WITH TEACHERS

In the Hills and Vales at Roans and Calhoun Counties.

"THE LITTLE MOUNTAIN STATE"

A Misnomer Says Professor Crago. Writes Interestingly of Educational Work in the County Where Railroads Have Not Yet Penetrated and Where the Virgin Forests Deck the Mountain Tops-Finds the Little White Behocolhouse Everywhere. TOY .

Special Correspondence of Intelligencer, GRANTSVILLE, W. va., July 30.
When I wrote you from Spencer our fastitute was in full blast and full of laterest and it so continued until the close, Friday at 3 o'clock p. m. In some respects it was one of the most successful institutes I aver; saw. The teachers were attentive, courteous to the instructors, and from their every act they showed that their hearts are in the great work in which they are engaged. The schools of Roane counare in good hands. One of the features of the institute was the help re crived by distinguished citizens and visitors. On Thursday evening an informal meeting was held The court room was depsely packed and Charles E. Hogg, Hon. Wirgh A. Lewis, Prosecuting Attorney Vandale and Professor Gorby, the newly-elected principal of the Spencer schools, all made short speeches, and the time was pleasantly and profitably spent.

Met an Old Friend.

While at Spencer it was my pleasure and privilege to meet Prof. T. L. Davies, who has been principal of the Spencer schools for quite a number of years, but who now has charge of job printing office, and is engaged in writing a general history, which he himself will publish. He has already issued a book entitled "Facts in Civil Government," which is a gem in itself and should be in the hands of every teacher in West Virginia and in fact, it would be well if every boy and girl in the state was permitted to peruse its pages. On Friday evening after the close of the institute, I was taken to the hospitable home of Mr. Craig, four miles from town, and early Saturday morning we started across the country to Grantsville, the county sent of Calhoun county, where I am now very comfortably located, to assist in conducting the county teachers' institute which convenes at 10 a. m. to-day. I traversed some of the wildest; roughest yet most beautiful country I have ever seen. "The West Virginia" Hills" will hereafter be more of a reality than they have heretofore been. I am glad that I have been permitted to take this trip and to visit places income state I have never seen before.

Believe it a Misnomer

As I am permitted to go here and there, up and down the hills and val-leys of West Virginia, the more I am convinced that the name "Little Moun-tain State" is a misnomer. It should be "Big Mountain State." The more I see of the interior of the state, more am I convinced of its vast wealth and the more I see the great possibilities in store for us in the future. Our mineral wealth is inexhaustible, while the mountain sides are lined with timber that cannot be exhausted) for generations to come, and there her people, the sturdy men and women are now in control and the sturdy boys and girls springing up on every hand will take the places of those whose span of life is fast coming to a close; these are far better than all.

See the Little White Schoolhouse.

No difference where we gover now rough the roads or how will the scenneat little white school house, in which these hardy sons and daughters are being educated for the duties of life. will come home from this trip with a better opinion of the great presibilities of our state than I have had before. It would be a great thing if more of our people were to become better acquainted with our state as a whole than they are doing. Some of us who live in the city get the idea that those living out among our mountains and hills are far behind the city folks; in short, are but a little removed from the sayage and the barbarian, when the facts are just the opposite. It is here you find the bone and sinew of our state. It is here you find the perfect type of and womanhood, True, many of them may never have been many miles from the spot where they were born, but for "a that" you find in them the true man and the true woman, and, our state is on the highway to prosperity, as long as our hardy mountaineers are permitted fo stand at the helm.

They Are Honest.

They may not be so learned as some who aspire to be leaders, but they are honest, which counts much more than all the learning without the moral force withstand bribery and the other kinds of corruption that are erceping into American politics. Yes, "the men of the mountains are free" as long as they have the inbred honesty and purity of purpose that characterize them at present. A Democratic primary election was held here, on Saturday, and the following county ticket was nominated: For sheriff, J. E. Jarvis: house of delegates, A. E. Kinney; prosecuting attorney, S. A. Hays; com-R. A. Terrell; long term, William Knotts; unsersor, J. M. Wease; sur veyor of lands, W. S. Ferrell, Quite an interest was taken in the matter, and I understand there were quite a number of surprises when the returns came in. A specimen of newspaper enterprise was shown by the Calhoun Chronicle, in issuing its edition yester-

day, instead of to-day, in order that its readers might get the election returns at the earliest moment possible. Good Ticket Nominated.

The ticket is said to be a good-one in

ge' us" to see the future as we see the past, then our conjectures on such things would be the realities that we dream and hope they may be. I will have associated with me this week, Prof. Frank Po Harris, a teacher in the Ohio Valley College, of Ravenswood. Neither of the instructors have you visited Calkann county and hence ever visited Calhoun county, and hence the teachers are on the cul-vive as to how they will like the instructors and what kind of an institute they will have. Before evening they will know, and it is hoped they will not be disap-

pointed.

