THE STARK VEHICLE COMPANY

Come, See This Strong, Serviceable Farm Wagon

If you will step into our Store

Any day this week, we will show you a farm wagon that comes the nearest to real perfection of anything we ever saw—a wagon built especially for South Carolina trade.

A good many people think

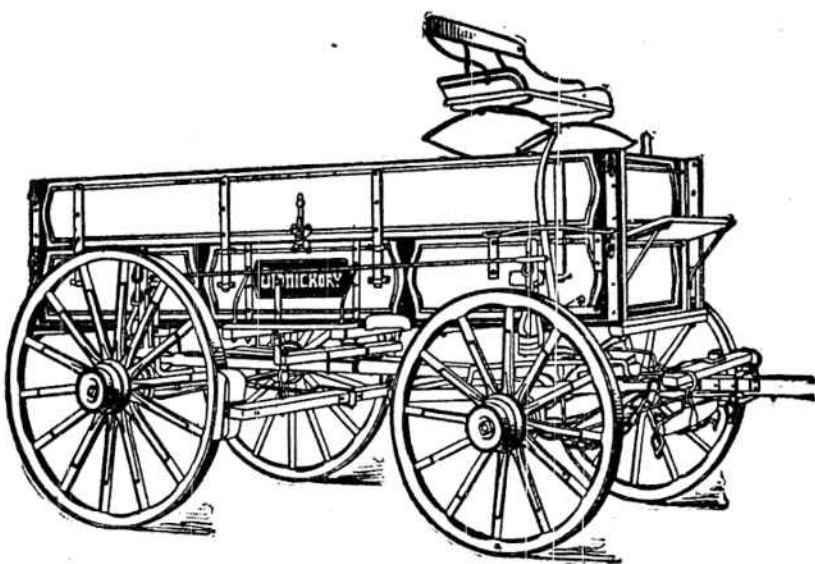

Farm wagons are all very much alike. If you are of that opinion, we should like to show you that there is at least ONE exception to the rule; that there is ONE farm wagon which stands far above all others.

Come in and see this wagon—it comes in two designs, the

“TENNESSEE” AND “OLD HICKORY”

We will go over one of these wagons, part by part, and point out its superiority, even to the smallest detail.

Then—if you like the wagon—if your judgment of its quality accords with ours—we will make you a price, such that it will be to your

interest to buy a “Tennessee” or “Old Hickory.”

Ask us about our wagons. Don't be backward. We are here to show them to you any day. It is our time against yours, if you don't buy. Come in—the very next time you are in town.

100 of these Celebrated Wagons now on Hand

== CALL AND SEE THEM ==

The Stark Vehicle Company,

Next door to The Kerr Furniture Co.
