NOTHING WAS DONE

At the Scheduled Meeting to Purchase the Hobbs Glass House.

A NEW PROJECT WAS SPRUNG

That May Give the Eighth Ward a Glass House—Mr. Westwood's Offer of a Site—The Situation Presented by Senator Scott, the Mover in the Worthy Cause—The Price Set on the Hobbs Plant Considered High.

While the meeting called for last evening at the Mozart hall did not materialize in any definite conclusion as to the Hobbs glass house project, it nevertheless pointed the way to an indirect revival of the glass industry in the Eighth ward. Mr. Edward Westwood, offering practically a free site for a glass house on his property, near the Baltimore & Ohio tracks, between Forty-first and Forty-third streets, and as there was considerable enthusiasm manifested for this proposition, the meeting had what may be a fruitful development. Otherwise it availed little.

The meeting was called to interest South Wheeling business men in the scheme to purchase the old Hobbs glass plant, at the head of Thirty-sixth street, from the United States Glass Company, and operate it with local capital. Senator N. B. Scott, the prime mover in this worthy object, who recently secured an option on the plant for \$2,500, was at the meeting, and outlined the details of the project to the score of Eighth ward citizens that assembled at the hall. The small attendance was discouraging. Mr. Scott had another meeting to attend and at the conclusion of his remarks, nothing aside from an informal discussion took place, during which Cashier Bowers submitted Mr. Westwood's offer. The meeting didn't organize and was more properly an informal gathering.

In addition to Mr. Scott, there were present, Mr. Henry Schumacher, Cashier Bowers, of the South Side bank, Mr. M. J. O'Neill, who has been active in soliciting subscriptions for the Hobbs plant purchase, Mr. Louis Hoelsche and other merchants and glass workers. The first speaker was Mr. Scott, who began by saying that his purpose was to have started again after its six years' idleness a plant which in its operation was one of the staffs of life to the Eighth ward and the city in general. The option did not include three lots near the plant and Mr. Ripley promised to make a reduction for the three carloads of stuff hauled away since the option was stated. It was thought a capital subscription of \$75,000 would start the plant. Mr. Scott thought a dividend could be paid after three years. He was interested in the Central glass house, which he found sufficient, but the city of Wheeling had been good to him and he was satisfied to invest his money in the Hobbs plant. Mr. Scott admitted the outlook was disappointing but he stood prepared to help in any manner. The South Side would be greatly benefited, and he hoped its business men would see it in that light. Mr. Scott said that President Heard, of the Natural Gas Company of West Virginia, had offered to subscribe \$5,000 if given the gas contract at a stipulated figure.

Mr. Scott then had to leave and with his departure the interest ebbed. Several gentlemen stated that in their opinion the price set on the plant, \$25,000, was excessive, in view of the condition of the boilers and other equipment, which had become impaired by the long idleness. The molds were said to be valueless, but the furnaces were acknowledged to be equal to any in the country. No subscriptions for stock were in sight, those so inclined declaring the Hobbs plant wasn't worth near the amount asked.

Then Mr. Bowers stated that Mr. Westwood agreed to give lots, with 250 feet frontage on the Baltimore & Ohio and 100 feet in depth to a glass house, if capital could be secured to operate it, and this proposition seemed to find considerable favor. Mr. O'Neill said he knew of \$15,000 that could be subscribed, which with \$25,000 he felt sure South Siders should raise, would make the Westwood scheme a go. No action was taken other than of deciding to interview South Side merchants next week, with a view to learning how much money they would subscribe. After this canvass another meeting will be held, the date to be set later.

So there is a possibility of a new glass house in the Eighth ward, but the Hobbs plant seems due for continued sleep. It is sincerely hoped the matter will end right. But at any rate, the enterprise of Senator Scott is to be commended.

A POTTERY ADVANCE

Of Five Per Cent Announced by Manufacturers.

