PRICE TWO CENTS .- { ON TRAINS

WORK OF SENATE

May be Slightly Delayed by the Sugar Schedule Debate.

THE REPUBLICANS MAY AGREE

Among Themselves Before the Schedule to Taken Up in Order to Expedite the Measure-Sonator Aldrich's Illness a Drawback-Pettigrew will Offer Ris Auti-Trust Amendment-Contests About on the Agricultural Schedule-No Programme in the House.

WASHINGTON, June 6.-While the tariff will continue the general topic of discussion in the senate during the present week, there is no certainty as to what portion of it will receive especial attention. This uncertainty is due large by to the difficulty of determining when the sugar schedule will be taker up. It it so generally un-destood that this schedule will consume considerable time that there is no effort to outline beyond it the course

cossume considerable time that there is no effort to outline beyond it the course of proceedings.

The wood schedule will afford a brief respite Monday before reaching the sugar question, as that subject was left undisposed of when the senate adjourned on Saturday. Senator Allen probably will enter a motion to strike out the entire paragraph relating to sawed lumber and the motion may lead to other speckes than his own.

Whether the sugar schedule will be taken up in order is still undetermined. There are many differences of opinion on the subject, but the prevailing destre is oget the schedule out of the way as soon as possible. This is the case on both sides of the chamber, but it is especially true of the Republicans, as the responsibility for action rests there. Still there is a desire among Republican senators that there should be absolute agreement among themselves on the rates of this schedule before entaring upon its discussion in the senate, and it is realized that this may be difficult of attainment without a further exchange of opinions than has yet been permitted. There is no doubt in any event of a post-poisement until Senator Aldrich's return to the senate. He is still confined to his rown, but is expected to be out early in the week. That the Hawalian treaty will be protected by the finance committee is considered actively, but a caucus may be necessary to determine whether other changes should be made. Senator mittee is considered settler, but a caucum may be necessary to determine whether other changes should be made. Senator Petigrew has decided definitely to ofter his anti-trust amendment in connection with this scheme, but beyond the fact that it will lead to a number of speeches there is no certainty as to its course or its fire.

The tobacco schedule immediately fol-

there is no certainty as to its course or its fair.

The tobacco schedule immediately follows the sugar schedule; but if it should be reached on Monday it would be necessary also temporarily to pass it over, as the committee has promised the tobaccomen a hearing on Monday night. They will ask for two dollars on wrapper and thirty-five cents on filler tobacco. There is also an inclination to return to the language of the Wilson law on this subject. This is understood to be the wish of both the importers and the tobacco growers. There are many sharp contests shead on the paragraphs of the agricultural schedule, which is next after tobacco, including those on rice, on which there will be an effort to secure a return to the bouse rates; on cattle, on which there will be an effort to secure a return to the claimed there should be an ad valorem raiser than a specific duty and on fish, this cheory and sait. The innovation of a duty on tea is also proposed on this schedule, but it is practically certain that this provision will be withdrawn by the committee. Thus what would have been one of the severest contests over the fill will be avoided. The cotton and spirit schedules will, it is thought, excite comparatively little debate.

The house has no work ahead of it this week and it is the intention of the majority leaders to adjourn to-morrow until Thursday and from Thursday until Monday. Mr. Simpson and other members of the minority doubtless will essay the usual manoeuvres with the purpose of embarrassing the Republicans, but in the present condition of the house their latting is narrow and they easily can be overborn by their adversaries.

DEATHS IN A FIRE.

Three Piremen Loss Their Lives im a Fac

tory Fire in San Prancisco, SAN FRANCISCO, June 6.—A fire in the southeastern part of the city at noon to-day, cost three firemen their lives and entailed a property loss of \$100.000.

Killed:-John Mahoney, of Chemical engine No. 6; Frank Keller, steward of Hose cart No. 2; James Hallinan, driver of Truck No. 1,

roe cart No. 4, Same Hamman, driver of Truck No. 1.

The fire started mysteriously in the four-story brick building owned by Schroth & Westerfield and leased to the Standard Biscuit Company. Work in the factory ceased for the week at 520 yesterday afternoon and so far as known, the only occupants of the building this morning were John Erwin, the book-keeper and W. Cook, the cashler, who were at work in the office. Cook departed at 11 and Erwin was still occupied with his books at noon when a fireman rushed in, conveying the information that the building was solared in the upper stories. Erwin had been unconscious of the fire, which had been unconscious of the fire, which had been observed but a few minutes earlier by several passers-by, who were startled by a sudden burst of flames in the fourth story.

After the first alarm the fire chief turned in a second and general alarm.

After the first alarm the fire chief turned in a second and general alarm. A stiff breeze fanned the fire within the brick walls, caused it to spread with extraordinary rapidity and it was soon apparent that the interior of the structure would be entirely destroyed. Adjacent to the brick factory was a row of old wooden buildings, including a branch of the Salvation Barracks and the Southern Police stational. These seemed doomed. Fortunately the police station contained only three prisoners but the terrified yells and sppeals of the trio to be Mberated, caused intense excitement among the gathering crowds. They were transferred as quickly as possible to the Central station.

Richard, the socialist deputy who had referred to some of his colleagues as 'police spies,' was one of unwonted scandal, and violence. M. Brisson, after business was resumed, declined to hear Juares, who interpeliated the govern-ment on what he called an 'attempt to muzzle a deputy,' basing his refusal on the ground that no notice of interpella-tion had been given.

muzzle a deputy, basing his refusal on the ground that no notice of interpellation had been given.

"A furious uproar followed. M. Brisson was pale with anger, but kept himself well under control.

"Never in the bitterest invective employed against an opportunist minister by demacques of the extreme left was there greater violence than in the language of which M. Brisson, who owes his seat largely to the socialist vote, was the unjust object.

"Has, Brisson," Canaille de Brisson," Mort a Brimmon."

"Miserable reactionary, you will never be president; traiter that you are," 'old rascal, resign, resign.'

These are fair samples of the epithets which the entire socialist party, standing on the motor of the chamber hursed at the president while he, unable to maintain order, brought the sitting to an abrupt close. Never has a maddened minority exerted a more tyrannical power to humiliate a representative body. It is this element of humiliation that made the scene so utterably painful and sugto humiliate a representative body, is this element of humiliation that m the scene so utterably painful and se egstive."

WAS A PURE FAKE.

No Truth in the Story of the Nizam Dia-

mend Rebbery. LONDON, June 6.—The premier of Hyderbad telegraphs to the London papers this morning a story, widely circu-

pers this morning a story, widely circulated to the effect that the imperial diamond, the property of the nizam of Hyderbad, had been stoien, is pure fiction. The original story represented that the thief had replaced the imperial with a clever substitute, and that the imposture was for a long time successful.

The imperial is the largest brilliant in the world, weighs 180 carats and has 55 faces. It was sold to the nizam in 1891 through Alexander Jacob for \$2,000,000, though this sum was very much in excess of its real value. The transaction gave rise to complicated litigation, the Indian government authorities objecting to so large an outlay by the nizam for a mere luxury.
