Miss Bert Fennell, of Walballa, is with her sister, Mrs. Powers. Miss Fennell will remain during the winter in our community. The catterpiller has made its appearance among the farms of our community. The farmers have been reading of this pestilence in the lower section of this state, never dreaming of nor dreading its approach. But all this time the caterpillar had its eyes on the fine grasses and other delicacles around Ninety Six, and are now enjoying themselves and feasting on the fat of this Cambridge land. Our notice was called to a beautiful grass field on the edge of which these destroyers were busily engaged. Not one blade of grass was left and slowly but surely the little spot no larger than a man's hand was spreading and in a inconcleveable short time what was once a field of beautiful hay, will be a barren land. Hon. Walter L. Miller was in town during the past week.
