

CLEMSON COLLEGE

Agriculture, Chemistry, Engineering, Textiles, Military Training.

NEXT SESSION OPENS SEPTEMBER 11, 1918

Location and Environment.

The College is located in Oconee County at the foot of the Blue Ridge Mountains, on the homestead of John C. Calhoun, and later of his son-in-law, Thos. G. Clemson. The College is over 800 feet above the sea level, and the climate is healthful and invigorating. Temptations to dissipate or to spend money foolishly are reduced to a minimum.

The students are under strict military government and every effort is made to train up young men who will reflect credit on the College and on the State.

Religious Influences

The College contributes to the salary of four resident ministers, who conduct divine services and do pastoral work among the cadets in barracks. There is a flourishing Sunday School and Y. M. C. A. with two salaried Secretaries. A \$75,000 Y. M. C. A. building was completed January, 1916.

Requirements of Admission.

No student will be admitted who is not at least 16 years old at the time of entrance.

An honorable discharge from the last school or college attended is required.

The scholastic requirements are the same as those of the other Colleges in South Carolina. Details are given in College catalogue.

Hazing is forbidden by the laws of the State as well as the laws of the College. No application will be accepted, whether for re-admission or first entrance, unless the applicant has filed pledge of prescribed form not to haze.

Four Year Degree Course.

AGRICULTURE.

Agronomy
Agricultural Education
Animal Industry
Botany
Chemistry
Dairying
Entomology
Horticulture
Soils
Veterinary Science.

ENGINEERING

Civil Engineering
Electrical Engineering
Mechanical Engineering
Textile Engineering
Architecture
Chemical Engineering

CHEMISTRY

Chemistry

The above courses include English, History, Political Economy, Shop work, etc.

Short Course.

ONE YEAR COURSE IN AGRICULTURE

(October 3rd to June 1st)
Requirements; 18 years of age, 3 years farm experience, eight grades in school.

TWO YEAR COURSE IN TEXTILES

Requirements; 18 years of age, one year of mill experience, eight grades in school.

EDUCATION A PATRIOTIC DUTY

In these war times every technically trained man is a national asset. The College as well as other agencies, have a real contribution to make towards the winning of the war. The special interests of institutions must be subordinated to the one purpose now before the nation.

President Wilson has declared that it is the patriotic duty of young men under twenty-one years of age to seek a technical education, and if already in College, to continue and complete their education.

A sufficient number of technically trained men is so essential that the War Department has made the following provisions to encourage college students arriving at draft age before graduation to continue and complete their courses. Immediately upon graduation, such students enter the service in their special lines.

1. Qualified engineering students may enlist in the Engineering Enlisted Reserve Corps and be placed on the inactive list until graduation. At graduation they will have an opportunity to enter an Engineer Officers' Training Camp to try for a Commission, or they enter the Engineers' Corps as a private.

2. Qualified engineering students may enlist in the Naval Reserve, and on graduation may enter the U. S. Navy Steam Engineering School and train for Ensign's Commissions. (Students in the Naval Reserve will likely not be eligible for membership in the R. O. T. C.)

3. Qualified agricultural students in the Senior Class may enlist in the Quartermaster's Reserve Corps to be called to active duty in that branch of the service after graduation.

The Secretary of War has distinctly stated that young men under draft age who have entered upon a technical college education can render the nation the greatest service by being educated first and serving afterwards. Young men sixteen or seventeen years of age can graduate by the time they reach the draft age and be prepared for maximum usefulness in the military establishment.

Engineers and technicians cannot be made over night, and our Government will be seriously embarrassed if young men refuse to begin now the training necessary to keep up the supply of such men both for the needs of the army and for carrying out the war program at home.

After the war the greatest opportunity in history will be presented to men trained in Agriculture, Engineering and other technical lines. If the U. S. is to be a leader in the reconstruction of the world, she must have men trained for the task.

CLEMSON COLLEGE, S. C.**

Award of Scholarships and Free Tuition.

The College maintains 169 four-year scholarships in the Agricultural and Textile Courses, and 51 in the One-Year Agricultural Course (October 3rd to June 1st). Each scholarship is worth \$100 and free tuition.

Scholarship and Entrance examinations are held at the county court houses at 9 A. M., July 12th. Write for full information in regard to the scholarships open to your county next session, and the laws governing their award.

Credit will be given for any examinations passed at the county seat.

The State Board of Charities and Corrections is charged with investigating the financial standing of all applicants for four-year scholarships and free tuition, and reporting their findings to the Board of Trustees of the College. This Board passes up on the matter, accepting as correct the information gathered by the State Board. Appeal from the decision of the Trustees may be made to the State Board of Education.

The College will furnish blanks to all applicants for scholarships and free tuition.

Summer School.

COURSES FOR

Agricultural Teachers

(July 2nd to August 10th)

Corn Club Boys

(July 16th to July 27th)

(July 31st to August 10th)

Rural Preachers

(July 2nd to July 13th)

Cotton Graders

(July 2nd to July 23rd)

County Superintendents

(July 2nd to July 13th)

Poultry Husbandry

(July 16th to July 23rd)

Cost of All Courses

For Room, Board, Water, Light, etc., \$1.00 per day.

No tuition charged.

Military Training.

