From New York. NEW YORK, August 10.—A serious in-surrection of the negroes at Timbrero Guano Island, has caused no little excitement among the merchants and scafaring people interested in the Guano business both in Baltimore and Petersburg, Va. The excitement had obtained such a pitch that Capt. Dell, of the Baltimore bark, Warren and Capt. Burrell, of the schooner Emma Tuttle, of New Haven, had to interfere and imprison some of the insurrectionists.

The negroes on the Island are bired at

beginning.

Terms of Sale.—One-tenth of the purchase money to be paid in cash, and the remainder in one, two, three and four years, in equal intainments, bearing interest from date, the purchaser giving negotiable notes with good security for same, and the title retained as further security, until the whole amount is used.

Description of Thomas Johnston. Jun. and wife, under a deed of trust from them, dated March 2, 1855, I will sell at the same time and place, the following stocks—Twenty shares in the Wheeling and Belmont Bridge Company, and Thirteen shares in the Fire and Marine lusurance Company of Wheeling. foreman desiring to make a visit home, the case did not come under the Ashburwho exercised a rigid discipline over the negroes. They not liking this formed a S2,600, was delivered to the Cincinnati July as Snow was stooping on the ground one of the negroes, who had been specially chosen for the purpose, hurled a tremendous lump of guano at his head crushing in his skull and leaving him nearly lifeless. Considerable commotion Cisterus; (frouting for Cellar Floors, and all purposes for which Cement is used.

On the new Baltimore City Water Works, in the construction Conduit, this Cement was used cachisticly. It is also intensively used on the masonry and tunels of the Baltimore and obio, and N. W. Va. Railroads. &c., &c.

It has recently been most thoroughly tested upon the New Water Works, in Baltimore, where it has been used in all situations which required work of the most perfect character. In the construction of the brick conduit, which is said to be the best piece of work of the kind in the country, over 100,000 bushels of this Cement were used, and both engineers and superintendents concur in saying that while if has no equal for use in wet places and where it is necessary to Build over 5 Tracks Springs, it has this advantage over all other quick setting cements that when used in dry places and exposed to the sun, it is not liable to crack.

Cement will be furnished in Barrels or Bags, in followed upon this, among the whites, and the negro who had committed the atroplaced on the bark Warren, of Baltimore, to be taken to the United States for trial. The arrest created the wildest excitement among the negroes, who rose in masse and took possession of the Island. The white employees, who only numbered 12, were compelled to submit to the revolt through fear of the 200 half savage negroes. The negroes then threatened to sink the Warran and the schooner Emma Tuttle, unless their comrade, the murderer, was given up. be furnished in Barrels or Bogs, in Fifty Irish hands from Richmond, fully armed, were expected to arrive soon, when the negroes would be put down.

Snow was not dead on the 25th of July, but it was impossible for him to recover. WE ARH NOW RECEIVING AND KEEP constantly on hand a supply of the following Liquors, to which we desire to call the attention of the trade generally. We flatter ourselves that we can give entire satisfaction to all who may favor us with their orders. The negroes had refused all offers to return to work. They held possession of the Island and were doing just as they pleased. Nobody dared to say anything to mem and they declared they would never yield till their comrade was given up to them by the Capt. of the Warren. The schooner Emma Tuttle has arrived
