IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Back-ache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Most forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain. . . ."

"It has now been two years since I took Cardui, and I am still in good health. . . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

Stewart.

Mr. W. D. Beauford and daughter, Miss Linnie, spent Tuesday in the city with Mr. and Mrs. W. H. Beauford.

This community was grieved to learn of the death of Master Duane Cox. The bereaved family have the sympathy of this community.

We are glad to report that all the cases of the flu in this community are about to be up and at their work again.

We read with much regret of the account of Private Eugene D. Woodward's death in France. But we are indeed glad to learn that Eugene died just as he lived, for his life was always full of sunshine, and he is well known by his noble Christian life he led, and while it is sad indeed, it is a glorious thought to realize that there was no dark clouds of doubt in the pathway for him. The bereaved ones have our sympathy.

Miss Nina Beauford spent Saturday with Mr. and Mrs. L. F. Finley.

TOTTERING THRONES CAN NOT BE REBUILT

Asquith Declares That Changes Taking Place in Europe Spell Collapse of Autocracy.

Glasgow, Nov. 2.—Herbert H. Asquith, former premier, in a speech here tonight alluded to the most striking change taking place in Europe—"the collapse, complete and irreversible of autocracy."

"At the outbreak of the war", said Mr. Asquith, "the greater part of Europe and a large part of Asia, paid allegiance to three emperors. Where are these emperors today? One whom we should remember was our good and faithful ally. He has been deposed and murdered by his people. The Austrian emperor, to all intents and purposes, is a waif, astray. The third, at that time, the most formidable figure of all, now is said to be hovering on the verge of abdication.

"These are thrones, which, whatever may be the terms of peace, can not be rebuilt. We may say with confidence that the war has buried beyond hope of resurrection autocracy and its satellite—militarism."

ON TO BERLIN!

(Manufacturers Record, Baltimore, October 24, 1918.)

By Rev. Wm. H. Hudnut, Pastor First Presbyterian Church, Youngstown, Ohio.

It will cost you dear to continue To fight on till freedom is won; It will take all the manhood that's in you To wipe up the ground with the Hun.

There are many who would pause with half measures, Would halt the offensive half won, Would squander no more of our treasures, Would parley peace terms with the Hun.

Why add to the rolls of the wounded. Why lengthen the lists of the dead When the fair fields of France are now mounded With the graves of our men, who have bled?

But we seek not a peace that is bartered, We're the Wrath of God against Sin, Surrender's the penalty chartered; World Peace must be signed in Berlin.

We've millions more men for the battle, We've billions more gold that we'll pay—Tough of this peace parley prattle, For judgment we fight and we pray.

If Esau and Jacob, who lived some six thousand years ago, were still alive, and if Esau had earned \$10 every day, and had saved it all, he would have \$21,900,000. On the other hand, if Jacob had deposited one dollar at one per cent. interest, compounded every 100 years, he would have today \$576,460,752,303.423,488. Can anyone figure out how much Jacob would have had he purchased one \$5.00 war savings stamp then, which pays interest at the rate of 4 per cent. compounded quarterly

Millers' Certificates Again Authorized

Farmers Who Have Their Own Corn Ground Into Meal or Corn Flour Will Not Be Required to Purchase Wheat Substitutes With Wheat Flour If They Secure Millers' Certificates and Surrender These to Merchants.

Columbia.—Under the rules of the Food Administration now in effect, under which four pounds of wheat flour may be purchased to one pound of substitutes, known as the 80-20 rule—this substituting the 50-50 rule—farmers may purchase flour, in this proportion, upon the surrender to their dealers of millers' certificates. The Food Administration has again authorized the use of millers' certificates, and county food administrators have been notified to this effect by William Elliott, Federal Food Administrator for South Carolina.

The farmer may, for instance, take his corn to the mill and have it ground into either meal or corn flour (not hominy or grits), secure a miller's certificate showing the number of pounds of corn or corn flour ground, take this certificate to the retail dealer in flour, surrender it to him, and buy from the dealer four pounds of wheat flour for each pound of corn flour or corn meal he has had ground, as shown on his certificate, without purchasing additional substitutes with his flour.

The only wheat flour substitutes which retailers may require their customers to accept in buying wheat flour under the rules of the Food Administration at present in effect, are corn flour, corn meal or barley flour. If the farmer has his own corn ground, and agrees to use such substitutes, and has his miller's certificate to show for it, he is not required to buy additional wheat flour substitutes, but the dealer is authorized to sell him, in the proper proportions, on the strength of millers' certificates.

The millers' certificate rule does not, however, permit merchants to sell flour on such certificates which show that the farmer has had his corn ground into hominy or grits.

MAY CHARGE ONLY REASONABLE PROFIT

Food Administration Protects Farmers by Forbidding Dealers in Wheat Mill Feeds to Charge More Than a Fixed Margin of Profit.

Columbia.—Retail dealers of wheat mill feeds, rice polish, rice bran, dried beet pulp and cotton seed products in South Carolina have been notified by the Food Administration that no more than a reasonable advance over the delivered price of any particular feeds sold shall be charged, under Rule 1 of Special License Regulations, No. 25, which became effective October 1.

