AMUSEMENTS.

Mr. Charles Coghlan, the greatest English-speaking actor in the world, will make his appearance at the Opera House this evening, for the first time in several years, presenting his new romantic comedy drama, "The Royal Box," which was first produced in Washington, at the Columbia Theatre, last Monday evening, with great success. Mr. Coghlan will be supported by a company composed of the most talented actors and actresses in America, which includes Mrs. Louise Thornyke-Boulicault, Miss Grace Fikins, Miss Lulu Klein, Miss Gertrude Coghlan, a daughter of the actor-author, Misses Adelle Plunkett and Mearns, E. J. Ratsch, Alf Albert Brunning, Walter Graven, Charles Stanley, Claude Brooke, Frank Sheridan, Guy Nichols, Taylor Granville, William Morton, Jr.

This play is presented in five acts, showing a reception room at the Swedish Embassy in London. Clarence's lodgings near the Strand, the "Cat and Piddle" inn at the Savoy, the actor's dressing room and the stage of the Drury Lane Theatre, and again Clarence's lodgings. The company carries a full equipment of magnificent special scenery, and in this particular the production will be unsurpassed by any stage presentation which has ever been seen in this city.

The time of the action of the play is the year 1810, just preceding the regency of the Prince of Wales, son of George III. The story involves Clarence, the most eminent actor of the day, and personages of high social life and dramatic circles and people of the stage. While the motif is a pure one, there is a strong coloring of intrigue permeating the story relating to the unrequited love of a great lady of the court for the actor, who, though infatuated with her, loves her in an honorable way.

ASTHMA AGONY.

Munyon Has Mastered This Living Death.

A GREAT MEDICAL DISCOVERY.

No one who has not experienced or witnessed the agonies of asthma can realize the horrors of this disease. It is little exaggeration to say that sufferers from asthma die many times.

Acute paroxysms frequently result in unconsciousness and sometimes in death. Like many other diseases which have baffled medical skill for centuries, asthma has met its master. Munyon's Asthma Herbs will stop the most violent paroxysms of asthma in three minutes.

They are compressed into tripartite pastilles, the most convenient form for burning ever discovered. Used with the Asthma-Cure, they will positively and permanently cure the worst forms of asthma. Professor Munyon guarantees it. A box of Munyon's Asthma Herbs with his Asthma-Cure may be obtained from any druggist for one dollar.

Mr. Daniel W. Fink, 139 Church Street, Manchester, N. H., writes: "I was a sufferer of my family suffered from asthma for a long time. Her distress during the paroxysms of short breathing was very great. She died of the disease. I tried many treatments without obtaining more than temporary relief. Finally, I placed her under treatment with the Asthma-Cure, and she was completely cured her disease. For sale by druggists. Mostly 25 cents. If in doubt, write to Professor Munyon, Philadelphia, and get medical advice free."
