floor brush, a bundle of Scandinaclothing left by some immigrant
a square prekage that looked like
real thing" were rattled off. The
age was composed of samples of
rick, and its purchaser left them
twhere he opened the lot. Five ovtis went for an average of fifteen
s apiece. A violin done up in a
cloth was hauled from the heap.
Brown, a musical enthusiast, surered \$1 and found that \$7 worth of
trs would be essential to the future

repairs would be essential to the future appliess of that fiddle.

Some fine canes and a bundle of fish soles went like hot cakes. The crowd vas in the fever now and the bidding attled up and down the line like a seres of freworks explosions. titled up and down the line like a ser-of freworks explosions. Practical form in the back of the hall varied the occedings by making mock bids and otesting that some innocent dealer, to didn't want that particular thing all, had been the would-be buyer, all led to war, red war, among the

Poppers wants it!" Hillser bid \$2!"

sir; never; these fellows are too eavy sack was taken as a chance

A heavy sack was taken as a chance, and found stuffed with potatoes. Two baby carriages were sold to the same man, amid loud shouts of "Twins!" An antique chair, in fair condition, went for a nickel. A leather hat-box was carried with the contents a beauty of the contents. for a nickel. A leather hat-box was snapped up, and its contents—a beaver of the vintage of 1859—hurled furiously into a corner.

Just at noon came the climax of the Just at noon came the climax of the day-the last trunk. It was only a little trunk, but as it fell upon the barrier it emitted a sharp metallic clink that brought every man in the house scurrying to the auctioneer. Colonel Williams pawed the tfunk lovingly.

"What am I bid, bid, bid? Make it a half, a half, a half," cried he.

"Two dollars!"

"Two, I'm bid-make it a quarter, a quar-

"Three dollars!"
"Three, I'm bid," and the little trunk
tlinked again. "Make it a half, a—."
"Four dollars!"
"Four dollars! And a quarter? Anybody a quarter? Yes? And a quar-

"Five dollars!" "Five dollars!"
The frenzy of speculation and of biditing was upon that bunch in dead earmest. They bid and they shouted, and
they puffed and panied. They shook
rolls of money and they broke their
thoraxes until all the walls around were
oddly frescoed with purple chunks of
fiving lung. At last a man with loads
of money got the trunk. He seized his
prize, he dragged it to the floor, and
the bottom burst.

prize, he dragged it to the hoor, and the bottom burst.

Out poured, in shining, glittering glory, with a cheery clink and chink, one hundred pounds of the best ten-penny nalls, and the man tore what little hair had been left him by time

one hundred pounds of the best ten-penny hails, and the man tore what little hair had been left him by time and fortune.

Then the crowd called express wag-ons and took the goods away with them. The nails were left there and are presumably still upon the auction floor.

## WHAT IS THIS DISEASE CALLED DYSPEPSIA?

DISPEPSIA?

Like a thief at night, it steals in upon us unawares. The patients have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy: the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is feeling like a heavy load on the stomach; sometimes a faint, all-gone sensation at the pit of the stomach which food does not satisfy. Eyes are sunken, the hands and feet become cold and clammy. After a while a cough sets in, at first dry, but after a few months it is attended with a green-fish colored expectoration. The patient leels tired all the while, and sleep does not seem to afford any rest. After a time is becomes nervous, irritable and sloomy, and has evil forebodings. There is a glidliness, a sort of whirling sensation in the head when rising upsuddenly. The bowels become contive; the skinis dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow; comes thick and stagnant; the whites the eyes become tinged with yellow; urine is scanty and high colored, dethe urine is scanty and high colored, depositing a seediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste and sometimes with a sour taste and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn Bresent. It is thought that nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have traited it for a liver compilaint, some for dyspensia, others for kidney disease, etc., but none of the various kinds of treatment have been attended with success.

the Shaker Digestive Cordial ranses the food eaten to be digested. This will cause an appetite for more food and this being digested will result in an lorcease of strength, an increase of fiesh and an increase of nerve power.

The tired, weary feeling will give way to viscous descriptions.

The tired, weary feeling will give way to vigor and courage. The pale, thin and emaciated will recover their color and plumpness, because red blood and fat are the result of properly directed food. A ten cent trial bottle will produce a result. Its good effect will be realized at once. You will not have to take a dozen bottles to find out if it is doing you any good. Try it and then give praise to the chakers of Mount Lebanon, New York, for the relief that you obtain.

CASTORIA. Chat H. Fletcher

# RHEUMATISM

The Features of the Money and Stock Markets.

Markets.

