TAKE GOOD ADVICE.

Many Men and Women Have met Disaster Because they Neglected to do so. "It is a wonder people live as long as they do," said a leading physician while conversing with some newspaper friends recently. "Every breath that is taken contains poison. Millions of germs, so small they cannot be seen by the naked eye, are drawn into the lungs, the throat, the stomach, and while many of them die, thousands of them live and feed upon the body and cause what is called disease. Germs are the source of all disease; kill the germs and you cure the disease." So interested were his listeners with the above remarks that the doctor continued: "You naturally ask what will kill these germs? I am sorry to say, only a few things. The surest safe guard against all germs is pure whiskey—pure, mind you. Germs do not thrive where it is used judiciously. Unfortunately, there is but little pure whiskey to be had, and know of but one which I can absolutely recommend, and that is Duffy's. I have analyzed it carefully and found no fusel oil, no impurities, and nothing that could harm even a child. Duffy's Pure Malt Whiskey is recommended by such high medical authorities as Dr. Henry A. Mott, Prof. William T. Cutter, Dr. Carnwell and others. Understand me, I advocate the use of whiskey only as a medicine and not as a beverage. As a medicine it is strengthening, restoring and beneficial, and is indorsed in the highest terms. Under no circumstances, even as a medicine, use any but the pure, and do not allow any druggists to persuade you to take any other."

BASE BALL.

Sporting Editor of the Intelligencer. SIR—I am endeavoring to get hold of a few players whom I know will strengthen the club. All of my last year's team is reserved but I only expect to use four or five of them. Nothing has yet been done regarding grounds, but it is my impression that there will be no trouble to make arrangements when I come to Wheeling, which will be before the 23d. We may possibly lose Billy Campbell, as I heard that there was a possibility of a Western league club drafting him. I hope such is not the case, as I believe him to be one of the best pitchers in the Inter-state league, and with a good club behind him he will lose very few games. Donald is sure to be one of the catchers and Taylor will be on third unless some trade of big advantage is made. Pitcher Lucas is another that is pretty sure to hold his job. Outside of these men I can't say who will be on the team, as I can't tell just who I will be able to get. NO FAVORITES WILL BE PLAYED; I WILL ONLY HAVE BALL PLAYERS WHO WILL WORK HARD FOR THE CLUB'S INTEREST AND WHO WILL AT ALL TIMES BE GENTLEMEN.

As soon as I get my arrangements made for grounds I will proceed to get all the players signed to regular contracts.

Justice and Bradley are two more players who are good ones and will most likely be on the team next year. It is my intention to move my family to Wheeling as soon as grounds are secured, and then I will go on matters regarding the club.

The prospects of the league look very bright and I observe that President N. E. Young remarked at Philadelphia last week that the Inter-state league gave him less trouble than any other in the country and he believed it to be one of the most successful.

In my eyes Wheeling has always been a good base ball town, but every team they have had in the last eight years (with one exception) lost money. I do not want to have that experience the coming season, and therefore I expect to take my time in getting the right location and want to be sure to get a ground that will be big enough to play on, as I think without plenty of room for all the players to show their ability that a game is robbed of half its attractiveness.

Next year there will be some good clubs, as nearly every club in the league will be strengthened, and as Wheeling was a tall order, it will have to be strengthened more than any of the others to enable it to stand well in the race.

I do not say that I will give you a pennant winner, but I will give you a club that no person in the city will be

afraid to acknowledge as representing their city. I am in hopes that I will be able to play Sunday ball, and if we can I will then be able to lay out money to such an extent that you will have one of the greatest clubs that ever represented your city, and when saying it I am aware that you have had some wonderfully strong clubs. The Dayton club has lost two of its strongest players by the draft and it looks as if they will lose a couple more, and that, of course, will weaken them somewhat and they will have hard work to fill the vacancies. I am trying to make a deal at the present time for a couple of players who will be big cards in Wheeling. One is a noted college player who would play at short stop, and the other is a catcher now with a National league club. Hoping to see you and all the rest of the boys when I come to Wheeling, I remain yours very truly, F. W. TORREYSON, Manager Wheeling (not Saginaw).

FOOT BALL.

The practice of the University of Pennsylvania football eleven yesterday was in secret, and lasted for an hour and a half. George Woodruff gained much information on his trip to Cambridge, last Saturday, and yesterday afternoon made practical use of this knowledge. Before the practice started he spoke of the game between Harvard and Yale, explaining the different plays and telling the men what to expect. After this talk, the 'Varsity went through a half hour's signal work, in which they rehearsed different sets of signals and practiced for new formations. Then they lined up against the scrub for nearly an hour. The 'Varsity played a good game and scored three touchdowns and a field goal. The physical condition of the team, barring Dickson, right, and Weeks, quarterback, is excellent. Dickson's injured knee will in all likelihood, keep him out of the Harvard game, while Weeks' complaint is a weak stomach, which is coming around all right, and will not prevent him from playing. Hedges will take Dickson's place next Saturday, with Boyle at the outer end. The latter was in the line-up Monday for the first time since the Brown game and played his usual fine game. The 'Varsity team will be taken away probably on Wednesday to some secluded place for a few days of rest and secret practice in signals. The exact place is kept a secret, but it is thought to be Delaware water gap.

