A Girl's Idea of Boys.
At a recent public school examination for girls this composition was handed in by a girl of twelve: "The boy is not an animal, yet they can be heard to a considerable distance. When a boy hollers he opens his mouth like frogs, but girls hold their tongues till they are spoken to, and they answer respectfully, and tell just how it was.

"A boy thinks himself clever because he can wade where the water is deep. When the boy grows up he is called a husband, and he stops wading and stays out nights, but the grown-up girl is a widow and keeps house."—New York Journal.

A CRY FOR HELP.

Result of a Prompt Reply.—Two Letters from Mrs. Watson, Published by Special Permission.—For Women's Eyes Only.

March 15, 1899.

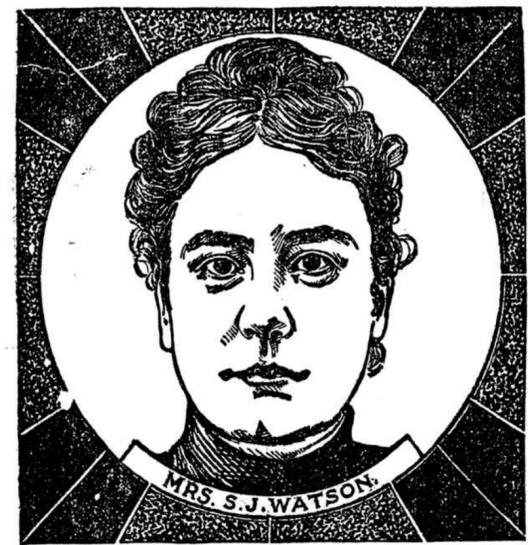

To MRS. PINKHAM, LYNN, MASS.:

"DEAR MADAM:—I am suffering from inflammation of the ovaries and womb, and have been for eighteen months. I have a continual pain and soreness in my back and side. I am only free from pain when lying down, or sitting in an easy chair. When I stand I suffer with severe pain in my side and back. I believe my troubles were caused by over work and lifting some years ago.

"Life is a drag to me, and I sometimes feel like giving up ever being a well woman; have become careless and unconcerned about everything. I am in bed now. I have had several doctors, but they did me but little good.

"Lydia E. Pinkham's Vegetable Compound has been recommended to me by a friend, and I have made up my mind to give it a fair trial.

"I write this letter with the hope of hearing from you in regard to my case."—MRS. S. J. WATSON, HAMPTON, VA.

November 27, 1899.
"DEAR MRS. PINKHAM:—I feel it my duty to acknowledge to you the benefit that your advice and Lydia E. Pinkham's Vegetable Compound have done for me.

"I had been suffering with female troubles for some time, could walk but a short distance, had terrible bearing down pains in lower part of my bowels, backache, and pain in ovary. I used your medicine for four months and was so much better that I could walk three times the distance that I could before.

"I am to-day in better health than I have been for more than two years; and I know it is all due to Lydia E. Pinkham's Vegetable Compound.

"I recommend your advice and medicine to all women who suffer."—MRS. S. J. WATSON, HAMPTON, VA.

This is positive proof that Mrs. Pinkham is more competent to advise sick women than any other person. Write her. It costs you nothing.

Andrew's Presentation.

The will of Explorer Andrew, which he stipulated should not be opened until the end of 1900, was read early in the present year, in the presence of a few relatives. It was enclosed in a box with some other smaller packages, tightly sealed and marked, "To be burned unread."

In addition to these there were a series of letters from scientists encouraging the expedition, and one from his friend Fourville, warning him against the proposed trip. This was indorsed: "Possibly he is right, but it is now too late to withdraw."

The will is very short. The opening paragraph includes the following: "My presentment tells me that this terrible journey will signify my death."

PETITION FROM FILIPINOS

The Federalists Urge the Establishment of Civil Government.

A PLEA FOR IMMEDIATE ACTION

The Party in Favor of United States Sovereignty Gaining Strength Rapidly—President Should Be Empowered to Establish Purely Civil Rule at Once—Submission of Hitherto Irreconcilable

Washington, D. C.—When the Senate convened Monday the presiding officer, Mr. Frye, called attention to the following cablegram, which was read:

"Manila, P. I.
"President of the Senate and Speaker of the House of Representatives, Washington:

"Accession to Federal party by thousands in all parts of archipelago. Attitude of hitherto irreconcilable press and general public opinion show that labors of party to bring peace will soon be crowned with success.

"Until now political parties have attempted formation on plans more or less questioning American sovereignty. Our platform makes main plank sovereignty of United States with liberty to each citizen to pursue peacefully his political ideas. Hour of peace has sounded.

