

MUCH SICKNESS

In the Forms of Grip and Colds is Resulting

FROM CHANGEABLE WEATHER

Yesterday's Weather Contributed to the Coffers of the Drug Stores, there Being a Demand for the old Stand-by, Quinine-Doctors Have Many Grip Patients and Expect More with Continued Moderate Weather.

This is the season when the grip microbe is abroad in the land. He has made his debut in Wheeling and promises to be very much in evidence, provided there is a continuation of the mild weather faded out yesterday. Local physicians report their hands full of cases of colds and mild forms of grip, but the epidemic of grip so pronounced in other cities, hasn't struck here yet.

Last week the health of the community was normal so far as it compared with corresponding periods in winter, but yesterday, with its high temperature, wet and slushy streets, so closely following, the intense cold of the three days previous, resulted in a call for quinine and phenacetin, "the popular remedies with the laity," as a Market street drug clerk expressed it last night.

A number of grip cases developed yesterday together with a miscellaneous batch of colds. No day this winter could compare with it in the surprising large number of people affected.

When the gripe rules the ranch business channels are clogged, great or little as the number of victims happens to be, and not one of the large industrial establishments but now has some of its employes on the sick list, they suffering from grip. In Benwood where the Riverside and Wheeling steel works are located, the doctors are attending over a score of grip patients, and at present six employes of the Wheeling postoffice are off duty on account of the festive microbe's work.

Dr. Jepson, the city health officer, last night stated that there were more cases than a week ago. Asked as to the symptoms of grip as distinguished from a cold, Dr. Jepson said grip's symptoms were headache, aching in the limbs, and an increased fever of from two to five degrees. Other authorities seen, including Drs. Dickey and Best, noted the increase in the number of cold and grip cases, which they asserted were directly due to the changeable weather. The druggists had a busy time of it yesterday, filling prescriptions for these complaints.

The sudden change in the weather was instanced in the streets yesterday, which were a sea of mud and soft slush, a striking comparison to the splendid sleighing on the previous night, which was cold enough, too, to warrant the belief that the sleighing would last for some days yet. To such weather mixups in the past three weeks are due colds and grip, and it is hoped that a steady spell of cool weather will take the place of the present unsatisfactory article. A cold, severe as it may be, is akin to grip and the new fangled ailment is often paraded as a cold, but grip leaves after-effects that a cold does not, and it is particularly fatal to the aged.

THE "PRISON DEMON"

Breaks Out Again, and Has to be Caged—A Moral Perverter.

COLUMBUS, Ohio, Jan. 3.—Ira Marlatt, familiarly known as the "Prison Demon," was returned to his cage in the Ohio penitentiary, to-day. Marlatt has been on his good behavior for several months until within the last few weeks, when he again became troublesome. On his promises to be good, he was given the freedom of the prison enclosure at certain times of the day, but recently violated the rules by carrying food to the prisoners in the solitary cells.

Yesterday he made a murderous assault upon Guard Stallsmith, and as it was evident he could no longer be trusted, the warden ordered him placed in the iron cage which was built expressly to restrain him and which he occupied for many months. Marlatt is declared by experts to be a moral pervert and in his spells which break out at long intervals, he can only be controlled by extreme measures.

And the Rabbit got Away. Special Dispatch to the Intelligencer.

CLARKSBURG, W. Va., Jan. 3.—While L. Stealey, James Watkins, Will Baisley and Dave Davis were hunting to-day on the Payne farm, four miles from this city, they ran a rabbit in a brush heap, on a hillside. Davis and Watkins got on the lower side and Baisley and Stealey on the upper side, to snare the rabbit out, when Watkins fired into the brush, the shot going through the other side, and striking Stealey in the leg, making a very painful wound. At the same time Baisley fired from the upper side, the entire contents of his gun taking effect in Davis' right arm and shoulder, making a very serious if not fatal wound.

Held for Burglary. Special Dispatch to the Intelligencer.

