Long Cane, April 16.—Heavy rains fell in this community on last Thursday night.

The framers now have their land ready for planting, but they will be delayed as the land is too wet at the present. It will be well worth the while if all of the farmers will take time and consider the necessary need of them planting plenty of food stuff.

BUYING A SUIT Should Be Like Buying a Car

You want both of them to look right—to be smart, stylish and absolutely up-to-date. But you look far deeper into the "inners" of a car; you want to know what's "under the hood"—what kind of an engine she has, how she'll perform on hill—what she'll cost in upkeep.

Why not use the same "horse" or rather—"motor" sense in buying a suit? Look into the tailoring which is the "engine" of a suit and keeps it "going." Look into the fabric, which is the "working parts" and if it's right means "low upkeep." Look into the reputation of its manufacturer.

What we don't know about cars would fill a book.

What we do know about clothes fills only two lines—

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.
