Lord Saulsbury's reply to the main communication of Secretary Evarts concerning the Hali-fax fisheries award is published. The substance of the letter is that the Halifax award in favor of Great Britain was final; that Great Britain would decline to review it whether it were favorable to her or not, and that she would not have gone into the Halifax tribunal of arbitration if she had contemplated that a unanimous award was necessary, as was argued by Secretary Evarts.

The odors from the sitchen suggested tempting viands, and the invitation was accepted. Captain Kleppin, a special favorite of Count Grippenberg, sat at the head of the table. which rendered the process of emptying the dish necessarily lengthy. "Now for a cigar," remarked the host, handing a mild brand to the newsgatherer. He took it and wondered and wondered again when the whole of the company lighted their cigarettes or cigars and began puffing away vigorously, taking their lights from a half dozen lamps (minus globes) which decorated the table. After the smoking came fish, then another smoke and white wines, then poultry and dark wines and smoke, then roasts and champagne and a smoke again. Then came puddings, and with them small-sized cups of black harge of 266 miners, created a sensation in and with them small-sized cups of black coffee, and after the coffee, cigarettes

Presently ice cream came outice cream of a quality which would do which, as the presiding officer proudly remarked, "was made on our ship by our own cook, and with ice of our own manufacture.' The ice cream dishes were removed, and the company smoked gain. After a while came tea, blacker by far than the coffee, in glasses, with a

Words of Wisdom. The king is the least independent man in his own dominions; the beggar the

"He who says 'jump!' doesn't tear is mouth, but he who jumps breaks his legs," is a proverb of the Caucasus. There is many a wounded heart without a contrite spirit. The ice may be broken into a thousand pieces; it is ice still; but expose it to the beams of the sun of righteousness and then it will melt. An infant, a prattling child, dying in

its cradle, will live again in the better thoughts of those who loved it; and plays its part through them, in the redeeming actions of the world, though its body be burnt to ashes, or drowned in the deepest sea. Hope is the ruddy morning ray of joy, recollection is its golden tinge; but the latter is wont to sink amid the

the bright blue day, which the former promises, breaks indeed, but in another world and with another sun. Some feelings are untranslatable; no anguage has yet been found for them.
