

CENTURY GREETING

To Aid the Red Cross Founded by Miss Clara Barton.

CROWNED HEADS OF EUROPE

And Worldwide Celebrities Will Speak Memorably—Many Thousand Watch Meetings Expected to Raise Permanent Sustaining Fund. Everyone Invited to Participate.

NEW YORK, Nov. 14.—The parting of the centuries on the night of the 31st of the coming December will have a celebration of world-wide import and interest in this country under the auspices of The American National Red Cross.

The specially organized Twentieth Century Department of the Red Cross, is now preparing to hold watch meetings, as far as practicable, in every city, town and village of the United States.

Celebrities Write Messages. These "Greetings" will be an unique and epochal feature. Not only the rulers of the prominent nations of the world, but the leading celebrities of every land—Tolstol, Joseph Chamberlain, Dreyfus, Zola, Kruger, Sir Edwin Arnold, Hall Caine, Anthony Hope, Lord Roberts and more than fifty others, making a total of about one hundred, have written special messages for the Red Cross, on the progress of the nineteenth century and the promise of the twentieth century.

Such a grouping of crystallized thought from the master minds of all the earth on a subject of such universal interest was never before made. The contributions pledged to the service of the American Red Cross branch will form a most inspiring and impressive memorial. So important and significant are these "Greetings" that the originals are to be preserved for the nation in the Congressional library at Washington.

Sealed Packet Opened. At every Red Cross watch meeting in city or village throughout the land there will be opened simultaneously a sealed packet containing these "Greetings" from the Old World to the New on the close of a century so unprecedented in achievement and the coming of another so transcendent in promise.

In the noble memorial address by Miss Barton to Congress some twelve years ago, she recalled the fact that probably no sign or figure in the secular world is sacred to so many eyes as the Red Cross of Geneva. It is the insignia of a humanity that knows no foe. In the fiercest conflict of arms it passes unchallenged on its mission of mercy. Its international organization is founded on the welcome and authorization of the united governments of the civilized world. Its chief directors abroad are men of the foremost standing, and the crowned heads of Europe are its patrons. It is eminently natural and fitting that it should be the medium for bearing messages of cheer and fraternity that will inspire and delight all America in these great watch meetings.

Object to Raise Funds. The object of these meetings is to raise funds for the American National Red Cross, and to signalize the dawning of another century by giving world wide prominence to that fraternity between nations which tends to ameliorate the horrors of war.

The Red Cross in other countries has been endowed by various means, but in the United States it has worked from one national emergency to another without an endowment or sustaining fund, and it is believed that, at the dawning of a new century, the people of the United States will gladly gather together in mass meetings to watch the old century out and the new century in, and at the same time to aid in the national and international work which has for its watchword "Humanity."

The American National Red Cross has, for the first time, consented to give the public an opportunity to contribute to a permanent sustaining fund for this broadest of charities.

The Fund Essential. It is not necessary to enlarge to American readers on the history and work of Miss Clara Barton and The American National Red Cross, nor as to what she and the society have done for the soldiers of the regular and volunteer armies of this and other countries. With the provision of such a fund as is proposed, the occurrence of any great calamity, such as recently visited the city of Galveston, would find in a position to offer that most valuable of all assistance—first relief.

It is expected that some adequate provision may be made for such a sustaining fund through the agency of the watch meetings and the subscriptions for the sealed packet of "Greetings" which will be delivered to every meeting in the country at a very moderate charge.

By arrangement with the Red Cross provision may be made also for the special financial benefit of any local church organization or any other meritorious association.

A Village Blacksmith Saved His Little Son's Life.

Mr. H. H. Black, the well known village blacksmith at Grahamsville, Sullivan Co., N. Y., says: "Our little son, five years old, has always been subject to croup, and so had have many times that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear, we have found that the dreaded croup is cured before it gets settled." There is no danger in giving this remedy, for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by druggists.

A Great Nerve Medicine.

Celery King cleanses the system and builds it up. It makes the blood pure. It beautifies the complexion. It cures constipation and liver disorders. It cures headache and most other aches.

Celery King cures Nerve, Stomach, Liver and Kidney diseases.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

NEW YORK, Nov. 14.—Money on call steady at 2 1/2% per cent; last loan 3 per cent. Prime mercantile paper 4 1/2% to 5% per cent. Sterling exchange steady, with actual business in bankers' bills at \$4 84/100 for demand and at \$4 80% for 60 days; posted rates \$4 81% and \$4 85%. Commercial bills \$4 80% to \$4 82%. Silver certificates 6 1/4% to 6 1/2%. Bar silver 64 1/2c. Mexican dollars \$4 80c. Government bonds irregular. State bonds inactive. Railroad bonds irregular.

