidacy for state senator. He is a great hustler in this line and although he has a formidable competitor in Col. W. A. Hunt, he will probably secure the great number of votes in this county. This will only be definitely decided by the primaries two weeks hence.

How many happy marriage ties are daily cut asunder by the grim destroyer, death? How many women die radiantly to the altar, only to pass a few short months of agony and pain, and then go down to early graves.

There is one cause of this ever-recurring tragedy. No woman should enter the marriage state without some knowledge of the physiology of the female organs of reproduction, and of the necessity of keeping them always healthy and vigorous. Ignorance on these points digs graves for thousands of happy women.

The most marvelous medicine ever discovered for women is Dr. Pierce's Favorite Prescription. It is the discovery of a most eminent and skillful specialist, Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. It acts directly on the delicate organs that make wifehood and motherhood possible. It makes them healthy and strong. It cures all weakness and disease. Taken during the expectant period, it insures a healthy baby and a happy parturition without a moment's painless. Women who wish to know all about the "Favorite Prescription" should write to Dr. Pierce.

Mrs. W. Robinson, Springhill, Cumberland Co., Nova Scotia, writes: "I feel that I cannot say enough about your 'Favorite Prescription.' I was confined on the 8th of April, and my only sickle pain during the time I can truthfully say that your medicine worked wonders in my case. Although the physician was in the house I did not seem to require it and before I had to keep a girl three months till I was able to do my work, I recommended the medicine to a lady friend to whom she is to take, she expects to become a mother next month."

Constipation if neglected will lead the most robust to the physician's office. The blood gets loaded down with impurities which it deposits in every organ and tissue in the body. Serious illness is the inevitable result. Dr. Pierce's Pleasant Pellets cure constipation. They are prompt and pleasant in their action. They never gripe, temporarily palliate, and do not merely if you accept something said to be "just as good," you will regret it.
