

A BIG CONCERN.

The United States Fertilizer Company Incorporated and

CONTROLS THE GIFFEN PROCESS

For the Reduction of Garbage and Other Waste Materials Into Fertilizers—A Meeting of the Promoters and Stockholders held Last Night. Sub-companies will be Licensed to use the Process.

Last night there was a meeting of the incorporators and stockholders of the United States Fertilizer company, of Wheeling, which has just been incorporated at Charleston, and steps were taken toward organization.

The company is incorporated with a capital stock of \$1,100, with the privilege of increasing it to \$2,000,000. It will engage in the business of reducing garbage and other waste material into fertilizers, using the process discovered recently by R. K. Giffen, of this city, which has lately been tried with great success at an experimental plant at Marietta.

The incorporators are Messrs. R. K. Giffen, George Hook, C. A. Robinson, William A. Wilson, Robert Hazlett, Joseph C. Brady, Morris Horkheimer, Lawrence E. Sands, John K. List and F. C. H. Schwertfeger.

It is understood to be the plan of the company to license sub-companies to use the Giffen process in all the cities of the country. Recently Mr. Giffen licensed a company in Washington City to use his process, and three large reducing furnaces are being erected at that place.

A Moundsville Concern. The Belmont Manufacturing company, of Moundsville, has been incorporated at Charleston. It has for its object the manufacture and sale of all kinds of men's and women's furnishing goods and underwear, men's shirts, women's skirts and wearing apparel, cotton bags, cotton socks and all similar productions. The subscribed stock is \$2,500, and the authorized capital \$50,000. The incorporators are J. B. Hicks, of Moundsville; J. S. Sheekey, of Pittsburgh; M. E. Mawby, of Pittsburgh; J. Steele, of Moundsville, and Charles Rossner, of Belleaire.

THE RAILROADS.

The Wheeling & Lake Erie railroad was sold yesterday, at Toledo, under foreclosure by Special Master Carr. It was bought by Ernest R. Adee and A. W. Kreech, representing the reorganization committee, for \$1,000,000, the upset price. The purchasers assume the divisional mortgages and current liabilities, amounting to over \$6,000,000. The company will be reorganized as soon as the legal technicalities have been complied with.

State Horticultural Society.

Special Dispatch to the Intelligencer. CHARLESTON, W. Va., Feb. 7.—The state horticultural society held its sixth annual session in this city to-day. The meeting was fairly well attended, about fifteen counties being represented, and the papers, addresses and discussions were of a high order. A very important and interesting session was held this evening. The officers elected are: State Senator R. C. Burkhardt, of Martinsburg, president; John H. Crawford, of Orange Grove, vice president; L. C. Corbett, of Morgantown, secretary. The wool growers' association will meet to-morrow, and the state grange Thursday and Friday.

Supreme Court.

Special Dispatch to the Intelligencer. CHARLESTON, W. Va., Feb. 7.—The supreme court to-day transacted the following business: Adkins vs. Spurlock, from Lincoln county, submitted; Murdock vs. Baker, from Mingo county, submitted; Auburn Wagon Company vs. Chester Wald, petition for rehearing refused. State vs. King, from McDowell county, was partly argued, and continued until 11 a. m. to-morrow. Adjoined until 10 a. m. to-morrow.

Death of an Aged Widow.

Special Dispatch to the Intelligencer. CHARLES TOWN, W. Va., Feb. 7.—Mrs. Margaret Ott, widow of the late Barney Ott, residing at Ilpon, five miles south of this place, died this morning, suddenly, of heart disease. She was in her ninety-third year, and was highly esteemed for her Christian character. She is survived by a daughter and son, Mr. James P. Ott, well known in this county.

Not Likely to Pass Now.

WASHINGTON, Feb. 7.—Inquiry about the senate regarding the McKinley resolution develops the fact that any resolution is not likely to pass just now, though there may be no objection later. It is understood the administration believes it would be inexpedient to pass resolutions while the strained relations exist between the United States and the insurgents at Manila.

