Triumphs of Modern Surgery. Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they may be removed entirely; bones are splined; pipes like the pipes of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third the time required by the old treatment.

Are Your Lungs Weak? Does the cough, left by the 'grippe'—or the cold contracted during the winter, still hang on? Rydale's Elixir will cure your cough and heal your weak lungs. It kills the germs that cause chronic throat and lung disease and helps nature restore the weakened organs to health. Trial size 25c. Family size 50c. C. A. Millard.

The Good Old Summer Time! In the good old summer time, when bicycles throng the thoroughfares, and farm animals and roadsters are all kept busy, accidents to man and beast are of frequent occurrence. Eitell's Emulsified Oil Liniment is the most serviceable accident and emergency liniment in use. It relieves quickly and heals speedily cuts, contusions, bruises, sprains, etc. You get one-half pint for 25c; and you get your money back if not satisfied. C. A. Millard.

A Great Ruler. One of the greatest of rulers is the liver. It governs the human organism. When the liver is out of order the whole system becomes diseased. Keep your liver healthy by using Rydale's Liver Tablets. They cure all liver troubles. They cure constipation. Your money back if they do not give satisfaction. C. A. Millard.

If time is money; if information is wanted at once; if promptness secures business—STAY AT HOME AND TELEPHONE. HOW TO BE HEALTHY. Rules to be Observed in the Matter of Diet and Exercise. Postively avoid a habitual diet composed too exclusively of one kind of food, such as meats or cereals. Such a diet leads inevitably to disease. Many cases of sickness, palpitations, scurvy, skin diseases and headache are directly due to this improper diet. Bear in mind that sugar and all sugared or sirupy substances, unless sparingly used, are the most injurious of the foods in ordinary use. They render digestion imperfect and by their seductive taste are liable to induce overeating. Eat sparingly of fruit, preserves, veal, pork, young lamb, kid, ham, bacon, sugar, vinegar, spices, fats, oils, fried foods, pastries, cakes, rich desserts, strong gravies, hot freshly baked bread and foods which form adherent pastes. Avoid cold drinks at mealtime, except in hot days. Avoid uncomfortably hot drinks. Avoid eating at irregular hours. Never overrule your appetite, which is the best index of the amount of food you need, except in the course of diseases that require a special diet. Satisfy your appetite, not your gluttony; satisfy your thirst, not your craving. Salt your food sufficiently, because salt is an aid to digestion, but not more than needed to suit the taste. Eat less rapidly and chew your food more. The stomach wants only well chewed food. The teeth were made for that special purpose. If they are poor or missing, seek the dentist's aid. Avoid violent exercise and severe mental exertion just after meal, but a moderate exercise, as walking, will aid digestion. Wash your hands with soap and water before each meal, even if they do not appear unclean. Brush your teeth inside and outside at least once a day, and rinse your mouth after each meal. When your stomach is out of order, give it a rest by fasting half a day or by taking only a little fluid food. Remember that the wholesome meats are beef, mutton and poultry and that beef and mutton are most easily digested and wholesome when broiled, roasted or stewed, not fried. Remember that pure water is the most natural and wholesome beverage. A glass of pure water every morning before breakfast will go far toward preventing sickness and extending life toward the century mark. How to Make Turkey Shortcake. Make a biscuit dough and bake it in a shallow square tin, as for fruit shortcake. Take one cupful of cold turkey, minced; heat with one cupful of gravy and season with one-half teaspoonful of salt and one saltspoonful of pepper. When the crust is done, split and put the meat between the layers, pour the sauce over it and garnish with parsley. How to Make Potato Nests. Lattice potatoes are an excellent accompaniment to the fish course and after a few trial efforts are easily prepared. Wash and pare the potatoes and let them stand for a time in ice water. Cut them into very narrow strips, throwing them into ice water as they are cut. Then drain and thoroughly dry enough to pack into a strainer which is about the size of a teacup and force into the middle of the potatoes a smaller strainer. Fry this in deep, very hot fat. When a golden brown, remove the two strainers and stand the potato nest on soft brown paper. Repeat the process until there is a nest for each person. Before serving place them on a tin in the oven to heat. Fill the nests with fish a la reine and serve on a bed of dress. How to Make Tooth Powder. Take half an ounce each of powdered orris root and prepared chalk and add to them one teaspoonful of bicarbonate of soda. Mix thoroughly. The soda acts as an antiseptic and neutralizes the acids of the mouth, while the chalk and orris are gritty enough to remove any particles of food which may cling to the teeth. How to Treat the Lips. The lips should never be rubbed with strong scents, such as eau de cologne or vinegar or lemon. Friction is also very bad for their well being. Lips may be only a pale pink, but if they are smooth and soft they will look attractive. Rouge is also very bad for the lips. Some women have a stupid way of 'biting the color into their lips.' Not only does this unwise practice make the skin very sensitive, but it also thickens and swells the lips till they lose all charm. How to Make Raw Beef Tea. This is ordered in some illnesses. Take one-quarter pound of lean beef, shred it finely and place in a jar with one-quarter pint of cold water. Cover it and allow it to stand for two hours. Strain off the liquid and use at once, as it will not keep. It should be served in a colored glass. How to Bake Onions. Peel six large onions, put them in a saucepan and cover with boiling water and let them boil for 15 minutes. Pour off the water and cover them with cold water. Then drain them again when they are cool. Put them in a baking dish or agate pan, sprinkle with salt and pepper, pour over them one cupful of hot milk and add one tablespoonful of butter in small pieces, cover with buttered paper and bake until tender. Serve with roast turkey or chicken. How to Make Cough Cure. Boiled linseed tea made rather thin and sweetened with sugar candy and flavored with lemon juice and rind is excellent for a cough. Boil some black Spanish licorice with it.