"On our platform are grouped many Filipinos of hitherto irreconcilable ideas, but some more obstinate decline to join, for though willing to accept sovereignty of United States, the prospect of indefinite continuance of military government makes them distrust purposes of the United States and delays their submission.

"Adjournment of present Congress without giving President authority to establish purely civil government with usual powers and postponement for at least a year of such government until new Congress will certainly confirm this distrust. Directory of the Federal party believes conferring such authority on President would inspire confidence, hasten acceptance of sovereignty of Union and the coming of peace.

"Directory therefore prays both houses of Congress to authorize President McKinley to establish civil government whenever he believes it opportune.

"Frank H. Bourns, Dr. Pardo De Tavoro, Florentino Torres, Ambrosio Flores, Jose Nar, Tomas Del Rosario, C. S. Arellano, Directory of Federal Party."

NEELY TAKEN TO CUBA FOR TRIAL

Glad of It, He Says, and Confident of Acquittal.

New York City.—Charles F. W. Neely, the former Cuban postal official who was ordered extradited to Cuba, for trial on charges of embezzlement, was taken from Ludlow Street Jail and placed on board a steamer for Cuba.

He said: "I am glad I am going back to Cuba, because I can readily explain everything away and will be acquitted."

Neely was arrested in May of last year on the criminal charge of embezzling \$26,000 from the receipts of the Cuban Postoffice Department, he having been previously Chief of the Bureau of Finances. He was released on furnishing \$20,000 cash bail, but was almost immediately arrested a second time on an order issued by Judge Lacombe, of the United States Circuit Court, in a civil suit brought by the Government for the recovery of \$45,375.

KING TAKES KAISER'S TONE.

External Messages From Edward VII. to Army and Navy.

London.—The King, in his message to the navy, which was ordered to be read upon ships, thanks the navy for its renowned services during his mother's reign. The message concludes with an expression of confident reliance upon the unflinching loyalty of the navy to him. Similar sentiments are promulgated in an army order.

It is suggested by some observers that the King in these communications is taking somewhat the tone of Emperor William.

May Be Extra Session of Congress. Opinion in Washington is divided as to the probability of an extra session of Congress, but it is agreed that one must be called if legislation for the Philippines is to be undertaken.

TALK OF EXTRA SESSION

Senators Think Legislation is Needed For the Philippines.

Action of the Supreme Court Indicates a Decision on the Status of New Territory Before March 4.

Washington, D. C.—The extra session talk continues in Senatorial circles, and is largely due to the opinion held by the Senate Committee on Philippines, of which Senator Lodge is Chairman, that it is imperative that legislation for the islands be enacted at once. Senator Lodge openly declares that other legislation besides the Spooner resolution will be necessary.

While several of the Senators are declaring that an extra session is now practically certain, the President, who alone can call such a session, is not discussing the matter. A large number of Senators and Representatives saw the President Tuesday, but he did not mention an extra session to any of them.

The President has announced that if an extra session becomes necessary he will cancel all engagements, even his trip to California in the spring, to remain here while Congress meets. Members of the House are almost unanimous in the opinion that there is no need or probability of an extra session.

The decision of the Supreme Court in the insular constitutional cases will have a great deal to do with the extra session question, and the Supreme Court has taken significant action. It announced that on Friday it would adjourn until February 11, meet that day to render decisions and then adjourn until February 25, thus taking a recess of nearly four weeks in the busiest season.

This is taken to mean that the court is going to consider the constitutional cases during this recess, so as to give a decision before March 4.

The purpose of the extra session will be to pass a bill containing some general provisions for the islands.

SNOW, RAIN, SUNSHINE

Many Kinds of Weather Experienced Throughout the Country.

HEAVY SNOWSTORM IN THE EAST

Reports From All Sections Indicate a Remarkable Variety of Weather Conditions—Balmey Breezes on the Pacific Slope and Wintry Blasts on the Atlantic Coast—Season's Record Broken

New York City.—Enough snow fell in this city Wednesday to break the winter's record and to bring joy to the heart of the small boy. The snowfall amounted to two and a half inches. The nakes were of fair size and heavy, and the streets soon were covered with a coating of white. The temperature kept about thirty degrees above zero. In the principal thoroughfares the downfall merely impeded traffic and delayed pedestrians. The storm, which had made its way up the coast from the Southern States, descended upon the metropolis with sufficient severity to give promise of real winter weather. Special dispatches to the Tribune from leading cities indicate that the snowstorm which struck New York City prevailed generally throughout the Middle Atlantic and Central States. In the Rocky Mountains snow has fallen also. Rain and threatening conditions were reported from Florida and the Gulf of Mexico in Arizona and the Pacific Coast cities there is fine winter weather.