Under these rules, the Food Administration announces margins in excess of the following schedule in case of mill feeds, rice feeds and dried beet pulp, will be considered excessive. The schedules given are maximum, and do not justify charges in excess of this customarily charged in any particular district or case where the lower charges will insure a reasonable profit.

"1. Where one or more farmers purchase in advance of delivery in full carloads, take delivery at car and pay cash when retail dealer is required to meet sight draft, \$1.00 per ton, plus demurrage, if any.

"2. Where one or more farmers purchase in advance of delivery in full carloads, take delivery at car and pay cash on delivery, \$1.50 per ton plus demurrage, if any.

"3. Where farmer purchases and takes delivery at car and pays for it on delivery in ton lots or more, but less than car lots, \$2.00 per ton.

"4. Where farmer purchases and takes delivery at car and pays for it on delivery in lots less than one ton, \$2.50 per ton.

"5. Sale ex-warehouse in lots of one ton or more, \$4.00 per ton.

"6. Sale ex-warehouse in lots of less than one ton, \$5.00 per ton.

"7. One dollar may be added to the foregoing margins when sale is made on credit, or at dealer's option the legal rate of interest may be charged.

"8. One dollar shall be deducted from the margins prescribed in 5 and 6 when the retailer buys on credit and the jobber's margin is thereby increased \$1.00 per ton."

The above margins will also apply to the sale of cotton seed meal cake and hulls by retail feed dealers, except where different margins have been prescribed by the Food Administrator for the State.

"The United States Food Administration considers that in scales of feeding stuffs at retail the advance on any individual sale should not in any case exceed the purchase price delivered at warehouse door, plus 15 per cent. Where delivery is made to the consumer, reasonable cartage charges may be added. The Food Administration will, therefore, consider any sale of feeding stuffs in excess of this advance as a violation. This margin also applies to the sale of corn, oats, rye, or barley at retail as feed, but not to wheat mill feeds, cotton seed products, rice products, or dried beet pulp, for which special margins are prescribed by the above rule."

TO HOLD MEETING DECEMBER THIRD AND FOURTH

Farmers' National Congress to Gather in Jacksonville, Fla.

Jacksonville, Fla., Nov. 4.—A free trip to St. Augustine, the oldest city in the United States, is among the entertaining features arranged for the Farmers' National Congress, which meets in this city December 3-6 inclusive.

A large number of the Nation's most distinguished men have accepted invitations to participate in the program, and Jacksonville is arranging for a large crowd of visitors. The meeting from the agricultural standpoint is the most important held in this country for many years.

The Florida State Fair, open at the same time, will afford opportunity to see a marvelous exhibit of the state's resources. Special rates on railroads are offered, and many attractions are added to make the trip one of great value and happiness. Special social features are arranged for the women who will attend. It is especially urgent that every Southern State be well represented.

The subscription rate to The Press and Banner is now \$2 per year.

COTTON SEED PRICE STABILIZED IN S. C.

Food Administration Fixes Price at \$72 Per Ton for Car Seed and \$69 Per Ton for Wagon Seed—Basis of These Prices Shown—Strict Observance Will Result in Square Deal to All Concerned.

Columbia.—The price of cotton seed has been stabilized by the Food Administration at \$72 per ton for car seed, and \$69 per ton for wagon seed. The basis of the above prices is as follows: Oil at 17½ cents per pound; meal at \$53 per ton in any quantity; hulls at \$20 per ton; lint at \$0.0467 per pound.

The Food Administration is doing all in its power to increase the price of lint, and if the price of lint can be increased, the difference will be shown in the price of meal.

The strict observance of these prices by all concerned will result in a square deal to all interests, says the Food Administration.

EFFICIENT GINNING AND CLEAN SEED WILL BE INSISTED UPON

Columbia.—The Food Administration expects the prices fixed for ginning in South Carolina to be followed strictly. Ginning prices were fixed recently, as follows: For ginning a bale of 500 pounds of lint cotton or less, \$3.50 per bale. For each additional 100 pounds of lint cotton, at the rate of 70 cents per 100 pounds. When bagging and ties are furnished by ginner, \$1.50 additional. The farmer shall have the privilege of furnishing his own bagging and ties.

Ginners may not charge on weights including bagging and ties, but the prices announced are for net lint cotton. Bagging and ties weigh 25 pounds. Therefore, ginners must not charge in excess of \$3.50 a bale, unless the weight of the bale, including bagging and ties, is more than 525 pounds.

Efficient ginning will be insisted upon and clean seed must be delivered. Violations of these rules should be reported to the County Food Administrator or to the Food Administration at Columbia, and investigation will be made.

For ginning upland long staple cotton, such as is grown in Darlington and Florence counties, an additional charge of \$1.00 per bale is permitted.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just a application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous recipe improved by the addition of other ingredients at a small cost, a ready for use. It is called Wyeth's Sage and Sulphur Compound. This compound is depended upon to bring back the natural color and lustre to your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. The ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.
