In the rebel Senate the "great victory" was announced, and the following resolu-

Johnston, not fully understood by the public. I will, there-fore, by the indulgence of the House, read this letter, that they may see the facts in the light by which his course was shaped previous and subsequent to the fall of Donelson. These facts triumphantly vindicate his fame as a true patriot and an able and skillful military leader. This letter, written under most trying circumstances, shows that no trace of passion was visible in the awful severity of the pure, brave and undaunted spirit in which it originated. It is a simple recital of tacts in justification of his actions, before which the calumnies of the ignorant or magnasimity in the midst of unjust complaint, and of courage and fortitude amid disaster. His fame rises brighter from the severe ordeal through which he has passed, and his name will live green and fresh forever in the hearts of a grateful people. UNOFFICIAL LETTER OF GENL. A. S. JOHNSON TO PRESIDENT DAVIS.

DECATUR, Ala., March 18, 1862.

My Dear General:-I received the despatches from Richmond, with your private letter, by Captain Wickliffe, three days since; but the pressure of affairs and the necessity of getting my command across the Tennessee, prevented me from sending you an earlier reply.

I anticipated all that you have told me,

as to the censure which the fail of Fort Donelson drew upon me, and the attacks to which you might be subjected, but it was impossible for me to gather the facts from a detailed report, or to spare time which was required to extricate the remainder of my troops, and save the large accumulation of stores and provisions after that disheartening disaster.
I transmitted the reports of Generals

Floyd and Pillow without examining or annalyzing the facts, and scarce the time to read them.

When about to assume command of this

Department, the Government charged me with the duty of deciding the question of occupying Bowling Green, Kentucky, which involved not only military but political consideration. At the time of my arrival at Nashville, the action of the Legislature of Kentucky had put an end to the latter by sanctioning the formation of companies menacing Tennessee, by assuming the cause of the Government at Washington, and by abandoning the neutrality it pro-(essed, and in consequence of their action the eccupation of Bowling Green became necessary as an act of self defence, at least

in the first step.

About the middle of September Gen.
Buckner advanced with a small force of about 4,000 men, which was increased by the 15th of October to 12,000, and though accessions of force were received, it continued at about the same strength until the end of November, the measles and other diseases keeping down the effective force. The enemy's force was then reported to the War Department 50,000, and an interest of General Beauregard (I constitute of the forces of the forces of General Beauregard (I constitute of the forces of the f ed to the War Department advance was impossible.

Believing it to be of the greatest mo-ment to protect the campaign, as the dearth of cotton might bring aid from abroad and discourage the North, and to gain time to strengthen myself by new troops from Tennessee and other States. magnified my forces to the enemy, but made known my true strength to the Deexpressed bis surprise at the smallness of my force, and was impressed with the danger of my position. The force at Donelson is stated in Gen Pillow's report at much less, and I do not doubt the correctness of his statement, for the force at Bowling Green, which I supposed to be 14,000 effective men (the medical report showing only a little over 500 sick in the hospital), was diminished more than 5,000 by those who were unable to stand the fatigue of a march, and made my force on reaching Nashville less than 10,000 men. I enclose medical director's

report.

We presume he will make good these bridge-burnings, by tearing up the railroad track for miles, and either twisting or destroying the rails. At least fifty miles of the state of the sta favorable. At midnight on the 15th I received news of a glorious victory—at dawn of a defeat.

I have thus recurred to the motives by

from the conviction that they have not been withdrawn from me in adversity. All the reports requisite for a full, official
