

GRAND DUKE PETER

And Grand Duchess of Russia Baroly Escape Death

IN A RAILROAD ACCIDENT.

Returning From the Funeral of the Late King Humbert—Disaster Caused by the Telescoping of the Two Sections of a Train.

ROME, Aug. 13.—The railroad accident, not far from this city last night, turns out to have been more serious than anticipated. It now appears that twelve persons were killed and forty wounded, of whom fifteen are seriously injured.

The disaster was caused by the telescoping of two sections of a train on the railroad from Rome to Florence, bearing notable persons, who had been attending the recent ceremonies here. The engine of the first section became disabled and stopped and was almost immediately afterwards struck by the second section. The Grand Duke and Grand Duchess Peter of Russia, and the members of the Turkish mission, who had attended the funeral of King Humbert, were among the passengers, but they were unharmed. The accident occurred about midnight and at a point about twelve miles from this city.

The Grand Duchess is a sister of the new queen of Italy.

When informed of the accident King Victor Emmanuel and Queen Helena hastened to the scene. The queen and her sister returned to the Quirinal, while the king and the Grand Duke remained on the spot, giving orders to assist in clearing the wreck and saving the injured. They re-entered the Quirinal at 6 o'clock in the morning.

Later in the day it was announced that fifteen persons had been killed in the railroad accident.

Among the injured were General Bullfinch, head of the Belgian mission to the late king's funeral. He had his leg broken.

MENSING HEIRS

Get the Decision in the Famous Land Suit—Property Now Within Limits of Kansas City.

WASHINGTON, D. C., Aug. 13.—Commissioner Hermann, of the general land office in the homestead entry contest of John H. Mensing, for valuable land now within the corporate limits of Kansas City, Mo., but formerly an island in the Missouri river, has decided in favor of the Mensing heirs, permitting their entry for all land within the old Meander boundary lines of the island. The land is ordered to be re-lotted for this purpose. The remainder of the island, as it now exists, consisting of the Accretions, will be offered for public entry. The land has an appraised value of \$1,000 an acre and 124 acres were in dispute. The former island is not shown in the plans of a survey made of the land on the Missouri side of the river in 1829, but a survey made thirty years later showed the island to consist of almost fifty-two acres. The island was for nine years a military reservation, and was turned over to the interior department in 1884. In 1885 it was discovered that the island, as such, existed no longer but, by accretion, has been considerably enlarged and attached to the main land. Mensing settled on and cultivated the island in 1838 and for years had sought to secure the island as a bona fide actual settler under the general land laws.

TRANSPORT SUMNER

Arrives at Nagasaki—No Casualties Occurred—Will Proceed to Taku.

WASHINGTON, P. C., Aug. 13.—The war department has received the following from General Barry:

"NAGASAKI, August 12. 'Adjutant General, Washington.

"Transport Sumner arrived this port on the tenth. No casualties occurred. Health of command excellent. Will proceed Taku on Indiana.

(Sigs.) "BARRY"

The Sumner carried a battalion of the Fifteenth Infantry. The Indiana also will take aboard siege guns and Maxim field guns, which General Chaffee had requested and which General MacArthur sent from Manila. It will take about three days for the Indiana to reach Taku.

Scrofula

THE OFFSPRING OF HEREDITARY BLOOD TAINT.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and of tetanic white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Sears, 125 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell out on her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

SSS makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease going further damage.

REPLY TO WU

Relative to the Appointment of Li Hung Chang as Envoy Plenipotentiary to Secure Peace—Ready For an Agreement.

WASHINGTON, D. C., Aug. 13.—The department of state to-day made public the reply of the United States government to Minister Wu's communication, delivered on Monday morning, notifying the department of the appointment of Earl Li Hung Chang as envoy plenipotentiary to negotiate with the powers. This reply was sent to Minister Wu at 5 o'clock Sunday afternoon, and is as follows: Touching the imperial edict of August 8, appointing Li Hung Chang as envoy plenipotentiary to conduct negotiations, on the part of China, with the powers and the request for a cessation of hostilities pending negotiations, communicated to Mr. Adee by Mr. Wu on the 13th of August, 1900.