STUBENVILLE, O., Jan. 3.—John and James Seely and William Hauck, who were arrested in Bridgeport in boat houses, for connection with several dozen burglaries along the river, were given a hearing to-day before Mayor Riley, and at the conclusion held in default of \$1,000 each on a charge of robbery to await the grand jury's action. A big lot of plunder was recovered and identified.

Infraction Against Pottery Combine. CINCINNATI, Jan. 3.—Judge Smith, of the common pleas court to-day, upon application of the Bell Pottery company, of Findlay, O., allowed a temporary restraining order against eighteen pottery companies in the state to prevent them from organizing a trust contrary to the statutes which prohibit such action. The hearing is set for January 9.

Senator Bate Renominated. NASHVILLE, Tenn., Jan. 3.—The Democratic legislature caucus was held this afternoon to select a candidate for United States senator. Present Senator W. B. Bate was unanimously nominated. Election by the legislature will be January 17.

THE GREAT RUNS

On the Burlington and Northwestern Roads—Both Trains Arrive at Omaha Ahead of Scheduled Time.

OMAHA, NEB., Jan. 3.—The new fast mail trains on the Burlington & Northwestern roads finished their phenomenal runs from Chicago without special incident to-day. The Burlington pulled into the terminal station eight minutes ahead of schedule time. The Northwestern arrived seventeen minutes ahead of schedule time. The trains had a head wind all the way and both the crews are confident even better time can be made if they are called upon to do so. There was a large crowd present at the depots to witness the arrival of the trains, principally composed of railroad men but with a fair sprinkling of outsiders desirous of getting a first look at the flyers.

The new Rock Island train does not start until next Sunday. In addition to the sustained speed of these two trains being remarkable, over fifty miles an hour for the distance, there were some still more remarkable bursts of speed during the trip. Several times during the trip a mile was covered in thirty-seven seconds. The actual elapsed time from the start at Chicago to arrival at the local depot was as follows: Northwestern, 492 miles with 18 stops, 9 hours and 58 minutes. Burlington, 502 miles, with 12 stops, 10 hours and 7 minutes. The greatest run was made by the east-bound train on the Burlington which left here last night, one hour late, arriving in Chicago only four minutes late and the schedule time is thirty minutes faster than the west-bound train, which they assert, is the best record for any train between the two points. The previous record was held by the Northwestern, having been made with a special train carrying a party of railroad officials to the exposition.

UNITED MINE WORKERS.

Coming Convention to be Held in Pittsburgh Next Week.

PITTSBURGH, Pa., Jan. 3.—The coming national convention of the United Mine Workers of America, which will be held in this city next week, is exciting great interest, the election of a successor to President Ratchford being the principal question at issue. Charges of using the order for political purposes have been preferred against some of the leaders and from present appearances, it would seem that there will be a battle between the rank and file of the miners and the politicians.

Mr. Ratchford, it is said, favors John Mitchell for his successor, and the miners of the Pittsburgh district, whose wishes will carry much weight, because of their influence in the state convention, want their favorite, Patrick Dolan, to occupy the position of national president. District President Patrick Dolan was asked to express an opinion. He was averse to saying anything on the subject, but when pressed, remarked: "I will do as I have done in the past, abide by the will of the miners whom I have the honor to represent. If the miners of the Pittsburgh district or any other district want me to represent them in any office, I am perfectly willing that they have the say. But I can assure you that I will not resort to any wire pulling or intimidation to gain a point. I know that Ratchford, the administration of the national organization and some of the big politicians are against me. It must be remembered that it is the miners and not the makers of states that elect the officers in the organization."

Baron and Baroness Arrested.

JACKSONVILLE, Fla., Jan. 3.—Post-office Inspector W. S. Meyer, acting under the direction of Inspector in Charge Major James E. Stewart, of Chicago, caused the arrest at St. Augustine this afternoon of Baron and Baroness de Bara for using the United States mail in an alleged scheme to defraud. The couple, it is asserted, appeared in Chicago about the first of last September and worked from an office at 115 Duane street. The baron and baroness were arrested at their home in St. Augustine to-day by United States Marshal Horr, and while they made no resistance, they claimed that the case is one of mistaken identity. Their home is furnished with magnificence. They have been received with more or less social regard since coming to St. Augustine, and their entertainments have been very elegant. They will be given a hearing before United States Commissioner Goodell at 10 o'clock to-morrow morning.