The Acmes, of Steubenville, will play W. A. C. at the ball park Saturday afternoon. The former escaped by the score of 8 to 0 last Saturday, but W. A. C. promises to run it up the ladder this time. At Steubenville the crowd interment when a touch-down was imminent, but the Acmes will receive different treatment here.

CYCLING.

The L. A. W. National Circuit of 1897 opened at Jacksonville, Fla., May 15, and closed at Bellair, Fla., on November 13, the circuit chasers visiting thirty-five cities of sixteen states, and the District of Columbia, 165 professional events being run in fifty-eight days. The standing of the circuit chasers as follows:

J. Loomis, M. Major Taylor, O. S. Kimble, Fred C. Hoyt, Charles L. Newton, Earl H. Kiser, Charles Hadfield, Watson Coleman, H. B. Freeman, J. A. Newhouse, Robert Walthour, H. R. Stenerson, Charles S. Wells.

A year ago the Rambler set the pace for low prices in 1897, by announcing their wheel at \$50. This week they have come out with \$60 at the masthead for 1898 wheels, and \$50 for the 1897 wheels left over. This will no doubt be the standard price for 1898 wheels on chain mounts, but the price for chainless wheels will be away up, \$100 and \$125.

The difference in the cost of construction of the two styles is probably not \$10, but the chainless style is the fad of the hour just now and those who would follow the god of fashion must pay the price.

Speaking of the chainless wheel, it is not likely it will attain popularity in this section, on account of the rough and hilly roads. The vibration and strain are largely taken up in the chain of the present style wheels, but in the chainless it works itself through the cog mechanism largely to its injury and wear. This, with the tremendous difference in price, will likely give the chain wheel a lease of life in Wheeling, at least until the chainless reaches a state approaching perfection. At any rate, the evils of the chain are more in fancy than in fact, and the new style of construction has been brought about through the desire of makers of wheels to create a large sale of new wheels through discarding of old mounts.

BOWLING.

Table with 3 columns: Won, Lost, Per. Lists teams like Auroras, Cosmopolitan, The Bowlers, J. Wiles, Ideals, Tidal Waves, Silver Globes, Defenders, Aber-Nit.

Last night's games in the Wheeling league resulted in two defeats out of three games for the Pirates in their contests with the Ideals. Pirates were away off, three men rolling in the 300-class on three games. Pirates now drop back to third place and are tied with The Bowlers, Henning's aggregation.

BOWLING PAROXYSMS.

"Life is filled with 'bad breaks.' Spare the pins and win the game. Strikes show which way the game goes. Shooting craps will never develop a bowler. The yellowest bowler may have the bluest blood. A good bowler always puts his best foot forward. A man may bowl and yet be a total abstainer. Some bowlers are cranks. Others are ball bearings. A ball in the hand is worth two in the rack. It's a wise man that knows his own name on the score board. Some men were born high rollers. The true bowler is self-made. Give some people an alley and they will want a ball with it. The men who bowls and bowls, may see pink alleys if he doesn't quit. If Hades is paved with good intentions, some pin boys ought to go there."—Columbus Dispatch.

AN IMPORTANT MEETING

Of Pennsylvania Republican Leaders Stated, at Which It is Proposed to Bury All Factional Feeling.

PHILADELPHIA, Pa., Nov. 15.—The Evening Telegraph to-day says within the next ten days or two weeks a conference of more than ordinary significance will occur between Senator Quay, secretary of state Dave Martin, and Senator Chris Magee, of Pittsburgh, which will no doubt have a material effect upon the course of state affairs in the gubernatorial contest.

The recent meeting between Senator Quay and Secretary Martin in the city and between Senator Quay and Senator Magee, in Pittsburgh, is said to have been with the hope of putting aside old animosities and also arranging matters that the three could unite upon a candidate for governor who would be agreeable to all. It was at these meetings, it is said, that the preliminaries for the reported coming conferences were arranged. The reported meeting place is said to be in this city, but this may be changed.

In addition to these three named, several others are mentioned as likely to be present, among them Thomas Dolan. In conclusion, the article says that the final details of the meeting are now being arranged by an emissary of Senator Magee, who is in Florida, with Senator Quay, and who will bring positive news of the exact time of the home-coming of the senior senator.