The government of the United States learns with satisfaction of the appointment of Earl Li Hung Chang as envoy plenipotentiary to conduct negotiations with the powers and will, on its part, enter upon such negotiations with a desire to continue the friendly relations so long existing between the two countries.

No General Negotiation.

It is evident that there can be no general negotiation between China and the powers so long as the ministers of the powers and the persons under their protection remain in their present position of restraint and danger, and that the powers cannot cease their efforts for the delivery of these representatives to which they are constrained by the highest considerations of national honor, except under an arrangement adequate to accomplish a peaceable deliverance.

We are ready to enter into an agreement between the powers and the Chinese government for a cessation of hostile demonstrations on condition that a sufficient body of the forces composing the relief expedition shall be permitted to enter Peking unmolested and to escort the foreign ministers and residents back to Tien Tsin, this movement being provided for and secured by such arrangements and dispositions of troops as shall be considered satisfactory by the generals commanding the forces composing the relief expedition.

ALVEY A. ADEE, Acting Secretary. (Department of state.)

ATTEMPT AT POISONING

By the Use of Perfume—Exciting Gossip in Paris—Intended Victim Was the Chinese Minister.

NEW YORK, Aug. 13.—A special cable dispatch from Paris to the Evening Telegram to-day, says: An artful attempt at poisoning by the use of perfume, which recalls memories of Lucrezia Borgia, is exciting all the gossips of Paris.

Thursday the Chinese minister, Yu Keng, received a letter. It was signed "Julie Czerwinska," and contained some dried flowers which the writer asked the minister to accept.

The secretary to the legation, Armandi Parma, opened the letter and was immediately overcome by the deadly odor emanating from the flowers. He fell in a faint.

Relieved by Prompt Treatment. His recovery was accompanied by violent sickness and vomiting. In fact, his condition presented many characteristics of poisoning and only by prompt treatment was he relieved.

Mlle. Czerwinska has been arrested. She appears to be mentally deranged. Before the examining magistrate she claimed to be the victim of a Polish princess, who vowed to take hideous vengeance for some mysterious wrong done her, presumably the flower sending; Julie, who is now being carefully watched by alienists.

The flowers are being chemically analyzed. The secretary is slowly recovering.

DEBTOR NATION

In the United States, According to the London Times—The Public Debt is Being Rapidly Diminished.

LONDON, Aug. 13.—The Times to-day prints a long editorial dealing with the economic position of the United States as evinced by the allotment of the war loan, traces the progress during the last few years of the reduction of the American debt, but maintains that the United States has not yet ceased to be a debtor nation. It refers to the abundance of capital accumulating in America and adds: "Nothing could suit the Americans better, among the non-American securities, than the obligations of the British government."

"Not only have the Americans considerably reduced the permanent indebtedness of Europe by buying American railway and other bonds and securities, but when, in the autumn of 1898, London, for causes refused to renew moneys of German bills previously held here, the bulk, after having been domiciled for a short time in Paris, were transferred to New York, where they have remained ever since and have doubtless been added to."

"The United States also lent money to Russia. "It has been evident for eighteen months or two years that American finance houses possessed large funds which they have been unable to employ at home satisfactorily and the higher interest rates at present in Europe attract some of this money."

HAVOC WROUGHT

By a Terrific Electrical Storm—Number Killed—Joe Bernstein's Training Quarters Struck by Lightning. NEW YORK, August 13.—Latest reports of the big electrical storm which passed over this section yesterday show that the havoc wrought by the lightning and wind was unusually severe.

E. Benner, a bicyclist, was instantly killed by a bolt of lightning during the storm while standing in the doorway of Benjamin Bros' bathing pavilion, on the shore of Great South Bay, near Bay Shore, L. I.

Thomas Dunn, sixteen years old, was killed by lightning as he stood beneath a giant oak tree, where he had sought shelter from the storm, near Jamaica, L. I.

In Jersey City the gale tore off forty feet of the roof of St. Paul's German Evangelical Lutheran church, and knocked down part of the rear wall.

