BEST HELL HATH NO FURY LIKE A NIG-GER SCORNED."-There is a certain ebo-shin gentleman of the race of Ham, who does the knife-shining on the steamer Woodside, and whose name might he "Norville, on the Grampian hills," but in this country he is called Jeremiah. This gentleman has a wife On Monday evening last, the colored population had a fundango at St. Clairsville, and Jeremiah, like the donkey "old in story," having music in his ears and dancing in his heels, concluded to attend. His charcoal better half, not being of the gay and flaunting style, and Jerry, desiring to create a sensation, and being, withal, of an inconstant disposition, engaged a ous specimen of African architecture tion of the public. found it out, and with her, to be "once in doubt," was "once to be resolved." She and inquired for the objects of her search, but found that they had retired at an early hour in the evening to an obscure part of the town, the exact locality of which no body could, or would indicate. Mrs. Jeremiah went to bed like a horse, with her shoes on, and courted balmy slumber to weigh her eyelids down in forgetfulness,

"not poppy, nor mandragora, Nor all the drowsy syrups of the world, Could have medicined her to that sweet sleep, Which she ow'dst yesterday." She arose next morning in no way soft-

ened, but firmly resolved if there were "poison, fire or suffocating streams" she'd not endure it. Going down street in a highly inflamed condition, Mrs. Jeremiah saw her Jerry and his guilty inamorata coming up, arm in arm, the latter with a boquet. Mrs. Jeremiah gazed once and being satisfied that her white eyes were not deceiving her, threw her bonnet aside. pitched into the gay young colored female, and in less time than it would take the Island Foundry blast furnace to singe a cat, divested her of all her clothing, even to the nether garments, and tearing them into tatters danced a hornpipe upon them in savage joy. Jerry took to his protruding heels and going up the Main street jumped into his buggy and started rapidly for Wheeling. As he passed by Mrs. Jerry she started after him, but Jerry not desiring to have his days of grace abreviated abruptly, laid whip. Mrs. Jerry sped after him on the high road like a bonnetless black witch on the wings of the wind, and thus all disappeared out of the town.

Mrs. Jerry gave out before Jerry's horse and consequently both herself and the horse walked home. The scene created quite a ripple of excitement upon the usually quiet and placid stream of St. Clairsville society.

ARE WE GOING TO HAVE A FOURTH or July?"-The glorious Fourth is almost upon us again, and we have as yet heard very little about it. The question is, "Are try cousins" in Wheeling as not on that day. We do not believe in leaving a city as pleasant as ours to find fun or expend drum, beat the fuzzy guzzy, wake the tonjon, stir up the people, and arrange a programme for the glorious Fourth. Seideltz the man who is not willing to indulge in a "cheap spree" in honor of American Inde pendence at least once a year, deserves to be disfranchised of American cittzenship. And the ladies-the mothers and sisters. and the children want an opportunity to Hostetter's Stomach Bitters: allow the accumulated patriotism of twelve months to "ventilate." Appropos of ladies, if our male citizens do not see proper ladies will; and we believe they can do it in a more handsome and creditable style

BOTHORNED FROOS -We yesterday saw at the store of T. Sweeney & Son, four curious looking things called horned frogs. They are a rare curiosity and although there is nothing decidedly plsasant about them, they are not cold and slimy like our own frags. They were presented to Mrs.
Thomas Sweeney, during a recent visit to Calescan and the control of the c Galveston, Texas, by a Dr. Nagle, of that city, and can be seen at the store above named, for a few days. These frogs will live for six and seven months without eating anything at all, and only need to be occasionally supplied with a little water. Mention is made of these frogs and other Texan reptiles, elsewhere in this morning's Paper. Mrs. Sweeney, on the visit alluded to, picked up a specimen of what is called the Texas shell, a rare and curious article, built by a certain kind of fish. It looks

From Washington.

Reported for the Daily Intelligencer

Washington, June 5.-The Japanese princes, accompanied by their principal officers and the General Commission, pro-ceeded to the executive mansion to-day, to take leave of the President. The latter received them in the blue room, in company with Gen. Cass and several other gentlemen. The interview was cordial and of comparatively long continuance .-The President among other things informed them that he had selected for the Conmission, several of the most gallant officers of our navy, who in peace were most kind, but in war we depend upon them for our defence. He trusted, however, they would never be required to operate against Japan. The distinguished visitors, through their interpreters, expressed their high ap-preciation of the President's address, as in a former occasion alluded to the bandsome reception with which they have met, and of the many kind attentions bestowed on them. The President presented to each of the Princes a large gold medal, bearing his likeness and a suitable inscription, struck at the Philadelphia mint and also a number of beautifully bound illustrated American books. These were received with evident satisfaction. At parting the hand shaking was mutually cordial and the interview throughout, was of a grati-

fying and pleasant character.

There seems to be but little, if any doubt that the House bill for the admission of Kansas will pass the Senate, whether with or without amendments, is uncertain. Senator Bigler to-day declared that he would vote for the measure with-

out unalification. The two Houses having disagreed on the question of restoring the mail service, a committee of conference has been apcointed, consisting of Senators Pearce Yulee and Cameron, and Representatives

Colfax, Washburn, of Me., and Crawford. The President has signed the bill which increases the pay of navy officers about 25 per cent.