Information Wanted.

BERLIN, Feb. 7.—An interpellation introduced in the reichstag by Count Von Kanitz and Herren Lieber and Basserman, supported by one hundred conservatives, centrists and national liberals, asking the chancellor for information as to the actual position of the politico-commercial relations with the United States will be discussed Thursday.

Suffocated by Gas.

NEW YORK, Feb. 7.—Dr. Henry E. Keyes, of New York, and his wife, were found dead in their bed-room at the Ardley Casino at Ardley-on-the-Hudson, to-day. They had evidently been asphyxiated by gas from a stove in the room.

Young children, to avoid marasmus, scrofula, or rickets, and develop healthy tissues, bones and teeth, need fats and hypophosphites. Dr. W. Gilman Thompson, Prof. Materia Medica and Therapeutics, in the University of New York, asserts that Cod-liver Oil is the best fat for the purpose.

Scott's Emulsion is cod-liver oil partly digested and combined with hypophosphites, it gives children material for rich blood, solid flesh, bones and teeth.

SCOTT & BOWNE, Chemists, New York.

MEETING OF PARLIAMENT.

Addresses Seconding Queen's Speech Have Reference to this Country.

LONDON, Feb. 7.—A majority of both houses of parliament assembled just before 2 p. m., when the black rod, General Sir Michael Biddulph, came from the house of lords, for the purpose of hearing the queen's speech read by the lord chancellor, the earl of Halsbury. Both houses then adjourned until 4 p. m.

When the session was resumed at 4 o'clock, the house was crowded, among those present being Lieut. J. C. Colwell, the United States naval attaché here, and Mrs. Colwell. After the new members had taken the customary oath, the speaker, the Right Hon. William Court Gully, read the queen's speech, and Josiah Bagot, conservative member for South Westmoreland, moved the address in reply to the speech.

Mr. Bagot, in moving the reply, said he was pleased to note that the bonds of mutual interest and kinship between this country and America have, by recent events, been drawn closer. He added: "An alliance between the two nations need not necessarily be one of offense or defence, but might be one that would be admirably fitted to lead the world in the direction of freedom, civilization and progress. (Cheers.)"

When the session of the house of lords was resumed there was a large attendance, and the galleries were crowded, many ladies being among those present. Ethan Allen Hitchcock, until recently United States ambassador at St. Petersburg, and recently appointed secretary of the interior, and Henry White, the United States charge d'affaires, were in the diplomatic gallery.

The Duke of Bedford moved the address in reply to the queen's speech and the Earl of Cawdor seconded the motion.

The Duke of Bedford, in the course of his remarks, cordially referred to the growing friendly relations between the United States and Great Britain. The premier, Lord Salisbury, referred at length to China. He said the policy of Her Majesty's government did not contemplate the acquisition of territory in China or the dismemberment of the Chinese empire. The destiny of China, his lordship answered, was as impossible to foretell as it was to reveal what was occurring on a certain island within a certain palace at Peking. All that Her Majesty's government was concerned with at present was to see that the treaties are fully observed; that the interests of British subjects are safely guarded, and that nothing is done by either China or any other nation to compromise their rights.

So far as the earl's receipt was concerned, Lord Salisbury said no one could doubt the purity and humanity of the emperor's motives. "I should heartily rejoice," he continued, "if the conference achieved a humbler aim, and if, by the steady use of the principles of arbitration we might be able to diminish a number of the causes by which war is produced. If by humane legislation we could also diminish the horrors of war, we would render an immeasurable service to humanity. Meanwhile, we must follow the example of other nations, and be prepared for war. I do not believe this is imminent, but the causes of war still subsist, and while doing our best in the blessed mission of peace, we must maintain the position of our arms, which past generations have given us, and which we hope to keep." The address was then agreed to.

BITTER COLD WEATHER

In the Far West—Railroads Tied Up, Thousands of Cattle Perishing.

