

TWO SEATS GAINED.

Republican Prospects Exceedingly Good in Pennsylvania.

STATE WILL GO FOR M'KINLEY

By a Majority of a Quarter of a Million—New Markets Opened Up—All in Favor of Expansion—Ashamed of the Free Silver Issue.

BUTLER, Pa., Oct. 7.—Representative J. B. Showalter, of the twenty-fifth Pennsylvania district, stated to-day that he looked for a delegation of twenty-two Republicans, a gain of two, and eight Democrats from Pennsylvania, and believed that the Republicans would hold their majority in the house.

"One of the striking features of this campaign," he said, "is that the Democrats have set upon an issue which Mr. Bryan has denominated imperialism as the great rallying cry of the party. The very absence of the condition implied by such a term, and the absolute impossibility of the overthrow of republican institutions in this country, ought, it would seem to me, to have had a negative effect on the minds of the people."

"But it is evident that Mr. Bryan, in his supremacy of chief comptroller of the destinies of the Democracy, preconceived the notion, and, since his influence is paramount, his declaration that it was to be the paramount issue settled it, and from the Democratic standpoint it so became their principal issue."

"It is the people of the country, however, who determine what shall be the dominant issues of any campaign, and they would have done it. In Pennsylvania it is absolutely without force, and I believe no intelligent voter in any state in the Union will be influenced in the least degree by it—a wind bag and campaign scarecrow which scares no one."

Quarter of a Million Majority.

"Pennsylvanians are too closely occupied to give heed to any save the actual issues of the campaign, which are, to my mind, surrender, retreat and disgrace on the part of the Democracy, and duty, honor and glory as advocated by the Republicans. The record of the Republican party is inscribed in plain terms upon the scroll of its glorious history, and it is one of which it is justly proud."

"Take the question of trusts, upon which Mr. Bryan evidently intends to talk much from now on. I believe the regulation of trusts to be largely a matter of state legislation, yet the Republican party has passed all of the national legislation controlling them and the people may expect no hope or help from the Democracy in this connection, for all they have got or will get has been and will be persuasive and empty blandishments."

"Pennsylvania will give McKinley a majority of 275,000 as an emphatic endorsement of his party's record on protection, sound money, and expansion and the resultant prosperity. New markets have been opened for Pennsylvania's manufactured articles, and it is and should be the policy of the government to foster, further and protect these industries, which keep our people employed at remunerative wages and attract population and wealth to our state, as is well illustrated by the census returns thus far published of the remarkable growth of some of the manufacturing centers in this state."

Texas the Single Exception.

"This is but one of the many reasons for the advocacy of the policy of expansion. I was originally in favor of expansion and would have considered it proper to have taken the Canary Islands. Our people favor the retention of the Philippines, and are expansionists. The policy of the President meets with our approval, and his calm, consistent course has proved him to be a great statesman and a great President."

"Our annexation of these islands was in just accord with treaty rights, and was one of the natural results of the Spanish war. There never has been consent of the governed obtained in any territory we have annexed except in this case of Texas. If the Democratic doctrine of consent is correct why do they not apply it to the colored voter in the old slave states instead of depriving him of it absolutely by constitutional enactment? It is this glaring inconsistency which causes our people not to take them seriously in their arguments, and I believe they will be glad to drop this unresponsive issue before the campaign is ended."

"As to the free silver issue, I believe our Democratic friends are really ashamed of it. In my section of Pennsylvania no one takes it seriously, the people considering it settled, and one seldom hears it discussed."

"Our people believe the administration has handled the difficult problems arising out of the Chinese trouble with that diplomatic skill for which the Republican party is famous. Our policy has commanded the world's respect and admiration."

"I doubt if Bryan will carry any of the states except those in the south, and I would be reluctant to concede any to him, unless they be Utah and Colorado."

Glorious News

Comes from Dr. D. B. Cargile, of Wash. D. C. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved—that Electric Bitters is the best blood purifier known, it's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by Logan Drug Co., druggist. Guaranteed.

HAPPY RESULTS

Have Made Many Wheeling Residents Enthusiastic. No wonder scores of Wheeling citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Wheeling by Doan's Kidney Pills.

Mrs. John Ritchie, of No. 322 Market street, says: "My back was dreadfully weak and sore, and I had rheumatic pains all through my shoulders and arms. I became so weak at times that I fainted. I was also subject to frequent attacks of vertigo, when everything around me seemed moving. There was distress and weakness in the kidney secretion and I could not better it, although I took lots of medicine. Seeing Doan's Kidney Pills advertised extensively I got a box at the Logan Drug Company's. They helped me at once and finally cured me."

For sale by all dealers, price 50 cents per box. Foster-Milburn Co. Sent by mail on receipt of price. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

NEW YORK, Oct. 6.—Money on call steady at 2 1/2 per cent. Prime mercantile paper, 65 1/2 per cent. Sterling exchange steady, with actual business in bankers' bills at \$1 8 1/4 for demand and at \$1 8 1/4 @ 8 1/4 for sixty days. Posted rates, \$4 88 1/2 @ 8 1/2 and \$4 30 @ 4 88 1/2. Commercial bills, \$4 80 @ 4 31. Bar silver, 64 1/2. Silver certificates, 60 1/2. Mexican dollars, 45 1/2. Foreign bonds firm. Railroad bonds irregular. Government bonds steady.