NEW YORK, Dec. 13.—Money on call firmer at 14/63 per cent; last loan 2 per cent; closed at 26/2½ per cent. Prime mercantile paper 36/4½ per cent. Steriling exchange steady, with actual business in bankers' bills at 14/83/48/48/4 for demand and at 34/82/46/48/2½ for 60 days. Posted rates 34/83/46/48/4 and 34/86/48/48/4. Posted rates 34/83/46/48/4 and 34/86/48/48/2. Charterial bills 34/81/48/48/4 Silver certificates 58/4/65/3½c. Bar Silver 68/4c. Market for securities offered every appearance of breadth and strength, the buying being vigorous and aggressive and well distributed. The fact was not to be ignored, however, that the stocks of southern and southwestern roads, which were favorites with the bulls last week did not share in the advance proportionately, the price being held down by liberal offerings. A decrease in earnings for the first week in December, reported for Louisville, and a somewhat unfavorable showing for the same period by Chesapeake & Ohlo, may a somewhat unfavorable showing for the same period by Chesapeake & Ohlo, may have accounted for this, but there was a suggestion of profit taking in the movement of these stocks in face of the general strength manifest elsewhere in the market. The jump in Sugar to 145½ in the course of the first hour etimulated the whole market. The dissemination of rumors that an extra dividend was again under consideration was the instrument employed to affect this rise, and the motive of it appeared in the heavy offerings at their level. The stock was supported, however, at a certain stage of any deciline all day and closed at a net advance of over a point. The government crop report with its revised estimate of a wheat crop of 530,000,000 bushels caused a lively outbreak of speculation in the somewhat unfavorable showing for the wheat crop of \$30,000,000 bushels caused a lively outbreak of speculation in the grangers, the high record price for wheat with this heavy yield to draw on being regarded as insuring prosperity to the wheat carrying railroads. Still another element of strength in the day's market was the fump in price of Metropolitan Street Railway. This stock rose nearly 5 points to 125, in strong contrast to the persistent heaviness in Manhattan, which dropped at one time nearly 2 points on account of the published reports that syndicates had already been formed to finance the proposed undergound rapid transit plan. Manhattan fully recovered before the close and shows a small frational net gain. Union Pacific showed a sharp recovery from its Pacific showed a sharp recovery from its recent depression on the strength of in-spired reports that the reorganization could be carried through with a moderate increase of the proposed bonded indebtedness and preferred stock and that the subsidized portion of the Kansas Pacific was not deemed essential to the success of the plan. There was some heaviness in local gas escurities, owing to current rumors of difficulties in the way of the proposed amalgamation of the local companies. The day's buying was in large part professional and commission house business was on a small scale. London was, however, a liberal buyer of stocks in this market. Quite a marked feature of the day was the large number of small lots of dividend paying stocks which were bought. This class of buying appeared in the gilt-edged investment stocks, which rarely move, but was could be carried through with a moder ment stocks, which rarely move, but was also manifest all through the list of divi-dend stocks. A feature of the day was the stiffening of call loan rates to 3 per cent, though the rate cased off again be-fore the close. The rise in the rate was attributed to a sudden and rather urgent demand while offerings were rather light. attributed to a sudden and rather urgent demand while offerings were rither light, for the time being. Other departments of the money market were unaffected. Net results of the day's trading were uneven, net gains exceeding a point in the grangers, the coalers and Baltimore & Ohio, but showing small fractions for the most part in the general list.

The bond market continued active and strong, the Atchison and Northern Pacific issues being prominent. Net advances of from 1 to 2 points were shown in a number of bonds. Total sales \$3,55,000.

The total sales of stocks to-day wer 340,500 shares. Evening Post's London financial ca-

blegram: The tone of the stock markets was good to-day, but business was checked by the commencement of the settlement. Money was dearer, the rate being 4 per

by the commencement of the settlement. Money was dearer, the rate being 4 per cent. Contangoes on Americans averaged 5 per cent.

Americans showed an excellent tone, although business was confined to professional operators. Prices closed at the best, the feature being a sharp jump in Union Pacific on rumors that the K ansas Pacific matter had been settled.

I have to-day interviewed many leading houses concerning the position and prospects for Americans, and am impressed by the unanimity of the favorable views held concerning their prospects in the next six months or so. At the same time it has been said that such views are mainly based on news from New York such as the conditions of trade and the aspect of Wall street, for on this side the public still abstain from idealing freely. Grand Trunks are still booming. Mines were distinctly better in good quarters, though probably specularities. od quarters, though probably specu

la good dataset, though a latively.

Argentines were strong.
I am told that the Baring estate company, formed three years ago to take from the Barin of England certain assets held on behalf of the old firm of Baring Bros., is about to pay all its debentures. This means the end of all the Baring estate liquidation on Argentines, the remaining securities reverting to the firm of Baring Brost.

The new Union Pactio preference shares were largely dealt in to-day for a special settlement. The money rate here

special settlement. special settlement. The money rate here was strong at 3 per cent, the bank lead-

ing extusively. BONDS AND STOCK QUOTATIONS.

