THE RAILROADS. Of the Cleveland, Lorain & Wheeling railway, the current issue of the Railroad Gazette has the following: Cleveland, Lorain & Wheeling.—This is a short railroad, only 192 miles long, and 67 1/2 per cent of its tonnage is coal, coke and ore, carried at a low rate.

Perhaps it was the cod-liver oil; perhaps it was the Cherry Pectoral. Probably it was both. But, more than either, it was the good, sound advice the Doctor gave in the first place. We are here to serve you in just the same way, and we will tell you the medicine for your case or tell you what medicines to avoid.

Always at home. Image of a house.

You will never find our Doctor out. He is here to give advice without charge to those who need him—to those who don't, sometimes. He doesn't always recommend the Ayer medicines, because the Ayer medicines are not "cure-alls."

DEAR DR. AYER: I want your advice for my little boy. He is getting very thin. He has no appetite. He is fifteen years old. When he was four years old he had lung fever, but his health was good until two years ago. Since then he is falling fast. The doctors here say he has the bronchitis. He spits all the time awful bad. The spits are big, thick, and white. Yours truly, Mrs. MARGARET MURPHY, March 30, 1900. Kinbrace, Minn.

And this is the way the Doctor answered Mrs. Murphy: "DEAR DR. AYER: We enclose our book on The Throat and Lungs, in which we trust you will find just the information you desire."

"You should begin at once the use of this Cherry Pectoral for your son, giving it in moderate doses. Then procure some good preparation of cod-liver oil, as Scott's Emulsion, and give him that, as well. Pay particular attention to his diet, giving him such nourishing foods as rare steak, lamb chops, good milk, eggs, etc. Above all, keep him out of doors all that the weather permits. There is nothing that will do him more good than plenty of fresh air. Let him live out of doors all that is possible. By carrying out these general suggestions we shall hope to hear soon that your son is improving in every way. Very truly yours, J. C. AYER." April 5, 1900.

You see, it wasn't only the Ayer medicines that we recommended. The first idea of the Doctor was to cure that boy. The result is told in this letter:

DEAR DR. AYER: My little boy has improved so much since I received your advice that I want to write and tell you how thankful I am. "When I first wrote you, on March 30, he only weighed 50 pounds, but now he weighs 83 pounds; and all this gain since the 8th of April, when I first began to follow your directions."

Perhaps it was the cod-liver oil; perhaps it was the Cherry Pectoral. Probably it was both. But, more than either, it was the good, sound advice the Doctor gave in the first place. We are here to serve you in just the same way, and we will tell you the medicine for your case or tell you what medicines to avoid.

Five out of ten of our correspondents need a doctor rather than a prepared medicine, and we tell them so. If the doctors only knew it, we are working with them every day.