The striking fact about to-day's stock market was the decreased volume of trading. Yesterday's reaction was checked and quite an imposing show of strength was made afterwards, but there was no renewal of the inordinate buying demand which carried prices up with a rush all through last week. The market in fact dropped back into an affair of ordinary importance, business continuing on a large scale compared with the normal, but the movement of prices obviously depending on artificial stimulants. Yesterday's sharp decline induced some selling orders from outside sources this morning, but the powerful support by the pools who are still operating for an advance checked the decline and secured control of the market almost immediately. There was some small buying for London account but it was not a potent factor in the market. It is probable also that there was some buying from speculative interests, which have been watching for a reaction ever since the election. This morning, however, the market was not so much influenced by the comparatively slight decline at Liverpool in the face of the 1 1/2% slump here yesterday. The market held for only a moment, however. Long wheat was dumped into the pit, while the bearish feeling was encouraged by a further decline at Liverpool, a slump at Antwerp equal to 1 1/4c and Minneapolis reports claiming two-thirds of the flour mills there had been closed. Later, the small clearances 101,000 bushels in wheat and flour at the seaboard, caused further alarm among holders.

December slumped to 72 1/2c where the market steadied on profit taking by shorts and rallied to 72c. This support ceasing the market again dropped. December dropped to 72 1/2c and closed weak, 1/2c under yesterday at 72 1/2c. The seaboard report twenty-one loads taken for export. Primary receipts aggregated 631,000 bushels compared with 876,000 bushels last year. Minneapolis and Duluth reported 291 cars against 661 a year ago. Local receipts were 110 cars, seven of contract grade.

Corn exhibited a moderate degree of activity and entire independence of the wheat weakness save at the outset of trading. Business was small in volume and the strength was due to a scarcity of offerings rather than to any great demand. The small stocks and continued light country offerings despite the excellent weather for moving crops were the factors in sustaining prices. Receipts were 333 cars. December sold between 35 1/2c to 35 3/4c and 36c, closing 1/2c higher at 35 3/4c. The cash demand was good but high lake freights interfered with the consummation of many deals.

Oats were dull and bare of features, but prices were steady with corn. Receipts were 52 cars. December sold between 21 1/2c to 22c and closed a shade lower at 22c. Provisions were easier early on the unexpectedly heavy run of hogs and lower prices at the stock yards. Receipts were 11,600 head more than had been estimated. Later, early sellers, joined by packing interests caused a good rally. Their buying was influenced largely by a good cash demand. January pork sold between \$11 40 and \$11 60 and closed 2 1/2c higher at \$11 50; January lard sold between \$6 72 1/2 and \$6 82 1/2, closing 5c better at \$6 82 1/2; and January ribs between \$6 65 and \$6 17 1/2 with the close 2 1/2c up at \$6 15. Estimated receipts to-morrow: Wheat 60 cars; corn 320 cars; oats 140 cars; hogs 40,000 head.

The leading futures ranged as follows:

Table with columns: Articles, Open, High, Low, Close. Includes Wheat, Corn, Oats, Mess Pork, Lard, Short Ribs, etc.

Cash quotations were as follows:

Table with columns: Item, Price. Includes Flour, Wheat, Corn, Oats, etc.

Breadstuffs and Provisions.

CHICAGO—Wheat declined to-day on weak cables, small clearances and flour reports December closing 1/2c under yesterday. Corn closed 1/2c higher and oats a shade lower. Provisions at the close were 2 1/2c improved.

The heavy wheat liquidation of yesterday was continued to-day with few interruptions. With a show of steadiness, December opened 1/4c to 1/2c to a shade higher, at 73 1/2c to 73c on covering by shorts who were influenced by the comparatively slight decline at Liverpool in the face of the 1 1/2% slump here yesterday. The market held for only a moment, however. Long wheat was dumped into the pit, while the bearish feeling was encouraged by a further decline at Liverpool, a slump at Antwerp equal to 1 1/4c and Minneapolis reports claiming two-thirds of the flour mills there had been closed. Later, the small clearances 101,000 bushels in wheat and flour at the seaboard, caused further alarm among holders.

December slumped to 72 1/2c where the market steadied on profit taking by shorts and rallied to 72c. This support ceasing the market again dropped. December dropped to 72 1/2c and closed weak, 1/2c under yesterday at 72 1/2c. The seaboard report twenty-one loads taken for export. Primary receipts aggregated 631,000 bushels compared with 876,000 bushels last year. Minneapolis and Duluth reported 291 cars against 661 a year ago. Local receipts were 110 cars, seven of contract grade.

Corn exhibited a moderate degree of activity and entire independence of the wheat weakness save at the outset of trading. Business was small in volume and the strength was due to a scarcity of offerings rather than to any great demand. The small stocks and continued light country offerings despite the excellent weather for moving crops were the factors in sustaining prices. Receipts were 333 cars. December sold between 35 1/2c to 35 3/4c and 36c, closing 1/2c higher at 35 3/4c. The cash demand was good but high lake freights interfered with the consummation of many deals.

Oats were dull and bare of features, but prices were steady with corn. Receipts were 52 cars. December sold between 21 1/2c to 22c and closed a shade lower at 22c.

Provisions were easier early on the unexpectedly heavy run of hogs and lower prices at the stock yards. Receipts were 11,600 head more than had been estimated.