Breadstuffs and Provisions.

wheat that shook the pit to its cen ter for fifteen minutes, about an hou from the close of the session. That deliv ry was worth from \$1.04½ to \$1.55 mos from the close of the session. That delivity was worth from \$1.04½ to \$1.55 most of the morning, and all at once it began to show decided weakness. Before the crowd could realize what was happening \$1.00 morning of the morning and the second could realize what was happening \$1.00 morning and the close of \$1.00 morning \$1.0 ment, although a firm and higher opening at Liverpool caused the price of May to advance somewhat at first. The government report, when finally posted, estimated the yield at 530,000,000 bushels, or from 50,000,000 to 70,000,000 bushels, or from 50,000,000 to 70,000,000 bushels, alrger than statistics generally have predicted. Bu the report had been pretty well discounted, and followed as it was by a surprise in the shape of a visible decrease of 1,000,000 bushels, where an increase of 1,000,000 bushels had been expected, it had little or no effect. A feature of the early market information was the large quantity of contract wheat added since Saturday morning to the stock in regular Chicago houses. From unilcensed elevators, or mixing and celaning houses, as they are sometimes called, there were transferred 197 carloads and 50,000 bushels No. 1 northern spring; by lake 155,800 bushels No. 1 northern spring; by lake 165,800 bushels No. 1 northern sprin ing at Liverpool caused the price May to advance somewhat at first.

pressure increased and the fact devel remained for a short time. the market began to slip away anoth

CHICAGO—In cattle an unexpectedly small' 'run' caused buyers to hustle earlier than usual, and the ofterings went off like hot cakes, prices ruling on an average of 15@25c per 100 fbs. higher than last week's lowest figures. The choicer lots of fat beeves sold the greatest advance. Sales were at \$3.50@4.00 for choice to extra holiday cattle, the bulk of the offerings crossing the scales at \$3.00@4.00. Calves sold at \$5.75@5.50 for choice to extra holiday cattle, the bulk of the offerings crossing the scales at \$3.00@4.00. Calves sold at \$5.75@5.50 for choice to extra holiday cattle, the bulk of the offerings crossing the scales at \$3.00@4.00. Calves sold at \$5.75@6.50 for the better grades. In hogs the limited supply made Chicago packers more eager to buy, and prices were strong at an advance of 5c per 100 fbs. Sales were largely at \$3.30@3.40. The late hog market was weak. Trade in sheep and lambs was fairly active. Sheep were in demand at \$3.70@3.50 for the commonest lots up to \$4.50 for strictly prime lots, western fed lots fetching \$3.50@4.50. Lambs were in good demand at \$3.75@4.00 for culls, up to \$5.50@5.55 for choice to prime. Exporters were light buyers of heavy sheep at \$4.25@4.50. Receipts—Cattle 10.000 head; hogs \$3.900. head; sheep 17,000 head.

NEW YORK—The dry goods market opened with hopeful conditions prevailing, although there is little tangible improvements reported in any line. Woolen goods have still the best of the market and are selling quite freely, chiefly through read salesmen, although re-orders by mall are of frequent occurrence. There are vague rumors of increased business in staple cotton goods, but it is not possible to run any of these down and to say just when and where the improvement has taken place. ber began to weaken under a sellin pressure which was credited to Armour The decline was slow at first, but as th oped that December was receiving practically no support, the market began to slide off in a way that was sensational in its rapidity. By 12 o'clock December had declined to \$1 02, where it Sudden't Sud December had declined to \$1.02, where it remained for a short time. Suddenly the market began to slip away another ½c at a time, and in fifteen minutes the price had struck 97½c. Then it rebounded to \$1.02, but again declined to \$9c, and was bringing 99½c at the close, or 5c under Saturday's closing price. May was of course affected, but not severely, it declined to \$90½c during the headlong plunge of December, but by closing time had reacted to \$1½c, a decline for the day of but ½c. Undoubtedly the heavy arivals of wheat had much to do with the decline, especially in starting it, but Ailen and Grier, the bull clique brokers, were mainly responsible for the break to \$7½c, their offerings being especially heavy. It was regarded by many as a move on the part of the clique to prevent further heavy shipments to this market, in view of the much higher prices prevailing here than in other markets. The market was quiet but rather nervous at the close.

Corn, though quiet, was firm. Small country offerings and bad weather were helpful factors.

Oats were slow within an extremely narrow range.

Some strength developed in provisions during the morning on the small run of hogs, and prices opened slightly higher and improved to a limited extent. The rise in prices was taken advantage of by packers to sell, but the offerings were fairly well taken care of until the smash came in December wheat. This made buyers timid, and in the absence of support the market log! its advantage. At the close May pork was 2½c lower at \$5.5; May lard unchanged at \$4.12%, and May ribs unchanged at \$4.12% and May ribs unchanged at \$4.12%. And May ribs unchanged at \$4.12% and May ribs uncha