Whitney's Big Monopoly.

NEW YORK, Jan. 3.—There is no longer any concealment of the fact that what is known as the Whitney syndicate has obtained control of the Edison Electric Illuminating Company of this city. George F. Peabody, second vice president and director of the Edison company, admitted this to-day, but would give no figures of the transaction by which the commission of capitalists headed by William C. Whitney effected the capture of the corporation, which, with the other Whitney syndicate holdings, gives the syndicate a practical monopoly of the electric lighting, heating and motive power of this city. The title of the Whitney syndicate, which is composed mainly of men who constitute the Metropolitan Traction Company, is the New York Gas and Electric Light, Heat and Power Company.

New Viceroy at Calcutta.

CALCUTTA, Jan. 3.—The new viceroy of India, Lord Curzon, of Kedleston, and Lady Curzon arrived here at 5 o'clock this afternoon and were received by the government officials and the military and civil authorities at the Howrah station of the Great Indian railway. The volunteers and native infantry furnished a guard of honor and gave the royal salute. Lord and Lady Curzon were warmly greeted on alighting from the train. They then proceeded in carriages attended by the personal staff, the secretaries of the government and the Earl of Edgim's

A common expression is: "The human race is growing weaker and wiser." That we are growing weaker is proved by the large number of pale, thin and emaciated people.

That we are growing wiser may be proved by overcoming these disorders with the timely use of Scott's Emulsion of Cod-liver Oil with Hypophosphites which gives strength, enriches the blood, invigorates the nerves and forms fat.

50c and \$1.00, all druggists. SCOTT & BOWNE, Chemists, New York.

aided de camp escorted by the Calcutta light horse and the vice regal body guard, towards government house. As the procession appeared on the Hooghly bridge a royal salute was thundered from the ramparts of Fort William.

LOVE FINDS A WAY.

Sweethearts Parted Fifty Years Ago—Joy Long Delayed Honeymoon. FORT WORTH, Texas, Jan. 3.—Dr. John C. Hill and bride, of Monterey, Mexico, are visiting relatives in Austin, Texas. The bridegroom is seventy-two and the bride is sixty-eight years of age. Dr. Hill, when thirteen years of age, was one of the famous Mer prisoners, and was adopted by Santa Anna. He was sent to school by his adopted father, and the national government contributed to his education.

While attending school he fell in love with Mary Ann Murry, who was the daughter of a rich Englishman. The Murrys moved to California in 1843, and the young people lost all traces of each other. Recently Dr. Hill wrote an article for Harper's Magazine about Monterey, and the story was printed over his signature. His former sweetheart read the article in California, and at once wrote him: "It was not long before their marriage was set, the two, after separation of nearly fifty years, became one. Dr. Hill and his bride are now spending their honeymoon in Austin."

After having made their escape from their Mexican captors on January 11, 1843, 176 survivors of the ill-fated Pecos expedition, under Fisher, against Mier, were taken by cavalry while endeavoring to make their way homeward through the mountains. On March 25 orders were received from Santa Anna to decimate them, and 159 white beans and seventeen black beans having been placed in an earthen crock, the prisoners were made to draw one each in turn, a black bean signifying death. Those who drew the fatal color were shot at sunset. The survivors were marched to the City of Mexico, many dying on the way. Their leader, Captain Cameron, who had escaped the death lottery, was executed on April 25 by order of Santa Anna. In September the greater portion of them were sent to the fortress of Pecos, where they were kept in confinement and most of them employed in servile labor. From time to time a few escaped; eleven were released through the intercession of the United States and British ministers and no small number of them died under their privations. Finally the remainder, 130 in number, were liberated by Santa Anna September 16, 1844, in commemoration of Mexico's national day.

IMPORTANT CLUE

To the Adams Poisoning Case in New York City.