DENVER, Col., Feb. 7.—The cold wave continues unabated. The minimum temperature at the weather station in this city during the past twenty-four hours, was 22 degrees below zero. At 7 o'clock this morning the temperature was 16 degrees below. At Pueblo at the same hour it was 24 below.

Three special trains were sent east from Glenwood Springs to-day, bringing all the passengers that had been detained there and they will arrive in Denver to-night. The passengers united in a letter of thanks to President Jeffrey for the kind treatment given them while snow-bound. The West ministered trou, after being delayed a week at Basal, returned west to Ogden and if not again delayed, will reach this city via the Union Pacific to-morrow evening. After a week's toil the Colorado & Southern has been forced to abandon the effort to open the "High line" between Como and Leadville.

It is estimated that sixty thousand sheep in southern Colorado, are dying of cold and hunger. Many docks have been abandoned by the herders. "Another twenty-four hours of weather such as has been sweeping over Wyoming since February 1, and 50 per cent of the cattle of Wyoming will be dead," said B. Frank Hunter to-day. "The winter is without exception the worst that has ever been experienced in that part of the country. There is not a shrub or bunch of grass and feed visible between this city and western Wyoming along the railroad, and it is almost impossible for the cattle to find anything to eat. The loss will be almost incalculable, as thousands of cattle are down already."

Those left standing are in the last stages of suffering from cold and hunger. They have reached the semi-conscious state when they begin to look for something as a support. From the car window the cattle can be seen leaning back against the fences. Of course my information is only regarding the cattle along the railroad line, but it is highly probable that the same condition exists all over the state."

In eastern Colorado, so far as possible, range cattle are being fed, but if the cold weather continues much longer the supply of feed will be exhausted.

Some Weather.

CHEYENNE, Wyo., Feb. 7.—The temperature here the past seven days has ranged from 13 to 28 degrees below zero. For the first time since the storm all trains on the Wyoming division of the Union Pacific railroad are blocked. Indications are for continued cold. The loss of live stock will be very heavy. Mrs. J. Holmes, of Iron Mountain, left the Ferguson ranch, near Silver Crown, to drive to her home, three days ago, and was out in the storm two days and a night. She slept between the trees the first night, and took shelter in an old well the second night. When she reached home she was badly frozen, and her condition is critical.

Whew!

ST. PAUL, Minn., Feb. 7.—For two weeks this section has scarcely known what it meant to have the mercury get above zero. Last night the mercury got down to 21 below, only one colder day having been reported this winter, and no winter since 1888 being so cold. Northwestern thermometers range from 12 below at Minnedosa and 46 at Winnipeg up to 16 below at Duluth.

Testified in His Own Behalf.

CLEVELAND, O., Feb. 7.—Judge Frank E. Dellenbaugh was a witness in his own behalf to-day in the disbarment proceedings against him. He made a strong denial of the charges made against him. He declared that he had been retained as counsel by Mrs. Manning in her alienation of affection suit before he went on the bench, and just previous to that time he had turned the case over to Vernon H. Burke. Judge Dellenbaugh swore positively that Burke had not divided fees with him and when he heard the Manning divorce case he had no interest in it, as counsel.

Doctors Continue to Endorse

Munyon's Inhaler

Doctor Thomas C. Clark, a well known physician and pharmacist, graduate of the University of Pennsylvania, and Philadelphia College of Pharmacy, and who served as physician in the United States navy during the civil war, residing at 1320 North Fifty-second street, Philadelphia, Penna., says: "I believe the Munyon Inhaler is destined to revolutionize the treatment of affections of the breathing organs. This is due to the fact of the application of the remedies used being more direct, more specific and more readily absorbed by the diseased tissues than they can be if administered in any other form. I believe that it acts as a preventive against diphtheria, catarrh, sore throat, bronchitis and consumption in a more effectual way than heretofore known. My experience with it has been most gratifying and phenomenally successful."

With this Inhaler you are enabled to treat yourself at your home, thus saving doctors' fees. It does away with taking unpleasant doses into the stomach, and renders unnecessary any cutting, cauterizing or burning. The seat of the disease is directly attacked and the germs destroyed.

