THE INTELLIGENCER.

WHEELING, MAY 11, 1898.

To Celebrate Victory.

That the mass meeting held last night at the Opera House to arrange for a celebration on Saturday of Admiral Dewey's magnificent victory, developed itself into a big demonstration with no surprise, and that the enthusiasm was intense from start to finish was a testimonial to the patriotism of Wheeling citizens.

These are elements that are worth considering as entering into the remarkable rise we are just now witnessing. Still other phases of the question are touched upon as follows:

Meantime it is to be noted that the last fragment of the bimetallic theory of prices is demolished by the quotation. When wheat touched and hung to the dollar mark it was plaintively urged that with "silver restored" it would be a two-dollar mark.

Two Important Reports.

The report that the navy department has received information that the Spanish war fleet, or a part of it, is at Cadiz, Spain, is important, if the information it is regarded as reliable.

So far Spain's conduct seems to be incomprehensible, and if reports are true is accountable for on the grounds of fear, incapacity, or a continuation of the policy of holding back in the hope of European interference.

The report from Hong Kong that the movements of European vessels indicate an intention to intervene in Asiatic waters should be taken with the usual amount of "salt" until developments either confirm or deny the rumor.

In Unmarked Graves.

The report comes from Key West that twenty-four of the victims of the Maine disaster are lying in unmarked graves in the section of the city cemetery allotted to the paupers.

The spot where these unknown American martyrs to Spanish treachery lie should be purchased by the government, properly cared for, and a suitable monument erected to mark it.

It must be humiliating to the prime minister of the Spanish government to admit before the world that such a state of affairs exists at home at the most critical moment in a war with a more powerful nation.

The assurance that the workers in the wholesale district of the city will have the Saturday half holiday again this summer, beginning with the first Saturday in June, shows that Wheeling is keeping in line with other commercial cities.

The dispatch which comes by way of a Spanish route stating that a Spanish vessel's arrival at Porto Rico with supplies insures that that island will be well supplied for several months may not be intended to be taken seriously.

Governor Black, of New York, should be applauded for promptly ordering the disbanding of the Thirteenth regiment, of Brooklyn, which was something of a pride to that city.

not only read the signs depicted in the conditions which have arisen at home and abroad, but that he realizes their full import.

What's Rise Not Due to War.

War conditions are not such as will justify the abnormal advance in wheat, much as some people may regard it as one of the natural results of war.

A study of the wheat situation shows that the supply of wheat is now very small in both Europe and America, and the speculators at Chicago are taking advantage of it.

Other elements have contributed to the great rise. There is the extraordinary success for months of the most spectacular of his enormous purchases.

These are elements that are worth considering as entering into the remarkable rise we are just now witnessing.

Meantime it is to be noted that the last fragment of the bimetallic theory of prices is demolished by the quotation. When wheat touched and hung to the dollar mark it was plaintively urged that with "silver restored" it would be a two-dollar mark.

These are thoughts that are incident to the boom in wheat prices and are outside of the causes that have contributed to the rise.

INTERESTING FACT IN POLITICS.

We Have Had Soldier Presidents, but no Sailor Has Reached That Place.

Hartford Courant: England has had a "sailor king" within the recollection of many of our older readers.

It's really worth thinking about—this discrimination against our laureled victors whose victories are won on the water. Our wars have made many Presidents.

In the early years of the republic the "stout, old, commodores" contributed much more glorious pages to its history than the generals, and a good many more of them.

If the present war unexpectedly protracts itself, and there is any serious land fighting in Cuba or elsewhere, the probabilities and the precedents warrant a prediction that it will make a President—perhaps more than one.

The Old Flag Forever!

She's up there—Old Glory—where lightnings are sped; She dazzles the nations with ripples of red; And she'll wave for us living, or droop over our dead.

We Dew Not.

Oh, dewey was the morning Upon the first of May, And Dewey was the admiral Down in Manila bay.

Had Pay and Hard Work.

The bad pay and hard work of trained nurses has often been made the subject of benevolent remonstrance by eminent medical men and non-professional philanthropists.

THE human machine starts but once and stops but once.

You can keep it going longest and most regularly by using De Witt's Little Early Risers, the famous little pills for constipation and all stomach and liver troubles.

"DRAW THE LINE"

A Religious Journal and the Advancement of Women.

Under the caption of "Draw the Line" the Central Presbyterian, of Richmond, Va., in a leading editorial, says:

The reader is aware of the revolution in progress by which the female sex is simultaneously advanced to greater dignity and usefulness and urged into positions and occupations for which they have been hitherto deemed disqualified by nature.

The physiologist and anatomist points out differences of bone and muscle that qualify the male physique for labors and exertions more severe than those of his consort.

The Word of God recognizes this truth and requires us to preserve it. The only question relates to its significance. It is daily impressed upon us that the existing confusion is rendering it less and less distinct.

We insist that even brothers and sisters in private conversation had better abstain from such a topic. Much more is it a shame for a maiden lady to discuss it in public and allow her views on the subject to be reported to the entire world.
