OUR WEEKLY.

On and after this date the price of the Weekly Intelligencer will be one dollar and filty cents per year, instead of one dollar as heretofore.

THANKSGIVING .- Our worthy Governor has set this day apart as a day of Thanksgiving. Printers have as little to he thankful for as any other class of men, but in order to afford them an opportunity to humiliate themselves, no work will be done in the Intelligencer office to-day, and no paper will be issued to-morrow.

THE COAL DIGGERS' STRIKE .- There is no precedent neither is there any state of circumstances to justify the present condition of things at the Coal banks. We concede to the Coal diggers the same necessity for an advance in prices which all branches of industry these times claim for themselves. It would be very unreasonable to expect men to pay an advance for so many of the necessaries of life, and still remain stationary in their own earnings. No one expects this, and no one demands it. But there is a point beyond which any advance is extortion and imposition, and at which the public sense of justice indigmostly revolts. We conceive that the demands of the Coal diggers are now at this point. They demand three cents per bushel for digging coal-all kinds of coal that is coal they used to get only a half a cent for, and coal that they used to get one and a half and one and three quarters diggers, and then coal was raised by the pathy. haulers from five to six cents per businel .-On the first of November another advance of a quarter was made by the diggers, and coal again rasied to six and a half. Now comes their demand for another raise, not for a quarter, but a half cent, and coal threatens to go up to eight cents per

Against this demand the coal merchants have protested. They claim that it is unreasonable and oppressive on consumers, and they hold out against it. They say, "where is this thing to stop ? Already three advances have taken place in a year and two of them very lately. Who knows any new notion the diggers may take,-Next week they may advance to four cents, Who knows. And the next to five and so on without end.

It is computed, by those who ought to average digger three dollars per day, which is eighteen dollars per week, and seventytwo dollars per month. Now this is a rise which certainly proportions any increase in the price of living, and more. It ought to be satisfactory. No one class of citizens has a right to oppress another class simply because they may have a temporary monopoly in their hands. Such things always react against those who practise them. And they will react in this case .-As equally the friend of the diggers and all other classes of citizens, we would earnestly counsel them to look at the justice of this matter. They must see that they are oppressing the community. But few people can afford to pay eight cents per bushel for coal. It will bear disastrously on the poor, and very hardly on every body. We hope they will abate their demands within reasonable bounds. Certainly, in the long run, it will not be less for their own interest than that of their consumers, to do so.

BOT SILVER WARE AND JEWETRY Te in hardly necessary to call attention to the prominent advertisement of our enter- over the Baltimore and Ohio Railroad as prising triends J. T. Scott & Co., in another column. Their establishment glitters with an auriferous display of fine Silver Ware and splendid Jewelry of every concelvable description. Those in want of Mellor, who resides near St. Clairsville, on anything in the Jewelry line are sure to be Sunday night last. The horse was worth quantity, and price.

Hoos,-The hog market hereabouts is very quiet. Some three or four citizens are killing a few but nobody is entering largely into the business. The price paid ranges from \$3 25 to \$3 50, the latter figare for good fat hogs. The hogs this season are generally small and thin, and not in much demand.

THE RIVER .- The river is still falling lowly but there is likely to be quite nough water to answer all practical puroses until the ice comes. There was more ter freight upon the landing yesterday than we tave seen for a year and more consequent activity among shippers and boatmen.

The Science arrived yesterday morning with a heavy cargo of salt which she discharged. She was plentifully supplied with other freight. The T. J. Patton also arrived from below, and the Shenango passed down ..

The steamer Woodside which has been lying idle for some months is now being repaired, and we understand she is to enter the Cincinnati trade. Capt. Booth has recently disposed of his interest in the Woodside to Messrs. Davis and McDonald.

The R. B. Hamilton, Captain Bradley, which used to run as a packet between this place and Cincinnati, was seized some time ago and turned into a gunboat. After service of forty-one days, she was released, and the Captain has since put her on the docks and made a new boat out of her.

The Pittsburg Gazette of yesterday bas the following:

the following:

The weather yesterday was cloudy and pleasant, with indications favorable for more rain. Unless there is another rise in the Alleghany soon, the stream will again be so low as to impede navigation by steamers. A despatch received from Oil City, yesterday, reported but thirty three inches at that point and falling.