Trolley Struck by Lightning. A trolley car of the North Jersey Street Railway Company was struck by lightning in Orange, N. J., and the car was enveloped in flames. In the rush to escape five persons were injured, two of them seriously. Mary Lombard, six years old, of Orange, sustained severe scalp wounds and injuries about the body. Mrs. Kohler, of Newark, was hurt about the head and injured internally.

At Bloomfield, N. J., a circus tent was blown down.

At Elizabeth lightning struck a tank in the Bourne-Schmeyer oil yards, on Front street, and a big blaze resulted.

At Hackensack, N. J., the wind stripped limbs from trees. A score of trees were hit by lightning and torn to pieces.

Uprooted trees mark the course of the storm in Hoboken. About 200 yards of the fence enclosing St. George's cricket grounds was blown down, and the goal post in a vacant lot was ripped into shreds and thrown across the street.

Bernstein Escaped Injury. The training quarters of Joe Bernstein, the pugilist, in this city, were struck by lightning. Mrs. Bernstein was knocked unconscious by the bolt, and did not recover her senses for more than twenty minutes. When the lightning struck the house Bernstein and Jimmy Michael, the cyclist, were punching the bag in a room adjoining that in which was Mrs. Bernstein. The punching apparatus was ruined by the lightning, but both Michael and Bernstein escaped injury.

EIGHT-HOUR LAW

Being Fought for by the Mill Men's Union—Backed by Trades Council.

SAN FRANCISCO, August 13.—The mill men's union, backed by the building trades council, to-day began in earnest its fight for an eight-hour day. A strike has been ordered, and the strength of the movement will soon be known. The lumber and planing mill owners have not yet decided whether the mill shall try to continue operations with non-union men or shall close down until an adjustment is effected.

In four San Francisco mills and in all of the Oakland mills the union men were paid off Saturday night after their refusal to re-employ under the old schedule, and were ordered to remove their tools from the mills.

"Unless some understanding is reached before the end of the week," said Andrew Wilkie, proprietor of the Mechanics' mills, "I believe building will practically cease in San Francisco and the city cities, and the 15,000 men in the building trades will be thrown out of employment."

The union men ask for the same pay for eight hours as is now given for nine hours' work. The mill men say they cannot grant the demand and meet eastern competition.

ZIONIST CONGRESS

Opened With 500 Delegates—Number of Americans Present.

LONDON, Aug. 13.—The fourth Zionist congress was opened to-day with five hundred delegates present. After organizing, Prof. Max Nordau, reviewing the situation, gave an appalling account of persecution in Roumania, and paid a tribute to Emperor William of Germany for his attitude toward the Jews of Pomerania and East Prussia.

Among the Americans present were Prof. and Mrs. Gotthel D. Blaustein, and A. Fernbaum, of New York; Jacob Maniloff, of Brooklyn; Israel Stein, of Baltimore, and William Schur, of Chicago.

The American delegates are well represented on the committees. Dr. Dertz, formerly of Syracuse, but now of Johannesburg, is a conspicuous member of the congress.

DON'T BE DUPED

There have been placed upon the market several cheap reprints of an obsolete edition of "Webster's Dictionary." They are being offered under various names at a low price.

By dry goods dealers, grocers, agents, etc., and in a few instances as a premium for subscriptions to papers.

Announcements of these comparatively worthless reprints are very misleading; for instance, they are advertised to be the substantial equivalent of a higher-priced book, when in reality, so far as we know and believe, they are all, from A to Z.

Reprint Dictionaries

phototype copies of a book of over fifty years ago, which in its day was sold for about \$5.00, and which was much superior in paper, print, and binding to these imitations, being then a work of some merit instead of one.

Long Since Obsolete.

The supplement of 10,000 so-called "new words," which some of these books are advertised to contain, was compiled by a gentleman who died over forty years ago, and was published before his death. Other minor additions are probably of more or less value.

The Genuine Edition of Webster's Unabridged Dictionary, which is the only meritorious one familiar to this generation, contains over 300 pages, with illustrations on nearly every page, and bears our imprint on the title page. It is protected by copyright from cheap imitation.

Valuable as this work is, we have at vast expense published a thoroughly revised successor, the name of which is WEBSTER'S INTERNATIONAL DICTIONARY. Illustrated pamphlet free.