The air passages are permeated with medicated, vitalized air, which soothes, heats and invigorates, and a sense of relief immediately follows. If used in time it will positively prevent consumption.

For Sale at All Drug Stores.

PRICE \$1.00.

Special exhibitions are being given this week at

McLAIN'S NEW PHARMACY, cor. Eleventh and Market streets.

CHRISTIAN SINCIP, cor. Fourteenth and Market streets.

GEIGER'S ELITE PHARMACY, New Bridge Corner.

Polite attendants will be on duty all day and evening to answer questions and to give this Inhaler. Freely it is invited to give this Inhaler a trial. No trouble to show it. You are welcome to a treatment whether you purchase or not.

PRICE \$1.00.

Seattle, Lumbago and all rheumatic pains cured by Munyon's Rheumatic Cure, Dyspepsia and all stomachic ailments cured by Munyon's Dyspepsia Cure. Ninety per cent of all kidney complaints cured by Munyon's Kidney Cure. Headaches, colds and coughs, influenza, general debility, nervousness, all quickly cured by Munyon's Remedies. The remedies cost mostly 25 cents a vial, and are sold by all druggists. There are fifty-seven different cures for fifty-seven different ailments.

TREATMENT BY MAIL. Write Professor Munyon for advice which is ABSOLUTELY FREE. The most extensive cases successfully treated in the strictest confidence. "Guide to Health" free.

MUNYON'S H. H. R. CO., 1505 Arch Street, Philadelphia.

QUAY'S TRIAL.

Again Postponed—This Time by the Court for Good Reasons.

PHILADELPHIA, Pa., Feb. 7.—The trial of Senator Quay, his son Richard R. Quay, and ex-State Treasurer Benjamin J. Haywood, charged with conspiracy in the misuse of state funds on deposit in the People's Bank, has again been postponed, this time from February 23, to February 27.

Judge Bellier, of the court of quarter sessions to-day sent for the district attorney and counsel for the defendants and informed them that the previous date, February 20, would be immediately followed by two holidays, election day and Washington's birthday.

The judge said he considered it would be a hardship on the jurors to "keep them confined on the two holidays when court would not be in session and he therefore determined to change the date to February 27.

New Man in the Race.

HARRISBURG, Pa., Feb. 7.—Hugh J. Eastburn, a Doylestown lawyer, was entered in the senatorial race to-day by some of his anti-Quay friends. He was one of the five Pennsylvania delegates to the national Republican convention, at St. Louis, in 1896, who voted for President McKinley against Senator Quay for the presidency. Those who voted for him were Senator Rice, who has changed from Huff, and Representatives Jeffries, from Stewart, and Manly and Sexton, both from Dalmatin. Mr. Quay was again thirteen votes short of the number necessary to elect. The ballot was devoid of interest. The ballot was as follows: Quay, 105; Jenks, 79; Dalzell, 14; Stewart, 5; Stone, 5; Huff, 6; Tubbs, 1; Whitner, 2; Ritter, 2; Rice, 2; Grow, 1; Smith, 1; Markle, 1; Irvine, 6; Eastburn, 4. Total, 234; necessary to a choice, 118.

Plate Glass Profits.

PITTSBURGH, Pa., Feb. 7.—Net profits of the Pittsburgh Plate Glass Co., for the past year, were announced at the annual meeting to-day, to have been more than \$1,000,000. The management of the company has decided to erect a plant for the manufacture and repair of the equipment of the glass factories at some time soon, but plans have not been fully formed and were not acted upon to-day. The plant will be likely erected at Ford City and will cost \$100,000 or more.

Forces Available.

WASHINGTON, D. C., Feb. 7.—The secretary of war has sent to Congress a statement of the militia, showing a total organized force of 101,636; total unorganized and available, 8,999,825.

Dangers of the Grip.