NEW YORK, Jan. 3.—The police yesterday developed the strongest clue yet found in the mysterious murder case of Mrs. Kate J. Adams. The police have learned that a man described as being of medium height, and having side-whiskers, as having bought the little silver, toothpick holder which contained the poison, at the store of Hartdegen & Company, Newark, N. J., on December 23. Miss Miller, a saleswoman employed in the store, made the sale, and said she could identify the purchaser could see him again. She told the police that the man asked for a "bottle holder." She asked him if the match holder would answer his purpose. He measured the bowl of the holder with his fingers, and, seeming satisfied, ordered it wrapped up. Then he hurriedly left.

Miss Miller informed Captain McClusky that the holder had a paper label pasted on the bottom of it. An examination of the holder which Cornish received revealed the fact that such a label had been pasted on its bottom, but had been torn off. A new feature has been added to the murder through the exhuming of Henry Barnett's body, and the discovery of cyanide of mercury, said to be the poison sent to Cornish, in the stomach. Barnett died at the Knickerbocker Club, November 10. His death was ascribed to failure of the diaphragm. It is known that a few days before he received a package of headache powders by mail. The coroner's physician and experts are making a thorough postmortem examination. It is the belief of the police that the person who sent the poison to Cornish also sent the powders to Barnett, and that the headache powders contained the cyanide of mercury, which is believed to have caused Barnett's death.

SIFTED DOWN TO DREYFUS.

Mercier Explains His Method to the Court of Cassation.

LONDON, Jan. 3.—A dispatch from Paris to the St. James Gazette says that the gist of the testimony before the court of cassation by General Mercier, who was minister of war at the time of the public condemnation of Dreyfus, has become public. The former war minister's testimony, the dispatch says, amounts to a declaration that he arrived at a conviction of Dreyfus' guilt by a process of elimination. He first took the names of all the officers who would be likely to be in possession of exclusive opportunities to perpetrate acts of treason by the disclosure of secret information, half of which he immediately discarded. Of those remaining he eliminated more, until there were only two names. Two of these were thrown out, leaving but one, which was that of Dreyfus.

The Peace Treaty.

WASHINGTON, D. C., Jan. 3.—The treaty of peace negotiated at Paris will be submitted to Congress almost immediately on its reconvening, probably to-morrow. Although a tempting opportunity offers for the presentation of the most forcible argument for the speedy ratification of the treaty, in the shape of a ringing message to Congress on the subject, President McKinley has decided to leave the presentation of the merits of the treaty to its friends in the senate. Accordingly the treaty will go to the latter body with the briefest possible message of transmission by the President.

Beef Investigation.

WASHINGTON, D. C., Jan. 3.—The war investigating commission has decided to make a thorough investigation of the complaint made about the beef furnished the army in the expedition against the Spaniards. Summons were made to-day for the appearance before the commission next Friday of Major Dudley chief quartermaster at the army headquarters at Tampa, prior to the departure of the Shafter expedition, who made a vigorous report forwarded by General Miles, in condemnation of the beef.

To be Mustered Out.

WASHINGTON, D. C., Jan. 3.—Secretary Alger to-day made public a partial list of the regiments and other organizations which, as a result of the flooding of the Paris peace treaty, it has been decided to muster out of the service. The list includes twelve full regiments and two independent companies, and three heavy batteries of artillery, comprising 16,000. The present location of some are as follows: In Georgia, Sixth Virginia, at Macon; Third New Jersey and Fifteenth Pennsylvania, at Athens. In South Carolina: Ninth Ohio at Summerville.

Congressman Dingley Improving.

WASHINGTON, D. C., Jan. 3.—Representative Dingley passed another comfortable day, the slight improvement noted yesterday continuing and the attending physicians express renewed hope that the distinguished patient will recover. The crisis in the case is not expected until Thursday or Friday.

WHOLESALE SWINDLER.