After being in session nearly all of the past week, the manufacturing potteries of East Liverpool have agreed to increase the selling price of ware 5 per cent, commencing at once. It is contended by many of the manufacturers that the price ought to be advanced 10 or 15 per cent. It is probable that another change may occur by the first of the year. This move, owing to advance in price of material, has been contemplated for some time, but the settling of the warehouse girls' strike at an increase of twelve and one-half cents per day, caused the manufacturers to act at once.

No Effect Without A Cause.

This is true, yet for many ages no one could account for the mysterious and excruciating pains that, seemingly without sufficient cause, tortured the hapless sufferer, and oftentimes twisted his limbs out of all semblance to humanity.

Science, however, has at length solved this problem, and has proclaimed that rheumatism, in all its varied phases, is due to uric acid in the blood.

Hence, when one is afflicted with rheumatism he knows there is too much acid in his blood. How does this happen. It must be the blood's purifiers, the liver, and especially the kidneys, are out of order and do not properly perform their functions.

But how can they be restored to their normal healthy state? Hundreds of thousands of grateful, and now healthy, people will endorse the answer:

Use Warner's Safe Cure, which will check an excess of acid, dissolve the acid deposit, and produce a normal and healthy condition of the kidneys and liver, and then, the cause being removed, the rheumatism will quickly disappear.

THE HESS OPENING.

Such an Exhibition of Chrysanthemums Seldom Seen in Wheeling. Florist Max L. Hess Has Indeed Done Himself Proud—Opening Begins Sunday and Continues Next Week.

In a floral crystal palace, Florist Max L. Hess has arranged to receive his friends and patrons and the public in general at a "Chrysanthemum Show" to-morrow between 10 and 4 o'clock, and every day next week during the same hours. Mr. Hess' palace of flowers is located on the National road, east of the city, just this side of the Mount Calvary station, where persons attending the show will alight from the Wheeling & Elm Grove electric car. Since last season, which was Mr. Hess' third season in the horticultural line, and before which he was the very efficient florist at Wheeling Park, he has made many improvements and additions. Now he has facilities for serving his patrons to the acme of satisfaction, and without the delay that is sometimes so annoying to persons wanting flowers at short notice.

As to quality, Mr. Hess has indeed made a most enviable reputation in the past year. With the energy of youth and the determination to succeed that have sent countless Americans to the front in the hurly-burly of business life, he has left no step untraced, no stone unturned, to that goddess of Success, and the result is a business built up within three years which many a florist would be proud to possess after many years of hard work and intelligent application of ideas.

When an Intelligencer reporter stepped into the cozy office of the Hess greenhouse yesterday afternoon he was surprised at the transformation that has taken place since last fall. Flowers everywhere—roses, chrysanthemums, geraniums, lilies—in every color, shade and variety, give to the scene a tropical luxuriance that causes one to appreciate the effort—long continued effort—necessary to bring about such a result.

It is in chrysanthemums that Mr. Hess takes especial pride this fall. They are to be seen in beautiful arrangement and boundless profusion in the first of the four greenhouses, and are the make-up of a show that will please and surprise all who attend the "Chrysanthemum Show," which constitutes Mr. Hess' formal opening for the season. Chrysanthemums are to be seen in red, pink, white, yellow and in all shades and tints. No such showing of the beautiful chrysanthemum has been seen in Wheeling before Mr. Hess determined to make his 1898-1899 opening a function that will be remembered by all who attend. Persons who wish to see it in convenient to attend the opening of the show on Sunday, should remember that the function will continue through next week, when Mr. Hess will be pleased to receive his friends and the public.

Hard to Please.

That's the way Clothing Stores generally speak of a man who does not see fit to buy their clothes. Not so here. We don't tolerate such nonsense. The fact of the matter is, the same hard-to-please customers at other stores are our readiest buyers. We find they are good judges of clothes and know how a garment should be made. The more particular a man is, the more critical the comparison. That's what we like—means lively selling here. The honest values of