Professor Harris has the reputation of knowing as much about West Virof knowing as much about west virginia as any instructor in the state, and doubtless he does. If anything should transpire worth recording I may write again.

F. H. C.

WHEELING WHOLESALE MARKETS. Weekly Change of Quotations in all Lines of Local Trade.

Office of the Intelligencer. Wheeling, July 31.

Business continues very good in all lines in the Wheeling purket. There are few changes in groceries this week. Flour shows a decline in some grades. There is a quarter-cent drop in the

There is a quarter-cept property quotation on cattle.

Indiana gems have made their appearance, and are of good quality this season. Bartlett pears have also come in, and are quoted at \$2 per basics.

There is the usual duliness in the produce market, owing to farmers' wagons keeping the stores well supplied. absence of many familles at the seashore also cuts down the demand Peaches and watermelons are scarce to-day.

Very little wool is moving at present. Provisions.

ver 61%c. Silver certificates 61%@ 6214c. Mexican dollars 4814c.

Government bonds weak. State bonds inactive. Rallroad bonds firm. Some animation was given to the

closing dealings in the stock market today by the conflicting movements of prices engendered by the upward spurt in Union Pacific and the realizing in Sugar. The break in Sugar proved the more effective in its influence and the market closed weak at about the low level of the day, after having shown considerable gains in many stocks at an earlier period. The trading was dull and continued early in professional to some extent from the foreign stock markets which showed decided relief over the reliable tenor of the news of the safety of the envoys in Pekin. The small commitments on the bear side put out yesterday were closed up, helping the rise. A number of statements of railroad net earnings for June published over night were factors strength. This was notably true of the amount of territory covered by its lines and the exceedingly varied character of its traffic, which make its statements valued as accurate reflections of general conditions in the railroad world. The stock of the company advanced 1½ under this influence and the price was well held through the later rather striking contrast to the indifference with which June reports of some other railroads were received. The large net increase shown by the Atchison system did not avail to hold the stock, and Burlington, after rising a sharp fraction, fell below last night's level on realizing when its statement appeared. The 2 per cent semi-annual dividend on Union Pacific had been

counted upon with certainty, on count of the character of the promises The dividend action was imme diately followed by large and aggressive buying for inside interests, which our low buying for inside interests, which carried the stock up 1% per cent. This stock was inflective in pulling the rest of the list, of which the high level of the morning served to renew yesterday's realizing movement. Sugar fell abruptly to 120% an extreme decline of 4, and American Tobacco suddenly dropped 3 points in sympathy, Metropolitan showed marked weakness, and the whole list fell to

the lowest, Union Pacifiquayielding a fraction. There was some evidence a speculative contest between the friends of Union Pacific and Baltimore & Ohlo, on account to the attempts on the part of the bulls, Union Pacific and unfavorable comparisons between the price of Union Pacific, with dividends declared at the rate of 4 per cent and Baltimore & Ohio with dividend action yet to be taken. Brooklyn Transit

continued rather active to-day, but the saves a fractional net gain. There was a slightly firmer tone to sterling ex change to-day, in spite of a shading of London discount rates. The question of gold exports this week remains undecided with to-day's conditions against the probability.

The bond market was firmer to-day, but very dull. Total sales par value,

Breadstuffs and Provisions.

Breadstuffs and Provisions.

CHICAGO—A sharp decline in oats and an equally sharp advance in provisions were the features of an exceptionally dull season on Change to-day. Wheat closed at a decline of ½c and rorn unchanged for September. Oats lost %,64% on heavy country offerings and perfect weather, and provisions, influenced by light stocks and good cash demand, advanced 27½c for pork, 7½6 loe for lard and 12½c for ribs.

Opening trades in September wheat were made at prices ½6½c lower than yesterday's closing, 75c being offered at first. The price soon slid off another small fraction to 74½c, then recovered to 75½c, which proved to be the high mark for the day. Liverpool was ½d up, but that had no influence, the main factor in the small decline being the perfect weather in the northwest and