Maryland Swept by a Snowstorm. Baltimore, Md.—A northeasterly snowstorm swept over Maryland about six inches of snow fell in this city. It was the first heavy snowfall of the winter. In the country districts the fall was much heavier, and in the western part of the State the drifts have made the roads impassable.

Low Temperature in Maine. Bangor, Me.—The weather here for the last two months has been changeable, warm and cold waves alternating with little moderate temperature. The coldest weather thus far in the winter came a few days since, when the mercury fell to 35 degrees below zero here, and ranged from 30 to 47 degrees in the northern section of the State. That is the lowest record in ten years.

Heavy Snowstorm in Indiana. Indianapolis, Ind.—The central and northern portions of Indiana were visited by a heavy snowstorm and this was followed by a decided fall in the temperature.

A Mild Season in South Carolina. Columbia, S. C.—Rain has fallen in this section with a minimum temperature of 32 and a maximum of 49 degrees. The winter season has been less than half an inch and occurred on two days. Citrus fruits have suffered little, the product having been shipped before frost appeared.

Snow and Rain in New Mexico. Santa Fe, N. M.—After twenty-five days of sunshine without a single cloud in a blue sky an intermittent rain storm lasting six days has just passed over this section, followed by a clear sky and rapidly falling temperature and increasing wind.

Range Stock Suffering in Colorado. Colorado Springs, Col.—Colorado Springs and the entire eastern slope of the Rocky Mountains were visited by a snowfall varying from three inches on the plains to a foot or more in the mountains. The mountain railroads are embarrassed by drifts, and the exposed range stock is suffering.

Pathetic Stories of Investors Who Had Faith in the Association. New York City.—Some pathetic stories of financial straits are being told by shareholders in the now insolvent Anglo-American Savings and Loan Association, which incidentally throws some light on the association's methods.

In 1885 a resident of Washington borrowed \$2500 from the association, but at the same time \$2500 of its stock. On his loan he paid five per cent. interest, and in addition five per cent. of what the company called "pre-miums." He also paid on the installment plan for his stock. Altogether he has paid in \$2700, yet he still owes the entire \$2500 that he borrowed, and has paid for only \$1100 of his stock. This shareholder complains further that, though he was to be repaid five per cent. interest on his stock, he never received a dollar of it.

The Secretary of a Moravian church in Pennsylvania recently wrote to the receivers here, and asked that all communications relating to the shares held by his father or his sister should be sent to him. He asked this, he explained, because he had kept his family in ignorance of the calamity to the association, and had paid their interest out of his own pocket rather than risk the shock to his father, who was blind and an invalid, and had invested all his savings in the association.

Five Children in Eleven Months. Three children were born to Mrs. John Garvin, of Avoca, Penn., making five within eleven months. The triplets died within three hours. Last February twins were born to Mrs. Garvin, and they lived several months.

GET THE FULL PENALTY

Three of Paterson's Murderers Get Thirty Years Each.

FIFTEEN YEAR TERM FOR KERR

Judge Dixon Imposes the Severe Sentence Under the Law on McAllister, Campbell, Death and Kerr For Complicity in Death of Miss Bosscheiter—Severe Arraignment of the Criminals.

Paterson, N. J.—Walter McAllister, William A. Death and Andrew J. Campbell, convicted of murder in the second degree for the killing of Jennie Bosscheiter, the pretty mill girl, were sentenced by Judge Dixon to thirty years each with hard labor in Trenton State prison.

George J. Kerr, who pleaded "non vult," practically a plea of guilty, was sentenced to fifteen years at hard labor. The sentences were the limit of the law.

When Justice Dixon took his seat on the bench at 10 o'clock, the father, mother and sister of Jennie Bosscheiter were already seated in the courtroom. Around them were as many people as the confined space would hold.

At five minutes after 10 McAllister, Campbell and Death were brought in and taken to the seats they had occupied during their trial. Kerr came for leniency were made by counsel, but the Justice swept them all aside. He saw no extenuating circumstances in their offenses.

McAllister, Campbell and Death were then told to stand up. McAllister and Campbell looked extremely pale, and Death had the appearance of suffering greatly under the strain.

Judge Dixon addressing the three prisoners, said: "You stand convicted of murder in the second degree. A. J. CAMPBELL, you were brought in and taken to the seats they had occupied during their trial. Kerr came for leniency were made by counsel, but the Justice swept them all aside. He saw no extenuating circumstances in their offenses.

McAllister, Campbell and Death were then told to stand up. McAllister and Campbell looked extremely pale, and Death had the appearance of suffering greatly under the strain.