The greatest danger from La Grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for La Grippe who have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure La Grippe in less time than any other treatment. It is pleasant and safe to take. For sale by druggists.

THEIR RECEPTION.

The Ladies of Moundsville to Entertain the Soldiers of

THE FIRST WEST VIRGINIA

Regiment at the Opera House—Elaborate Preparations are Being Made for the Entertainment of the Boys. Wheeling Soldiers Cordially Invited—Many Additional Arrivals of the First Boys Yesterday.

The ladies of Moundsville will give a banquet and reception to the members of Company M, First West Virginia Regiment Volunteer Infantry, and the members of J. C. Caldwell Post, No. 21, of the G. A. R., at the city opera house this evening, in celebration of the return of the soldier boys. The following is the order of exercises arranged by the committee in charge: Banquet for G. A. R. Post and Company M. upstairs in the armory at 6 o'clock p. m.

Reception down stairs in the auditorium at 7 o'clock p. m. to which all friends of the members are cordially invited. Good speakers and excellent music have been provided for, and an enjoyable time generally is anticipated.

The members of Company M, living in Wheeling, Benwood and other places, are urged to be present, and enjoy the bounteous repast and the cordial reception provided and arranged for them by the ladies of Moundsville, than whom none know better or are more willing to provide a good service.

The boys kept coming yesterday on every train from the south and west, until quite a number of them are in the city. Others will come to-day, and to-night, while others yet will not arrive before Friday or Saturday.

Others Return.

Yesterday, additional members of the First regiment returned home, and they report that Cincinnati has attractions for many of their comrades, who are due to struggle in day by day. Among yesterday's arrivals were Harry Pritchard, the well known base ball player, Howard Hastings, Edward Lantry, Henry Landroth, Paul West and Charles Sims.

AMUSEMENTS.

Mathews and Bulger, in the rag-line opera, "By the Sad Sea Waves," scored a hit at the Opera House. These stars are new to Wheeling, but it is safe to say they will be top-notch favorites in the future. A return engagement this season would pack the Opera House from pit to dome. "By the Sad Sea Waves" is a melange of farce, music and specialties. The scenes are laid in a fashionable sanitarium, where "Palmer Coin" (Mathews) and "Boston Budge" (Bulger) practically run things with their own ideas and suggestions. Specialties abound through the three acts, being introduced at opportune moments and in no way retarding the continuity of the story. The scenery is particularly picturesque, while the costuming is far in advance of anything seen in farcical productions. From the large number of clever people employed "By the Sad Sea Waves" is certainly not a performance devoted entirely to the talents of the two popular stars, and that the piece gives many an opportunity can readily be seen by the people who go to make up Mathews and Bulger's support.

"UNDER THE DOME."

Lieutenant C. S. Ripley, in charge of the United States hydrographic bureau, at Chicago, a survivor of the Vandalla, one of the United States men-of-war wrecked during the fearful hurricane which swept the harbor of Apia, March 15, 1893, was an interested spectator at the initial production of "Under the Dome" in Chicago recently, and again later in the week, in company with Geo. Kimberly, a nephew of Admiral Kimberly, who was in charge of the United States squadron at Apia; Mrs. Townsend, a sister of the admiral; Major E. Pond, of the United States army, and others occupied a box as the guests of the management. Lieutenant Ripley pronounced the hurricane scene in the play only second in its awful grandeur to that which at Apia resulted in the wrecking of forty schooners and half a dozen German and American men-of-war.

"THE LATE MR. EARLY."

