

TERRIFIC BATTLE.

Colombia Government Forces and Revolutionists Fought Two Days.

1,000 REBELS WERE KILLED.

Government Forces Victorious in One of the Most Stubborn Engagements of the Insurrection—Prominent Rebel Leaders Killed and Wounded.

NEW YORK, Nov. 21.—A dispatch to the Herald from Panama says:

Official advices from Bogota dated November 18, report that a terrible battle between the government forces and the revolutionists was fought near Bucaramanga, capital of the department of Santander, in which the government forces were victorious. It is stated that the battle lasted two days, ending at noon of November 18. More than 1,000 rebels were killed and 2,000 were wounded.

About 10,000 men on both sides were engaged in the fight. General Uribe and General Juan Francisco Gomez, prominent leaders of the revolutionists were wounded and it is reported that General Pablo Emilio Wallier was killed. On the government side General Pena Solano Pilemizar and General Fernandez were wounded.

The regiments commanded by Generals Holguin and Lujan are reported to have occupied Bucaramanga on November 18. The place had been held by the revolutionists since the civil war of a month ago. The Manavia, an English steamer, arrived here yesterday with 600 recruits from Buenaventura. About 400 more recruits are expected soon and on their arrival will proceed to the Atlantic coast, the movement beginning next month. No news has yet been received from Tumaco.

STATE BOARD OF AGRICULTURE.

Secretary Garvin's Monthly Report of Crops, Stock, Etc.

Special Dispatch to the Intelligencer. CHARLESTON, W. Va., Nov. 21.—The monthly crop report of Secretary Garvin, of the state board of agriculture, has just been completed. Reports are in from a number of counties, the majority of which make favorable returns. Summing them up, Secretary Garvin says: "Local reports on autumn sown wheat are on the whole favorable. In some places the grub worm and Hessian fly have made their appearance but no damage from this source is not likely to make any show before spring. The season for corn has not been so favorable and as the demand for this grain is becoming great, higher prices may be looked for before the close of the winter."

"Stocks on the whole are not so satisfactory. The prices on pork in our large markets have a tendency downward, while the supply is liberal. Good fat cattle is in demand at good prices, but the supply is hardly equal to the demand. Medium grades are pretty liberally supplied at medium prices. "Stock sheep are high and are likely to remain so, as the surplus bulk has been placed on the market."