Attention centered on the bank statement on the stock exchange to-day. But the very heavy decline in the cash reserves of the banks seemed to have little effect on speculative sentiment, beyond a flutter amongst the smaller class of room traders, who offered prices down after the statement appeared. The large speculators, who have been buying the market during the week, seemed content to stand by and watch the effect of the statement on general speculative sentiment. The steadiness of the market under the showing by the banks seems surprising, when it is fully considered that great stress has been laid by the speculators for the rise on the effects of the interior drain of currency, which were expected to dislocate the cash loss. Even yesterday, when the statement to the interior was known to have been large, the maximum estimate of the decline in cash did not reach \$6,000,000. The large payment of Pacific gold drafts late last week was expected to moderate that showing under the system of computation by daily averages, but instead of that the loss of the cash this week has run up to \$5,574,700, and the remaining surplus of the banks is cut in half. The interior drain of cash has been larger than any previous week of the season, and far in excess of any single week in the fall season of last year. The extraordinary cotton movement is undoubtedly responsible for the showing. The quantity of speculators in face of the bank statement must be due to the conviction that the heavy movement of cotton to the interior would insure a continuance of the export movement and in the making of commercial exchange. With the strain on the money market, to harden interest rates, it is argued continued foreign buying of cotton is likely to necessitate shipments of gold to this country, probably the coming week. On the other hand, London must meet an installment on the khaki loan under the coming week and on the following Monday a 25 per cent installment on the British 2 1/2 per cent bond issue, of which over one-half, or about \$7,000,000 is due from American subscribers. The requirements thus created upon the London money market and the New York sterling exchange market must be balanced against the supply of cotton bills.

The banks' further advance in the price of stocks can not be attributed to a demand from the short interest in the same degree as that of last week. There has been some covering of short contracts on the rise, and the professional operators, who have the advance well in hand, evidently hope to dislodge the long standing short interest, which has persisted in the stock market. The theory that the business reaction will counteract and warrant further shrinkage of prices, the bull party is evidently playing, also, to attract an outside buying movement of the class which nothing but a rapid advance in prices brings into the stock market. The effort has not proved entirely unsuccessful, but the new buying was hardly sufficient to absorb the profit taking by professionals, who sought to reduce their commitments at a moderate advance. The tax and war incidents of the week have been made the most of by the bull leaders, but the loudest protestations are confidence in the ultimate favorable outcome of conditions over which the public at large is still evidently in doubt, especially a revival of business to last year's high level of prosperity.

There has been only a slight increase in bond business, and prices have moved irregularly. United States new 4's declined 1/4 per cent on call since last Saturday.

Breadstuffs and Provisions.

CHICAGO—Wheat to-day closed a shade lower; corn higher; flour unchanged, and provisions 5/12 1/2 lower. October pork advanced 4 1/2.

With Liverpool 1/4 @ 1 1/2 higher, despite the fact that this market the previous session had furnished no motive for such a bulge. The Liverpool gain was said to be based on a report of frost in Argentine. In the northwest there was light, but general rain. The first hour the market was moderate, but later it was dull and neglected. Traders evened up and lack of outside support resulted in a decline in November to 77 1/2 @ 77 1/2. The market steadied because of a fair cash business—200,000 bushels—and November closed a shade down at 77 1/2 @ 77 1/2. Seaboard clearances in wheat and flour were equal to 263,000 bushels. Primary receipts were 77,000 bushels, compared with 88,000 last year. Minneapolis and Duluth reported 573 cars, against 406 last week and 750 a year ago. Local receipts were 207 cars, four of contract grade.

In the corn market there was a fair general trade early, but later the market fell into neglect. The market opened higher in sympathy with wheat and moderate country offerings. The local crowd sold to even up over Sunday, but on the whole was fair outside support the close was steady. November sold at 37 1/2 @ 37 1/2 and closed a shade up at 37 1/2 @ 37 1/2; receipts were 374 cars.

Oats had their usual contracted experience. Local receipts 374 cars. Shipments were 246,000 bushels from the seaboard. November sold between 22 1/2 @ 22 1/2 and 22 1/2 @ 22 1/2, and closed unchanged at 22 1/2 @ 22 1/2. The local supply of which has been cornered, again furnished the incident in provisions, although the trade was quiet enough. October opened at \$14 25 and sold at \$17 00, at which it closed \$2 50 over yesterday.

In later futures selling by packers, caused some reduction in prices. January pork sold between \$11 92 and \$11 80 and closed 12 1/2 @ 12 1/2. January lard between \$7 00 and \$6 92 1/2, closing 5 1/2 @ 5 1/2 and January ribs between \$6 37 1/2 and \$6 30 @ 6 32, with the close 5 1/2 @ 6 32 1/2. Estimated receipts Monday: The leading futures ranged as follows:
