## WILL SECURE SEVERAL BIG INDUSTRIES.

The Board of Trade General Committee is Negotiating With Several Big Concerns.

## BOILER CONCERN NEGOTIATING

For the Location of Its Plant Here, And the Deal Will Likely be Closed Soon.

Although the newly organized board of trade is not yet fairly on its feet, the general committee to which was delegated the matters of incorporating the body and selecting a secretary, is working vigorously and will probably have landed two or three industries for the city before the meeting of November 2, called yesterday by the incorporators for the purpose of electing officers and adopting constitution and by-laws.

The general committee is in correspondence with several concerns that have become interested in the advantages of Wheeling as an industrial centre. The negotiations are in such shape that particulars cannot be published at this time.

Another concern which is all but landed, says Mr. Albert M. Schenk, of the general committee, is the water tube boiler making firm of Borden & Co. This firm recently put in boilers in the new Stone & Thomas building, and became interested in Wheeling as a location for their plant at that time. At present the firm has its boilers made in shops at Massillon and Pittsburgh, but is desirous of having its own plant. Mr. Schenk said yesterday afternoon that the chances were very flattering that the firm would come to Wheeling.

Both the Wheeling and Bellaire boards of trade are looking into the Sheffield crucible steel concern, which is said to have optioned a site on the river near Wheeling, but so far nothing definite has been learned.

## THE RAILROADS.

### B. & O. Reaching Out.

The story of the race of the Baltimore & Ohio and Pennsylvania people to secure right of way through portions of Beaver county and Columbiana county has aroused much interest, and it now appears that the Baltimore & Ohio has the lead. Last week Harry Freese, the civil engineer of Canton, O., who was at the head of the Canton & East Liverpool railway project, which was on some years ago, went over the proposed route of that road with the Baltimore & Ohio surveyors, and it is now stated that the rights of way secured by him were turned over to the Baltimore & Ohio officials. If this is true, a right of way is now secured from Canton to a point below Sprucevale.

It is known that the Baltimore & Ohio people have purchased rights through and in the vicinity of Fredericktown, and that they will be able to get the line through to the Ohio river on the west side of the Little Beaver. It is said to be assured. The line to Canton would be a large saving of distance from Pittsburgh, as the Baltimore & Ohio now has to reach the interior of Ohio from Pennsylvania by the way of Wheeling and Bellaire. If the Baltimore & Ohio line goes through, on the route now proposed, it will cross the Ohio on a bridge at Smith's Ferry. A branch will be run down the north side of the river, but just how far is not known.

### Accidents to Trainmen.

It is interesting, as a matter of comparison, to note that the profession of railroading, so far as it concerns trainmen, is four times as dangerous as that of the soldier, even in war times. During the year ending June 30, 1900, more than 5,100 employes, out of a total of over 227,000, were killed or injured by the railroads, while during the same period only 1,640, out of 53,600 in the Philippines, suffered in like manner. In fact, it is stated that the casualties on the railroads, in the United States exceeded the total number of persons killed and wounded in the Philippines and South Africa, Americans, Filipinos, British and Boers included.

TURTLE SOUP, Lunch and Concert at McCormick's, to-night.

DRUMS, Fifes, Bugles and Drum Major Banners at lowest prices at F. W. BAUMER CO.'S.

WE have two shop-worn Upright Pianos which we will offer this week at great bargains. F. W. BAUMER CO.

**Dyeing, Cleaning and Repairing.**  
Do not forget your winter wraps. Should they need cleaning or dyeing, take them to the old established firm of F. Striff & Son, where they can be made to look equal to new at a very small cost. Any kind of repairing done, such as binding, reining, new velvet collars, and, in fact, what repairing is wanted on them. Don't wait until cold weather is here, but take them now, as they can be done on short notice, to F. STRIFF & SON, 119 Market Street, Wheeling, W. Va.

DON'T fail to see the Nightingale Guitars and Mandolins at F. W. BAUMER CO.'S.

SPECIAL prices on Fall Suits and Overcoatings.  
C. W. SEABRIGHT'S SON.

**Announcement.**  
Full and complete line of Fall Suits, etc., just received, at JOS. WINESDORFFER'S, 2253 Market Street.

## SOCIETY.

Active preparations are being made by the ways and means committee of the Rabbi Wise Personal Aid Guild to make their charity what a success. The members of the committee are: Chairman, Miss Marie Heyman; Misses Millie Stein, Blanche Speyer, Bertie Wolf and Cora Gutman. The whist will be given Thursday evening at the Mercantile club rooms on Main street at 8 o'clock. Refreshments will be served during the entire evening. Misses Ruth Wolf, Carrie Baer and Elsie Gundling will have charge of the home made candy booth, while the dining room will be presided over by Misses Blanche Speyer, Cora Gutman, Hattie Reed, Frieda Jacobs, Janet Kraft and Hattie Emsheimer.

A musicale will be given under the auspices of the Chancel Guild of St. Matthew's P. E. church, at the rectory 1410 Chapline street, on Thursday evening, at 8 o'clock. The members and friends of the church are cordially invited to attend, and to make a liberal silver offering for the benefit of the guild's work.

## REV. G. E. FISHER CALLED

To the Pastorate of West Alexander Presbyterian Church.

