FLY TO PIECES.

The Effect of Coffee on Highly Organized People.

"I have been a coffee user for years, and about two years ago got into a very serious condition of dyspepsia and indigestion. It seemed to me I would fly to pieces. I was so nervous that at the least noise I was distressed, and many times could not straighten myself up because of the pain."

"My physician told me I must not eat any heavy or strong food and ordered a diet, giving me some medicine. I followed directions carefully, but kept on using coffee and did not get any better. Last winter husband, who was away on business, had Postum Food Coffee served to him in the family where he boarded."

"He liked it so well that when he came home he brought some with him. We began using it and I found it most excellent. While I drank it my stomach never bothered me in the least, and I got over my nervous troubles. When the Postum was all gone we returned to coffee, then my stomach began to hurt me as before and the nervous conditions came on again."

"It showed me exactly what was the cause of the whole trouble, so I quit drinking coffee altogether and kept on using Postum Food Coffee. The old troubles left again and I have never had any trouble since." Anna Coen, Mt. Ephraim, Ohio.

A Strong Attraction.

In the strength of the company no less than in the high class plays in its repertoire, the engagement of the Braung Dramatic Company is the most notable popular priced attraction presented to amusement lovers in Wheeling in recent years.

TRIO OF ACCIDENTS.

Three Persons Hurt at McMechen's Canning Factory by a Singular Coincidence on the Same Day.

Yesterday at McMechen's preserve works, on the South Side, by a queer freak of fate, three persons were hurt in three separate accidents. Miss Lillie Howell in some manner had her dress caught in a belt and was hurled to the floor. She received a severe shaking up, but the extent of her injuries are not yet known. Dr. Lintz was summoned and had the girl removed to her home on the South Side, where everything possible was done to relieve her suffering. It is thought she was hurt internally and though it is not definitely known, it is likely one of her ribs is broken.

Logan Howell, while descending the building on an elevator, had his foot caught between the elevator and the floor and had his ankle painfully mashed. The blood vessels were torn and several bones were broken. Dr. George McCoy attended him and had him removed to his home on the Island. It is impossible to foretell the result of his injury and it may result in the loss of the foot, though a stiff ankle will more likely be the result.

W. B. McMechen, a member of the firm, was walking through the engine room and the engineer, not seeing him, threw a bucket of hot water, intending to dampen the coal, but it caught Mr. McMechen on the right arm, severely scalding it. The burn will keep his arm in a sling for some time to come.

was prettier, but these were the judges' favorites—that's what each particular mother whose cherub didn't get a prize thinks, and she's not at all slow about expressing her opinion, in public or private.

Photographer Giffin donates a special prize of photographs to the winner, and the "hoky-poky" man passed around his refreshing commodity, greatly to the enjoyment of the youngsters.

All in all, the baby show was a "howling" success, and ought to be a feature of all fairs in the future.

STATE FAIR NOTES.

A threshing machine was brought to the grounds yesterday.

"Rube" and "Joshua" figured conspicuously on the grounds yesterday. The chariot races and standing races are exciting. Everyone ought to see them.

The race between a horse and dog was won by one of the dogs, in a close finish.

The horticultural hall presented a fine appearance with its red, white and blue bunting.

Among the Wellsburg visitors were Sheriff G. W. McCleary, Henry Zilkken and Jay Cooper.

Dogs were judged yesterday and a hard time the judges had. There are some fine dogs exhibited.

The display of the F. W. Baumer Co. is pleasing to the eye, and a sheet of music was given away to each passer-by yesterday.

Prof. Hutchinson was disappointed at the failure of his balloon ascension yesterday, but this is another day and better luck is predicted.

Many people made themselves at home on the grounds yesterday, as many went in the afternoon, took their lunch with them and stayed for the evening.

Two thousand people will be brought to the city over the Cleveland, Lorain & Wheeling railroad to-day, for the fair, a special excursion train has been arranged for, from Lorain down.

In the art department there is on display some colored crayon drawings by Dennis Williams, a well known colored citizen of Wheeling. The exhibit is of especial interest when it is known that Mr. Williams is over eighty years of age.

The hokey-poke boys; the lemonade seller; the different fakirs; the showmen; the drums, the band, the howling of the dogs, the cackling of the geese, and cackling of the chickens; the melody of the pianos and organs—all these and more are a combination heard but once a year.

The balloon ascension was a failure. When the word came to "let go" the big fabric caught on the brick stack used for filling it with hot air and partially toppled it over, at the same time loosening the parachute from the balloon. Aeronaut Walter Hazelton was not even taken off his feet, but some of the bricks in falling, struck George Ballentine and inflicted wounds on the face and hand.

Among the visitors were a party of Republican leaders from down the state, including Secretary James K. Hall and Treasurer Harry C. Woodyard, of the state committee, and Judge Reese Blizard, of Grantsville. Mr. Hall is gratified over the prospects of Republican success in the state—everywhere the party is lining up in good shape for a great victory in November.