Clemson College is rated by the War Department as a "Military College." All students are required to wear the uniform and are under military discipline at all times. Military instruction is supervised by regular army officers.

Clemson College has over 800 men in the service, many of them holding high rank. When war was declared, fifty-one of the class of 1917 went to the first officers' training camp, and forty-seven of these won commissions. Since then, the military instruction has been made even more efficient. No patriotic young man can afford to miss the opportunity of combining with a technical education thorough military training.

Clemson College is a member of the Senior Division of the Reserve Officers' Training Corps. All Freshmen, Sophomores and Short Course students are required to take the Basic Course of three hours military instruction per week. Juniors and Seniors may enter the Advanced Course, if physically and otherwise qualified, and if admitted, are required to take additional military instruction.

All students in the basic and Advanced Course receive from the government \$14.00 on their uniforms, and students in the Advanced Course \$9.00 per month in addition for subsistence.

While no obligation rests upon the graduate of the Advanced Course, completion of it gives distinct military advantages and special military opportunities. Membership in the advanced course amounts practically to a two year scholarship furnished by the Federal Government.

"Drive Courses"

For Teachers of Agriculture in Schools. (1 Session.)
For Chemists. (1 Session.)

Give and Gain

Give up coal for your country's need and gain time and money. Also make your housework ever so much easier by using a New Perfection Oil Cook Stove.

You get perfect cooking heat—clean, odorless intense—for baking, broiling, roasting, toasting, simmering or boiling—heat that is regulated as easily and accurately as gas—heat from the hot flame in the long blue chimney that gets all the heat from every drop of kerosene.

3,000,000 New Perfections help to save coal for essential industries. They lighten the work of American women in cool kitchens.

Made in 1-2-3-4 burner sizes, with or without cabinet top and oven.

Charlotte, N. C. Charleston, W. Va.
Charleston, S. C.

NEW PERFECTION OIL COOK STOVES

Ask your dealer about the New Perfection Kerosene Water Heater.

Use Aladdin Security Oil—Always available, inexpensive.

THE AMERICAN'S CREED.

"I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect Union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

"I therefore believe it is my duty to my country to love it, to support its constitution, to obey its laws, to respect its flag and to defend it against all enemies."

HELP IN TWO WAYS.

Anyone who is unable to go to the expense of buying cans to take care of their surplus, can donate it to the Civic Club. It will be gladly received for it will be canned at the expense of the club and sold and the money given to the Red Cross.

THE PUBLIC IS LISTENING.

The reasons why everyone in South Carolina is expected to sign the pledge during the War Savings campaign which is now on, were stated in a statement issued by the War Savings committee, which reads as follows:

"The person who refuses to sign the war savings pledge will go on record as refusing to stand back of our army and navy at a time when the cause of humanity is depending on the strictest efforts of every man and woman in America. Such a person, regardless of his intentions, will find that his loyalty will be questioned, because in refusing to

sign the pledge to save and to economize he will be disobeying the mandate of the President. It is unthinkable, when the welfare and safety of our heroic soldiers and those of our Allies are depending on the support which is expected from those at home, that there is one loyal man or woman who will refuse to sign the W. S. S. pledge.

"The public will listen with scant patience to the person who claims that he cannot afford to sign a pledge or who utters the thoughtless statement that there are too many campaigns. The public will not tolerate these two attitudes. There is no man or woman in South Carolina who cannot invest at least \$4.17, and the great majority can invest considerable more in War Savings Stamps. Each individual will be expected to pledge the maximum amount he or she can save during the year. As far as campaigns are concerned, until the monstrous German power which planned and precipitated the most dreadful war which has ever scourged the earth is shattered, there can not be too many campaigns! Until we have rid the world of the curse of German lust for power, we can expect and must welcome campaign after campaign for the cause of victory.

"And because the W. S. S. campaign is a test of loyalty we know that every person in South Carolina will respond—will proudly enlist in the army of savers which President Wilson has called for—will sign the pledge cheerfully and gladly, with a feeling of deep gratitude that in this way we can partially requite the heroic sacrifices which our fighting men are making."

Major-General Hunter Liggett is formally announced as in command of the First Field Army. At a recent meeting of the House military committee, the information was evinced that General Liggett would command the first army corps when American forces reach that strength

The forces under his command now, not including troops brigaded with the French and British, compose two complete divisions, fully equipped and operating under French corps commanders.

Little Rock, Ark, June 3.—The girls may continue to wear \$90 gowns, \$25 boots and hose that cost more than a pair of shoes did a generation ago, but in this town they will not flirt among the round tables in the soda joints, sipping soft drinks at the expense of soldier boys or loving swains. The State food administration has knocked these good times on the head. The girls must learn that the country is at war. No more, according to the orders of the food administration, shall soft drink stands serve iced tea, sherbet and water ices. An order has also been issued denying manufacturers of soft drinks who have used their 1918 sugar allotment more sugar for the remainder of the year.

Pledge yourself to save to the utmost and to buy a definite amount of War Savings Stamps each month.

The philosophy of the W. S. S. is save, save, save.

They also serve who buy War Savings Stamps—if they save and buy to the utmost of their ability, and buy in time.

Make every day a thrift day and your Government end the war.

Can you refuse to loan your savings when other men give their lives? Buy War Savings Stamps.

The cost of maintaining the British navy last year amounted to \$1,049,396,085.