Business continues quite brisk at the wharf, with fair amount of freight offering, wharf, with iair amount of freight obering, and moderate receipts. There is considerable freight here awaiting shipment for St. Louis, and not a single boat in portloading for that point. This, together with the fact that the river is still falling, will have a tendency to stiffen the rates of freight, and we should not be astonished if anoth-

er advance was obtained. The arrivals include the Market Boy, from Shippingport; Patwin, from Marietta; Cottage No. 2, from Cincinnati, and Belle No. 3 and Echo, from Franklin. The Cot-No. 3 and Echo, from Franklin. The Cottage had sixteen hundred and ten bbls. of flour, which goes to the West Indies. The Patwin had a cargo of oil barrels, and the Belle had eight hundred, and Echo four hundred barrels of Crude oil. The Market Boy had a load of miscellaneous freight including a quantity of grain. cluding a quantity of grain.

The St. Louis Democrat has something about an old acquaintance:

The Sunny South, which has just come off the docks, came to the landing yester-day and commenced receiving for Cincinnati. She will leave for the Ohio river to-day. The Sunny South has been lying in this port for some time.

A SAD SIGHT .-- Last evening about for. They now wish to count all sorts to- six o'clock a woman, pale and emaciated gether and get three cents per bushel for and evidently intoxicated, crept into the all that comes from their picks. There are hall of a house at the lower end of John two classes of banks-called the horse street, during the absence of the occupants banks and the cart banks-in which differ- and laid down. Shortly afterwards the ent prices have been paid. In both a half man of the bouse came home and finding a cent per bushel was paid for digging the woman in his hall caught her by the refuse coal, or slack as it is called. In the shoulders and dragged her into the street, horse banks one and a half cents were paid pitching her roughly from him. The wofor raked coal, and in the cart banks one man raised up in a sitting position and and three quarters. Previous to October gathered her tattered shawl about her with 1851 these were the prices that were paid, out uttering a word. As she sat there in and coal was furnished by the haulers to the cold shuddering, her pale, death like the citizens at five cents. In that month face peering vacantly from out her faded the diggers advanced their prices a quarter | bonnet, and unable torise to her feet she preof a cent on raked coal, in each of the banks sented a sad sight indeed. Dozens of peonamed. And still coal was furnished at ple passed by but no one offered her the five cents. In September of this year an- slightest assistance though her pale, pleadother advance of a quarter was made by the ling face might have moved a stone to sym

MOR PRISONERS .- Some eight or ten rebel prisoners, with a Lieut, Wolner, head arrived last evening from Cumberland and were placed in the Athenaeum. They were captured about four miles from Winchester on the Romney road last Monday. There was a mounted picket of about forty at the point indicated. A body of the Lincoln Cavalry, from New Creek made a charge upon them but allescaned except those of whom we are speaking. One of them wrote a letter to his what the next will be?" AFTERNOON DISPATCHES.

Times special correspondent at Falmouth, dated this morning, show clearly that the rebels, instead of evacuating Fredericksburg, are preparing vigorously to dispute the passage of our troops across the river. Instead of their garrison, contemptibly small a week ago, leaving the city, it has been reinforced by the divisions under Longstreet and D. H. Hill, variously esti-mated at from 25,000 to 75,000 men, and formidable batteries have been planted for

formidable batteries have been planted for their protection. Without some brilliant stroke of strategy on our part, a severe engagement will be necessary before dislodging the enemy.

There is seemingly no room for reasonable doubt that Jackson has abannoned Northern Virginia, baving taken up his line of march for Richmond on Saturday morning, preceded by Hampton's Legion. He encamped the same night at Salem, and spent a portion of yesterday at Warrenton.

White's guerrillas, about 300 men, were at Leesburg on Sunday, and are left for at Leesburg on Sunday, and are left for marauding purposes.

From Burnside's Army. Acquia Cheek, Va., Nov. 25.—There is title news from the Front to-day that can

be forwarded for publication. The two armies still maintain their relative positions. Doubtless the rebels are much mistified at the delay in the threatened destruction of Fredericksburg. A few shots were fired across the river by our artillery this morning, but there was no regular or continu-

ning, out there was no regular or continuous cannonading.

Railroad communication has been opened from here to Potomac Creek, and the bridge across that creek is being constructed as rapidly as possible. The great heighth of that structere, some 90 feet from the water, renders its reconstruction more difficult than that of ordinary bridges. It will be in available condition in a day or two more. The use of the road even to the bridge affords great relief to the transportations. bridge affords great relief to the transportation service.

> The Guerrilla Raid in Maryland. Washington, Nov. 26 — The parties making the raid in Poolesville, Md., yesterday morning, consisted of about 50 Marylanders, principally belonging to Montgomery county, in which that village is located, who crossed the Potomac not long ago to avoid the draft, and took temporary service with the rebels, joining White's guer-rillas. They doubtless designed to cap-ture valuable government military proper-ty recently in that vicinity, and of the re-moval of which they were ignorant.