"The Late Mr. Early," the new farce comedy by James H. Martin, has scored the most emphatic kind of a hit. Successes, however, have been anything but foreign to Mr. Martin's career as a playwright, and while he may not appeal for public approval so frequently as many other authors, one always looks for something of more than passing interest from him. Mr. Martin first came before the public as the author of "The Harvest Moon," Mrs. Jauch's greatest success. The latest work of this clever playwright is serving as a vehicle for the stellar debut of Sharp and Platt, the musical comedians, who have for several seasons been featured with Hopkins-Trans-Oceanic company, and these clever entertainers have been credited with having scored very strongly in the production. They are surrounded with a company of exceptional strength, and when one pauses to think of the individual merit of many of the principals it is easy to imagine a splendid performance. The specialties in the production are without a single exception said to be extremely strong, and the incidental music, songs and choruses are said to have caught on. The costuming and scenery of the piece are of the most elaborate and costly kind. The play is to be seen in but very few one-night stands this year, its success having been so great that managers in New York, Chicago and other large cities have of-

ferred the production enough time to complete almost the entire season of the company. "The Late Mr. Early" is tonight's attraction at the Opera House.

BOSTON LYRICS AGAIN.

There is no question but what the announcement of the return engagement of the famous Boston Lyric Opera company for one week, commencing on Monday, February 20, with matinees on Wednesday and Saturday, will be hailed with the greatest satisfaction. The success of this company in their performance here is still fresh in the minds of those who were fortunate enough to be on hand to witness the production—and those who "stayed away" and regretted it afterward.

That this company's great success will be repeated it is needless to say. There is always a warm welcome accorded first-class musical organizations in Wheeling, and the simple announcement of the Boston Lyrics' coming again will at once set musical circles in a flutter of excitement.

The same organization precisely will be on hand for this engagement that was with the former event, with several important additions made by Manager Colonel W. A. Thompson to the chorus—not that this feature of the performance needed strengthening—but it is desired to make it even better, if possible.

FLINT, HYPNOTIST.

The Grand was packed last night with an audience that laughed itself hoarse in enjoyment of the hypnotic entertainment given by the great Flint, whose name on a play bill is synonymous of the very best in his line. Again he was fortunate in having the co-operation of a dozen or fifteen excellent subjects. He had them entirely under his control, and their antics were ludicrous, indeed. Balloon ascensions, parachute jumps, toboggan rides, slinging, dancing, swimming—these and a hundred and one other imaginary amusements were participate in by the subjects, and enjoyed by the audience. The engagement closes to-day with a matinee and night performance.

A Death Saved Many Lives.

SEATTLE, Wash., Feb. 7.—Advice from the Orient state that the death of Japanese Princess Sandanomyia probably saved the lives of hundreds of theatre-goers at Osaka, Japan. The death in the royal household was announced when the show at the Kabuki theatre was about half through, and an immense crowd slowly filed out. They were hardly clear of the building when flames broke out in the third story, and reduced the building to ashes. A strong

TERRIBLE SINKING SPELLS

I was Very Weak and Miserable for More Than a Year.

I Had Stomach Trouble, Palpitation, and Poor Circulation.

I Have Received Wonderful Benefit From Dr. Greene's Nervura.

Mrs. Emma C. McAllister, of Calais, Vt., says:

"I have been afflicted for about two years with trouble with my stomach, which would beat violently and throb, and from that it went to my head. Then came on sinking spells from inaction of my heart. My body would be cold and my limbs numb, when I had to be rubbed smartly to start the heart again. Then

followed vomiting spells, so that I was obliged to call the doctor to stop that. I was very miserable for more than a year.

"I began to use Dr. Greene's Nervura blood and nerve remedy. The results were less frequent, and my rest was far more refreshing, and after the third bottle I can say that I am greatly benefited."

What gives people the greatest confidence is that Dr. Greene's Nervura is the prescription of a regular physician, Dr. Greene, 35 West 14th St., New York City, who can be consulted by anyone without charge in writing to any case, either by calling or referring to Dr. Greene.

wind was blowing at the time, and the firemen could do nothing to stop the flames. A number of them were seriously injured in their efforts. It was one of the finest buildings in Osaka.

A Desperate Criminal.

ST. LOUIS, Mo., Feb. 7.—A special to the Post Dispatch from Birmingham, Ala., says: Near Dadesville, Edward Greer, an escaped negro convict, assaulted Mary Mitchell, a twelve-year-old school girl. Greer took to the swamps and is there, surrounded by a body of armed men, who will lynch him. Greer is heavily armed and has given battle to his pursuers several times. Washington Heard, one of the party, has been killed and two others wounded by the negro.