The Postmaster General has answered he call concerning Mr. Fowler's defalcation, and makes some extraordinary reveations. It appears that his accounts were never legally settled during the whole term of the present Administration, but were adjusted by a ficticious system, in apparent violation of the letter and spirit of the law. The accounts are settled But three months elapsed usually before any quarter is closed up. Weekly returns are made to the finance bureau of the department, showing the actual deposits, against which drafts may be made. But it has been the practice in the Auditor's Office, in adjusting Mr. Fowler's accounts in the last three years. when a balance was found against him at the end of a quarter, instead of requiring it to be paid or reporting it to the Post Master General, as the law contemplates to credit him for the current returns of the ensuing quarter made to the finance office, thus enabling him to use the receipts of

Since the House amended the Pacific Telegraph bill by throwing the construction open to the lowest bidder, it has been discovered that a certain gigantic monopoly intends, if the Senate concur in this mendment, to bid so low as to prevent any other party from procuring the contract at a living rate, thus securing the entire control of telegraphing from the Atlantic to the Pacific and increasing the power of the monopoly alluded to, to a still more dangerous extent than now.

and concealing a defalcation throughout.

The select Pacific Railroad Committee held a meeting at the Capitol this evening Sixteen members were present. Messrs. Hamilton, of Texas, Davis, of Md., Rice, or Massachusetts, Farnsworth, of Ills., and Blair, of Penna., were absent. After some liscussion, relative to amendments, a motion to amend the bill originally agreed ipon by the Committee for a central route by inserting the Southern Texas, El Paso and San Diego route, was carried by a vote of 6 to 5. The question then recurred ipon reporting the bill to the House as amended. Upon that a question arose as o whether the friends of an extreme northern route could be allowed to move an amendment in the House. To this question Mr. Curtis, the Chairman, rewe with it.

We fully warrant the Machine to work just as represented, or no sale, and now offer them with all the above guarantee at \$30 and freight, on 6 mos. credit, or \$75 cash; which is \$35 less than any other machine now in the field. question Mr. Curtis, the Chairman, responded that he should not allow any more amendments but should call the previous question, thus shutting off all numendments and debate. This settled the question of the Southern road. The vote on reporting the bill to the House, as on reporting the bill to the House, as amended, was then taken up and defeated by a vote of 5 ayes to 6 nays-Col. Al-drich changing his vote for the reasons given. Adjourned to meet again to-day.

# CONGRESSIONAL.

WASHINGTON, June 6.

House.—The House, after a brief dis-cussion, tabled the Senate bill providing for the settlement of private land claims in Florida, Arkansas, Louisiana and Mismi.

On motion of Mr. Sherman the House postponed till the second Tuesday of Decemner next, Mr. Fenton's bill for the relief of the officers and soldiers of the revolutionary army, and the widows and children of those who died in the service. Mr. Rust called up the joint resolution giving the assent of Congress to such acts the Legislatures of Louisiana, Texas and Arkansas have or may pass, for the removal of the Red River raft by levying tolls on the boats which may navigate said iver, to defray the expenses. The resolution was passed by 84 against

The House resumed consideration of the contested election case.
SENATE.—Mr. Latham presented the petition of merchants of Philadelphia and Boston, for an overland mail. Laid on

Mr. Bayard, from the Judicial Commitee, reported a bill to regulate the mileage of members of Congress. Mr. Cameron presented a petition from citizens of Pittsburgh, in favor of a change

Mr. Crittenden moved to take up the Houmas land bill. Carried by 27 to 23. Mr. Bayard resumed his remarks in opposition to the bill.

NEW YORK, June 6 .- The U. S. brig Perry, Lieut. Filchman, arrived to-day from Montevido, April 7. She left the frigate Congress, brig Bainbridge and steamer Pulaski at Montevido; all well.— The brig Dolphin was daily expected, from cruising. The Perry brought home from St. Catharines, four of the crew of the whaling bark Lypee, of Stonningham, charged with mutiny. The brig Dolphin was daily expected, from

CONCORD, N. H., June 6.-The House was organized to-day by the election of the Republican nominees made in the cau-cus last night. Resolutions were adopted in the House authorizing the appointment of a committee to consider what legislation is necessary to prevent the spread of the cattle disease.

NEW YORK, June 6 .- The steamer Persia took out 240 passengers and \$1,030,000 in specie.

PORT SARNIA, C. W., June 6.—The stea-mer Arctic, of the Cleveland, Detroit and Lake Superior line, was wrecked on Hurm Island, Lake Superior, in a fog on the 29th ult. She is a total loss; no lives lost.

New York, June 6 .- Hicks, the oyster sloop pirate, has made a full confession.— He admits killing Capt. Burr and the two Watts boys, and gives the details of the circumstances attending the murders. He also states that he was one of the mutineers of the bark Saladin. He is dictating a story of his life and adventures to be

MEXICAN MUSTANG LINIMENT Its wonderful effects and consequent popularityerhaps no article in the history of the Materia Medicz, ever acquired the same Patronage, was subjected to the same number of severe and different tests, and met with so few failures as the Mustang Liniment.

It has justly been styled a Panacea for all external Wounds, Cuts, Swellings, Sprains, Bruises, or Erup tiohs on Man or Beast. It is so far a medicine of sur prising virtue, that Physicians are compelled to prescribe it, and from some remarkable cures of Chronic and Distorted Rheumatic cases it has naturally at tracted much attention from the first scientific minds of the age. No family can afford to be without a pottle of the Mustang Liniment in the house. Be

eere of imitations. The genuine is sold by respectable dealers in all arts of the world.