The West Alexander Presbyterian congregation, formerly Rev. Dr. Lester's church, called a pastor at a congregational meeting held in the church yesterday at 2 p. m. The vote was as follows:

Rev. G. E. Fisher, of Fairview, W. Va., 119  
Rev. Wm. M. Hudson, Ph. D., of Car-macks, Pa., 88  
Rev. J. R. Houck, of Hookstown, Pa., 8  
Total vote, 215  
Rev. Mr. Fisher's election was made unanimous. The salary of the new pastor is to be the same as paid Dr. Lester, \$1,100 and parsonage.

## SHOWED THE MINISTER

And Got Him in Line.

"In a minister's family in Los Angeles, where I was visiting some time ago, the wife complained of serious indigestion and dyspepsia. She admitted that she used coffee and said she more than half believed that was the trouble. I told her that I knew it was the trouble, for I had gone through with the experience myself and had only been cured when I left off coffee and took up Postum Food Coffee."  
"She said she had tried the Postum, both for herself and her husband, but they did not like it. With her permission, I made Postum next morning myself, and boiled it full fifteen minutes after the real boiling of the pot began. Then when it was served, it was a rich, deep brown color and had the true flavor of and food value that every Postum maker knows. It is all folly to talk about trying to make Postum with one or two minutes' steeping."  
"You can't get something good for nothing. It must be boiled, boiled, boiled, and to keep it from boiling over, use small lump of butter, perhaps twice the size of a pea. That morning the minister and his wife liked Postum so well that their whole lives were changed on the question of diet and they abandoned coffee at once and for all time."

"Now after a hard day's work, they are comforted, refreshed, and rested by a cup of well-made Postum for supper. They are both enthusiastic in its praise. The wife has entirely recovered from her dyspepsia. I will not go into the details of my own case, except to say that I was a desperate sufferer with dyspepsia and discovered by leaving off coffee that coffee was the cause of it. I quickly got well when I took up Postum Food Coffee. I earnestly hope many more coffee drinkers may get their eyes open." Name and address given by Postum Cereal Co., Ltd., Battle Creek, Mich.

TURTLE SOUP, Lunch and Concert at McCormick's, to-night.

PURITAN GAS RANGES.

PURITAN GAS RANGES.

Gas ranges are supplanting coal in most up-to-date kitchens. At the strike of a match you can boil or broil, bake or fry, roast or toast, heat water for the entire house with a PURITAN GAS RANGE.

It will do all that any coal range can do, and do it quicker and cheaper. No dirt. Occupies small space. Closed oven—no fumes from burning gas. Bakes perfectly. Call and examine them.

## IN THE OIL FIELDS.

Two miles west of Blacksville, in Monongalia county, West Virginia, the South Penn Oil Company has another good producer on the east side of the development near the state line. The well is a test on the S. P. Thomas farm and when drilled into the sand began to flow at the rate of 20 barrels an hour. In the Sand Fork district, in Lewis county, the South Penn Oil Company has drilled its test well on the T. R. Reynolds farm into the Gordon sand and has a show for a good producer better than 100 barrels a day. This location is 2,000 feet southwest of their No. 1 Cox, and nearer the Copley gusher than any that has been drilled on the east side.

In the northeast extension of the Wolf Summit field and the farthest in advance in that direction than any previous well completed, No. 3 on the D. F. Huggerty farm is in and good for 60 barrels a day. In the Wallace district, in the same county, the South Penn Oil Company has completed No. 4 on the J. B. Whiteman farm, located 1,800 feet southwest of No. 1 and has a 10 barrel pumper. No. 6 on the same farm has been completed and is good for 30 barrels a day.

In the Stout district, Doddridge county, M. Murphy has drilled his No. 16 on the Porter Maxwell farm on Lick run, into the Big Injun sand, and has a strong gasser. It is to be drilled to the Gordon when the gas pressure subsides.

Northeast of and adjoining the Garner farm, east of Proctor, Wetzel county, the South Penn Oil Company has drilled in its test well on the Rachel Siffled farm and has a strong gasser in the Gordon sand, but no oil.

On Rich Wood run, in the same county, the South Penn Oil Company has drilled in No. 7 on the Michael Bailey farm and has a show for a 50 barrel producer.

In the Pinegrove district the same company has completed its No. 2 on the M. A. Miller farm and has a 50 barrel pumper. The test well on the T. H. Alley farm has been drilled into the stray above the Gordon and is a gasser. It will be drilled deeper.

In the Bristoria field in Greene county, the South Penn Oil Company has drilled its test on the Abner Jones farm through all sands and has a duster. The same company's No. 3 on the Oecha Eddy farm is holding up at 720 barrels a day.

On the Ohio side, in the Chester Hill development, in Morgan county, Hochstetter & Foreman have drilled in their No. 7 on the J. G. Hoon farm and have a 10 barrel pumper. The Ku-Wan-Ne Oil Company has completed its No. 7 on the J. S. Henry farm and has a producer of the same size. Vanlaw & Lane have completed their No. 17 on the Vanlaw farm and have a 20 barrel pumper, and the Hummard Oil Company's No. 6, George Myers, is good for 10 barrels a day.

In the Moore Ridge Keener sand development in Monroe county, the Ann Oil Company has completed its No. 5 on the P. C. Moffett farm and has a show for a 20 barrel pumper. The same company's No. 2 on the R. A. Moore farm is in the sand showing for the same size.

O. F. Schonblem has drilled in his No. 6 on the P. C. Moffett farm and has a show for a good producer, 100 barrels a day or better.

In the Goverston pool, in Harrison county, R. G. Gillispe has completed and shot No. 18 on the E. A. McKean farm and has a 10 barrel pumper.
