

A WAR MEASURE.

Chairman Dingley's Introduction to the Report.

OF PRESENT REVENUE BILL.

HE OUTLINES THE NECESSITIES OF THE GOVERNMENT, FORCED UPON US BY THE UNWELCOME WAR WITH SPAIN—WHAT REVENUES WILL HAVE TO BE RAISED FOR THE EXPENSES OF THE GOVERNMENT—UNDER PEACE CONDITIONS DINGLEY TARIFF BILL WOULD HAVE BEEN ALL RIGHT.

WASHINGTON, April 26.—Chairman Dingley, of the ways and means committee, to-day submitted to the house with the war revenue bill the following report:

The precipitation on the United States of a war with Spain has rendered it necessary to immediately provide ways and means to meet war expenditures on a scale demanded by modern naval and military operations. Such an unwelcome demand on our resources comes at a time when under the workings of the tariff act of July 24, 1897, we had begun to overcome in large measure the injurious effect of anticipatory importations, and had already received in the months of February and March revenue more than three millions in excess of ordinary peace expenditures for these months (four millions of the expenditures appearing in the March statement having been made on the account of preparations for national defense under authority of the joint resolution of March 9), and that, too, with a large falling off customs revenue the last ten days of March in consequence of the disturbance of trade arising from threatened war.

There is no doubt if peace conditions had continued the estimates of the secretary of the treasury that the revenue for the next fiscal year would reach \$390,000,000—exclusive of postal receipts—\$48,000,000 in excess of the revenue for the fiscal year 1896 and more than that sum in excess of which the revenue for the next fiscal year, 1897, would have been if it had not been for anticipatory importations in the last four months of the latter year to avoid the increased duties of the new tariff—would have been more than realized, and these facts would have fully met the expenditures for the next fiscal year if it had not been for the increase caused by the difficulties with Spain, inasmuch as the expenditures for the fiscal year 1896, exclusive of postal expenditures paid by postal revenue, were only \$352,000,000, and for the fiscal year 1897 only \$365,000,000.

These difficulties, even before war conditions arose, had so stirred the public mind as to demand largely increased appropriations for enlarging the navy and for national defenses. The destruction of the United States battleship Maine in the harbor of Havana on the 15th of February last so intensified the situation that congress a few weeks thereafter realized the necessity of taking prompt measures to meet for any exigency, and by joint resolution appropriated \$50,000,000 for national defense.

Under the authority of this joint resolution about \$25,000,000 of this appropriation have already been practically used, although payments have as yet been made for only a part of this sum; and the liabilities for the remainder of the appropriation will have been incurred within two weeks.

An examination of the condition of the treasury will make it apparent that no time should be lost in providing ample ways and means for carrying to successful conclusion the war in which we are now engaged.

SOMERS TIED UP.

The United States Torpedo Boat Will Remain Useless to Us.

FALMOUTH, Eng., April 26.—Commander Hazleton, of the United States torpedo boat Somers, was notified last night, as a result of the neutrality measures adopted by the British government that he must not leave British waters. Consequently the Somers lowered her colors at 1 o'clock this afternoon. A British torpedo boat has taken up a position in her vicinity. The fires of the Somers have been quenched, and the crew of the torpedo boat will be paid off to-day. The Somers will then be towed further up the harbor, and will be moored until further orders. One American and four Scandinavian seamen arrived here to-day to join the Somers. The customs authorities sent them to the Sailors' Home, and warned them that they would be arrested if they left the building.

WILL BANK THEIR FURNACES.

CLEVELAND, O., April 26.—All the Bessemer pig iron producers of the central west have agreed to bank their furnaces for thirty days out of the three months of May, June and July. As a guarantee to those who intend to follow out such a plan, that some else will not fail to abide by the agreement, and thus largely profit at the expense of the faithful ones, a \$25,000,000 assurance has been given by every interest. There are about eighteen furnaces which will be affected by the action taken.

BRITAIN'S PROCLAMATION OF NEUTRALITY.

LONDON, April 26.—An extraordinary issue of the London Gazette, issued this morning, contained the customary royal proclamation of neutrality defining the attitude of British officials and British subjects during the war between Spain and the United States. It is identical with the proclamation issued at the time of the Sino-Japanese war. The instructions to the foreign office to the admiralty and colonial authorities regulating the belligerents use of British ports is dated April 23, and gives the belligerents twenty-four hours to leave. This accounts for the departure of the United States squadron from Hong Kong, and the orders given to the Spanish torpedo boat Albatraz to leave Queenstown.

SPANISH "FOURS" FALL.

LONDON, April 26.—American securities on the stock exchange opened at slightly above New York parity. This is settlement day, and there is nothing doing.

Spanish fours opened at 33½, against 34½, yesterday's final price.

PARIS, April 26.—Spanish fours opened at 33½. They closed yesterday at 34½.

SAY, BLANCO, IS THAT A JOKE?

HAVANA, via London, April 26.—Captain General Blanco has cabled the government of Spain to the effect that the squadron of warships may be utilized elsewhere, as he can account for the defense of Havana without the assistance of the fleet.

MBRELY REARRANGED DIPLOMACY.

LONDON, April 26.—The dismissal of the United States squadron from Hong Kong and the apparent security of the British government in regard to the United States torpedo boat Somers at Falmouth, the Associated Press hears,

were incidents prearranged by American and British diplomacy, their real object being to force the Spanish government to order the Spanish fleet to leave the Cape Verde Islands, and to prevent other nations at a critical moment from offering similar hospitality.

AT CHICKAMAUGA'S CAMP.

To Organize the Troops Into One Army Corps—Skirmish Drills.

CHICKAMAUGA NATIONAL PARK, Ga., April 26.—Organization of the United States army at Chickamauga into one army corps has practically been decided upon. No general order has been issued to this effect, nor will such an order be issued until such time as the time as the various regiments of infantry and the artillery now on their way to the park are actually encamped there. The corps will be made up of the divisions of cavalry of three regiments each, a general order for the formation of which was issued Saturday by Major General Brooke, two divisions of infantry of four regiments each and ten batteries of artillery to be formed into a regiment. It is quite probable that other regiments which have been telegraphed for, but which have not yet been heard from, will arrive here within the next few days, possibly enough to form another division.

By Wednesday it is thought the formal order for the formation of the brigades and divisions will have been issued.

Skirmish drills by many of the cavalry and infantry regiments were indulged in to-day. The broken nature of the grounds in the park, the hills densely covered with woods and in places filled with underbrush; the ravines and wide stretches of cleared spaces, make them ideal for drilling, and the men from now on will get plenty of it. One of the most interesting was a dismounted drill of cavalry advancing as skirmishers, leading their horses. This was done in the Kelly field, and the woods along the west side of the Lafayette road. Around the base of Lytle hill, and up the southern slope, covered with trees and underbrush, there was skirmish drilling by infantry, firing and advancing.

Col. Sheridan, Major General Brooke's adjutant general, to-day moved his headquarters to this park. This was the first time in thirty-five years that he has been on the battlefield, and for an hour or two he wandered around, seeking familiar spots. By a strange coincidence the place where his camp is situated is almost identically the same spot where, as a member of the staff of his brother, the late General Phil Sheridan, he was located during the battle of Chickamauga.

"It's an interesting spot," said the grizzled old veteran, turning to a group of reporters, "but I tell you, boys, it's a good deal more interesting now than it was then, by a good deal. There were 1,700 men killed out of my brother's division around here."

First Fatality an Accident.

KEY WEST, April 26.—Quartermaster Johnston, of the prize crew of the gunboat Helena, who accidentally shot himself yesterday, his revolver dropping from its holster, died this morning. The accident occurred on board the Miguel Jover, the Spanish steamer captured by the gunboat.

Will Soon Smell Powder.

WEST POINT, N. Y., April 26.—The class of 1898, will be graduated to-morrow. The cadets will probably leave for Chickamauga or Washington to-morrow night.

Postmasters and Pensions.

WASHINGTON, April 26.—West Virginia postmasters of the fourth class have been appointed as follows: Aaron Gerwig, Bennett, Gilmer county; Samuel Franklin, Brosius, Morgan county; David H. Cox, Nicklow, Barbour county; Fred Will, Gilmer county; C. W. Beerhower, Rockville, Preston county; W. S. Swann, Silver Hill, Wetzel county; J. R. Robinson, Wise, Monongalia county.

J. W. Harper has been appointed postmaster at Venice, Washington county, Pa.

West Virginia pensions have been granted as follows: Original—Wesley M. Burnside, Dry Creek, \$6; Robert F. Mackie, Kanawha Head, \$12.

Re-issue—Samuel J. Hartscock, Wheeling, \$10; Jas. C. Alexander, Cox's Mills, \$14.

Dependents—Minors of Samuel R. Spencer, Jerry's Run, \$12.

Other pensions granted are: Jas. S. Jones, Greensboro, Pa., increase \$6 to \$12; Margaret J. McNickle, Martin's Ferry, \$8.

Heats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages, and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Trial bottles free at Logan Drug Co.'s Drug Store. Regular size 50 cents and \$1.00. Guaranteed to cure or price refunded.

"My friend, I warn you. Beware of the world, the flesh and—"
"Oh, the devil!"
"Precisely so."

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nerve."

Dr. Miles' Restorative Nerve and Liver Pills are sold by all druggists, first bottle guaranteed, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

TRAINING THE VOLUNTEERS.

To be Gradually Acclimated and not to Go to Cuba Till Fall.

WASHINGTON, April 26.—The question which is agitating most of the friends of the young men who are volunteering for service in Cuba now is, how soon the volunteers will be ordered to the island. The judgment of military critics is that they will not be sent there at once in a body, but will be gradually acclimated and sent over by degrees. That is, they will be sent to different points in the south for drill and final equipment. Those at the extreme front will be shipped to Cuba first; then the next southernmost will be sent down to the camp thus vacated, and their camps in turn will be taken by the volunteers a little further north, and so on. An impression prevails that the marines and regulars will do all that is necessary for the next few months, in co-operation with the insurgent forces, to be armed and equipped by our government. This programme may defer the passage of the first volunteers to Cuba till fall.

A further question has been raised as to how the general officers of the volunteer force are to be apportioned among the states, and what troops they will be given to command. It is believed that the distribution of these honors will be made in some proportion to the quotas of men furnished by the several states, and that the generals will not be given command of men from their own sections. The idea will be to mix them up, and thus avoid favoritism, as well as to give the volunteer army as a whole a much more broadly national character.

A STATESMAN'S VIEW

Of the Contest with Spain—May Revolutionize Europe.

New York Journal of Commerce: The deeper meaning of the present contest has not been lost upon Crispi, the former premier of Italy, who is quoted as saying to the World's correspondent: "Great danger is threatening the principles and institutions of the Latin peoples. De Toqueville's prophecy will soon be fulfilled and for well or for woe American Democratic principles will have revolutionized Europe." No one dreams that the United States has any design upon Spain, outside of the West Indies, or Italy, but the principles and institutions of the Latin peoples are endangered by the progress of the principles and institutions of the Anglo-American peoples, and the loss of Cuba will not only afford additional evidence of Latin decadence, but it will facilitate the development of democracy in Europe and lead to radical changes in institutions with which Senor Crispi is familiar and to which possibly he is attached.

There is scarcely a trace of France in the new world except the geographical names in our own northwest, the Spanish flag will soon cease to fly on this hemisphere, and Italian efforts to expand her empire abroad have collapsed. In the meantime England and the United States wax in wealth and power, and in the presence of momentous interests are forgetting trifling disagreements. Senor Crispi can see what is coming.

Prize for Spaniards.

NEW YORK, April 26.—The maritime register at New York shows that something like 750 steamers, ships, barks, schooners and brigs are still at sea, and many of them down the eastern South American coast and in the Pacific, where they are without knowledge of what has happened and far from havens of refuge. Quite a fleet of Klondike adventurers left New York weeks ago to make the journey by sea, and these ships are scattered along the western coast.

NEW BACKS FOR OLD.

No Fairy Tale About This—Only Solid Facts.

We're doing it every day. It's our business. All new backs we furnish are satisfactory, too. Marvellous, isn't it? Not so much so when you know who we are. We're Doan's Kidney Pills. Don't surprise you, much now. You know they always do their work. And their work is making new backs out of old. Ail backs ache. That is, they seem to ache. It's the kidneys that ache. And the back does the talking. Backache is not all there is of kidney disease. It's only the starter, so to speak. Excessive urine—getting worse. High color, and pain in passing—worse still. Diabetes, Bright's Disease, Death. That's the end. Moral—Trade that old back for a new one, and do it at once. Don't wait for all the coming horrors. Doan's Kidney Pills will make the old back new. Ask the Wheeling people about it, they know. Read the following:

Mr. G. V. Barker, of No. 29 S. Wash street, for over twenty-five years employed at the Wheeling & Belmont Bridge Company's works, says: "For several years my kidneys were in a bad condition and my back was so weak and sore, that when I stooped over I could scarcely straighten up. On several occasions I was taken so badly when at work that I had to be helped home, and when the doctor came he injected morphine to give me ease. Neuralgia pains in my head, down the back, through the stomach membranes, aching limbs and restless at night, were other symptoms which plainly showed when the secretions of the kidneys went wrong—what the trouble arose from. I saw Doan's Kidney Pills so highly recommended by parties near home that I felt there must be some real merit behind them, so I got a box at the Logan Drug Co., and began taking them. I can now positively say they are the best remedy I ever tried for the kidneys. They are quick in giving relief, sure in action, and pleasant in effect, causing no inconvenience or interfering in any way with one's every day work."