mark for the day. Liverpool was \(\frac{1}{2} \) dup, but that had no influence, the main factor in the small decline being the perfect weather in the northwest and the comparative weakness of the markets in that section. Scalpers were moderate sellers, but for some time the market held fairly steady about 75c, on a gradually decreasing amount of trade. Transactions finally grew so insignificant that the pit was almost deserted. Chiefly from this neglect, the September price slowly slipped off to 74\(\frac{1}{2}\)c. Below 75c there appeared to be a fair demand, and the price was not allowed to remain at that point long. During the last hour, the market again assumed some degree of steadiness, helped somewhat by reports of good export engagements at the seaboard. Trading throughout the session was almost entirely of a local nature. September closed at 74\(\frac{1}{2}\)c. Northwest receipts were \(30\) fars. Compared with \(25\)c. enter last week for the gars compared with \(25\)c. enter last week for the compared with \(25\)c. enter last week for the compared with \(25\)c. enter last week for the compared with \(25\)c. enter last week for the compared with \(25\)c. enter last week for the compared with \(25\)c. enter last week for the compared with \(25\)c. enter last week for the compared with \(25\)c. enter last week for the compared with \(25\)c. enter last week for the compared with \(25\)c. enter last week for the compared with \(25\)c. 675c. Northwest receipts were 301 cars, compared with 225 cars last week cars, compared with 225 cars last week and 296 curs a year ago. Chicago receipts were 331 cars, 45 of which were contract grade. Total primary receipts were \$2,000 bushels, against \$38,000 bushels a year ago. The seaboard reported 53 loads taken for export. The world's visible supply increased 2,300,000 bushels. Corn was fairly steady within narrow limits. There was a slight opening decline, due to sympathy with wheat, but inter the market became steady, and prices recovered. Country offerings were light, but the cash demand was also slow. Receipts were 612 cars. September ranged from \$34\(\text{\text{c}}\) cars. September ranged from \$34\(\text{\text{c}}\) cas \$3\(\text{\text{c}}\) closed uchanged at 381/2c to 381/2c, and closed unchanged at

Oats were exceedingly weak, and Onts were exceedingly weak, and closing prices showed a material decline. Country offerings were much freer, the weather was ideal for the movement, and liquidation of futures were persistent, elevator people being prominent sellers. A heavy cash bustiness was done on the break, probably 500,000 bushels. Recelpts were 475 cars. September ranged from 21½c to 21½c, and closed %%½c lower at 21% £21½c.

Provisions showed more strength than anything else on the floor, Stocks of all kinds were reported very light, and a good cash demand was evident. Leading packing interests were good buyers, and prices were kept on the up grade until afternoon, when some reaction, due to realizing, took place. The

tion, due to realizing, took place. The close, however, was strong at substantial advances all around. September pork closed 27½ filter at \$12 02½; September lard closed 7½ filter higher at \$1252,200 and September ribs closed 12½ higher at \$7 12½.

Estimated receipts Wednesday; Wheat, 225 cars; corn, 250 cars; oats, 220 cars; hogs, 25,000 head. tion, due to realizing, took place.

The leading futures ranged as follows:

Wool.

Wool.

BOSTON—Some improvement is noted in the wool market here. Manufacturers are not exactly ready to buy freely, but they are bidding on many lines of wool and in some instances fair purchases are made. The mills, some of which are closed, have allowed their stocks of wool to be greatly reduced in order to buy more advantageously and if they secure much new business it is predicted they advantageously and if they secure much new business it is predicted they will be forced to buy freely. Arrivals of wool from the west which have been light for some time, are now more frequent. Ohio and Pennsylvania fleeces X and above 27c; XX and XX above 29c; delaine 30@31c; No. 1 combing 30@31c; No. 2 do and three-eighth blood 30c; quarter-blood washed 30c; course and braid washed 28c. NEW YORK-Wool quiet.

Metals.

NEW YORK—The general undertone of the local metal market was easier, though prices showed no positive variation. The cable news was irregular and reports from the west were not calculated to give the market a stable trend. At the close the metal exchange called pig iron warrants weaker at \$12 50 nominal; lake copper unchanged at \$16 50; tin quiet at \$22 500 33 00; lead dull at \$3 57\frac{5}{2}04 02\frac{5}{2}4; spelter quiet at \$4 25\frac{5}{2}4 30.

Dry Goods.

NEW YORK—A revision of prices in wide sheetings to a lower basis has been the chief feature to-day. In bleached cottons there is a steady de mand for moderate quantities at pre-vious prices. Brown cottons continued dull and irregular. Course colored cot-tons slow. Prints in rather better re-quest. Print cloths firm. Business in men's wear woolens at new prices is only moderate. Dress goods slow.

Petroleum.

OIL CITY—Credit balances \$1 27; cer-tificates, sales 9,000 barrels cash oil at \$1 29; shipments 26,696 barrels; aver-age, \$3,000 barrels; runs, 155,242 barrels; average, 91,001 barrels. NEW- YORK-Standard oil stock \$529@533.

TOLEDO-Oil unchanged.

If Baby is Cutting Teeth

Be sure and use that old and well-tried remedy. Mrs. Winslow's Soothing Syrun, for children teething. It soothes the child, softens the gum, aliays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.