Operations of a Cincinnati Manufacturer—Many Banks Defrauded. NEW YORK, Jan. 3.—David Rothschild, the Cincinnati bar fixture manufacturer, who was arrested last week, charged with having swindled the Central National Bank of \$5,000 by means of worthless notes, was again arraigned in police court to-day. At the request of Rothschild's counsel examination was postponed until the 12th inst. In addition to the Central National bank officers, representatives were in court from the Astor Place bank, who claim losses through Rothschild to the amount of \$5,000; the National Bank of America from whom the defendant is alleged to have secured about \$25,000; the Mechanics and Traders' Bank, who estimate their loss through Rothschild at about \$10,000, and the Chemical bank. The latter institution refused to state the extent of its alleged losses. The aggregate amount alleged to have been obtained by Rothschild in a dishonest method from banks in this city, Cincinnati, Chicago and Cleveland is said to be about \$500,000. A large number of other banks in this city were victimized, according to the district attorney's office, but they prefer to pocket their loss rather than to come forward and make it public and alarm their depositors. Rothschild's bail was increased to-day from \$2,000 to \$5,000.

GOVERNMENT RECEIPTS.

Comparison with the Revenues of Similar Periods in 1897.

WASHINGTON, D. C., Jan. 3.—The monthly statement of the receipts and expenditures of the United States shows that the total receipts for December were \$41,404,793 (as compared with \$39,646,628 for December, 1897). This last amount, however, includes about \$31,700,000 received on account of the Pacific railroad's debt. Independent of the same payments the increase for the last month as compared with the same month in 1897 was about \$12,400,000. The receipts from customs' last month were \$16,764,324, increase over December, 1897, of \$2,510,000. Internal revenue \$22,621,318, increase \$5,500,000.

The receipts for the six months since July 1, 1898, amounted to \$245,961,889, a gain over the same period in 1897 of over \$38,000,000, not including the \$31,700,000 received from the Pacific railroads. During the last six months the receipts from customs increased from \$62,825,029 to \$96,045,839 and from internal revenue sources from \$55,498,203 to \$138,294,339. The disbursements during December last amounted to \$41,884,507, which is only \$480,000 in excess of the receipts.

Proceedings Will be Secret.

WASHINGTON, D. C., Jan. 3.—The board of survey appointed by the secretary of war to examine into and report upon the responsibility for the loss of 300,000 pounds of refrigerated beef of Swift & Co., which was rejected by General Miles upon its arrival at Ponce, Porto Rico, and which was subsequently thrown overboard while en route on the return voyage, met to-day but decided that inasmuch as the proceedings of a board of survey were subject to review that they would not be made public. The board intimates that the proceedings are not of great importance, in reality only involving a recommendation as to whether Swift & Co. should be paid for the beef. Such a recommendation, however, necessarily involves fixing the responsibility for the rejection of the beef.

Natural Gas free of Duty.

WASHINGTON, D. C., Jan. 3.—Justice Peckham to-day handed down the opinion of the United States supreme court in the case of the United States vs. The Buffalo Natural Gas & Fuel Company, appealing from the United States for the decision of the circuit court of appeals for the second circuit. The case involved the right of the gas company to import gas from Canada by means of pipes under the Niagara river free of duty. The opinion classifies natural gas as crude bitumen and has the effect of admitting it free of duty under the tariff law of 1890 and also under the present law.

Public Debt Statement.

WASHINGTON, D. C., Jan. 3.—The monthly treasury statement of the public debt shows that at the close of business December 31, the debt, less cash in the treasury, amounted to \$1,129,176,286, an increase during the month of \$1,702,759. This increase is due to the delivery of 3 per cent bonds of the new issue, previously paid for.

The cash in the treasury is classified as follows: Gold, \$281,729,434; silver, \$503,212,854; paper, \$50,263,206. Bonds deposited in national banks, depositories, disbursing officers' balances, etc., \$85,235,555. Total, \$930,431,351, against which there are demand liabilities outstanding amounting to \$635,666,656, leaving a net cash balance of \$294,764,695.

Stop! Women,

And Consider the All-Important Fact, That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience in treating woman's diseases is greater than that of any living physician—male or female. You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides, a man does not understand—simply because he is a man. Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the question and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman, whose knowledge from actual experience is greater than any local physician in the world. The following invitation is freely offered: accept it in the same spirit: MRS. PINKHAM'S STANDING INVITATION. Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass. "The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women a year."