French Steamer Ordered Home.

CHESTER, Pa., Feb. 7.—The captain of the French tanker Quently, now lying at Marcus Hook, a few miles below this city, has received a dispatch from his company ordering the return of the steamer to France. This step is taken because of the strained relations between France and England. An officer of the tanker is a sergeant of marines in his native country and through him this information leaked out.

Death of Bishop Williams.

MIDDLETOWN, Conn., Feb. 7.—Rev. John Williams, D. D., LL. D., ranking bishop of the Episcopal church in America, died at the Episcopal residence in this city shortly before 6 o'clock to-night, aged eighty-one years. His death was sudden and unexpected. He had been attacked with the grip in a mild form about a week ago, but no fatal result was apprehended.

YESTERDAY'S DEPARTURES.

Cincinnati...KEYSTONE STATE, 8 a. m. Pittsburgh...QUEEN CITY, 4 p. m. Charleston...LEXINGTON, 11 a. m. Sistersville...RUTH, 2:30 p. m. Clarinton...LEROY, 2:30 p. m.

BOATS LEAVING TO-DAY.

Charleston...KANAWHA, 6:30 a. m. Pittsburgh...BEN HUR, 2 p. m. Clarinton...LEROY, 2:30 p. m.

BOATS LEAVING TO-MORROW.

Cincinnati...QUEEN CITY, 8 a. m. Parkersburg...K. BEDFORD, 11 a. m. Matamoras...LEXINGTON, 11 a. m. Sistersville...RUTH, 3:25 p. m. Clarinton...LEROY, 2:30 p. m. Pittsburgh...LORENA, 2 a. m.

Along the Landing.

Weather Tuesday—Clear and cold. The marks at 6 p. m. Tuesday—12 feet 4 inches and falling. The Ben Hur, Leroy and Kanawha are to-day's packets. The Keystone State departed at 8 a. m. yesterday for Cincinnati with a heavy trip out of the upper river. The Queen City was delayed below by ice. She arrived at 4 p. m. and departed soon after that hour for Pittsburgh. She will be here to-morrow morning for Cincinnati. The T. M. Bayne did not come out yesterday, as had been expected. The Ruth and Leroy resumed in their routes. The Ruth, however, is not expected to-day.

Captain Frank Tilley, of Pittsburgh,

has succeeded in removing the wrecks at Smith's Ferry and Baker's Island. On account of the ice he did not succeed in blowing up the wrecks until yesterday. The wharfboat was caught on shore ice yesterday morning and grounded. The Cleveland, Lorain & Wheeling transfer steamer, Lizzie Townsend, was called upon and after two hours' work she pulled the wharfboat back into its native element. Captain Clayton Randolph, pilot of the Keystone State, whose home is at Reynolds, Ohio, says the Waterways Journal, can count more of his fath-

Pittsburgh River News.

PITTSBURGH, Pa., Feb. 7.—The Pittsburgh towboat W. R. Graham drifted on to the cofferdam at Merrill yesterday afternoon, and to-day was still there. How the accident happened could not be learned. The steamer sounded her distress whistle, and several boats were called to her assistance. It is said that six or seven men were on the boat to keep her from sinking. One of the Randolphs is still living who is over 100 years old.

YESTERDAY'S COAL BONTS.

The following boats passed down with tons of coal for Cincinnati and Louisville yesterday: Relief, noon. Tornado, William C. Horner, 2 p. m. John-Noren, Stella Moren, Tom Doherty, Nellie Walton, 4 p. m. B. D. Wood, Sam Brown, 5 p. m. Joseph Walton, I. N. Bunton, 6 p. m.

River Telegrams.

WARREN—River 3 foot. Weather clear and cold. OIL CITY—River 1 foot 6 inches and falling. Weather, clear and light. PARKERSBURG—River 16 feet
